

I was going through old files and texts for shit related to mob business and I found this :as going throu

Hey assholes should we add Chris just to start the new year off well. I don't think even George was taken off a group text Tell him I miss his friendship and loyalty.This is HB by the way and here is my New Years resolution: fuck it all.

That was a text between the 3 of us

new years 2017

In the real height of Chris just eviscerating me

And I wrote that and real earnest hope that if I could show forgiveness and understanding for Chris truly being not just a terrible friend but also a terrible human being

George Mesires

Did you and he talk once in 2018?

I was in all the newspapers had taken that document that was filed out of order with the judges decree and gave it tom page 6 and then two days later the story of Hallie and I came out

Then I lost all my business — all of it

And then wov learned that Chris in a conference call with all of us on it had advised Kathleen not to settle for my offer of everything — all of its —p0 all debts paid 0- my entire salary at its highest level ever— and an offer to pay her in perpetuity and pieces of any invesmn its that mint come through— all of it everything and he told us that he devised the plan to go to court to wait until dad was out of office so we would have to commit to more

But I had already offered 3x my highest salary before page six before loosing everything

Chris has spoken to me only 3 times since my brother died- once when I was in Michigan and hallie was there with the kids in June 2015 and I was sober and he and Amy and hallie sat up and drank smoked pot and left me with the kids for 5 hours alone back at ,my house until 3AM

And then when he and Andy came for an intervention- WHEN I WAS FUCKING SOBER- after going to Caron

And then on the phone with you guys when he told us (Andy already knew) what he had done TO ME.

37,000 per month

ANDY look up the highest alimony ever paid in NY

Jin pay for kids for everything

She hAs no debt and she took my e=entire retirement and she took my life insurance policy 10,000,000 and she complains if she has to loan Maisy gas money

I8 kid you not she makes me payt her back if she buys dinner for the girls

Fuck everyone

Omg new put Chris on group text and he asked too be taken off

*And we put him

And Goat I'm sure you'll forward all this to Chris and Amy and Kathleen

Please do you duplicitous fuck

Remember that night goat when you told ne what an entitled cunt my brother was and my dad sucked and that was the first night I met you and you could hardly fucking stand and I fucking walked you home and put you in bed and Beau asked me why I didn't beat the fucking life out of you as I had very other man child who said shit about my dad or brother- and I said "he obviously says it because he loves you and George". Remember every time you had a melt down you came to my fucking house not Kajthleens house not beaus house not Georges or Chris's mine and I would spend hours talking to you and never judging you about Annie or drinking or what your dad did now or how your brother could be so selfish or what was going to happen to high falls or your fucking shitty job in NYC or getting married of having horrible dates of having to move back to Cuse— and some how Andy you can go without having any real relationship with me but you cant with a guy who stopped talking to his closest out loyal friend he will have and has no more,. Same New Years resolution 2 years later Fuck everything

And I'm this angry because I still love you goat no matter what and I still love Chris no matter what and I would still be there for you both no matter what and it pains me that you both know that but cant find it in you hearts to be the friends I need right now. Its impossible for Metro to love the people said I love regardless of what I get in return. I love you goatert you fucking asshole.

It's a good picture.

It's a close up picture.

There is a lot of detail in the picture.

Look at the pretty colors.

There are lots of colors.

Look at the yellow beak.

Storm of the Century- 26 years ago. Beau and I were probably the only two people who were mobile from Florida to Wilmington. That was a hell of a road trip. Time flies.

George Mesires

That's such bullshit.
