2023-R05-02917	Krueger, Rachel	ECS Mid-Atlantic, LLC	<p>Hello, ECS Mid-Atlantic, LLC. (ECS) is currently conducting an environmental investigation on the following site. As a portion of our investigation, we are interested in obtaining any information as a routine request for records or information your office may have regarding the former Woodford-Marshall Landfill/McCormick Landfill, located to the north of Minonk, IL. We understand that the landfill was capped in the mid-1990s and is listed by the US EPA as a SEMS Archive facility. We are most interested in any documentation you may have pertaining to this listing. If you have any questions or concerns, please reach me at 717-205-9388 or rkrueger@ecslimited.com. Thank you, Rachel Krueger</p>	03/08/2023

2023-OAR-02912	Smeets, Nancy	-	<p>We are extremely concerned about what is being sprayed in our skies on an almost daily basis. This request represents thousands if not millions of concerned citizens all over the United States who witness this new event. I grew up in California and have NEVER seen this. I included a photo showing many images; however I personally have documented this personally as well. We demand to have the information regarding what is being sprayed over us.</p> <p>Thank you very much for your immediate response and prompt action upon receipt of this request. This chemical spraying either alters the weather, or a much more sinister motive is at play; we need to know. It affects the human being reading this request, as well.</p> <p>With appreciation, and on behalf of a multitude of extremely concerned American citizens,</p> <p>Nancy J. 2023-ORD-03000	Blechinger, Scott	Health Canada	<p>I am a chemical risk assessor from Health Canada (Ottawa, Canada) and I am working on a review of epidemiological data of child IQ and blood lead. As part of this review I came across the international pooled analysis by Lanphear et al. 2005 (revisions 2019), considered as pivotal data for the risk assessment of lead by several regulatory authorities including the US EPA . I understand that the raw participant-level dataset from Lanphear 2005 was obtained through a FOIA request and used for secondary analyses by researchers in Crump et al. 2013 (see Methods section: "...the same database that was used by Lanphear et al. (2005), which was obtained by Dr. Craig Boreiko of the International Lead Zinc Research Organization (ILZRO) via an FOIA and provided to us."). Note that the raw dataset from Lanphear et al. was also used in Van Landrigan et al. (2020), and by the US EPA in a similar secondary analysis (Kirrane & Patel 2014). One of the most contentious findings of the Lanphear et al. dataset is related to the shape of the dose-response function in the low-dose region for which many regulators including the US EPA, US FDA, EFSA, and Health Canada have assumed takes on a monotonic dose-response with no threshold of effect.</p> <p>My current work on lead relies heavily on the health opinions of the US EPA including their findings based on the Lanphear et al. dataset. Therefore, in order to validate the US EPA conclusions on the health effects of lead exposure on child IQ, I wish to also request the raw dataset from Lanphear et al. Access to the raw participant-level dataset will allow a secondary analysis to further characterize the dose-response in the low-dose region but using methods not previously applied (i.e. modelling blood lead as a categorical variable with >=4 quantiles and subsequent BMD modelling using current model-averaging approaches). I believe this analysis will help to further validate assumptions regarding the threshold of effects in the low-dose region and inform the appropriateness of risk management decisions based on this dataset.</p> <p>Please let me know if it is possible to obtain access to the raw dataset of Lanphear et al., logistics for sharing, and any restrictions involved reporting findings from a secondary analysis of this dataset. Thanks in advance, Scott Blechinger Health Canada (Ottawa, Canada)</p> <p>References: Crump et al. 2013: https://www.tandfonline.com/doi/full/10.3109/10408444.2013.832726 Kirrane & Patel 2014: http://ofmpub.epa.gov/eims/eimscomm.getfile?p_download_id=518543 Lanphear et al. 2005 (2019): https://ehp.niehs.nih.gov/doi/10.1289/EHP5685 Van Landrigan et al. 2020: https://pubmed.ncbi.nlm.nih.gov/33300851/</p>	03/13/2023

2023-R10-02996	Sammartino, Dorothy	-	I am requesting all records, letters of correspondence, application forms, any annual reports or submittals from May 2021 through March 12, 2023, any and all copies 4 Bros. Dairy's Nutrient Management Plan (NMP) contained in the application of the NPDES permit issued to 4 Bros. Dairy, Shoshone, Idaho. 4 Bros. Dairy, Inc. 425N 250W, Shoshone, Idaho 83352, Manager: Andrew Fitzgerald. (I already have the 4 Bros. Dairy NMP, dated May 2019, from a previous request that I submitted back in 2021. The Dairy was convicted of an illegal discharge of waste into a US Waterway in December, 2020, sentenced in March, 2021.) The Annual Report and/or update to the NMP should include all field soil testing reports for all fields receiving waste/nutrients – both 4 Bros. owned land and all export partners and their land. It should contain physical addresses and contact information for the export farms receiving waste/nutrients. The Idaho Department of Agriculture inspects the dairy yearly and produces a report that is titled "EMP/NMP review" report. This document contains field soil testing data for all 4 Bros. Dairy fields and export partners fields that have received waste/nutrients in 2020-2023. The Annual Update to the NPDES permit should include all non-compliance notifications that were evident in the ISDA EMP/NMP Review documents. Thank you.	03/13/2023

Re: Request for Class VI Injection Well Permit Applications and Related Records for CO2 Geologic Sequestration Sites in EPA Region 4

Dear Regional FOIA Officer:

I represent a newly funded company (Lapis Energy, LLP) which is interested in pursuing CCS opportunities in the United States and specifically, within the area under the management of EPA, Region 4.

Pursuant to the Freedom of Information Act ("FOIA"), would like to request all records (whether maintained in hard copy or electronic format) held by Region 4 of the United States Environmental Protection Agency ("EPA") regarding the following matters:

Any Class VI injection well permit applications (including appendices, attachments, and related materials) that EPA has received in the past 12 months requesting authorization under EPA's Underground Injection Control ("UIC") program for geologic sequestration of carbon dioxide in any state within EPA Region 4. (Please disregard my request for 'any 'EPA Related Correspondence' between the entities applying for Class VI injection well permits and the EPA.' This should simplify the request to be exclusive to just the Class VI injection well permit application documents.)

Please provide these records to me at the following address only if digital copies cannot be provided via an electronic data transfer service.

Terry Wiseman
Lapis Energy, LP
2950 N Harwood St.,
Dallas, Texas 75201

EPA is required to respond to this request within twenty (20) working days. If access to the records I am requesting will take longer, please contact me with information about when I might expect copies or how I may inspect the requested records.

I agree to pay costs in connection with this request. Please contact me by telephone at (b) (6) or via email at twiseman@lapisenergy.com for authorization if these fees will exceed \$500.00 or if you have any other questions regarding this request.

Thank you for your assistance in this matter.

Re: Request for Class VI Injection Well Permit Applications and Related Records for CO2 Geologic Sequestration Sites in EPA Region 6

Dear Regional FOIA Officer:

I represent a newly funded company (Lapis Energy, LLP) which is interested in pursuing CCS opportunities in the United States and specifically, within the area under the management of EPA, Region 6.

Pursuant to the Freedom of Information Act ("FOIA"), would like to request all records (whether maintained in hard copy or electronic format) held by Region 6 of the United States Environmental Protection Agency ("EPA") regarding the following matters:

Any Class VI injection well permit applications (including appendices, attachments, and related materials) that EPA has received in the past 12 months requesting authorization under EPA's Underground Injection Control ("UIC") program for geologic sequestration of carbon dioxide in any state within EPA Region 6. I also request any 'EPA Related Correspondence' between the entities applying for Class VI injection well permits and the EPA.

Please provide these records to me at the following address only if digital copies cannot be provided via an electronic data transfer service.

Terry Wiseman

2023-R05-03136	Prichard, Gary	-	<p>On October 6, 2022, I submitted a FOIA request (EPA-R5-2023-000131) that the Agency responded to on January 12, 2023, for documents pertaining to in-person settlement meetings in enforcement cases in Region 5 offices. Thank you for the response. The request and response covered documents generated as of the October 6, 2022, request date. I am submitting the identical request, as set forth below, but now for documents generated on or after October 1, 2022. As was discussed with my prior request, this request does not include documents pertaining to meetings for CERCLA response actions. Below is my specific request:</p> <p>EPA, Region 5, is involved in enforcement cases under various environmental statutes. Those cases often involve meetings with the subject of the enforcement case. Enforcement cases in Region 5 usually involve employees of the Region 5 Enforcement and Compliance Assurance Branch (ECAD) and employees of the Region 5 Office of Regional Counsel (ORC). For purposes of this request, the terms "Respondent" and "Defendant" refer to entities that are the subject of enforcement cases. I am seeking through this request: (a) records documenting any meetings on or after October 1, 2022, involving Region 5 employees meeting with representatives of Respondents or Defendants in EPA Region 5's offices at 77 West Jackson Boulevard, Chicago, Illinois, where one or more representatives of the Respondent or Defendant attending the meeting physically came into EPA Region 5's offices for the meeting; (b) if any such meeting occurred on or after October 1, 2022, records documenting: (1) the date of the meeting; (2) the subject of the meeting; (3) the names/titles or other descriptive information identifying the participants who physically attended the meeting in-person in EPA Region 5's offices at 77 West Jackson Boulevard, and/or (4) whether there were also participants in the meeting who participated from a location other than EPA Region 5's offices and, if so, the names/titles or other descriptive information identifying the participants who participated from a location other than EPA Region 5's offices. I expect that, if there have been any such meetings, there might be multiple responsive documents that would provide some of all of the information described above: i.e., multiple records documenting that such meeting occurred, the date of the meeting, the subject of the meeting, participants who physically attended the meeting in-person in EPA Region 5's office and whether there were also participants who participated from a location other than Region 5's offices. I am only interested in obtaining the minimum number of documents necessary to provide the requested documentation for each specific in-person meeting that has occurred on or after October 1, 2022. It is not necessary to provide responsive documents that provide the requested information if that information is also being provided in other responsive documents. For example, there might be calendar entries, emails between Region 5 employees and representatives of the Respondent or Defendant, internal-to-EPA email messages, internal-to-EPA meeting notes or memoranda, etc. that provide some or all of the requested information. In this example, to the extent that all of the information is contained in calendar entries and meeting notes (or any other combination of responsive documents), it is not necessary to provide other responsive documents pertaining to the specific meeting that also include the requested information. I understand that portions of responsive documents (other than the portions included the information described above) could be ones that EPA would deem to be "settlement confidential" or otherwise exempt from disclosure under FOIA. If so, then I fully understand that aspects of the documents could be redacted, and I have no objection to EPA being overly cautious in redacting portions of the documents as being "settlement confidential" or as being otherwise exempt</p>	03/20/2023

This request will remain as an ongoing FOIA request until such time as the agency conducts a proper and adequate search. Therefore, any records that come within the possession of the agency prior to the final response to this FOIA request are within the scope of this request. ☐

Please also provide any and all documentation related to such electronic records, including but not limited to data dictionaries, database documentation, record layouts, code sheets, data entry instructions, and similar printed or electronic documentation materials.☐

For purposes of this request, the term "records" is used to mean anything denoted by that word or its singular form in the text of FOIA. In particular, the term includes, but is not limited to documents (handwritten, typed, electronic or otherwise produced, reproduced, or stored), letters, emails, facsimiles, memoranda, correspondence, notes, databases, maps, drawings, graphs, charts, photographs, minutes of meetings, electronic and magnetic recordings of meetings, and any other compilation of data from which information can be obtained. ☐

CLAIMS OF EXEMPTION FROM DISCLOSURE☐

If it is your position any portion of the requested records is exempt from disclosure, Scripps News requests that you provide it with an index of those documents, as required under Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973). If some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. See 5 U.S.C. § 552(b). If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the materials is dispersed throughout the document. See Mead Data Central v. U.S. Dep't of the Air Force, 566 F.2d 242, 261 (D.C. Cir. 1977).??? ☐

Pietrinferno, Sammy -

If you regard any documents as exempt from required disclosure under the Act, please exercise your discretion to disclose them nevertheless. See Memorandum from the Attorney To whom it may concern,

03/20/2023

This is a request under the Freedom of Information Act.

I am requesting a copy of how many solar panels and wind turbines have been implemented with government funds across the US to combat fossil fuel usage.

I request a waiver of all fees for this request because I am a student at Michigan State University, and this request is made for noncommercial scholarly purposes. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly not only for my own personal understanding of the operations or activities of the EPA, but also, I will evaluate the documents for solely academic purposes for my Journalism 430 class.

Sincerely,
Sammy Pietrinferno

2023-OCSP-03148	Eskola, Mari	Medfiles Ltd	Dear Mrs/Mr,	03/20/2023
			<p>I would like to get a copy (preferably an electronic copy i.e. PDF) of the final full toxicological study with the title: Rat oral subchronic toxicity study : compound: normal butanol. Year: 1986. Publisher: Toxicity Research Laboratories. Report number: EPA 530-D-86-001. OCLC number: 213434420. On the EPA website a DRAFT of this study is electronically available but it does not contain tables or annexes. Due to these limitations of the DRAFT , I would like to get the FINAL FULL study, please. I need this study to complete an application dossier to be submitted to the European Commission in order to apply for an authorisation of a use of butanol in food processing in the European Union (EU). The full study is required by EU Law (COMMISSION REGULATION (EU) No 234/2011) to be submitted to the European Commission within the application dossier to allow safety evaluation. After regulatory and scientific evaluation of the dossier by the European Commission and European Food Safety Authority (EFSA), respectively, the European Commission will grant the authorisation for the use of butanol in food processing in the EU, and include it in EU DIRECTIVE 2009/32/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL. Thereafter, any food manufacturer manufacturing the food items for which the butanol use has been described in the Directive, can use butanol to manufacture the food items and sell them lawfully in the EU.</p> <p>Many thanks in advance, Mari Eskola, Dr, Senior Regulatory Affairs Expert, Food & Feed and Cosmetics, Medfiles Ltd, Finland, Europe. 2023-NFO-03169	Gardner, Robert	none	<p>I was a soldier stationed at Forward Operating Base (F.O.B) Vanguard, an extremely small base in Iraq housing only 16 American Soldiers in 2004 for 11 months. While I was there the EPA supposedly performed a study of F.O.B Vanguard which allegedly stated that Vanguard had been determined to be "Unsafe for human habitation for longer than 72 hours.". F.O.B Vanguard was the main petroleum oil and lubricants storage facility supporting the Iraqi Air Force base known by the American Military as Logistics Staging Area (LSA) Anaconda and was sabotaged extensively by the Iraqi military prior to our securing F.O.B Vanguard.</p> <p>This resulted in spillage of many thousands of gallons of aviation fuel, lubricants and diesel fuel directly into the soil of Vanguard which caused illnesses to soldiers stationed there. The smell was so foul soldiers would often become extremely nauseous and light headed. The ground was so saturated with aviation fuel that using tracer bullets, bullets with a phosphorous tip that would ignite providing the ability to "trace" the trajectory of the projectile in flight, could cause otherwise dry appearing bare dirt to ignite. Small all terrain vehicles used to inspect the guard towers would become bogged down in fuel mud.</p> <p>I seek any reports, records or correspondence related to any EPA investigation of Forward Operating Base Vanguard specifically between 2003 and 2005 but would like any records if they exist for Vanguard after that time if feasible.</p>	03/20/2023

2023-ORD-03158	Schilling, Rob	Energy Policy Advocates	<p>Please provide us, within twenty working days, copies of all electronic mail sent to or from (including also as cc: or bcc:) Jennifer Orme-Zavaleta, Maria Doa, Andrew Simons, and/or Louis D'Amico, which is dated at any time from November 1, 2020 through February 28, 2021, inclusive, that also mentions, anywhere, whether in a To, From, cc, bcc: or Subject field, email body or attachment, one or more of the following: i) "censored science", ii) "Evidence Act", iii) "Joel Schwartz", and/or iv) joel@hsph.harvard.edu</p> <p>We request entire "threads" of which any responsive electronic correspondence is a part, regardless of whether any portion falls outside of the above time parameter. These terms are not case-sensitive. The "" are not part of the search term but delineate the search term.</p> <p>Under the FOIA Improvement Act of 2016, agencies are prohibited from denying requests for information under the FOIA unless the USEPA reasonably believes release of the information will harm an interest that is protected by the exemption. FOIA Improvement Act of 2016 (Public Law No. 114-185), codified at 5 U.S.C. § 552(a)(8)(A).</p> <p>Should you decide to invoke a FOIA exemption, please include sufficient information for us to assess the basis for the exemption, including any interest(s) that would be harmed by release. Please include a detailed ledger which includes:</p> <ol style="list-style-type: none"> 1. Basic factual material about each withheld record, including the originator, recipients, date, length, general subject matter, and location of each item; and 2. Complete explanations and justifications for the withholding, including the specific exemption(s) under which the record (or portion thereof) was withheld and a full explanation of how each exemption applies to the withheld material. Such statements will be helpful in deciding whether to appeal an adverse determination. Your written justification may help to avoid litigation. <p>If you should seek to withhold or redact any responsive records or parts thereof, we request that you: (1) identify each such record with specificity (including date, author, recipient, and parties copied); (2) explain in full the basis for withholding responsive material; and (3) provide all segregable portions of the records for which you claim a specific exemption. 5 U.S.C. § 552(b). Please correlate any redactions with specific exemptions under FOIA.</p> <p>As noted, EPA is willing to receive records on a rolling basis, but only within the requirements of FOIA.</p> <p>These search parameters are sufficiently narrow and precise in their clear delineation for described records over specific dates sent to or from specified USEPA employees.</p> <p>In the interests of avoiding delay with back-and-forth, EPA is willing to provisionally pay fees up to \$200 in the event USEPA denies our fee waiver requests detailed, infra, as we appeal such a determination. However, like other federal agencies USEPA recognizes EPA warrants fee waiver (see, e.g., 2023-001275). Nonetheless, in this event, please provide an estimate of anticipated costs in the event that fees for processing this Request will exceed \$200. To keep costs and copying to a minimum please provide copies of all productions to the email used to send this request. Given the nature of the records responsive to this request, all should be in electronic format, and therefore there should be no photocopying costs (see discussion, infra).</p>	03/20/2023

2023-OAR-03205	Brickson, Bryan	-	<p>On a major automotive technician website with about 90k members there is a discussion about legal practices regarding the use of certified equipment. A Mr Glenn Hartline lists himself as an educator / instructor. He told me that I was wrong and suggested that I contact the EPA. I got an email from the EPA and it says as I had said that uncertified equipment is prohibited. He insists that the answer to me was incorrect and he got a different answer that uncertified equipment is legal.</p> <p>If the EPA is or is not sending conflicting answers is something that tens of thousands of technicians should know. I am requesting any responses from the EPA regarding regulations, policies or enforcement or definitions of the same to a Mr Glenn Hartline in Metairie LA in the last 120 days.</p>	03/22/2023
2023-OMS-03213	Wiseman, Rebekah	CATMEDIA	Under FOIA Request EPA-2023-001405, the FOIA requester asked for a copy of a recent winning proposal for an Indefinite delivery/Indefinite quantity (IDIQ) contract. Rebekah Wiseman, the requester, was looking for a specific IDIQ that she was unable to identify. I located the task order where her company tried to submit a proposal. Thus, I offered to obtain the winning proposals (1 technical proposal and 1 business proposal) that resulted in Contract 68HERH19D0019 (Mabbett & Associates), Contract 68HERH19D0020 (SC&A), and Contract 68HERH19D0021 (Toeroek Associates). The only item that one of the three contractors, Toeroek, made a CBI claim is on their main Table of Contents. Thus, that is the only item that I withheld in the interim release that I want OGC to make a confidentiality determination.	03/22/2023

2023-R09-03222	Segal, Richard	-	I would like records of the Environmental Law Foundation's case against the EPA, from 2009, regarding the safety of Acrylamide. The Environmental Law Foundation argued the case, considering that Americans were exposed to a high amount of Acrylamide. It was argued the EPA used an incorrect standard of safety, in allowing an amount of micrograms per day of exposure. James Wheaton argued the case for Environmental Law Foundation. The decision was in favor of the EPA. I would like records that present the arguments of both sides, and the decision. The case was argued in the State of California.	03/22/2023

2023-R09-03283	Gjovik, Ashley	-	Hello, in line with ongoing discussions with the FOIA and site teams, I'm requesting an update on the site activities this year starting January 01 2023 through today March 26 2023 with any emails, meetings, attachments, reports, or other documents related to the testing, and preparation for testing, at the TRW Microwave site at 825 Stewart Drive in Sunnyvale, CA. I was told I cannot request the test results yet as they may not exist, so in the interim I'd like to understand what's been going on related to vapor intrusion testing /management (including HVAC) at the site including both communications internal to the US EPA, and communications between the US EPA and other parties about the testing, and preparation for testing, and conditions, at the site. Please include any travel requests and emails if any US EPA staff traveled to the site during that time frame. Thank you.	03/27/2023

2023-R08-03365	Scott, Alia	Williams Porter & Day	<p>To Whom it May Concern at the National FOIA Office for the U.S. EPA:</p> <p>On behalf of Big Country Storage, LLC, a Wyoming Limited Liability Company, with its principal office located at 1300 W. Richards Street Douglas, Wyoming 82633, and in my capacity as the Attorney for Big Country Storage, LLC, we are making the following two (2) requests for federal agency records held by the U.S. EPA.</p> <p>I. The first request is for any and all information, reports, letters issued to, orders issued to, documents, emails, other forms of communication, including all communications with EPA Region 8, and the Wyoming specific branches of Wyoming DEQ and Wyoming EPA, and any other documentation the U.S. Environmental Protection Agency has regarding the following two entities:</p> <p>1) Bonanza Earth Relocators, LLC - A Wyoming Limited Liability Company. Its principal office is located at 15 Mountainview Road Douglas, Wyoming 82633. Gary Demaree is the owner. Peggy Schellinger is the registered agent. Ron Sekely is an employee.</p> <p>2) North Park Transportation, Co. - A foreign for profit Corporation, formed in Colorado, but doing business within the State of Wyoming. Its principal office is located at 5150 Columbine Street, Denver, Colorado 80216. North Park Transportation, Co has a Wyoming place of business located at 741 S. Riverbend Drive, Douglas, Wyoming 82633. Paul Kooi and Blaine I Burt are Directors. Keith Lilly is the President. Deanna Rusch is Treasurer and Vice President, Greg Walkup is also a Vice President. Russ Sohneman is the registered agent.</p> <p>II. The second request is for any and all information, reports, letters issued regarding, orders issues regarding, documents, emails, other forms of communication, including all communications with EPA Region 8, and the Wyoming specific branches of Wyoming DEQ and Wyoming EPA, and any other documentation the U.S. Environmental Protection Agency has regarding the following diesel/gas fuel spill incident:</p> <p>On March 26, 2021, it was discovered that approximately 500 gallons of diesel/gas fuel spilled or leaked out of a fuel tanker owned by Bonanza Earth Relocators, LLC which was parked at 741 S. Riverbend Drive in Douglas, Converse County, Wyoming. This location is identified by the following legal description: RIVERSIDE INDUSTRIAL PARK, LOT 8, Douglas, Converse County, Wyoming. This property is owned by North Park Transportation, Co. and on the date the spill was discovered the section of this property where the spill originated was leased to Bonanza Earth Relocators, LLC.</p> <p>The fuel that spilled or leaked out of the fuel tanker flowed east, traversing approximately 200 feet of fence line on the property owned by North Park Transportation, Co. The fuel continued to flow in an easterly direction and crossed the property line onto land owned by Big Country Storage, LLC. The fuel then spread out and contaminated approximately 5,000 square feet of ground owned by Big Country Storage, LLC.</p> <p>On March 26, 2021, the Douglas Police Department was notified of the fuel spill. Sergeant Schmidt and Officer Dowd from the Douglas Police Department responded to the call regarding the fuel spill. Pursuant to W.S. § 35-11-1421, the Douglas Police Department notified the following agencies of the spill: City of Douglas Code and Compliance Officer, the Wyoming Department of Environmental Quality, and the Converse Country Emergency Manager.</p> <p>On March 31, 2021, Wyoming DEQ performed an initial, and limited site investigation. Operations at the site started in 1887 and continue today. Through research, it was uncovered in two separate sources that Greenpoint Incinerator was cited by the EPA for repeated violations of federal safety limits for particulate emissions (Hazardous neighbors, pg. 31). It continued to operate during a multiyear upgrading process despite the fact that EPA has documented violations of federal air limits for particulate emissions (Right to Breathe, pg. 44). I am requesting copies and information pertaining to these violations.</p>	03/30/2023

