

Obama Plotting ISIS-Related Terror Attacks in Chicago—O’Hare International Airport & Sears Tower Rigged for Nuclear Detonation

ISIS THREAT ON CHICAGO

DRUDGE REPORT

RED ALERT: [10 Reasons Why Switzerland is Home to the CIA](#)

[David Chase Taylor](#)

April 6, 2015

[Truther.org](#)

SWITZERLAND, Zurich — Based on breaking news and events, it appears that the Obama administration and [Chicago Mayor Rahm Emanuel](#) (at the behest of the [CIA in Switzerland](#)) are plotting a wave of ISIS-related attacks in Chicago, Obama’s home city.

Exactly what type of terror attacks are planned for the Windy City is not known, but they will most likely consist of 9/11-style attacks, and/or biological and/or nuclear-related attacks against [O’Hare International Airport](#) and/or [Willis “Sears” Tower](#), both of which have evidently been rigged for nuclear detonation.

In order to program the masses of Chicago for a nuclear-related terror attack, CBS Chicago published an ominous report on March 19, 2015, entitled “[Best Places To Survive A Nuclear Apocalypse?](#)”. The report curiously stated that [Chicago would be vaporized](#) in either a 2,000 warhead or 500-warhead scenario.

In the event that a nuclear bomb is detonated in Chicago, millions of people will head south to Mexico and South America. Coincidentally, on April 1, 2015, it was reported that a [DHS-funded terror drill simulated a nuclear attack and thousands of people attempting to cross the US-Mexico border](#).

Two days later on April 3, 2015, it was reported that [hundreds of U.S. military personal, airmen and police will execute a dirty bomb drill on April 11, 2015](#). Whether the nuclear terror drill will go live is not known, but it's highly likely.

Lastly, in what appears to be the state-sponsored terror drill for ISIS-related terror attacks in Chicago, it was reported on March 22, 2015, that the U.S. government executed an [ISIS-related terror attack exercise on the streets of Detroit](#). Had the ISIS drill been executed in Chicago, it would have been too obvious, hence its location some 280 miles away in Detroit.

I. CHICAGO TERROR ATTACK:

1.1: ISIS in Chicago

In order to create the necessary media narrative for ISIS-related terror attacks in Chicago, a number of CIA-spawned incidents have taken place of late. For example, back on August 22, 2014, it was reported that [Chicago is now a top terror target after an "ominous tweet" from ISIS openly threatened the city](#). Four days later on August 26, 2014, it was reported that an [American man who was born in Chicago was killed fighting for ISIS](#). Three days later on August 29, 2014, it was reported that a [man with an ISIS flag waving out his window led cops in on a high-speed chase through Chicago](#). Roughly 2-months later on October 6, 2014, it was reported that American teenager was [arrested at Chicago's O'Hare airport after "trying to join ISIS"](#). Most recently, on March 26, 2015, it was reported that a [National guardsman was arrested at Chicago airport](#), allegedly on way to join ISIS. Said soldier was allegedly plotting an attack on a U.S. military base in Illinois. Needless to say, these reports, taken collectively, suggest that an ISIS-related terror attack on Chicago is imminent.

2.1: O'Hare International Airport Attack

Prior to an earth-changing nuclear terror attack at [O'Hare International Airport](#) in Chicago, a number of staged incidents must commence in order to: a) program the masses for an Chicago airport-related attack; and b) provide the necessary cover for the installation of a dirty bomb or nuclear bomb within the desired target location (i.e., O'Hare International Airport). Back on May 14, 2014, it was reported that the [FAA grounded flights in and out of O'Hare and Midway international airports after smoke](#) filled the Terminal Radar Approach Control (TRACON) center in Elgin, Illinois. Consequently, more than 600 flights were canceled at O'Hare and about 75 at Midway. Roughly 4-months later on September 24, 2014, it was reported that [Terminal 1 at Chicago O'Hare Airport was evacuated](#) for 1.5 hours after a bomb squad was called in to investigate a bag that a police dog allegedly got a "positive" hit on. Interestingly, the [upper and lower level inner roadways of Terminal 1 were partially closed](#) during the evacuation. Less than 48-hours later on September 26, 2014, there was a highly suspicious fire in an air traffic control facility just outside of Chicago. Considering that the [blaze was intentionally set by a contract employee of the Federal Aviation Administration](#) (FAA), foul play is obviously at play. The unprecedented act of arson grounded all flights into and out of two Chicago airports, providing a 48-hour window for nefarious activities. Roughly 3-weeks later on October 16, 2014, it was reported that a suspicious package prompted the [evacuation of a United Airlines cargo building at O'Hare International Airport](#). According to reports, the building was evacuated for roughly 2.5 hours after the Chicago Police Department's bomb and arson unit was called to the scene to investigate. A United Airlines representative stated that a box inside the building was swabbed [and tested positive for explosive material](#). Lastly, on December 7, 2014, it was reported that 19 people were hospitalized after an alleged [chemical leak at the Hyatt Regency O'Hare](#), one of the [largest hotels in the world](#) which is located next to O'Hare International Airport. The leak reportedly prompted a complete evacuation of the hotel. Whether these numerous cancelations and evacuations surrounding O'Hare International Airport provided the necessary cover for the installation of weapons and/or explosives (possibly bio-chemical or nuclear in nature) within the airport or its surrounding buildings is not known, but it's highly likely. Said weapons and explosives could be utilized at a later date in a state-sponsored WMD-related terror attack upon Chicago.

