## ॐ गं गणपतय नमः

### INTRODUCTION :-

**Gaja Ram Ji** has been actively involved in the field of Astrology for the last 20 years and has gained immense knowledge & expertise in various forms of this Great and Ancient Science.

Being an Astro-Physicist & a keen Astronomer himself, he has the ability to correlate various Principles of Modern Science such as Astronomy, Quantum Physics and others with Vedic Astrology thereby providing scientific reasonings for all aspects along with their respective calculations.

So as a means of giving back to the society & after observing the foul-play that has been happening in the name of Astrology, he has decided to start his classes with the aim to impart this knowledge to as many people as possible so that they can make their lives easier and better.

**Anup Gupta Ji**, a Chartered Accountant by Education and having served various Industries at the C-Level for more than two decades. His last assignment was as the National head of a Multi-National Corporation.

The interest for Occult Sciences in him developed way back in 2007, wherein he started initially started with Books and studies of Palmistry and then gradually developed himself with an indepth knowledge of Numerology (Vedic & Lo-Shu), Vastu Shastra, Vedic Nakshatra based Astrology and a lot more branches of this vast Science.

During the slump time of a global pandemic, he started an endeavour by sharing his knowledge and experience by way of teaching the same selflessly. Inclined towards the Sanatana Dharma, he has also started a Channel on Telegram of Shri Shiv Purana and has many more plans with respect to the Vedas, Puranas and Upanishads in the near future.