2023-OCSP-03389	Jenkins, Blake	Hogan Lovells	<p>Dear FOIA Officer: <input type="checkbox"/></p> <p>Pursuant to the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA"), Hogan Lovells US LLP ("Hogan Lovells") requests information, as described in detail further below, from the United States Environmental Protection Agency ("EPA"): <input type="checkbox"/></p> <p>Specifically, we request all records and information relating to the following: <input type="checkbox"/></p> <ol style="list-style-type: none"> 1. <input checked="" type="checkbox"/> records related to the EPA's registration of ethylene oxide under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). <input type="checkbox"/> 2. <input checked="" type="checkbox"/> records related to the EPA's current registration review of ethylene oxide under FIFRA, including all communications showing EPA's considerations and analysis in performing its registration review of ethylene oxide under FIFRA. <input type="checkbox"/> 3. <input checked="" type="checkbox"/> records regarding EPA's consideration of new labeling requirements for ethylene oxide under FIFRA. <input type="checkbox"/> 4. <input checked="" type="checkbox"/> records regarding EPA's consideration of a new risk assessment for ethylene oxide under FIFRA. <input type="checkbox"/> <p>This FOIA request is not meant to be exclusive of any other records which, though not specifically requested, would have a reasonable relationship to the subject matter of this request. With respect to the form of production, see 5 U.S.C. § 552(a)(3)(B), we request that responsive documents be provided electronically in text-searchable, static-image format (PDF), in the best image quality in the agency's possession. We further request that reasonable metadata be transmitted along with responsive documents, including but not limited to email attachments, author and recipient information, date and time stamps, and the like. This request for documents or records includes a request for any written materials, any communications in any format, any digital information, any physical or electronic media, and any recordings, including audio and visual records. Communications include anything that communicates information, including emails, text messages, reports, correspondence and electronic files that communicate information. <input type="checkbox"/></p> <p>We believe that these records are not exempt from disclosure. If EPA should deny access to any records covered by this request, however, please describe in detail each of those records and specify the statutory basis claimed for denial as well as any reasons for asserting that claim. Specifically, please provide an exemption log identifying each document for which the exemption is claimed, together with the following information: date, sender, recipient, type (e.g. letter, memorandum, telegram, chart, photograph, etc.), subject matter of the document, the basis on which exemption is claimed, and the paragraph or paragraphs of this request to which the document responds. As described above, FOIA provides that if only a portion of a record is exempt from release, all reasonably segregable portions shall be provided. Thus, if EPA asserts that a portion of a record that we have requested is exempt, please provide us with a copy of the remainder of the record and provide in the exemption log the information specified above for the portion being treated as exempt. If EPA asserts that the exempt portions cannot be reasonably redacted, please state in detail the reasons for that assertion. <input type="checkbox"/></p> <p>Please provide the requested material at the earliest possible date, and, in any event, please provide as complete a response as possible to this request within the twenty (20) day period prescribed by FOIA. This APN is associated with the address: 820-822 South Date Avenue, Alhambra, California. For the purpose of this request, applicable environmental records would include underground storage tank, aboveground storage tank, "tiered" and/or other environmental permits; enforcement orders; and reports and correspondence related to previous site investigations/assessments, subsurface sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.</p>	03/30/2023

2023-R09-03400	Lewis, Robert	CalMatters	<p>March 31, 2023</p> <p>Attn: Freedom of Information Act Officer U.S. Environmental Protection Agency</p> <p>To Whom It May Concern:</p> <p>This is a request for government agency records made under the right of access granted by the Freedom of Information Act. This request is dated March 31, 2023.</p> <p>I am writing to request copies of the following records:</p> <p>-- The hazardous waste export annual reports filed by Temarry Recycling (whose EPA IDs include but aren't limited to CAR000194217 and CAL000455031) that contains information on exports made during the 2022 calendar year.</p> <p>It's my understanding that entities exporting hazardous waste from the United States to another country are required to file annual reports indicating information about those exports including but not limited to the type and amount of waste exported, and the ultimate destination facilities. (40 CFR 262.83) It's further my understanding that such reports are due by March 1. As it is after March 1, it's my belief that Temarry Recycling – a California-based exporter that typically files annual reports – should have filed its annual report(s) for the 2022 calendar year. I am essentially asking for a copy of any reports the company filed for 2022. It's my belief the report would have been filed using EPA ID CAR000194217. However, if there are any other annual reports from a company operating as Temarry but using a different ID, please provide those as well.</p> <p>If possible, please provide the requested information in an electronic format. I am aware that the EPA has collected this information electronically since 2018 and has provided it in such a format in response to previous FOIA requests.</p> <p>I am a reporter for CalMatters, a nonprofit news outlet covering California policy and politics, and with a broad audience across the state and nation. This request is in the routine course of newsgathering. I am seeking a fee waiver for this request as a working journalist serving the public interest by providing insight into a subject of high importance and interest. Your agency has in the past granted our outlet a fee waiver for similar requests.</p> <p>However, if you do not grant my fee waiver, I agree to pay reasonable duplication fees for the processing of this request. Please notify me prior to your incurring any expenses in excess of \$25.</p> <p>My email address: robert@calmatters.org</p> <p>If you determine that an express provision of law exists to exempt from disclosure all or a portion of the material I have requested, please provide the specific statute or legal authority on which you base any determination to withhold records in whole or in part. If anything in this request is unclear or you need clarification, I can also be reached at 510-207-6962.</p> <p>Thank you for your assistance with this request.</p> <p>Sincerely, Robert Lewis</p>	03/31/2023

2023-NFO-03404	Cornelius, Melody	Trileaf	Hi, I am wondering how I can obtain more information or speak with someone regarding the USACE Camp Swift UXO sites. I have them all located at one point-location, while one would assume that this many shooting ranges would cover a vast geographical area. I need a map showing the locations of the UXO sites with names MRS 1 through MRS 18 and it would be great to get a summary of the remedial status of these sites. Or just something to help determine if a given property outside the current Camp Swift footprint may be contaminated from historical DoD activities. This is related to a Phase I ESA, value ~\$1500.	03/31/2023

2023-R04-03469	Overall, Park	-	<p>To whom it may concern: I received a letter Feb 7th 2023 from EPA Washington, Office of General Counsel, signed by Lynn Kelley. I was told to file a new request for the files of, now retired, Leo Romanowski. I am requesting all test well data under RCRA which was Mr. Romanowski's wheel house when he worked for the EPA. Mr. Romanowski put in the test wells, yet EPA is unable to provide me with the Nuclear Fuel Services, LLC North site decommissioning well data. My request #NO. EPA -R4-2023-000369 Appeal NO. EPA-2023-001697.</p> <p>I would like the test well data from the wells that Leo Romanowski put in, from 2009-10 to 2021 a David Egetter told me the files might not be housed within the EPA but in a building up the street. This data is re: a ground water plume that is moving upstream under the Nolichucky River. Above the area geographically is a small Appalachian town with only water wells for drinking.</p> <p>Last I checked EPA was still in charge of superfund sites not the state. Thank you. 2023-R02-03528	Gallagher, Thomas	Morris Industrial Builders	<p>For Superfund Standard Chlorine Chemical Co. Inc. Site</p> <p>Kearny, Hudson County, New Jersey</p> <p>Our request generally is related to two existing timber bridge crossings of an existing slurry wall at the east side of the SCCC Superfund site in Kearny Township, Hudson County NJ (EPA Region 2) located on a former Koppers Koke site. Site is now owned by Morris Kearny Associates Urban Renewal LLC who purchased the site from the Hudson County Improvement Authority (HCIA) on 22 September 2020.</p> <p>The timber bridges exist on the west side access for vehicles and equipment that do not fit under the east side access tunnel below the NJ Transit Rail. The Koppers Property west access has historically been used for large vehicle and equipment. The access existed prior to the slurry wall installation.</p> <p>Based on a review of Google Aerial Maps the eastern most timber bridge is visible in a February 2012 aerial and no bridge is visible to the west. In December 2010 no bridges are visible. The western bridge first is visible in April 2014. A low spot over the eastern slurry wall becomes apparent in 2014 and 2015 aerials as processed dredge material (PDM) is moved from the eastern Koppers site PDM processing area to both sides of the slurry wall. Large earth moving equipment needed to cross the east bridge to install additional PDM after slurry wall installation. We do not have records of equipment used but expect it would have included dump trucks, scrapers, dozers and compaction rollers. Google aerials show the west bridge being alteranately covered with PDM and cleared over the years while the west bridge once installed always seemed uncovered in aerials. We have used the Google Aerials as reference as we have no as-built information on timber bridges</p> <p>We obtained from PSEG Timber Bridge plans signed and sealed by NJ professional Engineer (P.E.) Robert Mohlin of Mohlin and Company Consulting Engineers last dated 08/24/15 "issued for construction". We believe the bridges were installed by PSEG's contractor for import of large equipment and materials for their transmission tower installation along the east side of the former Koppers site. We reached out to Robert Mohlin to ask if he was available to perform timber bridge design, inspection, and or repair services for us after we purchased the property. Mr. Mohlin had retired and was no longer a NJ P.E.</p> <p>We hired TRC Environmental Services to inspect the bridges. TRC determined the current bridges were generally in the same Mohlin location with the constructed bridges similar but a little different than the design plans. TRC aloes observed old timber crane mats near the existing bridges that appeared to be old timber bridge material removed by other in probable timber bridge repairs. We were unable to obtain any as-built information for the timber bridges.</p> <p>Based on our review of information it appears likely the timber bridges have been replaced/repared at least once already (late 2015 or early 2016 for the PSEG project and perhaps a second time prior to Clean Earth (processing dredge with Great Lakes) demobilizing in late 2020.</p> <p>We request the following items specific to the two timber bridge crossings over the superfund SCCC eastern slurry wall on the Koppers property.</p> <ol style="list-style-type: none"> 1. Review comments and approval of east and west timber bridges over the slurry wall installed around 2012 and 2013/2014 respectively. 2. Copy of approved design plans and as-built plan of the east and west timber bridges over the slurry wall installed around 2012 and 2013/2014 respectively. 3. Review comments and approval of east and west timber bridges over the slurry wall installed per the 2015 Mohlin plan for PSEG Transmission Tower work. 4. Copy of approved design plans and as-built plans of the east and west timber bridges over the slurry wall installed around late 2015 to early 2016. 5. If that website moved or can be made public again, I can pull the data I need from that website. Otherwise, I will need 2 files from the database. The first one contains sampling information for all regulated and unregulated contaminant testing results (ex. inorganic, organic, VOC, radiologicals, PFAS, etc.) for all Community and non-Community systems in Washington DC for samples taken in calendar years 2020, 2021 and 2022. Fields should include PWS ID, contaminant code, contaminant name, result, units, sample date, sample type (ex RT - Routine, RP - Repeat, SP - Special, CO - Confirmation, etc), sample point information (ID, type and name), and facility information (ID, type, name).</p> <p>The second file will contain a handful of records on the water systems: PWS ID, system name, population served, primary source of water (GW, SW, GWP, SWP, etc.), and address information.</p>	04/05/2023
2023-R04-03513	Douglas Jr., Danny	-	I am requesting any documents regarding any inspections or requests for inspections for any solar farm projects in Irwin County, Georgia. From the information gathered from the county, they are trying to circumvent or amend ordinances to allow solar farms to be installed on AU (Agriculture Use) land rather than having it rezoned as RC (Rural Commercial). This is being done to reduce the environmental regulations for the projects. Currently, Irwin County has potential solar farm projects totaling approximately 2,000 acres of land. Most of this land is farmland currently in production. I am concerned with soil and water conservation if EPA regulations are avoided due to land not being properly zoned.	04/05/2023

This is a request for records pursuant to the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA").

04/06/2023

REQUESTED RECORDS

1. Results of any indoor air quality samples collected in the homes of residents of East Palestine, Ohio or surrounding areas in response to the Norfolk Southern train derailment on February 3, 2023. Any residents' personally identifiable data may be removed or anonymized.

2. Any codebook or data dictionary that accompanies the test results or is necessary to understand the results.

In addition to the records described above, provide any processing notes produced in the course of fulfilling this request and any records that, because of their nature or subject matter, are substantially the same as the records described above and have been previously disclosed, are the subject of currently pending requests or are likely to become the subject of subsequent requests.

FORMAT OF REQUESTED RECORDS

If this request is denied in whole or in part, justify all deletions or withholdings by reference to specific exemptions in the FOIA.

When possible, produce responsive records in their native, digital formats and include their original metadata, not as hard copy facsimiles or PDFs. For example, spreadsheets created in Microsoft Excel should be provided in an .xlsx format. Emails should be provided in common email file formats, such as .pst files for collections of emails or .eml files for individual emails.

Data should be provided in a non-proprietary, machine-readable format, such as comma separated values (.csv). Included is a request for a record layout for the database and a data dictionary for any codes used in the database.

TIME LIMITS FOR RESPONSE

If you expect this request to take longer than ten (10) working days to process, we expect an acknowledgment letter and tracking number within that time or no later than Tuesday, April 18, 2023.

We expect a final grant/denial determination on this request within twenty (20) working days after receipt by the appropriate office or no later than Tuesday, May 2, 2023.

If you are unable to fulfill this request within that period, produce information as it becomes available (i.e. on a "rolling" basis) and an explanation for the circumstances requiring an extension of time and an estimated date on which you expect to finish processing this request.

I hereby certify that the foregoing is true and correct to the best of my knowledge and belief.

We expect a determination regarding this request for expedited treatment within ten (10) calendar days, or no later than Friday, April 14, 2023.

Please direct questions and responsive information concerning this request to alex.matthews@warnermedia.com.

This is a request for records pursuant to the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA").

04/06/2023

REQUESTED RECORDS

1. All plans related to hazardous waste disposal from the East Palestine submitted by Norfolk Southern to the EPA for review.
2. An itemized list of the costs incurred by the EPA from clean-up efforts, as well as monitoring water, air, and soil contaminants, which will be reimbursed by Norfolk Southern, and a breakdown of which costs have already been reimbursed, and which are still pending.
3. An itemized list of the costs incurred by the EPA from clean-up efforts, as well as monitoring water, air, and soil contaminants, for which the EPA does not anticipate reimbursement.
4. A list of the fines levied by the EPA against Norfolk Southern related to the hazardous waste spilled in the East Palestine derailment.

In addition to the records described above, provide any processing notes produced in the course of fulfilling this request and any records that, because of their nature or subject matter, are substantially the same as the records described above and have been previously disclosed, are the subject of currently pending requests or are likely to become the subject of subsequent requests.

FORMAT OF REQUESTED RECORDS

If this request is denied in whole or in part, justify all deletions or withholdings by reference to specific exemptions in the FOIA.

When possible, produce responsive records in their native, digital formats and include their original metadata, not as hard copy facsimiles or PDFs. 2023-R06-03538	Bruner, Aaron	Western Resources Legal Center	This request generally concerns documents related to the National Pollutant Discharge Elimination System ("NPDES") general permits for offshore oil and gas development in the Gulf of Mexico. The EPA released a draft of the Outer Continental Shelf ("OCS") general permit for the western and central Gulf of Mexico ("Region 6") in July 2022. To the knowledge of WRLC, the EPA has yet to issue the final Region 6 general permit, while the previous permit expired as of September 2022. The EPA also has not yet issued a new general permit for the eastern Gulf of Mexico ("Region 4"), where the previous permit expired in January 2023. The request generally seeks both an update on the status of these general permits as well as records reflecting any discussions with interested stakeholders or other Federal agencies. The specific details of the request are contained in the attached PDF.	04/06/2023

2023-OCSP-03572	Horan, Jennifer	ERIS	Good Afternoon! I would like to request the most current nationwide version of the Polychlorinated Biphenyls (PCB) Transformer Registration Database (to include current and historical sites, as far as PCB transformer registrations date back) for all ten EPA Regions in Excel format. My prior fulfilled FOIA Request for this data (EPA-2022-001881) was received in February of 2022. The Excel file I was provided at that time was dated for October 15, 2019. If there have been any updates to this data, I would like to request the most current version available. I submitted a FOIA request in November of 2022 also in attempt for a newer data file (EPA-2023-000743); however, the result of that request was that no records or updated file was yet available. For this new request, I'm checking in again to see if one may now be available. In that October 15, 2019 data file (received in February of 2022), two worksheets were included. The first worksheet was named "Complete PCB Listings" and the second worksheet was named "Current PCB Listings". If this data has been updated since the October 2019 version I received in February of last year, could I please request a copy of the latest file available in the same file format along the same fields per worksheet as previously received. I have attached a copy of that file as it was provided to me for reference. Thank you very much for your time and assistance! Have a nice day!	04/07/2023

2023-R09-03584	Strine, Scott	Dermody Properties	<p>Hello,</p> <p>We are looking to purchase a property located in northwest part of the City of San Bernardino, California near Plam Avenue on the west side of the I-215 freeway. The property falls within the limits of the former military base (Camp Ono), which operated from 1942 to 1947. Camp Ono is tied together with the Newark Superfund site. We've been looking through the information posted on the U.S. EPA Superfund site, which has been very helpful.</p> <p>However, it doesn't appear that all the information accumulated over the years is posted up to this website. We think the information listed in each of the Administrative Records is only a partial list of what actually exists. We'd like to receive a complete list of all available documents and reports for the Newmark Superfund site (EPA ID: CAD981434517). We intend to review the list looking for items of interest, which possibly might lead to a future FOIA request.</p>	04/07/2023

2023-R10-03629	Steadman, Jane	on behalf of Port Gamble S'Klallam Tribe	<p>The attached FOIA request is sent on behalf of the Port Gamble S'Klallam Tribe and includes a fee waiver request. Please note that we believe most, if not all, of the requested documents would be located at EPA Region 10, but we have included EPA Headquarters in the "Additional Information" box below in the event we are incorrect about that assumption.</p> <p>Email from EPA to requester on July 6, 2023:</p> <p>First, you clarified that you are not requesting any Superfund or CERCLA program records. The focus of your request is on Clean Water Act records.</p> <p>At this point, the remaining categories of records that you seek are:</p> <ol style="list-style-type: none"> 1. Erom the second bullet of your original request - all Discharge Monitoring Reports (DMRs) submitted by the Navy to EPA under any of these permits from January 1, 2018 to April 10, 2023 (the date of your request); all notices and reports of exceedances of permit limits or noncompliance with permit requirements for each of these NPDES permits from January 1, 2018 to April 10, 2023; and all informal or formal enforcement evaluations, reviews, and notices. 2. A IDDE program reviews and IDDE studies related to any IDDE plan produced in response to the preceding bullet point. 3. A stormwater monitoring reports, analyses, results, summaries, and data at, from, or related to Naval Base Kitsap-Bangor. <p>We also clarified that "discharges to adjacent marine waters" in your request relates to the U.S. Naval Base Kitsap-Bangor and not to any third-party site or property.</p> <p>Email from requester to EPA on July 10, 2023:</p> <p>I believe we have an overall mutual understanding of the request, subject to two caveats:</p> <ol style="list-style-type: none"> 1. While we are not requesting any Superfund or CERCLA program records, the request is seeking records regarding unpermitted discharges, spills, etc. that may not be limited to Clean Water Act records. As such, the request is seeking records in EPA's possession, custody, or control from Naval Base Kitsap-Bangor that may not be associated with specific Clean Water Act permit exceedances or noncompliance. 2. Eor discharges occurring in adjacent marine waters, that is correct that the request does not relate to any third-party site or property but the request is still seeking records of unpermitted or noncompliant discharges, spills, etc. from the Navy and its agents in adjacent marine waters. For example, a discharge from a Navy vessel or a Navy contractor's vessel in Hood Canal coming or going into Naval Base Kitsap-Bangor. 	04/10/2023

2023-OECA-03644	Abrams-Kelly, Nicole	Global Existence Foundation	<p>Thank you, jpi</p> <p>Modification on 4/17/2023: I, Nicole Abrams-Kelly, filed two "submissions" in January 2023 through EPA's ECHO website here: https://echo.epa.gov/report-environmental-violations. I used this page to report what appeared to me to be a possible violation of environmental laws and regulations. I was informed after the submission that no status update would be provided. However, under FOIA, I request a copy of the "final report" if this EPA record exists, that EPA may have created as a result of my two January 2023 submissions on the EPA's ECHO website.</p> <p>1. Submission #1, submitted by me on January 9, 2023 at 1:29 PM EST; suspected violator's name: North Carolina Charlotte-Mecklenburg Utilities (CMUD); suspected violation location: Huntersville, NC; violation method: falsified; Affected Subject: Air, Land, Water; Violation Description: can be provided upon request.</p> <p>2. Submission #2: submitted by me on January 9, 2023 at 2:04 PM EST; suspected violator's name: Willingboro township, NJ and Willingboro Municipal Utilities Authority located in Willingboro 08046. violation method: falsified; Affected Subject: Air, Land, Water, Worker, Documents; Violation Description: can be provided upon request. This suspected violation is still occurring and intention is accidental. My ECHO submission included a video file.</p>	04/11/2023
2023-OW-03647	Santucci, Dionna	Emerson College	<p>Dear FOIA Personnel,</p> <p>I am writing to request information related to water quality on Native American reservations. Specifically, I would like to request any and all documents, reports, and data related to water quality testing and monitoring on Native American reservations for the past 10 years.</p> <p>As you may be aware, water quality is a critical issue for many Native American communities, which often face significant challenges in accessing clean and safe drinking water. I believe that the information I am requesting will shed light on the current state of water quality on Native American reservations and help to identify areas where the action is needed to protect public health and the environment.</p> <p>To the extent possible, I would like the information provided in electronic format. If it is not possible to provide the information in electronic format, please let me know the cost of copying and mailing the records. If you need clarification on the type of information I desire and am requesting, please reach out to me and I will provide any additional clarification needed.</p> <p>In order to help to determine my status to assess fees, you should know that I am a college student attending Emerson College and majoring in journalism. This request is part of my research into a possible story idea regarding modern-day water quality on Native American reservations.</p> <p>According to the statute, this request should be acted upon as soon as possible, but in no event later than the 20th business day following receipt of this letter. If access to the records I requested is going to take longer, please contact me so we can work out a reasonable date.</p> <p>Please let me know if you have any questions or require additional information to process this request. I look forward to your response.</p> <p>Sincerely,</p> <p>Dionna Santucci</p>	04/11/2023

2023-OECA-03702	Bjorhus, Jennifer	Star Tribune	<p>The Star Tribune requests simple summary information. We need the total number of written requests the EPA has received since 2018 asking the EPA to invoke its powers under section 1431 of the Safe Drinking Water Act, specifically regarding nitrate contamination, and whether there may be an imminent and substantial endangerment involving a public water system or an underground source of drinking water and whether state and local authorities have acted to protect public health. The number should include how many requests regarding nitrate were found to actually be about an imminent and substantial endangerment and whether state and local regulators acted sufficiently to protect public health -- ie, how many of these requests were supported vs. denied. My drop dead deadline is Friday, April 21. Thank you.</p>	04/13/2023
2023-OECA-03708	Bleckley, Jeb	Banks Environmental Data, Inc.	<p>I would like a nationwide data download of all the facilities and pollutants tracked by the ICIS-Air system. I see that the facility data is available via the FRS download, but that information has no pollutant information. I would like specifically the pollutant types, with an ID attached to each that will correspond to something in the FRS nationwide download so that I can correlate the pollution and facility data together. I would prefer something like csv, much like how the FRS download is organized.</p> <p>If there is some other way to get me the facility and pollutant information that what I have requested, I would be happy with that, so long as it has facility location information, ID numbers, and the pollutant.</p> <p>Thank you for your help with this, and have a great day.</p>	04/13/2023

Dear FOIA Officer,

Aaron Chapman seeks the release of records from January 1, 2017 to present date -including legal and policy memoranda; guidance documents; instructions; training documents; formal and informal presentations; directives; communications (including correspondence, guidance or internal memorandum), contracts or agreements; and memoranda of understanding-

a. Any entities conducted or authorized any entity to conduct nonconsensual surveillance on specifically identified United States person Aaron L Chapman Date of Birth [Date of Birth removed - personally identifiable information], located in Higginsville, MO 64037

1. If Aaron Chapman has had informed consent waived, Aaron Chapman invokes his legal right to request revocation and termination. Please cease and desist.

b. Non-exempt (subject environment is manipulated) Human subject research of air quality and air ionization of subjects environment by inducing alternating current on HVAC ductwork. Blower motor loosened to induce vibration for static discharge.

!_! If research is considered classified, subject invokes their right from post-2018 common rule to request civilian access as subject involved.

With respect to the form of production, see 5 U.S.C. § 552(a)(3)(B), Aaron Chapman requests that responsive electronic records be provided electronically in their native file format, if possible. Alternatively, Aaron Chapman requests that the records be provided electronically in a text-searchable, static-image format (PDF), in the best image quality in the agency's possession, and that the records be provided in separate, Bates-stamped files.

If the Request is denied in whole or in part, Aaron Chapman asks that you justify all deletions by reference to specific exemptions to FOIA. Aaron Chapman expects the release of all segregable portions of otherwise exempt material. Aaron Chapman reserves the right to appeal a decision to withhold any information or deny a waiver of fees.