1.3: Willis “Sears” Tower Attack

In the event that Chicago suffers an ISIS-related terror attack, a small plane or hijacked airliner may be used to attack [Willis Tower](#) (i.e., the Sears Tower). The skyscraper was previously targeted in the [2006 Sears Tower Terror Plot](#), and therefore it's just a matter of time before it's targeted again. Back on January 9, 2015, it was reported that the [FBI informant in the plot to blow up the Sear Tower is now operating a store in New Rochelle](#), New York. Needless to say, the report was published to show that Islamic terrorists who want to take down the Sears Tower are out and about just waiting to attack.

1.4: Chicago Nuclear Terror Drill

In what appears to be the drill for an ISIS-related nuclear terror attack in Chicago, it was reported back on September 30, 2014, that [Chicago executed a nuclear attack evacuation drill](#). According to reports, Chicago is home to millions of people and could be a target for terrorists, a scenario that “state and local emergency officials have been quietly studying for the past 6 years”. Gary Kulhan, Chair of Cook County's Local Emergency Planning Committee, stated: “Number one...you lose all of your communications [if a nuclear device were to go off](#). Number two, you're going to have roughly 200,000 burn victims. You're going to lose two hospitals downtown immediately”. Jonathon Monken, Director of the Illinois Emergency Management Agency stated: “[We have multiple evacuation plans that have been developed](#), but all of them really recognize that capacity would be a problem”. Experts from 16 counties in Illinois, Indiana and Wisconsin are on the team which received more than \$14 million in federal funding for the exercise. The [evacuation plan participants include the City of Chicago](#) and Cook County, as well as 9 other Illinois counties, five counties in Indiana and one in Wisconsin.

1.5: Terrorist Mayor of Chicago

Similar to how [Janet Napolitano left the U.S. Department of Homeland Security to oversee terror attacks at the University of California](#), current [Chicago Mayor Rahm Emanuel](#) left his job as Obama's White House Chief of Staff to execute terror attacks in Chicago. Aside from the fact that Emanuel is the [son of an Israeli Zionist terrorist](#), under Emanuel's mayorship, the city of [Chicago has experienced 532 murders in 2012](#) and [415 murder in 2013](#). These murders are in large part a due to Emanuel's crew of Israeli terrorists (likely [Shin Bet](#)) which are currently terrorizing the unarmed Windy City in the name of gun control. Therefore, it should come as no surprise that Chicago would also be targeted with ISIS-related terror attacks.

II. ISIS AIRPORT ATTACK:

2.1: ISIS Airport Attack

The notion that ISIS wants to execute an airport related terror attack was recently witnessed back on October 6, 2014, when a [teenager was arrested at O'Hare Airport in Chicago after trying to join ISIS](#). Six days later on October 12, 2014, [U.S. General Dempsey stated that ISIS had “straight shot” to Baghdad airport](#), implying that an ISIS airport attack may be forthcoming. U.S. airports have been under the threat of state-sponsored terror since the foiled [Millennium Terror Plot](#) of December 31, 1999, which involved an “Islamic” terrorist plot to bomb LAX airport. Roughly 4 years later on July 4, 2002, there was [shooting at LAX which killed 3](#), reportedly by a 41-year-old Egyptian national. [LAX came under attack again on November 1, 2013](#), when a TSA worker reportedly killed 1 and injured 7. Roughly 6 months later on April 10, 2014, a photo of [San Francisco Airport appeared in al-Qaida's magazine “Inspire”](#). Since Al Qaeda and ISIS are the primary terrorist arms of the CIA, the magazine's “photos” are in essence the targets that the CIA is planning to attack.

Islamic Airport Attacks:

1. **June 9, 2014:** [‘This is just the beginning’: Taliban claim Pakistan airport attack](#)
2. **June 10, 2014:** [Gunmen attack Karachi Airport security training facility in second assault](#)
3. **June 26, 2014:** [Separatists attack airport in east Ukraine, defy truce](#)
4. **July 17, 2014:** [Gunmen attack airport in Afghan capital](#)
5. **July 27, 2014:** [Over 50 dead in Tripoli airport battle as foreigners leave collapsing Libya](#)
6. **August 9, 2014:** [Rocket hits Kabul airport after Kerry departure](#)
7. **August 23, 2014:** [Libyan militants claim to have taken control of Tripoli's main airport](#)
8. **November 11, 2014:** [Shiite rebels clash with security guards at Sanaa airport; 4 killed](#)

9. December 21, 2014: [20 jihadists killed in failed east Syria airport attack](#)
10. March 19, 2015: [Clashes in southern Yemeni city force closure of airport](#)

[Does not purport to be a complete list of Islamic airport attacks]

