## 10. Central Valley Project

Jeff Denham wrote a bill (HR 1604) that would help a ton of different kind of contractors in California. The bill exempts ongoing projects in the Central Valley Project (just a huge water related federally funded infrastructure project in California), from stop-work orders related to environmental reviews. In other words, it keeps this big project going, meaning contractors stay on the job.

Interestingly enough, Denham's Chief of Staff lobbied for the Tehama Coulsa Canal Authority, which is currently overseeing a major CVP project, the Red Bluff Dam project.

Several contractors that work on CVP projects donated to Denham this cycle. Denham took \$10,000 from companies with CVP construction contracts: CH2M Hill Companies and Granite Construction INC. Included in that total are donations from the National Stone, Sand & Gravel Association (NSSGA), and firms represented by the NSSGA almost certainly have CVP contracts.

On April 15, 2011, Denham introduced HR 1604. The legislation was meant to facilitate certain activities, alleviate the extra regulatory burdens, and reduce costs related to carrying out projects in the Central Valley.

The legislation was referred to the Committee on Natural Resources as well as the Committee on the Judiciary. [HR 1604, 4/15/11]

Auburn-Folsom South Unit Project
Delta Division Project
Folsom and Sly Park Units Project
Friant Division Project
New Melones Unit Project
Sacramento Canals Unit Project
San Felipe Division Project
San Luis Unit Project
Shasta/Trinity River Division Project