FEE WAIVER

Aaron Chapman requests a waiver of document search, review, and duplication fees on the grounds that disclosure of the requested records is in the public interest and because disclosure is "likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester." 5 U.S.C. § 552(a)(4) (A) (iii). *I Aaron Chapman also requests a waiver of search fees on the grounds that Aaron Chapman qualifies as a "representative[] of the news media" and the records are not sought for commercial use. 5 U.S.C. § 552(a)(4)(A) (ii)(I)A . The Request is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of Aaron Chapman.

As discussed above, news accounts underscore the substantial public interest in the records sought through this Request. Given the ongoing and widespread media attention to this issue, the records sought will significantly contribute to public understanding of an issue of profound public importance. Because little specific information about the government's use of surveillance is publicly available, the records sought are certain to contribute significantly to the public's understanding of the law, policies, and process being applied by government agencies in their reviews of authors' works.

Aaron Chapman is not filing this Request to further its commercial interest. As described above, any information disclosed by Aaron Chapman as a result of this FOIA Request will be available to the public at no cost. Thus, a fee waiver would fulfill Congress's legislative intent in amending FOIA. See Judicial Watch, Inc. v. Rossotti, 326 F.3d 1309, 1312 (D.C. Cir. 2003) ("Congress amended FOIA to ensure that it be liberally construed in favor of waivers for noncommercial requesters." (quotation marks omitted)).

2023-NFO-03756	Davies, Emily	WSAW/WZAW-TV	<p>Dear FOIA Officer:</p> <p>Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all communication records, including but not limited to email, between U.S. Environmental Protection Agency staff and Dr. David Belluck from 2019 through the present and all records related to that communication. I request access and copies to all communication records between U.S. Environmental Protection Agency staff and the World Health Organization for communication related to nitrate contamination in water from 2019 through the present and all records related to that communication. In addition, I request access and copies of all records used to create the original drinking water standards for nitrate.</p> <p>I would like to receive the information in electronic format where possible and sent via email, a cloud server such as Dropbox or a similar vehicle if available. If those formats are not possible, then I request the electronic version of records to be sent via thumb drive. I am happy to discuss options.</p> <p>I agree to pay reasonable fees for the processing of this request up to \$50. Please notify me before incurring any expenses in excess of that amount.</p> <p>Fee Categorization</p> <p>For fee categorization purposes, I am a representative of the news media. Through this request, I am gathering information for my journalistic work with WSAW/WZAW-TV, NewsChannel 7. WSAW/WZAWTV is a television broadcast news organization under Gray Television that provides information to the public in north-central Wisconsin, along with distributing content to affiliates around the state and country. Accordingly, I am only required to pay for the direct cost of duplication after the first 100 pages. 5 U.S.C. § 552(a)(4)(A)(ii)(II); id. § 552(a)(4)(A)(iv)(II).</p> <p>Request for Fee Waiver</p> <p>Please waive any applicable fees. Release of the information is not primarily in my commercial interest and will contribute significantly to public understanding of government operations and activities. 5 U.S.C. § 552(a)(4)(A)(iii). The records requested help provide understanding as it pertains to the evidence behind how drinking water standards are decided, created, and updated.</p> <p>Request for Expedited Processing</p> <p>Please provide expedited processing of this request which concerns a matter of urgency. As a Journalist, I am primarily engaged in disseminating information. The public has an urgent need for information about safe drinking water and the evidence behind the standards for drinking water contaminates because of potential recent discoveries, as laid out in a public forum in Wisconsin by Dr. David Belluck, point to possible evidence of missed data, science, and documentation may have led to drinking water standards related to nitrate that do not protect the public against methemoglobinemia as the standard is intended. I certify that my statements concerning the need for expedited processing are true and correct to the best of my knowledge and belief.</p> <p>Conclusion</p> <p>If my request is denied in whole or part, please justify all withholdings by reference to specific exemptions and statutes, as applicable. For each withholding please also explain why your agency “reasonably foresees that disclosure would harm an interest protected by an exemption” or why “disclosure is prohibited by law[.]” 5 U.S.C. § 552(a)(8)(A)(i).</p>	04/17/2023

2023-R04-03844	Nush, Spencer	HDR Engineering	<p>Hello,</p> <p>My organization would like to request information related to the Bullitt County Landfill located in Bullitt County, KY, also known as the Bullitt Co. Residential Landfill, for the purposes of a Phase I Environmental Site Assessment. The facility has an Environmental Identification number of 1000908103 under the ECHO database. Under the SHWS database, the facility is listed as a State Superfund Site that is currently closed and restored under Closure Option: Option C Restored with a closure date of 2/23/1995. The facility has an identification number of 435 under the SHWS database. Environmental Data Resources (EDR) locates the Bullitt County Landfill on Collins Hill Road, Lebanon Junction, KY 40150, despite "Collins Hill Road" not existing (I think the EDR means "Collings Hill Road") and with a latitude and longitude of: 37.877305, -85.723851. Finally, here is the URL for the facility's Envirofacts database page: https://frs-public.epa.gov/ords/frs_public2/fii_query_dtl.disp_program_facility?p_registry_id=110008357321. Thank you!</p>	04/20/2023

2023-R05-03912	Emmons, Jenny	-	<p>I am requesting information about the barn that was torn down, burned, and buried by the farmer, Ken Dye, and Ishmael Construction, Inc. on the adjacent property. This happened on April 4, 2023. The burn site was approximately 100 feet from my house. My husband and I filed a police report as soon as we got home from work and discovered the fire that day. It was an extremely windy day, and the smoke was thick and blowing right at our house. However, we were told by the deputies who responded that our county states attorney would not pursue charges against the farmer. So the fire was allowed to burn. It burned for 10 days. It consisted of the barn debris, tires, rubber roofing, and metals. During this time, we weren't able to open our windows, if we went outside, we smelled smoke and our hair and clothes then smelled like smoke, and even the clothes and towels that were dried in our dryer smelled like smoke during this time. The name of the owner/farmer is Ken Dye. The property is listed as Dye Family Farm Revocable Living Trust, and is located near Lewistown, IL.</p>	04/25/2023

2023-OAR-03983	Turner, Maxwell	Electrification Coalition	We are requesting the contact information (Name, email, phone number, school district, or any combination of this information) for the point of contact for all school districts that applied to the EPA's Clean School Bus Program, whether they were denied, waitlisted, or approved for funding. This information will allow us to use the resources and expertise our organization has developed to aid school districts in planning and building out their electric school bus fleet and necessary infrastructure. One of the resources our organization has designed is a fleet procurement tool, called the Dashboard for Rapid Vehicle Electrification (DRVE Tool). The DRVE Tool quickly analyzes unique fleet data to identify total cost and emissions savings of various electric vehicle models and electric school buses to ensure proper fleet purchasing on a case-by-case basis for school districts. Additionally, we have convened and planned four state-level electric school bus roundtables, bringing together early adopter school districts, utilities, OEMs, charging companies, state and federal agencies and lawmakers and NGO partners to educate and inform ESB decision-making. We would like to share these resources with interested school districts as they consider their next steps and how they engage with the EPA's Clean School Bus program and complementary state and utility programs. If possible, we would also request that the requested information be sent to the email attached to this form.	04/28/2023

2023-R09-04018	Gjovik, Ashley	-	<p>These records are responses to formal questions posed by lawmakers in association with witness testimony at congressional committee hearings.</p> <p>Hello. This request is for a specific document and email related to the TRW Microwave Superfund site at 825 Stewart Dr Sunnyvale CA. The R9 team is already aware this request is incoming. In February 2023, EPA approved a vapor intrusion testing plan for the site [see https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.scs&id=0901181&doc=Y&colid=40417&region=09&type=SC] & instructed the team to perform the testing in the month of March 2023. Per the plan, the team was given 30 days to submit their report of results to the EPA following testing. EPA told me I could not request the report via FOIA until EPA had it in hand, but also wouldn't tell me when it was recieved. It has now been 30 days since the end of March, so the report should have been submitted to the EPA already. I'm requesting a copy of the report & the email chain with the Northrop/Apple team sending the report to the EPA & any comments/replies from EPA about the report in that specific email chain. This request is very precise & EPA has known I want this information for months, so I expect a prompt turn around, please and thank you. As EPA knows, this report & information is material & very time sensitive to my open whistleblower retaliation cases, and it also will inform me about my own personal chemical exposure(and cancer risk) at the site (which used to be my office), and that of my coworkers, and is one of the subjects of the disclosures/complaints I made leading to my retaliatory termination.</p>	05/01/2023

2023-OMS-04020	Chase, Andrew	-	<p>Seeking an single Mass Mailer email relating to EPA's use of AI products and/or chatGPT dated on or about May 1st, 2023.</p> <p>Exemption 2 does not apply to the potential mass mailer if it exists as the decision has a "genuine and significant public interest" in that it relates to whether or not federal agencies are using this new technology which has been in the public focus and how this affects society and public oversight of the agency. Courts in Church of Scientology v. Smith held that "a reasonably low threshold should be maintained for determining when withheld administrative material relates to significant public interests." Given that only a single record is being requested, the administrative burden should be low.</p> <p>Public discussion on this matter allows the public, scientific researchers, and other interested stakeholders contribute to the discussion on how, if at all, this technology is used in government, and what safeguards should be put in place if such technology is allowed.</p> <p>Exception 5 does not apply to the mass mailer if there is a final decision on the matter (though this decision is potentially temporary in time duration).</p> <p>Thank you!</p>	05/01/2023

2023-R05-04049	Kingston, Hudson	-	<p>(NOTE to FOIA Officer: Selected for Awareness Notification)</p> <p>THIS FOIA REQUEST MERGES EPA-R5-2023-004049 and EPA-R5-2023-004051</p> <p>THE FOLLOWING IS THE ORIGINAL FOIA REQUEST EPA-R5-2023-004049</p> <p>(From attachment) On July 8, 2022, Congresswoman Debbie Dingell sent a letter to Debra Shore, Regional Administrator for EPA Region 5, "with utmost urgency concerning the ongoing contaminated groundwater releases entering the Detroit River from the BASF site in Wyandotte, Michigan." (Letter available at https://debbiedingell.house.gov/uploadedfiles/20220708_dingell_epa_basf_contamination.pdf)</p> <p>The letter went on to say: "My office is again receiving reports of alarming rates of contamination releases entering this waterway, which was initially referenced and troubling to learn in your April 5, 2022 response letter regarding the status of the dredging project in the Upper Trenton Channel. On behalf of my concerned constituents and our shared commitment to protect human health and our environment, it is critical that the U.S. Environmental Protection Agency (EPA) swiftly develop an action plan for enforcement actions and develop resources to better inform the public to prevent further public harm."</p> <p>The letter notes that the BASF site is known to be a source of PFAS pollution to the drinking water intake of the city of Wyandotte. And that EPA has had BASF under an Administrative Order on Consent since 1994, "so it is concerning to learn that BASF may not be in compliance with the order as contaminated groundwater continues to enter the Detroit Rivers." The letter then asks EPA to answer five questions regarding the data it has available and what monitoring, testing, and solutions EPA has planned or implemented for the site.</p> <p>The letter goes on to say: "I urge EPA to escalate enforcement to protect Wyandotte residents immediately. Additionally, we need to be able to assure the citizens of Wyandotte that their drinking water is safe, while also staying focused on completing the important work to remediate the Detroit River and protect the Great Lakes for everyone in the region. EPA should develop a robust community outreach program and a website to better inform the public about the corrective action order, testing results, and timeline of this contamination."</p> <p>PEER seeks records that demonstrate EPA's answer(s) to the Congresswoman's requests and that illustrate action taken by EPA to address the issues raised in the letter.</p> <p>PEER requests the following records for the time period July 8, 2022, to present:</p> <ol style="list-style-type: none"> 1. Emails, documents, memos, letters, messages, meeting materials, or other records which indicate EPA's response to Congresswoman Dingell's July 8, 2022, letter. This should include any attachments or further follow-up if there were supplemental materials provided. 2. Records regarding the records described in #1. This includes any communications within EPA, with the permitted party, or with state or local regulators to facilitate the response. 3. Records of how EPA "escalate[d]" enforcement to protect Wyandotte residents" as described in the letter. 4. Records of EPA communications regarding EPA efforts described in #3. 5. Records of EPA development of "a robust community outreach program" as described in the letter. 6. Records of EPA communications regarding EPA efforts described in #5. <p>PEER specifically requests that a search be conducted of the agency's SharePoint, Google Drive, DropBox, or any similar system of file storage and management, as well as files stored locally on any relevant custodian's hard drive or cloud-computing OneDrive system.</p> <p>This request includes all final documents that have ever been within the agency's custody or control, whether they exist in agency "working," investigative, retired, electronic mail, or other files. All electronic records should be delivered in their original file format with original metadata and any attachments included. Physical records should be scanned or otherwise converted into electronic</p>	05/03/2023
2023-NFO-04066	Seibel, Isabelle	-	<p>I am requesting information on two towers located on the property of 6726 Lithia Pinecrest Rd, Lithia FL 33547. The towers that currently reside on the grounds are not listed as being on this property but are erroneously documented as being at 6766 Lithia Pinecrest and corner of Pinecrest Rd and Browning. The corresponding coordinates have been misleading. Neither are correct, but a search on google maps will show the towers for reference. I am requesting any environmental reviews of these towers relating to human exposures. There are currently humans residing on the grounds -only a few feet from the main tower. In addition, any information as to the bald eagles that use the tower or reports of other birds of prey that have died as a result of the tower. There have been reports of vultures and a female Osprey that have died as a result of the tower. Any and all assessments of human and environmental exposures as mandated by law. 2023-NFO-04095	Reynolds, Mariana	Wakefield High School	<p>Hello, my name is Mariana Reynolds. I am a sophomore at Wakefield High School. I am doing a project in my AP government class. For my assignment I wanted to contact your organization, The Environmental Protection Agency. I am curious about how your agency works. I wanted to know how you deal with environmental problems happening in the US, but also around the world. And depending on the problem, how do you determine how much money you would invest into solving these problems. I also wanted to know, how I am able to become a part of this organization in the future because I love learning about the environment and discovering news things? Thank you, I appreciate your time.</p> <p>Mariana Reynolds</p>	05/05/2023
2023-OMS-04104	Meek, Aaron	The George Washington University	<p>I am a current political science PhD student at The George Washington University. I am entering the dissertation stage of my program and am conducting data feasibility checks in preparation for my prospectus, which is focused on administrative law judges and their political environment. The EPA is one of my case studies. To more fully conduct the data feasibility checks, I am seeking information on the full set of ALJs that have served at EPA since the agency's creation. At a minimum, this information would ideally include the ALJ's name, dates of tenure as an agency ALJ, and the official who appointed the ALJ; any other additional information that is publicly-available (other government personnel records for the official) would be extremely helpful as well. In the course of the dissertation process, no personal identifying information for the officials will be used publicly, and any privileged information will be withheld as needed. I am happy to answer questions at any time.</p>	05/05/2023
2023-OECA-04112	Shapiro, Joseph	University of California, Berkeley	<p>I request records of enforcement records for Section 404 of the Clean Water Act. Ideally this would be a tabular dataset (e.g., a spreadsheet, txt, csv, or similar file), covering all available years. Ideally the dataset would report on each individual enforcement case (e.g., each enforcement case could be a separate row in the dataset). I request all available variables on each enforcement case. The most important variables are the date(s) when the potential violation was learned about and when the enforcement actions occurred, the coordinates (longitude and latitude) or other geolocation of the potential violation site, any conclusion about whether the case was determined to be a violation or not (whether Waters of the United States are present), any information on what Cowardin code, resource type, or other Waters of the United States were determined to be present, what basis (Rapanos, Navigable Waters Protection Rule, or Clean Water Rule) was used to evaluate the site, what penalties or other enforcement actions occurred, and whether an Army Corps Engineer conducted a site visit.</p>	05/05/2023

Freedom of Information Act Request

To Whom It May Concern:

This is a request under the Freedom of Information Act. Per the statute, please provide responsive records within 20 business days.

The time period for this request is January 1, 2010 to present.

Please provide a list of all cleanup workers that were a part of the Deepwater Horizon oil spill settlement with the company BP. This Agency was a part of the Deepwater Horizon Natural Resource Damage Assessment Trustee Council that managed the BP settlement.

See for more information: <https://www.gulfspillrestoration.noaa.gov/co-trustees>

I am not asking this Agency to create a document. I am asking if a list of all those who received settlement payments as part of the BP settlement was compiled to please provide that list.

Please provide all records in a machine readable format, including, whenever possible, having performed Optical Character Recognition (OCR) on .pdf files. Word or .doc and/or .docx files are acceptable. If applicable, spreadsheets, whenever possible, should be provided in .csv or .xlsx format.

I request all communications and responsive records regarding this request to be sent electronically to the email provided.

I preemptively agree to pay fees up to \$100 for the search and production of the above-described records and ask to be notified only if the estimated fees exceed that amount. Once records are compiled, please justify each deletion separately by reference to specific exemptions of the law and release all reasonably segregable portions of otherwise-exempt material.

I look forward to your response within the act's statutory time limit.

Thank you for your acting in a timely manner on this request.

Sincerely,

Jeremy Borden

Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. § 552), and EPA's freedom of information regulations, I am writing to request information regarding the chemical substance, Silanamine, 1,1,1-trimethyl-N-(trimethylsilyl)-, reaction products with ammonia, octamethylcyclotetrasiloxane and silica with Chemical Abstracts Service Registry Number (CASRN) 68937-51-9. Specifically, please provide the Toxic Substances Control Act (TSCA) (15 U.S.C. § 2601 et seq.) Inventory Reporting forms (either "Form A's", "Form B's", "Form C's", "Form D's", PMNs, or any such forms) that were used to report this substance for the TSCA Chemical Substance Inventory ("TSCA Inventory"). Please note that we are requesting copies of the original TSCA Inventory form(s) reporting this substance, not, for example, a computer printout indicating receipt of reporting form(s). We are also not requesting any TSCA Inventory Update Rule or TSCA Chemical Data Reporting Rule forms submitted for this substance.

2023-OW-04116	Jin, Yingyi	Department of Resource Economics, University of Massachusetts Amherst	<p>To whom it may concern,</p> <p>I am writing to request information on consecutive water systems (water systems that purchase water from other water systems) and water rates. This request is for academic research conducted by Dr. David Keiser and Yingyi Jin (PhD Student) at the Department of Resource Economics at University of Massachusetts Amherst.</p> <p>Our research seeks to understand the economic impacts of water system regionalization and partnerships. We noticed from EPA's that more than half of community water systems in violation were consecutive systems (https://www.epa.gov/dwreginfo/diving-regulations). We would like to request information about all consecutive water systems. Ideally, the data we seek would contain the following information about water systems:</p> <ul style="list-style-type: none"> • ID number and name of consecutive water system (the water system purchasing water source). • The ID number and name of wholesale water system (the water system providing water sources). • Dates of when connections were made between systems. • Type and amount of funding information that supported this connection (i.e., grant number, grant dollar amount, loan number, loan dollar amount, interest rate of loan, conditions of loans and grants, year of funding). • Water rates for purchasing from wholesalers. • Maximum approved water quantity (if applicable). • Timeframe: we request records for all years that these connections have been available. For example, if the water rates and water quantity change over time, we request the records since the connection began. <p>We are aware of the publicly available sources for this information, namely from the Safe Drinking Water Information System (SDWIS) Federal Data Warehouse. We are able to distinguish consecutive water systems by selecting from the "Primary Source" option, but unfortunately, we cannot link to their wholesalers who provide the water sources, the fundings as well as the water rates.</p> <p>If there are any fees for searching or copying these records, please inform me if the cost will exceed \$100. However, we would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of the costs and benefits of public water system regionalization. This information is for academic research and is not being sought for commercial purposes.</p> <p>Please let me know if you have any questions or need any additional clarifying information. Thank you for considering our request.</p>	05/08/2023

FOIA REQUEST
Fee waiver requested

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all communication records, including but not limited to email, between U.S. Environmental Protection Agency staff at the Office of Water and Dr. David Belluck from 2019 through the present and all records related to that communication. In addition, I request access and copies of the scientific evidence records used to create the original drinking water standards for nitrate.

I would like to receive the information in electronic format where possible and sent via email, a cloud server, or a similar vehicle if available. If those formats are not possible, then I request the electronic version of the records to be sent via thumb drive. I am happy to discuss options.

I agree to pay reasonable fees for the processing of this request up to \$50. Please notify me before incurring any expenses in excess of that amount.

Fee Categorization

For fee categorization purposes, I am a representative of the news media. Through this request, I am gathering information for my journalistic work with WSAW/WZAW-TV, NewsChannel 7. WSAW/WZAWTV is a television broadcast news organization under Gray Television that provides information to the public in north-central Wisconsin, along with distributing content to affiliates around the state and country. Accordingly, I am only required to pay for the direct cost of duplication after the first 100 pages. 5 U.S.C. §552(a)(4)(A)(ii)(II); id. § 552(a)(4)(A)(iv)(II).

Request for Fee Waiver

Please waive any applicable fees. Release of the information is not primarily in my commercial interest and will contribute significantly to public understanding of government operations and activities. 5 U.S.C. §552(a)(4)(A)(iii). The records requested help provide understanding as it pertains to the evidence behind how drinking water standards are decided, created, and updated.

Request for Expedited Processing

Please provide expedited processing of this request which concerns a matter of urgency. As a Journalist, I am primarily engaged in disseminating information. The public has an urgent need for information about safe drinking water and the evidence behind the standards for drinking water contaminants because potential recent discoveries, as laid out in a public forum in Wisconsin by Dr. David Belluck, point to possible evidence of missed data, science, and documentation that may have led to drinking water standards related to nitrate that do not protect the public against methemoglobinemia as the standard is intended. I certify that my statements concerning the need for expedited processing are true and correct to the best of my knowledge and belief.

Conclusion

If my request is denied in whole or part, please justify all withholdings by reference to specific exemptions and statutes, as applicable. For each withholding please also explain why your agency "reasonably foresees that disclosure would harm an interest protected by an exemption" or why "disclosure is prohibited by law[.]" 5 U.S.C. § 552(a)(8)(A)(i).