III. ISIS WMD ATTACK:

3.1: ISIS Bio-Terror Attack

The endgame of ISIS terrorists, [who were reportedly trained at a secret base in Jordan](#), is a bio-chemical terror attack that spawns the global [pandemic planned for 2014](#). This particular narrative was first identified on June 19, 2014, when [ISIS reportedly stormed a Saddam-era chemical weapons complex in Iraq](#). Roughly 3-weeks later on July 8, 2014, it was reported that ["abandoned" barrels containing deadly sarin were seized by ISIS in rebel-held Syria](#). Less than 24-hours later on July 9, 2014, it was reported that [Iraq has now lost control of a chemical weapons depot to ISIS](#). Never mind that back on March 31, 2005, "[The Commission on the Intelligence Capabilities of the United States Regarding Weapons of Mass Destruction](#)" reported that the intelligence community was "dead wrong" in its assessments of Iraq's weapons of mass destruction capabilities prior to the U.S. invasion. In other words, there were no WMDs in Iraq but ISIS located two bio-chemical weapon depots inside Iraq within 27 days? Needless to say, the entire ISIS-bio-terror narrative has been fabricated by the CIA in order to provide the necessary cover for a state-sponsored bio-chemical attack. The ISIS endgame was confirmed yet again on August 28, 2014, when it was revealed that a black Dell laptop belonging to ISIS [contained instructions on how to weaponize the bubonic plague](#). Roughly 3-months later on October 30, 2014, it was reported that Spanish Intelligence has intercepted an [ISIS plot to weaponize Ebola](#), confirming that an ISIS-related bio-terror attack is imminent. Roughly 5-months later on March 12, 2015, it was reported that [ISIS is now 'using chlorine gas' in roadside bombs](#). Lastly, three days later on March 15, 2015, it was reported that [Iraqi Kurds say that ISIS has used chemical weapons against troops](#). Needless to say, in the aftermath of a state-sponsored bio-chemical attack, ISIS will be scapegoated.

3.2: ISIS Nuclear Attack

In order to create the necessary media narrative that ISIS is capable of executing a nuclear terror attack, a number of CIA-spawned propaganda reports have been published within the last 6-months. For example, on May 2, 2014, it was reported by Veterans Today that [1.05 tons of stolen Pakistani nuclear material is now headed to the United States](#), ultimately connecting Pakistan to a future nuclear terror strike on America. The notion of an ISIS nuclear terrorist attack was witnessed on June 23, 2014, when [ISIS terrorists reportedly threatened a nuke attack on Israel](#), a laughable notion to be sure. A few weeks later on July 9, 2014, it was reported that [ISIS seized 88 pounds of Uranium in Northern Iraq](#), ultimately providing them will enough uranium to make a nuclear bomb. This report was corroborated a day later on July 10, 2014, by Russia Today who reported that [Sunni insurgents have taken over nuclear materials in northern Iraq](#). These preliminary reports were ultimately confirmed by Fox News on July 10, 2014, in a report entitled "[ISIS Seizes Uranium from Lab; Experts Downplay 'Dirty Bomb' Threat](#)". Roughly 6-weeks later on August 28, 2014, it was reported that a black Dell laptop was found in an ISIS safe house in Syria which [contained instructions on how to weaponize the bubonic plague](#) as well as "missives on using WMDs (Weapons of Mass Destruction)". Needless to say, the ISIS endgame is a biological and/or nuclear terror attack. Anything less would be unsatisfactory to the CIA which is in command and control of ISIS. In order to raise the specter of an ISIS-related nuclear terror attack just prior to it transpiring in reality, [Obama reportedly stated that he will send US troops to fight ISIS if they get nukes](#) on November 18, 2014. Needless to say, the publicity stunt was orchestrated by the CIA in order foreshadow an ISIS-related nuclear attack.

About the Author

[David Chase Taylor](#) is an American journalist and the editor-in-chief of [Truther.org](#), a state-sponsored terror whistle-blower website. Taylor lives in Zurich, Switzerland where he is currently in the process of applying for political asylum since the release of [The Nuclear Bible](#), a book credited with foiling a nuclear terror attack upon Super Bowl XLV in Dallas, Texas on February 6, 2011. Taylor recently authored [Greenland Theory: Apocalypse Now](#), a book and website exposing the true power structure of the world, especially in respect to Greenland and its primary proxy state of [Switzerland which is home to the CIA](#). Taylor has also published [The Bio-Terror Bible](#), a book and website exposing the global bio-terror

pandemic planned for 2015. To date, [Taylor has blown the whistle on over 100 state-sponsored terror plots](#), including the [2012 Democratic National Convention Terror Plot](#), the [2011 Super Bowl Nuclear Terror Plot](#), the [2014 Super Bowl Nuclear Terror Plot](#), the [Terrorgate Scandal](#), the [2014 Memorial Day Massacre](#), the [man-made asteroid attack planned for 2014](#), and the [drone strike which killed "Fast and Furious" star Paul Walker](#). Taylor was also the first to expose [Alex Jones' treacherous links to STRATFOR](#) and is noted for the [10 reasons why the Rosetta Comet landing was a hoax](#).