A partial list of Example Submissions, Demonstrations and EPA responses prepared under the 2016 Exceptional Events Rule has been publicly posted by the EPA here: https://www.epa.gov/air-quality-analysis/example-demonstrations-and-epa-responses-prepared-under-2016-exceptional</p> <p>Document Request</p> <p>We seek copies of the following records submitted to and prepared by the EPA Regional Office between September 30, 2016, through May 08, 2023:</p> <p>1. All initial notification packages created by state, local, or tribal agencies now held by the EPA Regional Office. By this language, we intend to include emails or any other records of communication containing, for example, the potential date of event, relevant criteria pollutant, location, and potential regulatory decision affected (such as designation, classification, attainment determination, attainment date extension, or finding of SIP inadequacy leading to SIP call). An example of an Initial Notification Summary for PM2.5 from EPA Region 9 has been attached to this request.</p> <p>2. Any acknowledgement or response from EPA to initial notifications or notification packages, as described in 40 C.F.R. 50.14 (Table 2).</p> <p>3. All submissions of demonstrations of exceptional events related to criteria pollutants, as submitted by state, local, or federal authorities.</p> <p>4. 2023-OMS-04203	Sagert, Jacob	America First Policy Institute	<p>I request records for fiscal year (FY) 2022 and 2023 detailing the names and email addresses of all agency employees who are members of a collective bargaining unit, along with those employees that have deducted allotments sent to an exclusive bargaining representative under 5 U.S. Code § 7115 - Allotments to representatives. There is limited information available to agency employees in regards to the option to, and process of, requesting the cancelation of payroll deductions (through filing a SF1188 request) for labor union dues during annual "window periods". Dues rescission window periods affect the ability of federal employees to exercise their statutory right to refrain from supporting federal labor organizations and they have a right to be informed. The American public also has a right to know the extent to which collective bargaining units have influence in publicly funded federal agencies.</p>	05/12/2023

2023-R04-04200	HAWKINS, JOHN	Brinson Askew Berry	<p>I am submitting this request pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and 40 C.F.R. §§ 2.401(a)(1) and 2.406. We are seeking records pertaining to the EPA's investigation, regulation, and enforcement actions of per- and polyfluoroalkyl substances ("PFAS") and perfluorooctanoic acid ("PFOA"). Most of this relates to the activities within EPA Region 4, particularly in Georgia and Alabama.</p> <p>Brinson Askew Berry represents the City of Rome, Georgia, in the matter styled The City of Rome, Georgia v. 3M Company, et al., which is a civil action in the Superior Court of Floyd County, Georgia. In this case, the City of Rome alleges that the defendants negligently released PFAS and PFOA into the Conasauga River, which eventually merges with the Coosawattee River to form the Oostanaula River. The Oostanaula River flows into Floyd County, Georgia, where it merges with the Etowah River in downtown Rome to form the Coosa River. The Oostanaula River has served as a major source of drinking water for the City of Rome. The City of Rome is undertaking a massive project to filter PFAS and PFOA from its drinking water to meet the EPA's health advisories, at the cost of hundreds of millions of dollars to the City of Rome and its ratepayers. The City of Rome seeks money damages and other relief for the defendant's negligent release of these chemicals into the City of Rome's drinking water supply.</p> <p>Given the nature of this civil action, documents from the EPA contain important information and are key pieces of evidence for the City of Rome's case. There are multiple EPA documents that we intend to tender as evidence during the trial of this matter, the earliest of which dates back to 1979. Obviously, we need to authenticate these documents in accordance with the Georgia Evidence Code before the court will admit them into the evidentiary record.</p> <p>We have previously corresponded with the Office of the Regional Counsel in Region 4 (Atlanta), and we have provided Region 4 copies of the documents that we wish to have authenticated.</p> <p>We respectfully request that authenticated records be provided as soon as possible, as the trial begins on June 5, 2023.</p>	05/12/2023

2023-R04-04214	Dalton, Michael	Arielle Publishing	<p>Thank you for your time.</p> <p>I am looking for environment permits and any analysis for risks concerning the property at 2465/2433 Nursery Road, Clearwater, FL 33764.</p> <p>The building project involves two commercial buildings at the site. One building is a large school. They will be running 8000+ cars a week over the lot. We are concerned with the effect on the wildlife that lives at an adjacent Conservation Area. The gases from the car with water vapor will drain to the Conservation Area, especially during storms. Additional fluids from automotive leaks, debris from metallic brake pads, and particulate matter from automotive tires will enter the ecosystem.</p> <p>In a calculation based on a storm in April that hit the east coast of Florida, I estimated the effect on the surrounding properties. The 2465/2433 site would produce 290,000 cubic feet of discharge that will find its way to the Conservation Area. There is something wrong with this design, because it does not provide protection for neighbors or the animals that live near the Conservation Area. The volume of water will inundate adjacent regions with run off from the large commercial project during sudden storms or during hurricanes moving through the area.</p> <p>Kindly let me know the standards are applicable, any design manual links, and other information that will help us understand the hazards presented by the construction of two commercial building lacking apparent capability to hold significant volume of water on its property with resultant significant risk for the neighborhood.</p> <p>Thank you for your help.</p> <p>Regards,</p> <p>Michael Dalton For SNRG and neighbors in this area</p>	05/12/2023

2023-R05-04195	Boyers, Katie	Terracon Consultants, inc.	<p>Greetings,</p> <p>We, Terracon Consultants, Inc. (geotechnical/environmental engineers), are currently conducting a Phase I Environmental Site Assessment (ESA). I am requesting available information in the form of technical documents (i.e. compliance records, violation reports, monitoring events, closure reports, or corrective actions) regarding a property located at 5000 State Route 128 in Hooven, Ohio. The facility formerly operated under the facility name Chevron Environmental Management Company. Based on my knowledge of the area, I understand that this facility was formerly a Chevron refinery. In the database review, this former facility was identified in the Division of Emergency & Remedial Response's Database (DERR), 2020 Corrective Action Program List (2020 COR ACTION), and Corrective Action Report (CORRACTS) regulatory databases. I have the following information regarding the facility; DERR ID: 531000162 and EPA ID: OHD004254132. Please let me know if any additional information is warranted to process my request.</p> <p>Thank you, Katie Boyers</p>	05/12/2023

Harlan Crow has been the subject of recent reporting regarding undisclosed financial transactions involving US Supreme Court Justice Clarence Thomas, prompting nationwide public scrutiny – and current congressional review – of how financial disclosure laws are enforced. This request concerns relationships between Mr. Crow and government officials who were similarly subject to financial reporting requirements. 2023-R10-04235	Carter, Andrew	Partner ESI	<p>Hello,</p> <p>I am requesting records for the property at: 8328 and 8330 South Tacoma Way, Lakewood, Washington 98499 Parcel ID: 0220361006, 0220361027, 0220361012 Federal Brownfields Program Property ID 135081</p> <p>According to the online property profile page, this property received an assessment during 2009, a Phase I Environmental Assessment during 2011, and a Phase II Environmental Site Assessment during 2012.</p> <p>I would like to view these reports if they are available. I have also requested records from the Tacoma Pierce County Health Department.</p> <p>Thanks!</p>	05/15/2023
2023-OCFO-04223	Nguyen, Trung	Harvard University	<p>I am filing this request (this used to be part of FOIA EPA-2023-002182 but it was removed and I am filing this request separately) to ask for the following record:</p> <p>+ the budget (monetary budget) of each EPA regional office each year from 1996 through 2022</p>	05/15/2023
2023-OMS-04222	Nguyen, Trung	Harvard University	<p>I am filing this FOIA request to ask for the following record:</p> <p>+ the number of employees at each EPA regional office each year from 2014 through 2022.</p>	05/15/2023
2023-NFO-04226	Nguyen, Trung	Harvard University	<p>I am requesting the following record (this used to be part of FOIA request: EPA-2023-002182 but was removed from EPA-2023-002182, and I am filing this request separately here):</p> <p>+ Names of EPA employees working on and responsible for all the inspection, the inspection date range (begin and end date), the inspected facility ID at each inspection that occurred from 1996 through 2013 and</p> <p>+ if available, these additional relevant variables for each inspection such as actual_begin_date, actual_end_date, registry_id, pgm_sys_acrnm, facility name, epa_region_code, comp_monitor_types, statute_code, comp_monitor_agency_types (these variables are from the EPA data from EPA's Integrated Compliance Information System (ICIS).</p> <p>The reason I am requesting these additional relevant variables is to use them to match the inspector names back to EPA's Integrated Compliance Information System data, but it may be the case that that the names of the EPA employee working on each inspection, the facility ID, and the inspection dates are sufficient to merge back to ICIS if these variables are uniquely identified for each inspection case.</p>	05/15/2023

I request disclosure of the following records from the U.S. Environmental Protection Agency ("EPA") relating to the agency's investigation of Per- and Polyfluoroalkyl Substances ("PFAS") discovered in products made by Clarke Mosquito Control Products, Inc., and records pertaining to the investigation that found that the fluorination of plastic containers by Inhance Technologies ("Inhance") contributed to the contamination of Clarke's products. EPA's Office of Chemical Safety and Pollution Prevention ("OCSP") and Office of Enforcement and Compliance Assurance ("OECA") have been assessing this matter. ☐

In 2021, Clarke responded to EPA concerns about its packaging and pulled products from the market. This request applies to all records obtained or created by EPA between January 1, 2020, and the present. ☐

Specifically, I request: ☐

1. Records pertaining to and documenting the discovery of PFAS in Clarke products; ☐
2. Records pertaining to a potential Stop Sale Use and Removal Order (SSURO) of Clarke products, and any other discussions and/or records pertaining to remediation, and potentially FIFRA violations by Clarke; ☐
3. Transcripts and/or summaries of Telephone Calls and/or Video Calls between Clarke and EPA personnel, including but not limited to a call between EPA's Rick Keigwin and Clarke representatives on January 7, 2021; ☐
4. Transcripts and/or summaries of Telephone Calls and/or Video Calls between Clarke and EPA personnel, including but not limited to a call between Clarke representatives and EPA Administrative Director Alexandra Dunn, and EPA personnel Royan Teter and Tom Charlton on January 8, 2021; ☐
5. Any responses, correspondence, and/or communication by Clarke to EPA pertaining to PFAS; ☐
6. All data, protocols, analyses, and tests conducted by EPA or outside laboratories, submitted to EPA by Clarke or otherwise in EPA's possession with respect to the presence of PFAS in Clarke products; ☐
5. Other information submitted to EPA by Clarke relating to or reflecting the presence of PFAS in Clarke products; ☐
6. Other information generated by EPA relating to or reflecting the presence of PFAS in Clarke products; ☐
7. All risk assessments or analyses conducted by or for Clarke submitted to EPA regarding the human health impacts of PFAS present in Clarke products; ☐
8. All other data, protocols, analyses, risk assessments or other information in EPA's possession referring or relating to the presence of PFAS in Clarke products; ☐
9. Emails, phone logs, text messages, instant message chats, or other communications between Clarke representatives and EPA officials, including but not limited to: Administrative Director Alexandra Dunn, and EPA personnel Royan Teter, Tom Charlton and Rick Keigwin; ☐
10. All documents created by EPA, or its contractors, assessing or analyzing the presence of PFAS in Clarke products or any information therein, including but not limited to, documents relating to the human health or environmental impacts of PFAS present in Clarke products. ☐

Reasonably Foreseeable Harm. The FOIA Improvement Act of 2016 amended the FOIA as follows (5 USC 552(a)(8)): ☐

(A) An agency shall— ☐

(i) withhold information under this section only if— ☐

(I) the agency reasonably foresees that disclosure would harm an interest protected by an exemption described in subsection (b); or ☐

(II) disclosure is prohibited by law; and ☐

(ii) (I) consider whether partial disclosure of information is possible whenever the agency determines that a full disclosure of a requested record is not possible; and ☐

(II) take reasonable steps necessary to segregate and release nonexempt information. . . . ☐

2023-R05-04369	Li, Charlie	MS Bioanalytical LLC	I would like to request for information about any environmental records/violations of EPA rules on a property located at 2105 W Park Ct, Champaign, IL 61821.	05/23/2023
2023-AO-04382	Gehrke, Gretchen	Environmental Data and Governance Initiative	<p>Hello,</p> <p>I am requesting finalized agency-wide strategic plans or other formal documents describing the priorities and activities of the agency for individual years or sets of years between 1970 and 1994. I have searched NEPIS and have been able to only find strategic plans 1994 onwards. My request does not include congressional budget justifications. These strategic plan documents will be used in an analysis of the agency's approach to multi-pollutant and cumulative exposures and impacts over the course of the agency's history in order to understand where we are today and EPA's ability to carry out its current plans for addressing environmental justice and cumulative impacts. Thank You.</p>	05/23/2023

Re: Freedom of Information Request

Dear Freedom of Information Officer:

I am submitting this Freedom of Information Act ("FOIA") request in order to gain information regarding the Environmental Protection Agency's ("EPA") response to the recent "very highly toxic" categorization of the chemical 6PPD-quinone ("6PPD-q") for aquatic organisms, specifically those inhabiting the creeks and streams of Puget Sound in Washington State.

The EPA has acknowledged that 6PPD-q is a stormwater pollutant (resulting from the presence of 6PPD in car tires and their friction with roads) that is acutely toxic to coho salmon, and has facilitated recent roundtable meetings on "tire wear particles in waterways" as a "first step" in addressing the issue. Furthermore, the EPA's Puget Sound Recovery National Program Office outlines an array of goals to accomplish by 2026, including efforts to respond to the toxicity of 6PPD-q in stormwater, through its Puget Sound Federal Task Force Action Plan. This request seeks to ascertain the EPA policy decisions under this Action Plan that are occurring in real time, specifically addressing the 6PPD-q toxin.

I respectfully request the following records, pursuant to FOIA, 5 U.S.C. § 552.

1. A correspondence between the EPA and the Federal Highway Administration ("FHWA") regarding infrastructure upgrades to reduce toxic 6PPD-q runoff from the Puget Sound regional transportation grid between January 1, 2022 and present-day.

2. A correspondence between the EPA and Washington State Department of Transportation (WSDOT); between the EPA and Washington State Department of Ecology (Ecology); and between the EPA and Washington Department of Fish and Wildlife (WDFW), regarding plans to address stormwater 6PPD-q pollution from the regional transportation system of Puget Sound between January 1, 2022 and present-day.

3. A correspondence between the EPA's Puget Sound Recovery National Program Office and the National Marine Fisheries Service ("NMFS") regarding the impact of 6PPD-q on salmonids and their habitat, specifically under the Endangered Species Act ("ESA") (16 U.S.C. 1531-1544) program agreements between January 1, 2022 and present-day.

We are interested in obtaining documents, specifically RCRA and CERCLA documents, related to the APN's 3114-010-002, 3114-010-003, 3114-010-011. This APN is associated with the address: Lancaster, California. For the purpose of this request, applicable environmental records would include underground storage tank, aboveground storage tank, "tiered" and/or other environmental permits; enforcement orders; and reports and correspondence related to previous site investigations/assessments, subsurface sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.

Center for
Biological Diversity

The Center requests from the U.S. Environmental Protection Agency ("EPA"), Office of Water: ☐

05/25/2023

1. From December 19, 2013 to the date EPA conducts this search: ☐

a. The records, including databases, that include the following information from the Ballast Water Discharge Monitoring Reports (hereafter "Ballast Water DMRs") provided to EPA pursuant to Part 2.2.3.5.1.1.4 Effluent Biological Organism Monitoring of the 2013 Vessel General Permit, between December 19, 2013 and the date EPA conducts this search: (1) the vessel name; (2) the vessel type; (3) the parameter analyzed; (4) the analytical method; (5) the sample dates; (6) the sample results; (7) the units for the results; and (8) the discharge location. ☐

Please note: Annual or other summary documents that provide the requested information over the specified period would satisfy this request. If such summary documents do not exist, then the Center requests each Annual Report (i.e. the form in Appendix H on pages 181-183 of the 2013 VGP) and each Ballast Water DMR (the form in Appendix H on pages 184-185 of the 2013 VGP) provided to EPA between December 19, 2013 and the date EPA conducts this search. Alternatively, if there are other records that would provide the information the Center is seeking, but which would be less work for EPA to provide, we are willing to consider accepting them in lieu. ☐

b. The records, including databases, that include the following information on all enforcement actions or corrective actions initiated or completed by EPA under Part 1.4 Permit Compliance or Part 1.8 Alternative Permits of the 2013 VGP, and all corrective actions required by EPA under Part 3. Corrective Actions of the 2013 VGP, for discharges that violated the numeric discharge limits in Part 2.2.3.5 Ballast Water Numeric Discharge Limitations of the 2013 VGP: (1) the vessel name; (2) the vessel type; (3) the date of the violation; (4) the parameter(s) whose numeric discharge limit was violated; (5) the measured or reported value(s) of the violated parameter(s); (6) whether these measured or reported value(s) were obtained from either the Annual Reports or Ballast Water DMRs required by Part 2.2.3.5.1.1.4 of the 2013 VGP, or from another source; and (7) the penalty imposed and/or the correction action required by EPA. ☐

Please note: the Center is not seeking information on enforcement actions or corrective actions for other types of violations of the 2013 VGP, such as failing to provide required paperwork. We are seeking information only on EPA actions in response to violations of the biological discharge limits for ballast water in Part 2.2.3.5. Annual or other summary documents that provide the requested information for the specified period would satisfy this request. If such summary documents do not exist, then we request all documents describing or reporting each enforcement action taken or corrective action required by EPA in response to violations of the numeric discharge limits in Part 2.2.3.5 during the specified period. Alternatively, if there are other sets of documents that would provide the information we are seeking, but which would be less work for EPA to provide, we are willing to consider accepting them in lieu. ☐

2. From February 11, 2012 to the date EPA conducts this search: ☐

a. The records produced by EPA, or produced under EPA contract that report, discuss or address either of the following two issues: (i) IMO and US type approval tests for ballast water treatment systems have been routinely run with such low concentrations of the three targeted microbe groups (E. coli, intestinal enterococci and toxigenic Vibrio cholerae) in the test water that the test results provide no information on the ability of the treatment systems to reduce the concentrations of those microbes; or (ii) EPA's ETV test protocols for ballast water treatment systems do not specify minimum concentrations for the three microbe groups in the intake water or in the control (untr

2023-OCSP-04495	Brown, Ann	Center for Biological Diversity	<p>The Center requests from the U.S. Environmental Protection Agency ("EPA"), Office of Pesticide Programs ("OPP") from July 1, 2022 through October 31, 2022 the records that document the:</p> <p>Label amendments for pesticide products that contain chlorpyrifos, diazinon, and/or malathion submitted to EPA by entities that produce technical and/or manufacturing use products that contain chlorpyrifos, diazinon, and/or malathion, as required by Reasonable and Prudent Measure 1 ("RPM1") in the National Marine Fisheries Service ("NMFS") Biological Opinion (June 30, 2022) ("NMFS BiOp").</p> <p>Please note: The Center is not requesting label amendments submitted to EPA by registrants of end-use products that contain these three pesticides. The Center estimates that this request will result in production of approximately nine records based on the Center's estimate of the number of technical and/or manufacturing use registrants for each pesticide: Chlorpyrifos (4): Gharda, Drexel, Corteva, and Makhteshim Agan of North America, Inc. (d/b/a ADAMA); Diazinon (2): Makhteshim Agan of North America, Inc. (d/b/a ADAMA) and Drexel; Malathion (3): Drexel, FMC, and Loveland.</p> <p>The NMFS BiOp requires that these technical and/or manufacturing use registrants (referred to as "applicants") submit the required label amendments within 60 days of the issuance of the Biological Opinion, or by August 29, 2022. To be clear, the Center is requesting all required applicant label amendments submitted to EPA, whether submitted within 60 days or not. However, as an initial search, we provided a date range from July 1, 2022 through October 31, 2022.</p> <p>For this request, the term "records" refers to documents, correspondence (including inter and/or intra-agency correspondence as well as correspondence with entities or individuals outside the federal government), emails including attachments, letters, notes, recordings, telephone records, telephone notes, telephone logs, text messages, chat messages, minutes, memoranda, comments, files, presentations, consultations, biological opinions, assessments, evaluations, schedules, papers published and/or unpublished, reports, studies, photographs and other images, data (including raw data, GPS or GIS data, UTM, LiDAR, etc.), maps, and/or all other responsive records, in draft or final form.</p>	05/30/2023

2023-R06-04497	Maddox, Jason	-	The owners of Whiskey Six Tactical (12557 240th street, Blanchard OK, 73010) claim that the EPA came to their very large, popular gun range in the last few weeks, claiming their gun range was poisoning local waterways. They further claim they were cleared by the EPA, but no evidence was provided. I wanted to check to make sure there were no issues or violations found, or if EPA went there. Their gun range is located by two bodies of water used by cattle, and a creek used to provide water to many ranches and farms. Everyone in this area is on well water also. The sheriff has photos of many trees, from multiple neighbors being shot from this gun range.	05/30/2023

2023-OGC-04465	Sellers, Christopher	Stony Brook University	<p>July 7, 2023, Request Modification: A FOIA Log of all closed FOIA requests from 1/1/2010 to the time of the data search in response to the request. The FOIA log should include the following: tracking number; requester name; requester organization; received date; and closed date. From that log, if any responsive documents were provided for any of those requests, a separate FOIA will be submitted for those specific requests.</p> <p>I am interested in receiving: A complete list, either in csv or Excel spreadsheet or Word format, of every individual closed FOIA request submitted to the EPA since the start of FOIAonline. Please include: identification numbers of each FOIA request submitted and closed Requester of each request Requester organization of each request Date of request Date of request closure Request "description" (as posted in "description" text box on FOIAonline)</p> <p>Date range: from 1/1/2010 to the time of your data search in response to this quest (sometime after 5/27/2023)</p> <p>While we know that all these numbers are already accessible one by one through FOIAonline, the 100-entry limit per visible page on this website's search engine is a severe constraint on the kind of bulk search and download that our research into EPA's FOIA responses requires. We aim to study the thousands of individual closed requests throughout multiple years.</p> <p>Also with FOIAonline now being shuttered in September, 2023, and the EPA as yet without a substitute system in place to enable digital access to this last decade and more of released documents, such a list will greatly expedite our efforts to study the scale, scope, and trajectory of EPA's FOIA releases over the last ten+ years of FOIAonline's existence.</p> <p>It is not our intention to overburden the agency with this request. If an agency FOIA officer has recommendations about how to modify this request to secure the sought documents and information more quickly and easily, please call me at (631) 806-1526 or email me at christopher.sellers@stonybrook.edu. If the EPA finds that any bulk listing of these identification numbers is already publicly available, please let me know.</p> <p>Delivery of responsive documents: I am willing to negotiate (a) An extended deadline of more than one month, and (b) Rolling releases of what is found. If some elements of this request like the FOIA id numbers are easier to gather than others, I would appreciate receiving these first. EPA's search for and deliberation over some of these records should not delay the delivery of others already retrieved whose release has been authorized.</p> <p>I would prefer the request be filled electronically, by e-mail attachment if available or CD-ROM if not.</p> <p>I request that this request be treated under the Educational Fee Category. I make my request as a recognized scholar of environmental history and politics employed at a public university, as part of scholarly and collaborative research project on the EPA, which has yielded many publications in the peer-reviewed scholarly literature (see for instance Am J Public Health. 2018;108:e1-e6. doi:10.2105/AJPH.2018.304360 and https://link-springer-com.proxy.library.stonybrook.edu/article/10.1057/s41271-021-00276-z). 2023-OLEM-04538	Kroutil, Robert	Retired	<p>This is a FOYA request in order to be provided with all currently operating procedures used by the EPA ASPECT flight crew in the collection of data for the emergency response missions. This is critical for an understanding of the quality assurance procedures and the proper operation for the collection of data for the EPA ASPECT aircraft. Anecdotal information may indicate that these procedures are currently contractor proprietary and not available in the public records for a proper assessment of a data quality assurance plan.</p> <p>Also, could the Government provide the EPA ASPECT data quality objectives used at the East Palestine emergency response ? For example, what were the criteria for flight paths over various target and coupled with measured detection limits, radiance calculations, and plume dynamics made over the targets. What were all these data quality objectives and how were they achieved ? Was any chemical data collected over the creeks in the stated ASPECT mission flights over East Palestine ? Can the public be provided these records and assessments ?</p>	06/01/2023
2023-OCSP-04566	Sheehan, William	American Bird Conservancy	<p>June 1, 2023</p> <p>Via online submission</p> <p>FOIA Officer United States Environmental Protection Agency, FOIA Office 1200 Pennsylvania Avenue, NW (2310A) Washington, DC 20460</p> <p>Dear FOIA Officer,</p> <p>American Bird Conservancy ("ABC") hereby requests disclosure, under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 et seq., and implementing regulations, 43 C.F.R. § 2.1 et seq., of the records described below in the possession, custody, or control of the United States Environmental Protection Agency ("EPA"):</p> <p>1. <u>All</u> documents showing that any specific "article" and/or "substance" has been exempted from regulation under the Federal Insecticide, Fungicide, and Rodenticide Act under EPA's Treated Article Exemption, 40 C.F.R. §152.25(a); or alternatively, any up-to-date document listing all such exempted "articles" and "substances."</p> <p>2. <u>All</u> documents showing that EPA has denied a request or otherwise considered and refused to grant an exemption for any proposed or considered "article" and/or "substance" under EPA's Treated Article Exemption, 40 C.F.R. §152.25(a).</p> <p>Request for a Fee Waiver</p> <p>FOIA provides for a fee waiver when "disclosure of the information is in the public interest because it [A] is likely to contribute significantly to public understanding of the operations or activities of the government and [B] is not primarily in the commercial interest of the requester." 5 U.S.C. § 552(a)(4)(A)(iii); see also 43 C.F.R. § 2.45(a)(1)-(2). The disclosure ABC seeks meets both of these requirements.</p> <p>The requested documents clearly involve operations of the government. EPA's exemption of pesticides from the regulatory requirements of FIFRA is a matter of genuine public interest and concern. The public's knowledge of what pesticides have been exempted, and/or what pesticides have been considered for and denied an exemption, will greatly advance the public's understanding of EPA's exemption policies and the practical results thereof, and may lead to meaningful discussions and decision about protecting human and environmental health.</p> <p>ABC has the expertise to objectively review the information requested and may disseminate it in service of creating a less toxic environment for people and wildlife. ABC is one of the leading bird conservation organizations in the United States, and it routinely makes information regarding threats to birds available through both print and on-line publications, as well as by providing such information to the media in the form of press releases, press advisories, etc. The request will clearly meet the first prerequisite for a fee waiver because "the public's understanding of the subject in question will be enhanced to a significant extent by the disclosure." 43 C.F.R. § 2.48(a)(4).</p> <p>Next, ABC has no commercial interests that would be furthered by the requested disclosure. ABC is a not-for-profit organization, does not sell information obtained under FOIA, and will realize no commercial benefit from the disclosure of the requested records. Hence ABC is entitled to a fee waiver.</p>	06/01/2023
2023-NFO-04571	Schaeffer, William	Tetra Tech	<p>Please provide the document requested above regardless of your fee waiver decision, for ABC will pay fees under protest under 43 C.F.R. § 2.37 et seq.</p> <p>Cornerstone Environmental Group is preparing an ASTM Phase I ESA and NJ Preliminary Assessment. 2023-OCSP-04591	Lerner, Sharon	ProPublica	<p>Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I am requesting a memo issued on November 9, 2020. The document is referred to in a December 30, 2020, unsigned memo with the subject line "OCSP senior toxicologist review of the draft document titled "Human Health Toxicity Values for Perfluorobutane Sulfonic Acid (CASRN 375-73-5) and Related Compound Potassium Perfluorobutane Sulfonate (CASRN 29420-49-3)." Below is the link to the December memo: https://19january2021snapshot.epa.gov/sites/static/files/2021-01/documents/508_ocspp_sr_tox_review_of_ord_pfb_document_12-30-2020_1.pdf.</p> <p>The memo I am seeking is also referred to on p.33 of the EPA Inspector General's March, 2023 report titled "The EPA's January 2021 PFBS Toxicity Assessment Did Not Uphold the Agency's Commitments to Scientific Integrity and Information Quality." That report notes that, on November 9, 2020, "OPPT issued a memorandum expressing difference of scientific opinion with database uncertainty factors for PFBS TA." It is this memorandum I am seeking. Please note that the EPA IG report and the 12/30 memo make it clear that the proposal in the 11/9 memo was adopted. It thus should not be considered "predecisional."</p> <p>I would like to receive the information in the following format: electronic. 2023-R09-04582	Sanicola, Laura	Reuters	<p>Dear FOIA Officer,□</p> <p>I am writing to submit a formal request under the provisions of the Freedom of Information Act (FOIA), 5 U.S.C. § 552, as a journalist, to obtain any relevant data, reports, and email communication related to the metal-dust emissions release that occurred at PBF Energy's Martinez Refinery in California between Nov 24-25, 2022.□</p> <p>To assist you in locating the desired records, please consider the following specific requests:□</p> <p>Any and all reports, assessments, or investigations conducted by the EPA, or any other relevant agency, regarding the metal-dust emissions release incident at PBF Energy's Martinez Refinery. I am specifically interested in incidents that occurred from November 1, 2022, to the present date.□</p> <p>All data, including monitoring results, air quality measurements, and sampling analyses collected by the EPA or other authorized agencies during or following metal-dust emissions release incidents at PBF Energy's Martinez Refinery. Please include data collected from November 1, 2022, to the present date.□</p> <p>Any internal and external correspondence, including but not limited to emails, memos, letters, and meeting minutes, related to metal-dust emissions release incidents at PBF Energy's Martinez Refinery. This includes communications between EPA officials, other governmental agencies, PBF Energy representatives, and any involved third parties. Please include correspondence from November 1, 2022, to the present date.□</p> <p>Any enforcement actions, penalties, or corrective measures taken by the EPA or any other regulatory agency in response to metal-dust emissions release incidents at PBF Energy's Martinez Refinery. Please include information from November 1, 2022, to the present date.□</p> <p>Any permits, licenses, or compliance documents issued by the EPA or any other regulatory agency pertaining to PBF Energy's Martinez Refinery, specifically in relation to the control of metal-dust emissions or air pollution. Please include documents issued from November 1, 2022, to the present date.□</p> <p>As a Reuters journalist, I am working on an investigative piece related to environmental issues and public safety concerns. The requested information is of significant public interest and will contribute to informing the public about potential risks associated with metal-dust emissions from the Martinez Refinery.□</p> <p>To facilitate the processing of this request, I am willing to pay reasonable fees for document duplication and any associated costs. However, I kindly request that you notify me in advance if the estimated fees exceed \$XX so that we can discuss the scope of the request and potential alternatives to ensure a reasonable and efficient process.□</p> <p>If my request is denied in whole or in part, I ask that you justify all withholdings under the applicable exemptions of the FOIA. Additionally, I request that any reasonably segregable portions of the requested records be provided to me, even if certain sections or details are redacted.□</p> <p>As stipulated by the FOIA, I understand that you are required to respond to this request within 20 working days. Should you require any further clarification or information to fulfill this request, please do not hesitate to contact me via email or phone.□</p> <p>Thank you for your attention to this matter, and I look forward to your timely response.□</p> <p>Sincerely,□ Laura Sanicola</p>	06/02/2023
2023-R09-04596	Zaragoza, Daniel	Roux	<p>We are conducting a Phase I Environmental Site Assessment at a property in Corona, CA. 2023-R09-04598	Bergin, Dillon	N/A	<p>To Whom It May Concern:☐</p> <p>Pursuant to the Freedom of Information Act, I hereby request the following records:☐</p> <p>All communication regarding exceptional event submissions, including, but not limited to, approvals, denials or requests for more information, as described in 40 C.F.R. 50.14 between September 30, 2016, through May 05, 2023.☐</p> <p>This request was originally part of EPA-R9-2023-002468.☐</p> <p>We request that all of these records be produced in their native electronic formats with any attached metadata included, so long as such electronic files can be opened using standard commercially available software. If the files cannot be produced in this manner, we request that records be produced in an alternative electronic format that is text-searchable. 5 U.S.C. § 552(a)(3)(B)☐</p> <p>Fee Waiver Request☐</p> <p>A waiver of search and review fees is appropriate here because disclosure of the requested information is in the public interest under 5 U.S.C. § 552(a)(4)(A)(iii) and 45 C.F.R. § 5.54(a), (b)(1)-(2), and because the request is not primarily in the Brown Institute, MuckRock, or California Newsroom's commercial interest, 45 C.F.R. §§ 5.45(a), (b)(3)(ii).☐</p> <p>Disclosure Is in the Public Interest☐</p> <p>Disclosure of the requested information is likely to contribute significantly to the public understanding of the regulation of air pollution, which is harmful to human health. 45 C.F.R. § 5.54(b)(1). In particular, the requested information will shed light on exceptional events, a mechanism used by regulators to account for and exclude air pollution, information which is not “already in the public domain.” 45 C.F.R. § 5.54(b)(2)(i). As a nonprofit organization assisting other news media organizations on coverage of federal government policy, we have demonstrated our “ability and intention to effectively convey information to the public.” 45 C.F.R. § 5.54(b)(2)(ii).☐</p> <p>Limitation of Fees☐</p> <p>We are also entitled to a limitation of fees because we are a member of the news media. 45 C.F.R. § 5.53(b); 5 U.S.C. § 552(a)(4)(A)(ii)(II). Accordingly, even if our application for a waiver of all fees is denied, we are entitled to a limitation of fees. As a news media requester, we are “entitled to search time, review time, and up to 100 pages of duplication” and can be charged only duplication fees after the first 100 pages or its cost equivalent. 45 C.F.R. § 5.53(b). We request that the information be provided in its native electronic format, and thus there should be no duplication fees.☐</p> <p>Request for Expedited Processing☐</p> <p>We also ask that the information requested be disclosed on an expedited basis. Expedited processing is appropriate here because a “compelling need” exists for disclosure of the requested information. 5 U.S.C. § 552(a)(6)(E)(i)(I). A compelling need exists when, with respect to a request made by a person primarily engaged in disseminating information to the public, there is “an urgent need to inform the public about an actual or alleged Federal Government activity.” 45 C.F.R. §5.27(b)(2).☐</p> <p>As a news organization, we are primarily engaged in disseminating information to the public. Over the last several years, wildfires have grown, and with them, so has pollution from particulate matter and ozone. An agency shall withhold information only if “the agency reasonably foresees that disclosure would harm an interest protected by an exemption” or “disclosure is prohibited by law.” 5 U.S.C. § 552(a)(8)(A)(i). We therefore request that if the EPA determines that an exemption applies that it also provide specific reasons why disclosure would harm any interest protected by such exemption. An agency shall also “consider whether partial disclosure of information is possible whenever the agency determines that a full disclosure of a requested record is not possible” and “take reasonable steps necessary to segregate and release nonexempt information.” Id. 552(a)(8)(A)(ii). We therefore request that the EPA release all segregable portions of otherwise exempt material.</p> <p>Limitation of Fees</p> <p>We are also entitled to a limitation of fees because we are a member of the news media. 45 C.F.R. § 5.53(b); 5 U.S.C. § 552(a)(4)(A)(ii)(II). Accordingly, even if our application for a waiver of all fees is denied, we are entitled to a limitation of fees. As a news media requester, we are “entitled to search time, review time, and up to 100 pages of duplication” and can be charged only duplication fees after the first 100 pages or its cost equivalent. 45 C.F.R. § 5.53(b). We request that the information be provided in its native electronic format, and thus there should be no duplication fees.</p> <p>The requested documents will be made available to the general public, and this request is not being made for commercial purposes.</p> <p>In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.</p> <p>Thank you in advance for your anticipated cooperation in this matter. 2023-R04-04739	Vanzant, Ronald	-	<p>On behalf of the City of Fellsmere, Indian River County, Florida, this email shall serve as notification that the City is in the process of performing a Phase II Environmental Assessment in accordance with applicable sections of 24 CFR 50 and 58 so that we may assess the environmental impact of the City's proposed project on the built, natural and human environment.</p> <p>Purpose of this Email</p> <p>As an identified entity having a potential interest in the proposed project, we respectfully request your assistance with determining the location of any above ground or below ground hazards present within the City of Fellsmere's municipal boundaries plus a buffer of 3,000' for all sites except brownfields and superfund sites. For superfund sites and brownfields, please use a buffer of 1 mile. If sites are present, we request recommendations to minimize or avoid any possible negative effects as well as notification of any permits which might be required. To assist with your review, a project description along with a map of the proposed work is attached.</p> <p>Work associated with this grant will involve the creation of middle-mile broadband infrastructure to support a highspeed internet network providing fiber and wireless services to unserved or underserved residents and business within and outside the City limit with speeds up to 150 Mbps. The work consists of approximately 26 miles of double, 2-inch conduit along roadways and right-of-way throughout the City generally defined as an area bound by 122nd Street in the North, I-95 to the east, 77th street in the South and CR 512 in the West. All work will take place along existing roads and/or right of ways.</p>	06/12/2023
2023-R05-04757	Moore, Ashley	-	I am the Complainant about a property located at 264 Crystal St., Cary, IL 60013. I lived there for five years and suffered and was diagnosed with symptoms of lead poisoning like numbness/convulsions. I filed a complaint with the EPA around August 2022 to investigate and confirm lead exposure in the building's water pipes, paint in the Unit 1 bedroom window at ground level, and household dust. I was advised today that the investigation may be complete, and a FOIA request can now be submitted. Can you please email me the findings? Thank you.	06/12/2023

I am requesting that you send me all the documents related to this investigation, including the reports and communication with the property owner(s) regarding the inspection and the results of the inspection. I am a paralegal who works at Sumsion Business Law in Provo, Utah, and the firm I work for is representing the new owner of the Shady Acres property. There is question as to whether the previous owners needed to disclose the results of this inspection before the closing of the sale. These documents are key in this legal dispute and could help lead to a peaceful mediation, rather than going through the litigation process.</p>	06/14/2023

2023-OLEM-04849	Morenne, Benoit	-	<p>To Whom It May Concern: This is an expedited request by The Wall Street Journal under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, for information pertaining to accidents at facilities covered by the Risk Management Program (RMP) Rule, Section 112(r) of the 1990 Clean Air Act amendments. Request The EPA as part of a rule proposed on 08/31/2022 "Accidental Release Prevention Requirements: Risk Management Programs Under the Clean Air Act; Safer Communities by Chemical Accident Prevention" noted in vi. Accident Frequency that: RMP facilities in NAICS 324 and 325 had a sector accident rate of 23% between 2016 and 2020, with 41 out of 177 facilities reporting at least one accident. EPA says that 43 facilities of the 70 who experienced two or more accidents between 2016 and 2020 were NAICS 324 and 325. I seek: - A list of refineries and chemical plants that reported one accident or more between 1999 and the most recent date that data is available. The data should include, if available: date of the accident, chemicals released, quantity released, release event (gas release, fire, etc) release source (storage vessel, valve, etc) deaths, injuries, property damage known offsite impacts, initiating event (equipment failure, human error, etc) and changes introduced as a result of the accident. Companies have to report all of this to the EPA when they submit their accident history. If the data is not available for the period 1999-most recent date data is available, I seek: A list of refineries and chemical plants that reported one accident or more between 2016 and 2020. The data should include: date of the accident, chemicals released, quantity released, release event (gas release, fire, etc) release source (storage vessel, valve, etc) deaths, injuries, property damage known offsite impacts, initiating event (equipment failure, human error, etc) and changes introduced as a result of the accident. Companies have to report all of this to the EPA when they submit their accident history. I also seek: Per-facility accident rate between 1999 and the most recent date that data is available for all regulated facilities (i.e. number of facilities reporting at least one accident divided by the number of total facilities). I also seek: all of BP's five-year accident history records for the BP-Husky Toledo refinery. Thank you for your prompt attention to this request. If you have any questions or concerns about what we are seeking, please do not hesitate to contact us at the email address below. Pursuant to the applicable FOIA provision and departmental regulations, we expect a response regarding this request within the ten (10) working day time limit set by law. 45 C.F.R. § 5.27(c); 5 U.S.C. § 552(a)(6)(E)(ii)(I). Your response was that you had searched and consulted with the subject matter expert for HED. I would like to request again D361527, A. Parmar, 2009 and provide you with a copy of another EPA document (DP Barcode 360625) which references the requested document (D361527) on pages 2 and 4 in the attachment. The document requested is a dietary exposure and risk assessment for the metabolites MBC [1H-benzimidazol-2-ylcarbamate, also sometimes referred to as carbendazim] and 2-aminobenzimidazole (MBC + 2-AB).</p> <p>Again, thank you for your efforts and I hope the additional information provided allows the document I request (D361527) to be found. I wonder if the document requested (D361527) has the incorrect bar code. Assuming DP Bar Codes are assigned consecutively, here D361527 is a higher DP Barcode than the document that cites it, D360625.</p> <p>Respectfully submitted, Chris Lahiff</p>	06/16/2023

Dear Sir/Madam

I write to request the authentication of certain Environmental Protection Agency (EPA) documents under the Freedom of Information Act (FOIA), 5 U.S.C. § 552. The documents for which I am seeking authentication are uploaded to the FOIA portal online and the associated docket number and website url for each document are detailed below, to the extent available.

To facilitate this process, I have also attached a model attestation form, which can be used for the purpose of document authentication. The form contains the necessary language for an authorized EPA representative to certify the accuracy, completeness, and authenticity of the documents.

It would be greatly appreciated if an authorized EPA representative could fill out and sign the attached attestation form, certifying that the attached documents are true, accurate, and complete copies of the documents as they appear in the records of the EPA. This authentication should be done by someone with legal custody of the record or someone authorized to attest to the accuracy of such documents.

Please note that the use of the attached model attestation form is a suggestion for your convenience. If the EPA has an established procedure for document authentication that differs from the provided form, please feel free to proceed as you deem most appropriate, as long as the authentication fulfills the requirement of verifying the document as a true and correct copy of the document as it appears in the records of the EPA, and it is signed by an authorized EPA representative.

For ease of reference, below is the EPA docket number, document ID, and associated website link for each submitted document:

1. Letter to David Markwordt re NESHAP for Ethylene Oxide Commercial Sterilization and Fumigation Operations (June 2, 1998)

2023-R05-04901	Charles, Ryan	-	It is my understanding that in or around 2004, the EPA was looking into something related to Wittenberg University located at 200 W Ward St, Springfield, OH 45504. This was named in a recent audit conducted by the university. Specifically, the audit named the following: "The University has been named as a potentially responsible party by the United States Environmental Protection Agency (EPA). Federal law provides for joint and general liability among responsible parties for remediation costs. The University has had no contact with the EPA regarding this matter since 2004 and, accordingly, has not accrued for this potential liability as management believes the University does not have any responsibility. " ((I attached said audit report that makes this reference)) Based on this - I would like to place a FOIA request for any and all information related to this inquiry from the EPA with Wittenberg University and any relevant documentation from 2004, 2003 and beyond that may relate to this matter.	06/20/2023

2023-R04-05028	Royer, Kyle	Logic Environmental	I am performing a Phase I on a property adjacent to an EPA cleanup site. I am requesting any analytical information (sampling data, maps, etc.) regarding the 2008 Oil Well Fire in Oliver Springs TN. (Cove Lane Road, Anderson County, Oliver Springs, TN, eppaos.org/waldenresourcesoil, NRC#: 865435 & 865437) I have spoken to Mr. Perry Gaughan, the OSC for the incident. He was helpful and made public the pollution reports for the incident. However, he said the data I need wasn't in EPA files, but was with their contractor for the incident, Tetra Tech. Mr. Gaughan said he would reach out to Tetra Tech for me, but I want to go ahead and make a FOIA request for this data as well. Maybe this can expedite the release or discovery of the data I need to wrap up the Phase I. Thanks!	06/26/2023
2023-R05-05029	Moore, Ashley	-	I was advised by the EPA via email in response to my inquiry that I can submit this FOIA request to ascertain whether the apartment building I lived in at "264 Crystal St., Unit 1, Cary, IL 60013" was investigated and tested for lead exposure via paint, water, soil, and/or dust. I have been diagnosed with arthralgia (joint pain), convulsions, and paresthesia (numbness/tingling) from suspected lead poisoning. I need to know the results of the investigation for lead exposure at this property to proceed with further medical testing for myself. This request is for an imminent health risk to myself and anyone else living at that property.	06/26/2023

2023-OLEM-05060	Bogardus, Kevin	E&E News	I request the briefing described in the following excerpt from House Report 117-400:	06/27/2023

"Resource Conservation and Recovery Act (RCRA).—The Com-mittee recommends \$130,007,000, \$9,932,000 above the enacted level and equal to the request. Of the funds provided under this program area, \$9,000,000 is for implementation of a federal permit program for coal combustion re-siduals in non-participating states, as authorized under section 4005(d)(2)(B) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)(2)(B)), or to provide technical assistance to states estab-lishing their own permitting program under section 4005(d) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)). As soon as prac-ticable, the Committee encourages the Agency to adopt final regu-lations for the implementation of a federal permit program in non-participating States. The Committee notes the potential need for dependable bio-based and United States-grown plastic alternatives. Within 180 days of enactment of this Act, the Committee directs the Agency to provide a briefing on efforts to explore alternatives, such as United States-based hemp, and how such alternatives may be used as a cost-effi-cient alternative in government-produced or funded materials. Further, given potential concerns related to electric reliability, the Committee encourages the Agency to provide a status update within 60 days of enactment of this Act on Agency actions to co-ordinate with state regulators and Regional Transmission Organi-zations to consider extensions under 85 Fed. Reg. 53516."

Please see page 91 of House Report 117-400 (<https://www.congress.gov/117/crpt/hrpt400/CRPT-117hrpt400.pdf>).

I also note the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, which requires House Report 117-400 be complied with.

Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.

2023-OCFO-05063	Bogardus, Kevin	E&E News	<p>I request the briefing described in the following excerpt from House Report 117-400:</p> <p>"Renewable Fuel Standard.—The Committee is aware of a strong interest from stakeholders to generate Renewable Fuels Standard credits from renewable electricity. The Committee understands that the Agency is planning to propose revisions to the existing regulations related to eRINs as part of a future rulemaking action. The Committee urges the Agency to undertake this rulemaking in a timely manner, including processing all pending pathway petitions, to provide transparency and clarity for all stakeholders and directs the Agency to brief the Committee on its progress within 180 days of enactment of this Act. The Committee notes that the process for renewable fuel pathways continues to suffer from significant delays and inefficiencies, creating uncertainty for biofuel producers. The Committee directs the Agency to provide a report, within 60 days of enactment of this Act, outlining recommendations on how to streamline and expedite the pathway petition and approval process and implement these changes. The Agency is encouraged to work expeditiously to review renewable identification number credits for renewable fuels used to provide electricity for electric vehicle charging and on feedstock for co-digestion facilities."</p> <p>Please see page 85 of House Report 117-400 (https://www.congress.gov/117/crpt/hrpt400/CRPT-117hrpt400.pdf).</p> <p>I also note the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, which requires House Report 117-400 be complied with.</p> <p>Please see page 1 of the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, for more detail on this requirement (https://www.appropriations.senate.gov/imo/media/doc/Division%20G%20-%20Interior%20Statement%20FY23.pdf).</p> <p>Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.</p>	06/27/2023

I am respectfully seeking:

1. ~~All~~ records of any kind in the possession of EPA from May 14, 2023 to present related to the processing of my FOIA request with Agency Assigned case number EPA-2023-004302, excluding records already released within the FOIAonline "EPA-2023-004302 Request Details, Released Records tab.

2. ~~Records~~ would include, but not be limited to:

i. ~~All~~ records in Agency FOIA case files (which should contain all records related to my Request).

ii. ~~All~~ records of any searches performed.

iii. ~~All~~ emails.

iv. ~~All~~ internal EPA records.

v. ~~All~~ records in the FOIAonline database.

vi. ~~All~~ reports that are available within FOIAonline Agency User Guide.

vii. ~~Screen~~ shots of FOIAonline tabs: Request Details, Correspondence, Financing, Released Records with all supporting records.

viii. ~~Records~~ supporting the fee determination of \$143.00, including the identity and grade of persons performing searches, the time and manner of searching and

3. ~~I~~ am also seeking a copy of this FOIA Request, which is an Agency record subject to FOIA that exists and is in the Agency's possession at the time of my FOIA request. This record is a responsive record integral to my Request. Release of the Agency's copy is not optional.

4. ~~Ex~~emptively. The searches to locate records are extremely simple and can be performed well withing my two hours of free search time as an "all other requester." Records are located in the FOIA case file, FOIAonline and simple email searches. Similarly, since I am requesting electronic records, there should not be any fees for copying.

REQUESTED FORMAT.

I am also seeking records in their native format (MS. Outlook, PowerPoint, Excel, ADA accessible PDF files or other mutually agreed by return email with: (1) a signed and dated cover letter (citing my personally assigned requester control number); (2) with record page count for all records released records (3) a copy of this request in your reply. I seek records via email in PDF format with an imbedded copy of my requests to (1) impede the agency from not addressing the FOIA Request; (2) impede the Agency from not providing the documents stated in the Agency's letter reply, and (3) make it obvious in any subsequent review what the Agency has or has not done.

Further, I request that these records be sent in any digital formats in which they exist (such as PDF and Excel). Under the terms of the E-FOIA Amendments of 1996, Section 5, if a document exists in electronic format, it must be released in that format upon request.

Each record must be provided as a distinct record in their native format. Emails should be provided as MS Outlook files, if not encrypted or otherwise unable to be opened by me. Only if this is not possible, emails should be produced with their embedded hyperlinked attachments by using the "File => Save as Adobe PDF" command within Outlook or by other software that produces the same result.

I am also seeking the "Description Available to the Public" field I FOIAonline be set to yes and that all records be released to and viewable in the application by the general Public. The release type must be set to "Unredacted – Releasable to the General Public: Will be available to the general public," or to "Redacted – Releasable to the General Public: Will be available to the general public."

RE: RENEWAL OF INTERCONTINENTAL TERMINALS COMPANY, LLC'S DEER PARK TERMINAL FEDERAL OPERATING PERMIT

06/28/2023

Dear FOIA officer,

This letter constitutes a request pursuant to the Freedom of Information Act, 5, U.S.C §552, (FOIA). The request is submitted on behalf of Amnesty International an independent global human rights movement of more than 13 million people. We campaign – among other things – for companies to respect human rights wherever they operate in the world.

I am writing with regards to the Intercontinental Terminals Company (ITC)'s Deer Park Terminal, which is seeking a renewal of its Federal Operating Permit from the Texas Commission on Environmental Quality (TCEQ), to authorize its continued operation for five years. Amnesty International is conducting research into human rights and environmental issues along the Houston Ship Channel in Texas. I am writing to express Amnesty International's concerns about the history of violations recorded at the ITC Deer Park Terminal and the risk that its operations pose to surrounding communities and the environment. Accordingly, we would like to take this opportunity to seek further information and clarification.

Background

On 17 March 2019, a large fire broke out at the ITC Deer Park Terminal following equipment failure at a storage tank. The fire spread to nine additional storage tanks and lasted for four days when it was extinguished on 20 March. On 22 March, a section of the storage tank farm's dike wall failed, causing a spill of chemicals into surrounding waterways, including the Houston Ship Channel. A secondary fire erupted in the tank farm on the same day and was extinguished a couple of hours later. A recent analysis of US Environmental Protection Agency (EPA) air monitoring data by Texas Tribune suggests benzene emissions spiked to high and potentially dangerous levels, including in residential areas, for more than two weeks after public health measures were lifted in response to the fire. Almost 1,000 people attended temporary mobile health clinics in Deer Park that operated for three days after the fire started, and the Texas Poison Center Network received almost 200 calls reporting chemical exposure in the aftermath of the fire. Amnesty International has documented concerns from residents in Deer Park and surrounding areas who were impacted by the 2019 fire, including adverse health impacts such as headaches and irritation of the throat and eyes.

A review of public records by Amnesty International show ITC Deer Park Terminal has a history of repeated non-compliance with state and federal clean air and clean water rules. EPA enforcement records indicate that the ITC Deer Park Terminal has had violations of the Clean Air Act considered “high priority” in every quarter since 1 July 2020. The TCEQ database lists 420 violations of environmental regulations by ITC Deer Park Terminal dating back to 2012, including 137 notices of violation after the 2019 fire.

Questions and request for further information

Amnesty International is concerned about ITC Deer Park Terminal's record of non-compliance and the risk that its operations pose to surrounding communities and the environment. Accordingly, we would like to take this opportunity to ask you the following questions:

1. Please provide details of all assessments that EPA has conducted on the health, social and environmental impact of ITC Deer Park Terminal. Please include details, including dates, of all inspections of the facility since 28 June 2013
2. What actions has EPA taken to address violations of environmental regulations at ITC Deer Park Terminal since 28 June 2013? Please provide details.
3. What actions has EPA taken to ensure ITC Deer Park Terminal maintains compliance with environmental regulations since the 2019 fire? Please provide details.

We welcome receiving your reply to these questions via email (to alysha.khambay@amnesty.org). Since we are planning to publish a report on this issue, we would

2023-OW-05130	Yardis, Morgan	Protect the Public's Trust	<p>This is a request under the Freedom of Information Act, 5 U.S.C. § 552, as amended (FOIA), from the Protect the Public's Trust (PPT), a nonpartisan organization dedicated to promoting ethics in government and restoring the public's trust in government officials.</p> <p>On June 15, 2022, the American Chemistry Council (ACC) published a statement in response to the Environmental Protection Agency's (EPA's) updated health advisories on per-and polyfluoroalkyl substances, or PFAS. The ACC claims the agency's announcement of revised Lifetime Health Advisories (LHAs) for PFOA and PFOS and new Advisories for PFBS and the GenX chemicals (HFPO-DA): "reflects a failure of the Agency to follow its accepted practice for ensuring the scientific integrity of its process."1 The EPA based its revised regulation to levels ranging from 3,000 to 17,00 times lower than the previous advisories released in 2016. Accordingly, PPT requests the following records from the Environmental Protection Agency:</p> <p>Records Requested</p> <p>1. From January 20, 2021, through the date this request is processed, records of scientific data or evidence to support the EPA's lower Lifetime Health Advisories for PFOA, PFOS, PFBS and the GenX chemicals (HFPO-DA), including:</p> <p>a. The peer-reviewed toxicity assessment(s) upon which the revised LHAs for PFOA and PFOS were based.</p> <p>b. Any non-peer reviewed toxicity assessment(s) used to determine the LHAs in (a).</p> <p>c. The peer-reviewed toxicity assessment(s) upon which the revised LHAs for HFPO-DA were based.</p> <p>termine the LHAs in (d).</p> <p>Custodians:</p> <p>I. Radhika Fox, Assistant Administrator for Water</p> <p>II. Jeffrey M. Prieto, General Counsel</p> <p>III. Michael Regan, Administrator</p> <p>IV. Associate Administrator, Office of Public Affairs</p> <p>V. Dan Utech, Chief of Staff</p> <p>VI. Timothy Carroll, Press Secretary</p> <p>VII. Khanya Brann, Deputy Press Secretary</p> <p>VIII. Deb Szaro, Acting Regional Administrator</p> <p>IX. John Lucey, Special Assistant to the Administrator</p> <p>X. Andrea Drinkard, Senior Advisor to the Deputy Administrator</p> <p>XI. 2023-OGC-05126	Yardis, Morgan	Protect the Public's Trust	<p>PPT requests the following records from the Environmental Protection Agency's (EPA's) Office of the General Counsel for all Schedule C, noncareer SES, PA, and PAS employees:</p> <p>1. From September 8, 2022, through the date this request is processed, all waivers, impartiality decisions, or any other guidance issued to political appointees of the Biden Administration exempting them from any part of their obligations pursuant to 18 U.S.C. § 208, Executive Order 13989 ("Biden Ethics Pledge"), 5 C.F.R § 2635.502, or 5 C.F.R. § 2635.503. This request also includes any records and communications between employees of the Office of General Counsel, as well as any records and communications between the Office of General Counsel and any political appointees regarding waivers or impartiality decisions.</p> <p>The term "records" includes emails (with attachments) but also refers to other documents and items, such as text messages; invitations, communications, and chats from meeting applications such as Zoom and Microsoft Teams; encrypted apps such as Signal, WhatsApp, Wikr Me, and others; phone records; as well as communications on collaboration platforms such as Slack.</p>	06/30/2023

2023-OAR-05159	Bergin, Dillon	-	<p>To Whom It May Concern:</p> <p>Pursuant to the Freedom of Information Act, I hereby request the following records:</p> <p>I request the entire raw data or database - in a machine-readable database or spreadsheet format such as Excel, CSV, Access, SQL or XML - from which the dataset "exceptional_events_1_1_2016_copy_for_MuckRock.csv" attached to this request originally stems from. This data was provided to me, Dillon Bergin, on June 13, 2023 after email correspondence with Melissa Sullivan and Shayla Powell (sullivan.melissa@epa.gov and Powell.Shayla@epa.gov). I am now requesting the entire raw data or database and all fields original fields therein.</p> <p>The data should include all fields in the database or spreadsheets that contain non-exempt information, including but not limited to all fields in the example data included in this email. I also request all documentation that describes the layout of the database's tables and fields, and that provides the definitions of any field names, codes, and abbreviations used in the database. This information may be gathered together in a single document like a data dictionary, entity layout, or user's guide. If that is the case, I request access to and copy of said document.</p> <p>This is an expedited request by the Brown Institute for Media Innovation, MuckRock, and the California Newsroom ("Brown Institute," "MuckRock," and "California Newsroom") under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552.</p> <p>Fee Waiver Request A waiver of search and review fees is appropriate here because disclosure of the requested information is in the public interest under 5 U.S.C. § 552(a)(4)(A)(iii) and 45 C.F.R. § 5.54(a), (b)(1)-(2), and because the request is not primarily in the Brown Institute, MuckRock, or California Newsroom's commercial interest, 45 C.F.R. §§ 5.45(a), (b)(3)(ii).</p> <p>Disclosure of the requested information is likely to contribute significantly to the public understanding of the regulation of air pollution, which is harmful to human health. 45 C.F.R. § 5.54(b)(1). In particular, the requested information will shed light on exceptional events, a mechanism used by regulators to account for and exclude air pollution, information which is not "already in the public domain." 45 C.F.R. § 5.54(b)(2)(i). As a nonprofit organization assisting other news media organizations on coverage of federal government policy, we have demonstrated our "ability and intention to effectively convey information to the public." 45 C.F.R. § 5.54(b)(2)(ii).</p> <p>Limitation of Fees We are also entitled to a limitation of fees because we are a member of the news media. 45 C.F.R. § 5.53(b); 5 U.S.C. § 552(a)(4)(A)(ii)(II). Accordingly, even if our application for a waiver of all fees is denied, we are entitled to a limitation of fees. As a news media requester, we are "entitled to search time, review time, and up to 100 pages of duplication" and can be charged only duplication fees after the first 100 pages or its cost equivalent. 45 C.F.R. § 5.53(b). We request that the information be provided in its native electronic format, and thus there should be no duplication fees.</p> <p>Request for Expedited Processing We also ask that the information requested be disclosed on an expedited basis. Expedited processing is appropriate here because a "compelling need" exists for disclosure of the requested information. 5 U.S.C. § 552(a)(6)(E)(i)(I). A compelling need exists when, with respect to a request made by a person primarily engaged in disseminating information to the public, there is "an urgent need to inform the public about an actual or alleged Federal Government activity." 45 C.F.R. § 5.27(b)(2).</p> <p>As a news organization, we are primarily engaged in disseminating information to the public. Over the last several years, wildfires have grown, and with them, so has pollution from particulate matter and ozone. 2023-R03-05161	Burdick, Donald	-	<p>Karen Melvin from the EPA Region 3 office sent me a letter dated June 8, 2022.</p> <p>In that letter, Ms. Melvin stated:</p> <p>"EPA recently received IBWWTP monitoring well sampling data from DNREC. This data set covers 2015 through Spring 2022 and appears to be the same data that was summarized in an attachment to your May 27, 2022 email sent to EPA and others. My staff are currently reviewing this data. This data has also been shared with EPA's Criminal Investigation Division and with the Agency for Toxic Disease Registry (ATSDR), an arm of the Centers for Disease Control and Prevention (CDC) which would be a resource available for performance of a health assessment. As you have been advised, ATSDR is the principal federal public health agency that may help identify, prevent or reduce the harmful effects of hazardous substances, if present, on human health.</p> <p>Ms. Melvin also stated, "EPA inspectors also attempted to conduct an inspection on April 1st of a property located on Lawson Road that you referred to EPA (Parcel ID # 234-21.00-139.00 from the spreadsheet you provided). Neither EPA nor inspectors from DNREC were able to contact the property owner to obtain access to the site prior to or on April 1st. The inspectors viewed the property as best they could from adjoining properties. DNREC was subsequently able to contact the owner or operator of the property to schedule an inspection. That inspection will occur soon. An EPA Clean Water Act inspector will be present at that inspection along with several inspectors from DNREC evaluating other statutory programs.</p> <p>Once these activities are completed, we will be happy to share the findings with you."</p> <p>The attached files include Ms. Melvin's letter, a drone shot proving Ms. Melvin lied about the wastewater facility spray fields, and a satellite image of active dumping of liquid at the Lawson Rd. site where there is also an enormous illegal landfill.</p> <p>For this FOIA request I would like:</p> <p>1) All communications in which the Inland Bays Regional Wastewater Facility well data was shared with both EPA's Criminal Investigation Division and with the Agency for Toxic Disease Registry (ATSDR).</p> <p>2) The findings from the inspection of Parcel ID # 234-21.00-139.00.</p>	07/03/2023

To Whom It May Concern,

Pursuant to the Freedom of Information Act, I hereby request all database documentation, such as a data dictionary, entity layout or user's guide kept within the EPA's Office of Air Quality Planning and Standards that contain the following non-case-sensitive-key-strings: "EXCEPTIONAL_EVENT_ID", "exceptional event ID", "exceptionalEventID" and "exceptional-event-ID".

I obtained a dataset, attached to this request, on June 13, 2023 after email correspondence with Melissa Sullivan and Shayla Powell (sullivan.melissa@epa.gov and Powell.Shayla@epa.gov) that contained the unique identifier "EXCEPTIONAL_EVENT_ID" as the first column. It is my understanding that a unique identifier like "EXCEPTIONAL_EVENT_ID" connects one dataset to other datasets. I am seeking database documentation for any and all datasets that contain the key-strings above.

This is an expedited request by the Brown Institute for Media Innovation, MuckRock, and the California Newsroom ("Brown Institute," "MuckRock," and "California Newsroom") under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552.

Fee Waiver Request

A waiver of search and review fees is appropriate here because disclosure of the requested information is in the public interest under 5 U.S.C. § 552(a)(4)(A)(iii) and 45 C.F.R. § 5.54(a), (b)(1)-(2), and because the request is not primarily in the Brown Institute, MuckRock, or California Newsroom's commercial interest, 45 C.F.R. §§ 5.45(a), (b)(3)(ii).

Disclosure of the requested information is likely to contribute significantly to the public understanding of the regulation of air pollution, which is harmful to human health. 45 C.F.R. § 5.54(b)(1). In particular, the requested information will shed light on exceptional events, a mechanism used by regulators to account for and exclude air pollution, information which is not "already in the public domain." 45 C.F.R. § 5.54(b)(2)(i). As a nonprofit organization assisting other news media organizations on coverage of federal government policy, we have demonstrated our "ability and intention to effectively convey information to the public." 45 C.F.R. § 5.54(b)(2)(ii).

Limitation of Fees

We are also entitled to a limitation of fees because we are a member of the news media. 45 C.F.R. § 5.53(b); 5 U.S.C. § 552(a)(4)(A)(ii)(II). Accordingly, even if our application for a waiver of all fees is denied, we are entitled to a limitation of fees. As a news media requester, we are "entitled to search time, review time, and up to 100 pages of duplication" and can be charged only duplication fees after the first 100 pages or its cost equivalent. 45 C.F.R. § 5.53(b). We request that the information be provided in its native electronic format, and thus there should be no duplication fees.

Request for Expedited Processing

We also ask that the information requested be disclosed on an expedited basis. Expedited processing is appropriate here because a "compelling need" exists for disclosure of the requested information. 5 U.S.C. § 552(a)(6)(E)(i)(I). A compelling need exists when, with respect to a request made by a person primarily engaged in disseminating information to the public, there is "an urgent need to inform the public about an actual or alleged Federal Government activity." 45 C.F.R. § 5.27(b)(2).

As a news organization, we are primarily engaged in disseminating information to the public. Over the last several years, wildfires have grown, and with them, so has pollution from particulate matter and ozone. Climate change is a significant factor in the understanding of five of the six criteria pollutants, and understanding how criteria pollution overall is expected is crucial to public understanding of the management of health risks. The information requested thus concerns "a matter of exigency to the American public" and "the consequences of delaying a response would compromise a significant recognized interest." *Bloomberg, L.P. v. United States Food & Drug Admin.*, 500 F. Supp. 2d

Dear FOIA Officer:

This is a request for records under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 and the Privacy Act, 5 U.S.C. § 552a. This request should be considered under both statutes to maximize the release of records.

RECORDS SOUGHT

I request disclosure from the Environmental Protection Agency the following records:

(The timeframe for this request 1/1/19 to present. You may omit push alerts and news clippings from the search.)

All financial disclosures and ethics waivers filed by Mary Kay Lynch and Kathie Stein.

INSTRUCTIONS REGARDING SEARCH

1. Request for Public Records:

Please search for any records even if they are already publicly available.

2. Request for Electronic and Paper/Manual Searches:

I request that searches of all electronic and paper/manual indices, filing systems, and locations for any and all records relating or referring to the subject of my request be conducted. I further request that the agencies conduct a search of its "soft files" as well as files in its locked cabinets.

3. Request regarding Photographs and other Visual Materials:

I request that any photographs or other visual materials responsive to my request be released to me in their original or comparable forms, quality, and resolution. For example, if a photograph was taken digitally, or if the agencies maintain a photograph digitally, I request disclosure of the original digital image file, not a reduced resolution version of that image file nor a printout and scan of that image file. Likewise, if a photograph was originally taken as a color photograph, I request disclosure of that photograph as a color image, not a black and white image. Please contact me for any clarification on this point.

4. Request for Duplicate Pages:

I request disclosure of any and all supposedly "duplicate" pages. Scholars analyze records not only for the information available on any given page, but also for the relationships between that information and information on pages surrounding it. As such, though certain pages may have been previously released to me, the existence of those pages within new context renders them functionally new pages. As such, the only way to properly analyze released information is to analyze that information within its proper context.

2023-OCSP-05233	Culleen, Lawrence	Arnold & Porter Kaye Scholer LLP	<p>RE: Requesting Non-CBI Documents; FIFRA Registration Application. I am seeking non-confidential copies of the following documents:</p> <p>1. Any pesticide registration application submitted by an entity known as Fresh Inset S.A. (Fresh Inset), EPA company number 102518, seeking to register a plant regulator containing the active ingredient 1-Methylcyclopropene (or 1-MCP), including:</p> <p>a. Applications seeking to register end use products, manufacturing use products, and technical grade active ingredient products;</p> <p>b. All administrative materials included with the registration application(s) located in response to request number 1, above, including data matrices, certifications with respect to citation of data, confidential statements of formula, and letters of support enabling Fresh Inset to rely on certain data or studies;</p> <p>c. Technical materials and other information submitted in support of registration applications located in response to request number 1, above;</p> <p>d. Draft labels submitted as part of an application for a product registration;</p> <p>2. Copies of EPA evaluations of any data and/or studies or technical publications submitted with the Fresh Inset registration applications (e.g., Data Evaluation Reviews, or "DERs") generated as a result of any Fresh Inset registration applications;</p> <p>3. Label review memoranda and other reviews of the sufficiency of Fresh Inset registration applications for 1-MCP continuing products;</p> <p>4. EPA correspondence with Fresh Inset personnel or consultants concerning the company's registration application package(s) and EPA's assessment of the application and its supporting materials and any written responses submitted by Fresh Inset personnel or on its behalf by registration consultants, or Fresh Inset's authorized agents.</p> <p>The foregoing request includes but is not limited to: "hard copies" of such materials, electronic records and related materials (e.g., emails, text messages, and other forms of electronic communications), administrative forms and records, and EPA tracking information and other reports available to EPA personnel. This request does NOT seek any information that Fresh Inset has identified as confidential business information (CBI) or a trade secret or other classification for information that is protected from EPA disclosure to third parties in accordance with FIFRA Section 10(g). However, this request DOES seek all of the items identified above with any confidential information redacted. If any documents are withheld, we request EPA 's response itemize the document withheld and the legal basis for withholding the document and explain why it has not been redacted and supplied with all CBI removed.</p>	07/06/2023
2023-OAR-05237	Ayala, Alexander	Andium Inc.	<p>Dear Freedom of Information Act Officer,</p> <p>I hope this message finds you well.</p> <p>I am writing to formally request information under the Freedom of Information Act (FOIA). Specifically, I am seeking records from the Environmental Protection Agency (EPA) pertaining to oil and gas operators who have submitted Alternative Method 22 (AM-22) approvals.</p> <p>The information is critical for our research and potential collaborations in the industry. We believe that this information will greatly assist us in understanding the landscape of AM-22 applications and approvals in the oil and gas sector.</p> <p>We understand that the FOIA allows agencies 20 business days to respond to a request. We appreciate your efforts in providing these records in a timely manner and look forward to your prompt response.</p> <p>Please inform me of any potential charges in advance of fulfilling my request.</p> <p>Thank you for considering my request.</p>	07/06/2023

2023-OAR-05249	Ballas, Nick	Argus Insight LLC	<p>Dear FOIA Officer:</p> <p>This is a request for records under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 and the Privacy Act, 5 U.S.C. § 552a. This request should be considered under both statutes to maximize the release of records.</p> <p>RECORDS SOUGHT</p> <p>I request disclosure from the Environmental Protection Agency the following records:</p> <p>(The timeframe for this request 1/20/21 to present. You may omit push alerts and news clippings from the search.)</p> <p>All communication sent or received by Joseph Goffman, Dan Utech, Alison Cassady, Cynthia Giles, Tomas Carbonell, and/or Alejandra Nunez containing the term "climate emergency"</p> <p>INSTRUCTIONS REGARDING SEARCH</p> <p>1. Request for Public Records:</p> <p>Please search for any records even if they are already publicly available.</p> <p>2. Request for Electronic and Paper/Manual Searches:</p> <p>I request that searches of all electronic and paper/manual indices, filing systems, and locations for any and all records relating or referring to the subject of my request be conducted. I further request that the agencies conduct a search of its "soft files" as well as files in its locked cabinets.</p> <p>3. Request regarding Photographs and other Visual Materials:</p> <p>I request that any photographs or other visual materials responsive to my request be released to me in their original or comparable forms, quality, and resolution. For example, if a photograph was taken digitally, or if the agencies maintain a photograph digitally, I request disclosure of the original digital image file, not a reduced resolution version of that image file nor a printout and scan of that image file. Likewise, if a photograph was originally taken as a color photograph, I request disclosure of that photograph as a color image, not a black and white image. Please contact me for any clarification on this point.</p> <p>4. Request for Duplicate Pages:</p> <p>I request disclosure of any and all supposedly "duplicate" pages. Scholars analyze records not only for the information available on any given page, but also for the relationships between that information and information on pages surrounding it. As such, though certain pages may have been previously released to me, the existence of those pages within new context renders them functionally new pages. As such, the only way to properly analyze released information is to analyze that information within its proper context. Therefore, I request disclosure of all "duplicate" pages.</p> <p>5. Hello,

Arcadis would like to request any environmental monitoring analytical data that you may have for pesticides and their metabolites.

More specifically, we are looking for data on the following compounds and their metabolites in the various time periods specified in the table and list below in groundwater.

- Cyantraniliprole (and its metabolites)
- Chlorantraniliprole (and its metabolites)

Media

Substances

Time Period

Groundwater

Only

Cyantraniliprole

2010 to present

Metabolites: IN-J9Z38, IN-JCZ38, IN-JSE76,
IN-K5A77, IN-K5A78, IN-K5A79, IN-M2G98,
IN-NXX70, IN-PLT97, IN-QKV54, IN-RNU71
(11 metabolites)

Chlorantraniliprole

other names: E2Y, Rynaxypyr, DPX-E2Y45

2010 to present

Metabolites: IN-EQW78, IN-ECD73, INF6L99,
IN-GAZ70, IN-F9N04 (five metabolites).

The type of data, at the very least, that would be most helpful:

- Location ID where samples were taken
- Date of Sample
- Pesticide Name
- Concentration
- Detection limit (for example, LOD/LOQ/reporting limit)
- Concentration units
- Sample Depth (and depth units)

2023-R06-05273	O'Brien, Katherine	EarthJustice	Thank you very much. Dear Freedom of Information Officer: <input type="checkbox"/> Earthjustice submits this request for records (the "Request") to Region 6 of the U.S. Environmental Protection Agency ("EPA Region 6") on behalf of Texas Environmental Justice Advocacy Services ("t.e.j.a.s.") in accordance with the provisions of the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, and the implementing regulations of the U.S. Environmental Protection Agency ("EPA" or the "Agency"), 40 C.F.R. Part 2. The purpose of the Request is to obtain records relating to the fire that occurred on May 5, 2023 at the Shell Deer Park Facility (the "May 5 fire"), owned by Shell Chemical LP and located at 5900 Highway 225, Deer Park, TX 77536. See "Air Emissions Event Report Database Incident 400010," attached as Exhibit 1. <input type="checkbox"/> Your prompt response pursuant to the requirements of FOIA, 5 U.S.C. § 552(a)(6)(A), is appreciated. <input type="checkbox"/> DEFINITIONS <input type="checkbox"/> T.e.j.a.s. seeks the unredacted records listed below. "Unredacted" means that we are seeking full disclosure of all information in the requested record. If you determine that you cannot disclose all of the information contained in a particular record because certain information is covered by a FOIA disclosure exemption, we request a copy of the record with redactions of only the information that you have determined to be properly withheld and an explanation of the basis for your determination. <input type="checkbox"/> "Records" means information and documents of any kind, including, but not limited to: documents (handwritten, typed, electronic, or otherwise produced, reproduced, or stored), letters, emails, facsimiles, memoranda, correspondence, notes, databases, drawings, diagrams, maps, graphs, charts, photographs, minutes of meetings, calendar entries, meeting agendas, summaries of telephone conversations, notes and summaries of interviews, electronic and magnetic recordings of meetings, and any other compilation of data from which information can be obtained. The term "records" as used above also includes any personal email messages, telephone voice mails or text messages, and internet 'chat' or social media messages, to the full extent that any such messages fall within the definition of "agency records" subject to FOIA. "Records" also includes any attachments to such documents or information. <input type="checkbox"/> The use of the term "EPA Region 6 staff" shall refer to any person employed by or working on behalf of EPA Region 6 as a permanent employee, temporary employee, independent contractor, intern, fellow, or volunteer. <input type="checkbox"/> The use of the term "Coast Guard staff" shall refer to any person employed by or working on behalf of the U.S. Coast Guard as a permanent employee, temporary employee, independent contractor, intern, fellow, or volunteer. <input type="checkbox"/> The use of the term "NOAA staff" shall refer to any person employed by or working on behalf of the U.S. National Oceanic and Atmospheric Administration as a permanent employee, temporary employee, independent contractor, intern, fellow, or volunteer. <input type="checkbox"/> The use of the term "TCEQ staff" shall refer to any person employed by or working on behalf of the Texas Commission on Environmental Quality as a permanent employee, temporary employee, independent contractor, intern, fellow, or volunteer. <input type="checkbox"/> The use of the term "TXGLO staff" shall refer to any person employed by or working on behalf of the Texas General Land Office as a permanent employee, temporary employee, independent contractor, intern, fellow, or volunteer. <input type="checkbox"/> The use of the term "Harris County staff" shall refer to any person employed by or working on behalf of the government of Harris County, Texas as a permanent employee, temporary employee, independent contractor, intern, fellow, or volunteer. <input type="checkbox"/>	07/10/2023

Dear FOI officer This is a request for information under the Freedom of Information Act. I would like to see copies of any any all written communications sent from 1 January 2023 to the present day that relates to domestic and/or international policy and legislation on plastics, and is between any of the following staff: ☐

- Ms. Stephanie Adrian, Chief of International Branch, Office of Resource Conservation and Recovery, U.S. Environmental Protection Agency ☐
- Ms. Karissa Kovner, Senior Policy Advisor for International Affairs, Office of Chemical Safety and Pollution Prevention, U.S Environmental Protection Agency ☐
- Ms. Laura Nazef, Environmental Protection Specialist, Office of Chemical Safety and Pollution Prevention, U.S Environmental Protection Agency ☐
- Ms. Elizabeth Shaw, Senior Advisor, United States Environmental Protection Agency ☐

and any of the following organisations:☐

- American Chemistry Council ☐
- American Fuel and Petrochemical Manufacturers ☐
- Dow Chemical or their lobby firm Garcia Government Affairs ☐
- Organisation of the Petroleum Exporting Countries ☐
- SABIC ☐
- Alliance to End Plastic Waste, including Jacob Duer. ☐

“Written communications” in this context includes, but is not limited to: letters, emails and memos, cover sheets associated with any documents, briefing notes and meeting agendas. Please also provide the attachments to any these emails or other communications. Please also provide me with a list of any meetings held between these staff and these companies at which the issue of domestic or international plastics policy was discussed. For these meetings, please provide me with the corresponding briefing documents, meeting agendas and meeting minutes taken. Policy on plastics is a matter of high public interest, both in the US and internationally, as there is an ongoing crisis concerning how plastics are produced, managed and disposed of, which has affected US local communities across the country, as well as communities overseas. There is also an ongoing UN plastic treaty, currently being negotiated and there is concern that American corporations could be unduly influencing the process. The request concerns the government's response to this and its policy position on the world stage, which has been criticised, with complaints raised about lobbying by industry on the issue. Disclosure would aide public understanding of the issue and the role of government and industry. I also wish it to be noted for these reasons that I am an accredited journalist and work for a non-profit so disclosure is not in my commercial interest. For all of these reasons, I wish to request a fee waiver. If any information is refused, please provide an explanation of how much is being held and what type of information it is. Please confirm you have received this request. If there is anything unclear about this request, or there is anything you need to clarify with me in order to be able to provide the fullest response possible, please do not hesitate to contact me on the details below. Please send me the information in an electronic format. Thanks in advance for your help. Best wishes, Emma

KAFB has a new RV park located on Benachi Avenue in Biloxi, about a mile east of the RV Storage Area on KAFB property. Why did they not locate this RV Storage Area in a different location with less impacts than the one chosen?</p> <p>The Hurricane/storm evacuation plan and implementation process for the RV Storage Area.</p> <p>What consideration has been given to the cumulative and secondary impacts of the direct and indirect effects of construction projects and waste disposal sites from KAFB on the Oak Park neighborhood, Back Bay of Biloxi, and surrounding areas of Biloxi.</p> <p>We do not know exactly what we need to ask for, but hopefully this will help us get answers to some of the questions we have about these two issues. KAFB, USACE Mobile District, MS DEQ, MS DMR, and the City of Biloxi have been notified and supplied documentation about the problems with the RV Storage Area since November 2022, but the problems with the RV Storage Area have not been solved and we do not have answers to the questions listed above. We look forward to hearing from someone from EPA Region 4 about these issues. We have letters, emails, records of conversation with officials, and photographs of the illegal runoff and wetlands fill.</p>	07/12/2023

2023-R02-05341	Cedeno, Sarah	-	<p>I am writing an environmental essay about the industrial section of Brockport, NY in the 1980s-90s. This village had multiple community protests regarding Kleen Brite Laboratories and their soap detergent air pollutants during these decades. We had soap bubbles run down our streets in the rain. We had soap scum on our trees and cars. I don't believe anything was ever done about the air pollutants, though Erin Brockovich represented Brockport residents in a suit against Dynacolor/3M for ground contamination after Dynacolor dumped pollutants on Owens Road/Oxford Street area in the 1970s. These businesses had to remediate the soil, etc.</p> <p>I'm looking for air quality data for KLEEN BRITE LABORATORIES at FAIR STREET in Brockport, NY, from the late 1970s-1990s. I'd like to know reported amounts of particulate matter that posed health risks to the community.</p>	07/13/2023

In that role, Mr. Wray prosecuted a wide variety of federal criminal cases, including public corruption, gun trafficking, drug offenses, and financial fraud. In 2001, Mr. Wray was named associate deputy attorney general, and then principal associate deputy attorney general, in the Office of the Deputy Attorney General in Washington, D.C. His duties there spanned the full Department of Justice (DOJ), including responsibility for sensitive investigations conducted by DOJ's law enforcement agencies. Mr. Wray was nominated by President George W. Bush in 2003 to be the assistant attorney general for DOJ's Criminal Division, supervising major national and international criminal investigations and prosecutions. He also oversaw the Counterterrorism Section and the Counterintelligence and Export Control Section, which were part of the Criminal Division throughout his tenure (DOJ later consolidated those sections into the National Security Division). Mr. Wray was a member of the President's Corporate Fraud Task Force, supervised the Enron Task Force, and served as a leader in DOJ's post-9/11 efforts to combat terrorism, espionage, and cybercrime with domestic and foreign government partners. At the conclusion of his tenure, Mr. Wray was awarded the Edmund J. Randolph Award, DOJ's highest award for leadership and public service.</p>	07/17/2023

2023-OW-05417	DeMay, Jim	Whitfield Bryson LLP	<p>I am requesting all records relating to communications between the EPA water specialists and the Wall Street Journal regarding underwater telecommunication cables potentially being in Source Water Protection Areas. Specifically, I am requesting the data concerning the locations of these cables that was provided to the EPA by the Wall Street Journal.</p> <p>Source - https://www.wsj.com/articles/lead-cables-investigation-att-methodology-1703dbb0?mod=article_inline :</p> <p>"To determine whether underwater cables were inside drinking-water sources, the Journal sent the identified locations to the Environmental Protection Agency. EPA water specialists reviewed the locations and estimated that roughly 330 were in a Source Water Protection Area, which means it provides drinking water. The EPA didn't identify which specific locations were in Source Water Protection Areas, citing their sensitivity."</p>	07/18/2023

You are seeking information that includes but is not limited to costs to fund billboards, TV placements, flier costs, social media costs, and production costs for recycling campaigns. Specifically, you are interested in costs incurred by EPA during FY21, FY22, and FY23 for recycling campaigns. This narrowed scope will allow us to respond more efficiently.</p> <p>Next Steps:</p> <p>EPA anticipates providing you with this release by October 6, 2023.</p> <p>Please review and reply to confirm that the revised scope of the request is acceptable.</p> <p>You may contact me at Sjogren.Mya@epa.gov with your response or if you have any further questions. Additionally, you may seek assistance from EPA's FOIA Public Liaison at hq.foia@epa.gov or (202) 566-1667, or from the Office of Government Information Services (OGIS). You may contact OGIS by any of the following ways: by mail at Office of Government Information Services, National Archives and Records Administration, Room 2510, 8601 Adelphi Road, College Park, MD 20740-6001; email at ogis@nara.gov; telephone at (202) 741-5770 or (877) 684 6448; or fax at (202) 741-5769.</p> <p>Sincerely,</p> <p>Mya Sjogren</p> <p>Sustainable Materials Management Program</p> <p>Office of Land and Emergency Management</p> <p>US Environmental Protection Agency</p>	07/19/2023

2023-OMS-05453	Howell, Mike	Heritage Foundation Oversight Project	<p>Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following from 2021 to the present: All emails to/from/bcc Amanda Howe mentioning, “on the background”, “off the record”, “off-the-record”, “on background”, “deep background”, “compliance”, “confidential”, “complaint”, “investigation”, “classified”, “LIMDIS”, “not for attribution”, “non-attribution”, “not attributed”, “source”, “anonymity”, “anonymous”, “sensitive”, “counsel”, “embargo”, “embargoed”, “policy draft”, “talking points”, “pre-read”, “briefing sheet”, “sitrep”, “memorandum draft”, or “memorandum”. All calendar entries and internal Microsoft Teams or Lync messages from Amanda Howe mentioning “on the background”, “off the record”, “off-the-record”, “on background”, “deep background”, “compliance”, “confidential”, “complaint”, “investigation”, “classified”, “LIMDIS”, “not for attribution”, “non-attribution”, “not attributed”, “source”, “anonymity”, “anonymous”, “sensitive”, “counsel”, “embargo”, “embargoed”, “policy draft”, “talking points”, “pre-read”, “briefing sheet”, “sitrep”, “memorandum draft”, “memorandum”, “Republican”, “Democrat” or “nominee”. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. The terms “pertaining to,” “referring,” “relating,” or “concerning” with respect to any given subject means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is in any manner whatsoever pertinent to that subject. The term “record” means any written, recorded, or graphic matter of any nature whatsoever, regardless of how recorded, and whether original or copy, including, but not limited to, the following: memoranda, reports, expense reports, books, manuals, instructions, financial reports, working papers, records, notes, letters, notices, confirmations, telegrams, receipts, appraisals, pamphlets, magazines, newspapers, prospectuses, inter-office and intra-office communications, electronic mail (emails), MMS or SMS text messages, instant messages, messaging systems (such as iMessage, Microsoft Teams, WhatsApp, Telegram, Signal, Google Chat, Twitter direct messages, Lync, Slack, and Facebook Messenger), contracts, cables, telexes, notations of any type of conversation, telephone call, voicemail, meeting or other communication. Please comply fully with 5 U.S.C. § 552(b). To further narrow down the scope of the request, the requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. Accordingly, without limitation to the foregoing, if any portion of this request is denied for any reason, please provide written notice of the records or portions of records that are being withheld and cite each specific exemption of the Freedom of Information Act on which the agency relies. Moreover, to the extent that responsive records may be withheld in part produce all reasonably segregable portions of those records. Additionally, please provide all responsive documents even if they are redacted in full. This request is primarily and fundamentally for non-commercial purposes. As a 501(c)(3) nonprofit, Heritage Foundation does not have a commercial purpose and the release of the information requested is not in Heritage Foundation’s commercial interest. 2023-R03-05433	Carter, James	-	<p>AEC is conducting a Phase I Environmental Site Assessment for a property in Charles County, Maryland. The property is addressed as 4830 Pisgah Park Place, La Plata, Maryland. It should be noted that the property is also sometimes addressed as 6645 Mason Spring Road Indian Head, Maryland. A map from the Maryland State Department of Assessments and Taxation (SDAT) is also attached along with the SDAT parcel card for the site. The property being assessed was used as a sanitary landfill by Charles County, MD between 1974 and 1990. The landfill is reportedly currently closed and capped. The site is listed on the CERCLA database and it is noted that the site is not on the NPL and that received No Further Remedial Action is Planned (NFRAP) as of October 1999. The Maryland Department of the Environment (MDE), under a cooperative agreement with the EPA, is conducting an ongoing oversight investigation. We are requesting all CERCLA landfill closing records, landfill maps including the location of landfill cells, and any other pertinent environmental assessment records associated with this CERCLA site.</p>	07/19/2023

All calendar entries and internal Microsoft Teams or Lync messages from Susan Bodine mentioning “on the background”, “off the record”, “off-the-record”, “on background”, “deep background”, “compliance”, “confidential”, “complaint”, “investigation”, “classified”, “LIMDIS”, “not for attribution”, “non-attribution”, “not attributed”, “source”, “anonymity”, “anonymous”, “sensitive”, “counsel”, “embargo”, “embargoed”, “policy draft”, “talking points”, “pre-read”, “briefing sheet”, “sitrep”, “memorandum draft”, “memorandum”, “Republican”, “Democrat” or “nominee”. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. The terms “pertaining to,” “referring,” “relating,” or “concerning” with respect to any given subject means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is in any manner whatsoever pertinent to that subject. The term “record” means any written, recorded, or graphic matter of any nature whatsoever, regardless of how recorded, and whether original or copy, including, but not limited to, the following: memoranda, reports, expense reports, books, manuals, instructions, financial reports, working papers, records, notes, letters, notices, confirmations, telegrams, receipts, appraisals, pamphlets, magazines, newspapers, prospectuses, inter-office and intra-office communications, electronic mail (emails), MMS or SMS text messages, instant messages, messaging systems (such as iMessage, Microsoft Teams, WhatsApp, Telegram, Signal, Google Chat, Twitter direct messages, Lync, Slack, and Facebook Messenger), contracts, cables, telexes, notations of any type of conversation, telephone call, voicemail, meeting or other communication. Please comply fully with 5 U.S.C. § 552(b). To further narrow down the scope of the request, the requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. Accordingly, without limitation to the foregoing, if any portion of this request is denied for any reason, please provide written notice of the records or portions of records that are being withheld and cite each specific exemption of the Freedom of Information Act on which the agency relies. Moreover, to the extent that responsive records may be withheld in part produce all reasonably segregable portions of those records. Additionally, please provide all responsive documents even if they are redacted in full. This request is primarily and fundamentally for non-commercial purposes. As a 501(c)(3) nonprofit, Heritage Foundation does not have a commercial purpose and the release of the information requested is not in Heritage Foundation's commercial interest. 2023-R01-05465	Calautti, Pietro	Arcina Risk Group	<p>I am writing to submit a request for public records pertaining to the Shpack Superfund site located in Norton and Attleboro, Massachusetts (the "Shpack site") in connection with an entity by the name of Swank, Inc. ("Swank").</p> <p>On June 7, 1990, Swank received notice from the United States Environmental Protection Agency ("EPA") that they had been identified as Potentially Responsible Party along with fifteen others (collectively, the "PRPs"). Swank, along with six other PRPs subsequently entered into an administrative order by consent pursuant to which, inter alia, they undertook to conduct a remedial investigation/feasibility study with respect to the alleged contamination of the Shpack site.</p> <p>I would like to request a search of the EPA files for the following document types relevant to cooperation between EPA and Swank in connection with the Shpack site:</p> <ul style="list-style-type: none"> • Any evidence identifying Swank's initial defense counsel • Any evidence referencing whether Swank's counsel's costs were covered by Swank's legacy insurers • Any files related to Swank's historical insurance coverage • Evidence of insurance policies issued to Swank submitted to EPA • Records of any insurance claims made by Swank <p>If possible, I would prefer to receive electronic copies of all requested material.</p>	07/20/2023

2023-R10-05463	Hadley, Keiran	Oregon Clean Water Action Project	<p>On behalf of Oregon Clean Water Action Project, I am submitting a public records request to the Environmental Protection Agency (EPA) in addition to requesting a fee waiver. This request seeks all records, including communication records, related to inspections, penalties, or cleanup activities, from January 1, 2001, to the present for the Musick Mine located on County Road 2473 in Lane County, approximately 35 miles southwest of Cottage Grove, Oregon. For the purposes of this request, the term "records" includes, but is not limited to, hard copy records, hand-written records, electronic records, photographs, video, and sound recordings. "Communications" includes but is not limited to, letters, memoranda, emails, text messages, notes, and voicemails (electronic or transcribed).</p> <p>The records Oregon Clean Water Action Project requests include, but are not limited to:</p> <p>(1) Any and all communications by any Musick Mining LLC representative, or any EPA staff member or representative, regarding the Musick Mine;</p> <p>(2) Any and all communications between any EPA representative and any Oregon Department of Environmental Quality (DEQ) representative regarding the Musick Mine;</p> <p>(3) Maps, drawings, or plans;</p> <p>(4) Inspection records;</p> <p>(5) Complaints.</p> <p>If possible, we request that these documents be released to us in electronic format, via email or cloud storage. If necessary, OCWAP is available to review copies of the records in person at EPA's Oregon Operations Office. If there is a need to discuss the details of this request further, please contact me at the phone number or email address provided on this form.</p> <p>Oregon Clean Water Action Project also requests that EPA waive any fees associated with this request. Waiving the fees is in the public interest as making the entire record available benefits the general public and is not in the commercial interest of the requester. 40 C.F.R. § 2.107(l).</p>	07/20/2023
2023-R09-05491	Whitaker, Ashley	Roux Associates	<p>We are interested in obtaining documents, specifically RCRA and CERCLA documents, related to the APNs: 053-412-025 and 053-412-026. 2023-OCSPP-05522	Brombacher, Markus	INREX, LLC	<p>This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. We seek copies of any and all documents, including but not limited to correspondence, internal memoranda, reports, notes, records or other materials in the Environmental Protection Agency's ("EPA's") pesticide registration files for the following ACETO US, LLC pesticide product: 33427-36 ("Aceto Prothioconazole Technical"). We would appreciate it if EPA would give priority to the following documents and provide them to us under separate cover as soon as they have cleared EPA's Confidential Business Information review: 1. any submission/application correspondence with EPA; 2. any EPA Form 8570-1 (Application for Pesticide – Section 1); 3. any EPA Form 8579-34 (Certification with Respect to Citation of Data); 4. any EPA Form 8570-35 (Data Matrix); and 5. any EPA Form 8570-27 (Formulator's Exemption Statement). □</p> <p>This request does not apply to any documents or portions thereof contained in these files that are Confidential Business Information. Further, this FOIA request does not seek test data, manufacturing processes, or the confidential statement of formula for this or any other pesticide product. We would be pleased to pay reasonable costs related to duplicating and shipping the requested information. Please contact me should it appear that the costs will exceed \$25. If I may be of any assistance with this matter, please do not hesitate to contact me at (703) 242-2506. Thank you in advance for your assistance. Sincerely, Markus W. Brombacher, INREX, LLC, 9915 Corsica St., Vienna, VA 22181.</p>	07/24/2023
2023-OW-05525	Bodere, Pierre	New York University	<p>Dear EPA FOIA team, I would like to request the same data as a previous EPA FOIA request with the following number: EPA-HQ-2019-006779. I am joining below the original description of the request:</p> <p>I seek detailed data on all loans made through the Drinking Water State Revolving Fund (DWSRF, see https://www.epa.gov/dwsrf). I seek data on the level of each individual loan (e.g., each row in the resulting dataset should list a single loan), rather than more aggregate summaries. I seek data covering all available years. I seek data on all variables in the data, including but not limited to the following: loan amount; date loan was requested; date loan was disbursed; name, identification code, and address of the drinking water treatment plant or distribution system that benefited from the grant; name, identification code, and address of the local government that managed the grant; unique grant number (grant identification code); any other information on the purpose of the grant; grant terms (interest rate, duration, etc.), grant repayment information, written description of the grant project, state/federal grant share, and all other variables available in the data.</p>	07/24/2023

2023-OLEM-05529	Gross, Stuart	Gross Klein PC	<p>all records reflecting, relating, or concerning any data or documents submitted to the EPA by the Wall Street Journal ("WSJ") regarding the WSJ's investigation of the uncontrolled release of lead into the water and surface soil from lead sheathed telecom and power cables. As used herein, "records" includes all data and documents (including all electronically recorded data or databases), including but not limited to, any field notes, photographs, field measurements, laboratories measurements, any interim or final data analysis or summaries, procedural write-ups, laboratory notebooks, any interim or final reports, and any correspondence concerning the relevant scientific studies.</p> <p>Subjects regarding which records are requested:</p> <p>1. A data and documents relating to the WSJ's investigation and articles titled:</p> <ul style="list-style-type: none"> • Wall Street Journal, America Is Wrapped in Miles of Toxic Lead Cables, July 9, 2023;1 Wall Street Journal, How the Journal Investigated Hidden Lead Cables Circling the U.S., July 9, 2023;2 Wall Street Journal, Bayou Teche is an Epicenter of America's Lead Cable Problem, July 10, 2023;3 and Wall Street Journal, AT&T and Verizon Knew About Toxic Lead Cables – and Did Little, July 12, 2023.4 <p>2. A documents embodying or concerning any analysis of the WSJ's investigation by the EPA.</p> <p>3. Ay other data and documents concerning further studies regarding the release of lead into water or surface soil from lead sheathed telecom and power cables.</p> <p>[Clarification on 7/25/2023: In addition to the two places at which you [NFO email with screenshots 1 and 2] correctly noted the EPA was mentioned in the 7/9/23 WSJ article titled "America Is Wrapped in Miles of Toxic Lead Cables", the EPA is also described in the article as having reviewed the data. See bottom of page six of the attached copy of the article and the attached screenshot.</p> <p>Another 7/9 WSJ article titled "How the Journal Investigated Hidden Lead Cables Circling the U.S. ", at page 3 of the attached, also indicates that the WSJ sent the data to the EPA and the EPA analyzed it. Also attached is a screenshot of that statement:</p> <p>And a 7/11/23 WSJ article titled "Lawmakers Demand Telecom Firms Act on Toxic Lead Cables After WSJ Investigation," at page 4 of the attached, states that the EPA is reviewing the article. A screenshot of the section is attached.</p> <p>We have no interest in unnecessarily burdening the agency. Thus, I am happy to discuss with you the best way to separate the wheat (e.g., the data provided by the WSJ and substantive analysis of it by the EPA) from the chaff (e.g., internal EPA emails along the lines of "did you read the WSJ article? let's discuss").]</p>	07/24/2023

2023-OMS-05504	Howell, Mike	Heritage Foundation Oversight Project	<p>Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the Environmental Protection Agency, I respectfully request the following: a current organizational hierarchy chart for Environmental Protection Agency. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread.The terms “pertaining to,” “referring,” “relating,” or “concerning” with respect to any given subject means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is in any manner whatsoever pertinent to that subject. Please comply fully with 5 U.S.C. § 552(b). Moreover, to the extent that responsive records may be withheld in part produce all reasonably segregable portions of those records. Additionally, please provide all responsive documents even if they are redacted in full. This request is primarily and fundamentally for non-commercial purposes. As a 501c3 nonprofit, Heritage Foundation does not have a commercial purpose and the release of the information requested is not in Heritage Foundation's commercial interest. The Heritage Foundation's mission is to formulate and promote public policies based on the principles of free enterprise, limited government, individual freedom, traditional American values, and a strong national defense. Heritage Foundation uses the information requested and analyzes it in order to educate the public through social media, broadcast media (traditional and nontraditional) and press releases. The requested information is in the public interest because there trust in government is at historic lows, and the American people deserve transparency. Organizational hierarchy charts are critical to examine both the scope of the agency, as well as to further understand the agency's core operations in parallel to current oversight investigations. Because this is a request by a member of the news media for information of public interest, made in my capacity as an author for The Daily Signal (a major news outlet), I actively gather information of potential interest to our Daily Signal audience, and I use my editorial skills to turn raw materials into a distinct work, and I distribute that work to our Daily Signal audience through podcasts or articles. I request that you waive all applicable fees associated with this request. If you deny this request for a fee waiver, please advise me in advance of the estimated charges if they are to exceed . Please send me a detailed and itemized explanation of those charges. If you have any questions, or feel you need clarification of this request please contact me at noreplyoversight@heritage.org.</p>	07/24/2023

In order to help you determine my status for the purpose of assessing fees, you should know that I am affiliated with a private business and am seeking information for use in the company's business. I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. The purpose of this request is to obtain acute pulmonary toxicity studies of Bacillus thuringiensis var. Tenebriosis technical material conducted in mice to better understand the study protocol and the study outcome. We believe that these records will provide valuable insights into the toxicity profile of one of the isolated strains of Bacillus thuringiensis var. Tenebriosis. With better understanding of these data this information could potentially reduce and ultimately eliminate the need for further animal testing which in turn will save animal lives. It seeks different records related to Help Deck Tickets FOOSHD-1404 and FOOS-4556, not Help Deck Ticket FOH-12356.</p> <p>REQUESTED FORMAT.</p> <p>I am also seeking records in their native format (MS. Outlook, PowerPoint, Excel, ADA accessible PDF files or other mutually agreed by return email with: (1) a signed and dated cover letter (citing my personally assigned requester control number); (2) with record page count for all records released records (3) a copy of this request in your reply. I seek records via email in PDF format with an imbedded copy of my requests to (1) impede the agency from not addressing the FOIA Request; (2) impede the Agency from not providing the documents stated in the Agency's letter reply, and (3) make it obvious in any subsequent review what the Agency has or has not done.</p> <p>Further, I request that these records be sent in any digital formats in which they exist (such as PDF and Excel). Under the terms of the E-FOIA Amendments of 1996, Section 5, if a document exists in electronic format, it must be released in that format upon request.</p> <p>Each record must be provided as a distinct record in their native format. Emails should be provided as MS Outlook files, if not encrypted or otherwise unable to be open ed by me. Only if this is not possible, emails should be produced with their embedded hyperlinked attachments by using the "File => Save as Adobe PDF" command within Outlook or by other software that produces the same result.</p>	07/25/2023

2023-AO-05549	Yardis, Morgan	Protect the Public's Trust	This is a request under the Freedom of Information Act, 5 U.S.C. § 552, as amended (FOIA), from the Protect the Public's Trust (PPT), a nonpartisan organization dedicated to promoting ethics in government and restoring the public's trust in government officials. Government officials have reportedly used military aircraft for travel. Just this past spring, Secretary Buttigieg was found traveling on military aircraft (MILAIR) to a sporting event in Europe. 1 While usage of military aircraft for personal travel is especially egregious, use of MILAIR for official travel may also raise concerns. Accordingly, PPT requests the following records regarding MILAIR travel: Records Requested 1. From March 10, 2021, through November 30, 2022, records of Administrator Michael Regan's use of military aircraft, or MILAIR, for travel.	07/25/2023

2023-R04-05534	Cunningham, Waylon	Reuters	<p>I am requesting electronic copies of reference records related to the "TVA Kingston Fossil Fuel Plant Release Site On-Scene Coordinator Report for the Time-Critical Removal Action May 11, 2009 through December 2011." For clarity, I will refer to this document as the "OSC report." For the purposes of locating this document, it is identified by the EPA reference number as "EPA-AO-030." I believe it was submitted to the EPA on March 31, 2011.</p> <p>I am not interested in the OSC report, which is available online. Instead, I am requesting a digital copy of the "reference documents" which were included on a DVD attached to the report. An index of these documents is at the end of the OSC report. I am requesting a digital copy of the contents of that DVD, preferably sent over email or electronically in a format that does not require postal mail.</p> <p>If that DVD or the repository of files contained on it cannot be located, I would request electronic copies of the following specific files as they are described in the OSC report:</p> <p>* "Technical Evaluation Report, Assessment of the Radiological Dose Consequences of Disposing of Ash Waste Containing TENORM in a Municipal Solid Waste Landfill. Prepared by Hodges, Harbin, Newerry & Tribble, Inc. June 22, 2009.&quot;</p> <p>* "Summation of Comments Received and Response-to-Comments, Perry County Associates Landfill, Uniontown, Perry County, Alabama. Prepared by ADEM. July 2009."</p> <p>* "Letter: Perry County Associates Arrowhead Landfill - TVA Ash Project. Prepared by Donald E. Williamson, M.D. (ADPH) to William F. Hodges (Hodges, Harbin, Newberry & Tribble, Inc.). June 22, 2009.&quot;</p> <p>If the DVD cannot be located, the files above are the only ones I would request. If the DVD can be located, I would request the entirety of its contents.</p> <p>If there is any way I can clarify this request or otherwise facilitate its processing, I am happy to help. I can be best reached over email.</p> <p>Thank you, Waylon Cunningham</p>	07/25/2023

2023-OAR-05600	Byszewski, Elaine	Hagens Berman Sobol Shapiro LLP	<p>On 2/18/18, Ford notified the EPA and other agencies that it was looking into a potential concern involving its U.S. emissions certification process relating to road load estimations, including coastdown testing. DOJ, EPA, and CARB subsequently opened investigations. According to a 10-K for the fiscal year ending 12/31/21 that Ford filed with the SEC (relevant excerpt attached here), Ford received a notification from the EPA that the EPA had closed its inquiry into the matter and did not intend to take any further action. Hagens Berman, a law firm with a pending case against Ford for deceptive advertising to consumers, requests the release of all information under the Freedom of Information Act constituting and/or pertaining to this notice that Ford received from the EPA in 2021 closing its investigation with respect to Ford's emissions certification process.</p> <p>We are aware of a previous FOIA request made by Reuters on 2/22/19, EPA-HQ-2019-003688, regarding this matter but it was completed and closed on 4/10/19 -- before the 2021 EPA closure notice about which this FOIA request seeks information.</p> <p>If you have any questions, please reach out to Elaine Byszewski at elaine@hbsslaw.com or (b) (6). 2023-OCSP-05655	Eisner, Chiara	NPR	<p>Dear Office of U.S. Environmental Protection Agency, <input type="checkbox"/></p> <p>Under the Freedom of Information Act, I am requesting the following records, since January 1, 2018 to the date EPA conducts this search: <input type="checkbox"/></p> <p>A list of the applications submitted to EPA's Office of Pesticide Programs seeking to register a new pesticide product in a manner that would require issuance of a unique EPA registration number. If a list is not available, NPR requests the notice of receipts of those applications; and <input type="checkbox"/></p> <p>The approval or denial decisions EPA made generated in connection to the applications referenced in Item #1 above. <input type="checkbox"/></p> <p>This request is not meant to exclude any other records that, although not specially requested above, are reasonably related to the subject matter of this request.<input type="checkbox"/></p> <p>NPR is willing to receive records on a rolling basis. <input type="checkbox"/></p> <p>Under 5 U.S.C. § 552(a)(3)(B), you are obligated to provide records in a readily accessible electronic format and in the format requested. As such, I request that the records be sent to me in electronic format, and via email, at ceisner@npr.org.<input type="checkbox"/></p> <p>Under 5 U.S.C. § 552(b), if portions of the records requested are determined to be exempt from disclosure, you are required to segregate the exempt portions and send the non- exempt portions of such records within the statutory time limit. As such, in the event that officials believe any records requested should not be considered public record or should be redacted in some way, please: <input type="checkbox"/></p> <p>Describe the records that are being withheld, if records are being withheld, and <input type="checkbox"/></p> <p>Detail the exemption in the law that the Department believes justifies the withholding and/or the redaction.<input type="checkbox"/></p> <p>Send all non-exempt portions of the records within the statutory time limit. <input type="checkbox"/></p> <p>I am a member of the press. National Public Radio is a nonprofit media outlet that informs millions of listeners and readers a day. All records are requested on behalf of the public and are in the public interest. Therefore I request that fees be waived; NPR qualifies for a full fee waiver under the law. In the event that this group believes fees cannot be waived, please first inform me of the charges before fulfilling the request so that I may review them and respond. <input type="checkbox"/></p> <p>As mandated in FOIA, NPR anticipates a reply within 20 working days. Id. § 552(a)(6)(A)(i); 21 C.F.R. § 20.41 (b). <input type="checkbox"/></p> <p>Let me know if you have any questions. I can be reached at my email, ceisner@npr.org, or at (b) (6) .</p>	07/28/2023

2023-R05-05731	Bowers, Mark	Oakland University	<p>The attached notice was emailed to the community of Oakland University in Rochester, Michigan on July 26, 2023. The notice concerns a "planned maintenance project involving campus research equipment...done in conjunction with local, state and federal agencies." The project involves completely closing down several campus buildings and adjoining roads during August 1st thru 2nd. The notice advises that "additional measures, including added building and road closures" may be necessary, and says that "campus community members are directed to stay alert for campuswide communications sent on Wednesday." The notice does not share any further information about the nature of this project.</p> <p>The nature of this project is of legitimate interest for the local community, particularly those who spend time in and around the affected areas on campus. The notice mentioned that federal agencies are involved; is the Environmental Protection Agency among those federal agencies that are involved in the project? If so, please share any documents that would help the public understand exactly what work is being performed, what materials are involved, and what precautions are being taken to safeguard the public.</p>	07/31/2023

If this request is denied in full or in part, please cite the exemptions pursuant to 5 U.S.C. § 552(b) that justify the denial. If an exemption applies, however, please consider exercising the agency's discretionary release powers to disclose the records. Additionally, please release all reasonably segregable portions of the records as they are collected. If you have any questions about handling this request, please don't hesitate to call me at the following number 318-730-4959 or email me at lyounes@grist.org.	08/03/2023

2023-R10-05852	Brands, Grace	HMH Engineering	The following information is regarding the City of Plummer, Idaho in Benewah County. We are seeking to find the most up to date Wastewater Facility Plan after 2002. That is the only facility plan that we have in our records. Any plans or specifications for the Wastewater Facility or Sewer lines within the City done after 2002 would be helpful as well. Nothing was submitted to the Idaho Department of Environmental Quality after 2002 due to the involvement of EPA and the Nez Perce Tribe with the Plummer Wastewater Treatment Plant and the effluent discharge location and the last Engineer that was their City Engineer will not share documentation with us. Any documentation would help. I am with HMH Engineering in CDA and we are the City of Plummer's City Engineer. The attached file is the last facility plan that we have and the plans are the only engineering plans we have access to.	08/03/2023

2023-R09-05863	Rodriguez, Kathryn	Investigative Reporting Program	I am looking for all environmental records pertaining to the above referenced property, such as information on remediation, compliance, violations, inspections, spills, tanks, permits, or any other environmental concern. In addition, please provide records indicating any adverse environmental conditions, due to air contamination, hazardous materials, hazardous waste, wastewater etc. In the 2021-2022 Annual Cap Inspection Report for the United Heckathorn Superfund Site Upland Capping System in Richmond, California on September 12, 2022, it states on page 8 that "changes to storm water monitoring was discussed during a telephone conversation on November 3, 2015 between Rachelle Thompson of EPA and Scott Bourne of CDIM (formerly of Weiss Associates)." (See footnote 7) I am submitting a FOIA request for record of this conversation between Rachelle Thompson and Scott Bourne regarding changes to the stormwater collection. This conversation reportedly resulted in LRTC collecting storm water samples from the TS-2 stormwater treatment system influent and effluent (versus collecting samples from stormwater interceptors).	08/04/2023
2023-OMS-05859	Powell, Marie	AFGE Council 238	Email communication with Robert Coomber (Director, LER Division) indicated that the Agency received the following FOIA which was not posted on FOIAonline.gov: "FOIA disclosures reveal that EPA has been negotiating their master collective bargaining agreement with AFGE Council 238 over videoconference using Microsoft Teams. For the period between when negotiations commenced in June 2022 and the date of the completion of this request, I request copies of: (1) Any recordings and/or transcripts made of any of these video bargaining sessions. (2) Any Teams chat messages exchanged between any participants in any of these video bargaining sessions. (3) Any files shared between any participants in any of these video bargaining sessions. (4) Any Teams "meeting notes" made or exchanged as part of any of these video bargaining sessions; and (5) Any Teams "Q&A" or "Meeting Whiteboard" created as party of any of these video bargaining sessions." Further Mr. Coomber indicated that I could FOIA the Agency for other FOIAs. Therefore, I request the following information related to the above referenced FOIA request: 1. The FOIA request including the date and identity of the FOIA requester; 2. Any correspondence with the FOIA requester regarding this FOIA; 3. Any response(s) provided to this FOIA; 4. Any documents provided in response to this FOIA; 5. Any exemption used and justification for withheld documents (or partial documents) in response to this FOIA; and 6. Any guidance and approval related to the Agency's decision to not put this request and the response(s) into the Agency's FOIAOnline system.	08/04/2023

2023-R02-05867	Altman, Rebecca	-	<p>I am interested in any/all documents relating to the FRANK and/or FRANCIS FERNICOLA, a private hazardous waste hauler operating in the 1960s and 1970s in New Jersey, including hauling waste /55-gallons drums for Union Carbide Corp. In particular, looking for any depositions FRANK FERNICOLA may have given, which made their way into the EPA files regarding REICH FARM SUPERFUND SITE/ Pleasant Plains/Dover Township/Toms River, NJ. (I have docs related to the activities of his brother Nicholas, also a haz waste hauler) -- one could be something like: Frank Fernicola's deposition given in Abbatemarco v Nicol 1996. I am looking for information regarding other hazardous waste dumping of Union Carbide/Bound Brook/Piscataway production waste in New Jersey.</p>	08/07/2023
2023-R05-05866	Altman, Rebecca	-	<p>Request any information regarding a hazardous waste landfill near Marietta, Ohio called "SITE A" -- listed in documents from the early 1980s as adjacent to "Union Carbide Corp SITE B landfill", which was addressed under the supervision of the EPA/Superfund program (though not on the NPL). The site was formerly owned by Union Carbide (along Rt 7 in Marietta Ohio). Then sold and often listed to as belonging to "Gulf Oil Chemicals CO." The site of interested -- SITE A-- is located on the grounds of the chemical plant and is known to have been a short-term disposal site used in 1972 and/or 1973.</p> <p>I am looking for any additional records regarding (a) the nature of what was disposed of on that site, and (b) its origins. One public document suggested these wastes were "accepted" from another site. Related to this: I respectively also request any records regarding receipt of a shipment of hazardous and/or drummed waste in 1972 or 1973 from another Union Carbide facility (located in New Jersey) and/or a federal superfund site (in NJ) where waste from the NJ facility had been dumped in the early 1970s. Carbide was ordered to remove drums from NJ site (called "Reich Farm" under the Superfund program). Other docs from the Reich Farm EPA files said that waste was shipped by Carbide to its Marietta Carbide facility for incineration. Trying to determine if received by Marietta and/or how processed once received, including the possibility waste was dumped on-site in so-called "SITE A."</p>	08/07/2023

Subject: Freedom of Information Act Request

Dear EPA FOIA Officer,

I am writing to request access to records under the Freedom of Information Act (5 U.S.C. § 552).

Description of Records:

I am seeking records related to the list of Hydrofluorocarbon (HFC) consumption allocation holders for the years 2022, 2023, and 2024. Specifically, I am interested in:

The names of entities and their allocated quantities for each of these years.

Documentation or correspondence related to the allocation process for each of these years.

Records of transfers between consumption allocation holders for each of these years, including the names of the transferring and receiving entities and the quantities transferred.

I understand that certain Confidential Business Information (CBI), such as the sale price of allocations during transfers, may not be available for disclosure. However, I am primarily interested in the details of the allocations and any transfers that took place from 2022 through 2024.

If possible, I would like the information in electronic format. If the records are extensive, I would appreciate a breakdown of any fees that may be associated with this request before processing.

If my request is denied in whole or in part, I ask that you justify all deletions by reference to specific exemptions of the FOIA. I expect the release of all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

Fee Waiver Request:

I look forward to your response within the 20 business days, as the statute requires. Please contact me via [email or phone] if you have any questions or need further clarification.

Thank you for your attention to this matter.

Sincerely,

[Your Name]

2023-OCSPP-05928	Borad, Bhavita	Certis USA LLC	<p>Dear FOIA team,</p> <p>Under the Freedom of Information Act, 5 U.S.C. subsection 552, I am requesting access to the Agency issued Data Evaluation Records for the following scientific studies of Bacillus thuringiensis var. Tenebriosis.</p> <p>1. 693601 David, R. (1990) Acute Pulmonary Toxicity Study of Bacillus thuringiensis var tenebrionis Technical Material ... in Mice: Lab Project Number: G-7252.215. Unpublished study performed by Huntingdon Research Laboratories Ltd., England. 32 p.</p> <p>In order to help you determine my status for the purpose of assessing fees, you should know that I am affiliated with a private business and am seeking information for use in the company's business.</p> <p>I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first.</p> <p>The purpose of this request is to obtain EPA issued Data Evaluation Records (DERs) on acute pulmonary toxicity studies of Bacillus thuringiensis var. Tenebriosis technical material conducted in mice to better understand the study protocol and the study outcome. We believe that these records will provide valuable insights into the toxicity profile of one of the isolated strains of Bacillus thuringiensis var. Tenebriosis. With better understanding of these data this information could potentially reduce and ultimately eliminate the need of further animal testing which in turn will save animal lives.</p> <p>If you have any questions about handling this request, you can reach me at bborad@certisbio.com Sincerely,</p> <p>Bhavita Borad Certis USA LCC</p>	08/09/2023

2023-OAR-05971	Raiti, JM	-	<p>Dear Sir/Madam:</p> <p>Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I would like request access to the following information concerning Neste Oyj, Neste Netherlands B.V., Neste Singapore Pte Ltd, Neste Renewable Products Inc., and Neste Asia Pacific Ltd. Pte (individually, a “Neste Company” and collectively, the “Neste Companies”) under the Renewable Fuel Standard program:</p> <ol style="list-style-type: none"> Records and data (electronic or other) on the number, quantity, or volume of RINs, D4 and D6 RNs, and any RINs or Blenders Tax Credits (“BTCs”) generated for renewable or biodiesel fuels by the Neste Companies or provided to the Neste Companies (including via its blending partners) from 2010 to the present. If possible, please provide a spreadsheet by company of origin/generation, credit type (D4 RIN, D6 RIN, BTC, etc.), year, quarter, month and BTCs by blending partner. Copy (electronic or other) of Neste Singapore Pte Ltd’s pathway determination and approval as a “RINs Pathway.” If there is no record that Neste Singapore Pte Ltd has ever made an application to the EPA, please confirm the absence of such information or documents. Any information previously produced or made available in response to a FOIA request related to the Neste Companies since 2010. <p>I am willing and able to pay any applicable fees associated with this request, but I request notified if such fees exceed \$500. If a portion of the information I have requested is exempt from disclosure by express provision of law, 5 U.S.C. § 552(b) requires segregation and deletion of that material so that the remainder of the information is released. If you determine an express provision of law exempts from disclosure all or a portion of the material I have requested, 5 U.S.C. § 552(a)(g)(A)(i) requires notification to us of the reasons for the determination not later than 20 days from your receipt of this request.</p> <p>To the extent you only have or are only willing to provide a subset of the preceding request, please kindly provide the available information when convenient and as soon as practical. If you have completed only a portion of your search by the statutory deadline for a response, I would respectfully request that you provide what is available at such time and provide the remainder as soon as practical.</p> <p>To the extent you can provide any of the requested information in electronic format, preferably in a format readable by a version of Microsoft Office, I would greatly appreciate such format over a non-searchable PDF. Please kindly provide the requested information by email to the email address provided and if not available by email, please provide instructions on how I can access such information.</p> <p>Thank you for your prompt attention to and assistance with this request! I look forward to a response within the statutory 20-day period. If you have questions regarding this request, please do not hesitate to contact me.</p> <p>Sincerely,</p> <p>JM Raiti</p>	08/10/2023

<p>SUBJECT: FOIA request for Environmental Protect Agency records:?</p> <p>To Whom It May Concern:</p> <p>This is a request under the Freedom of Information Act, 5 U.S.C. Section 552. I hereby request the following records concerning the Community Actions for a Renewed Environment (CARE) program, a grant program sponsored by program offices—Air, Pollution Prevention and Toxics, Solid Waste and Emergency Response, and Water—of the Environmental Protection Agency from 2005 to 2015 to help communities understand and reduce risks due to toxic pollutants from all sources. Highlighting the importance of CARE are the EPA Congressional Justifications for funding needed in environmental justice communities in the form of grants as noted in the first CARE RFA# OAR-IO-05-0.</p> <p>Please note I am not interested in documents that would otherwise be withheld under FOIA exemption 5, or meeting invitations.</p> <p>Please include:</p> <p>General discussions and evaluations of the the Community Action for a Renewed Environment (CARE) Program within the EPA Administrator’s Office, by the administrator and their upper level staff from 2005 to 2014 during the following administrations:</p> <p>George W. Bush administrators: Michael Leavitt, 2003 - 2005; Stephen L. Johnson, 2005 – 2009</p> <p>Dan Brown (CARE Grants correspondence).</p> <p>Barack Obama administrators: Lisa P. Jackson, 2009 – 2013; Gina McCarthy, 2013 - 2017</p> <p>3. We're especially interested in Office of the Administrator correspondence with others about</p> <p>The EPA's decision to undertake the CARE program leading up to 2005.</p> <p>The EPA's decision to terminate the CARE program in 2014 and their rationale.</p> <p>Reports, correspondence, and other communications about the status and direction of the CARE program between CARE program administrators and staff (situated within the Geographic Programs Area of EPA's Environmental Program and Management according to EPA Congressional Budget Justifications for the period) and any overseeing EPA administrative offices for the Geographic Programs Area as well as between CARE program administrators and the EPA Administrator's Office.</p> <p>Including Dan Brown (CARE Grants correspondence during G.W. Bush administration) and other like correspondents.</p> <p>Also we are interested in the program's relationship with spokespeople/organizations advocating for environmental justice. So: Correspondence and meeting minutes or notes of CARE program administrators and other staff</p> <p>With leadership and/or members of the National Environmental Justice Advisory Council (NEJAC)</p> <p>With one another program), about NEJAC deliberations on and recommendations for the CARE program. (such as in NEJAC minutes for Sept. 2013 referenced and linked here.)MeetingSummarySeptember11-12-2013.pdf</p> <p>With any national or regional nonprofits advocating for environmental justice</p> <p>Given that the Agency for Toxic Substances and Disease Registry (ATSDR)/Centers for Disease Control (CDC) "health consultations" were developed at least in part through CARE projects involving EPA, we are interested in documents illuminating the start, operations, and outcome of this partnership between CARE/EPA officials and and ATSDR/CDC.</p> <p>Correspondence, reports, and memos leading to the Memorandum of Understanding signed by EPA Administrator Stephen Johnson and CDC Director Julie Gerberding on July 18, 2007, referenced and linked here: EPA and CDC Collaborate to Support Communities CARE</p> <p>Planning documents and any proceedings or other record of the CARE National Training Workshop in 2007 and the CARE National Workshop referenced and linked here.</p> <p>[National Academy of Public Administration May 2009]</p> <p>Memos and/or correspondence about how ATSDR and/or other CDC staff would divide and coordinate health and environmental assessment work with EPA staff in specific CARE</p>

2023-R04-05972	Cairnes, Richard	-	<p>The Georgia DoT office should have sent information regarding water test samples for 143 Snowdon Way Villa Rica, GA 30180.</p> <p>We have had water leaks on multiple occasions throughout the past year. In May, it happened again and the Paulding County Water Department arrived to diagnose the issue. They found the main water line feeding our home had been tied into the reclaimed water line. Thus meaning our water inside our home tested negative for chlorine. I was told by an employee of the DoT who was on-site (the name can be shared if necessary) that the water samples were being sent to the EPA for testing. I have not been given access to these records and quite frankly, the county is not providing much information. The DoT office deferred me to your office which is why I'm submitting the FOIA. I was told beforehand by the DoT employee that we would have access to the test results and samples. I've reached out to their office and the employee several times since and haven't received a response. This is a major issue. The home was a new construction and we moved in March of 2022. The county diagnosed the issue of the water line being tied in incorrectly 14 months after we moved in (May of 2023).</p> <p>My wife and I want answers. We want to know what we may have been exposed to.</p> <p>Please provide any information and test results from our samples.</p> <p>To answer the above questions regarding fees. I don't believe there should be a fee for information regarding my property due to an issue between the builder and the county. However, there is not a value to be placed on the health, safety and well-being of mine and my wife's lives. We want this information and need it quickly. It has been a very stressful process for both of us during this time. We have reached out to several different departments and have finally arrived here. I hope it ends here and your results will put our minds at ease.</p>	08/11/2023

2023-NFO-06025	Colindres, Luis Miguel	OCA 563782	<p>HANDWRITTEN LETTER received by U.S. Environmental Protection Agency (U.S. EPA) on August 8, 2023 written in SPANISH and roughly translated into ENGLISH: This letter is information to the: DEA. [handwritten]</p> <p>Luis Colindres</p> <p>I am writing this letter to inform you that I sent a letter to the DEA at this address: 12154 East Easter Avenue, Centennial, Colorado 80112 and I did it to inform you that I have big information for the government, explaining everything, my situation imprisoned here. I am writing to you at this address to ensure that if my letter does not arrive at the other address, it will get to you, and I want you to confirm that the letter arrived in Colorado, so that you can proceed as you deem necessary. I am not explaining everything here, but I want to let you know that I already did it in the other letter; but if the other letter does not make it I will be able to negotiate with someone from the government. I am only interested in you helping me with what I want, and I will provide you with valuable information. Although I have been detained for almost 6 years, I am still the same person today who I was in the cartel, as if nothing has changed. I know and have been together with drug dealers who are highly sought after by the DEA. I am able to get in touch with them, and by making a single call they will send me any amount of drugs anywhere in the United States. I know people who traffic here within the country and also in Mexico where there are some drug dealers that you have been pursuing for a long time. I guarantee you that I can put them in your hands without putting government agents at risk. It all depends on you. I am only telling you the truth; I am not the person I have been detained as. I have videos, pictures and Facebook which show who I have been in the past.</p> <p>And not for the reason I am being accused now, and if you are interested in the information I have, I am willing to give you everything, but there is also something I want from you, and we will discuss that in person. It is important that you know how terrible my whole life has been and that I have done things due to errors we make in life, but I still think that everyone deserves an opportunity in this life, but everything is within ourselves. I am here. You know where to find me, if you wish to do so. Thank you.</p> <p>Cordially,</p> <p>[signature]</p>	08/14/2023

2023-R08-06075	Burgess, Lisa	-	<p>Geosyntec Consultants has been retained to update the Operations and Maintenance Plan (OMP), agreed upon by Home Depot USA, Inc, USEPA Region 8, and the CDPHE, for the former Robinson Brick Company property, also referred to in some documents as Operable Unit 9, located at 500 S Santa Fe Drive in Denver, Colorado. This plan is required by the Prospective Purchaser Agreement (PPA) to facilitate the Robinson Brick Company Site Closure. The former OMP, last amended and approved in 2003, makes reference to the 1. PPA as well as the following documents: 2. Closure Work Plan, Construction Specifications, Construction Quality Assurance Plan, and suggested Health and Safety Plan, 3. Robinson Brick Company Site Remedial Response Action As-Built Drawings R-16 through R-20.</p> <p>Geosyntec has received comments from the USEPA and CDPHE in reference to our first OMP submitted in June of this year. These agencies have requested some of these documents to be attached as appendices. Geosyntec has done extensive online searches in document repositories and has been unable to find the documents mentioned above. These documents will also assist us in addressing other USEPA/CDPHE comments.</p> <p>This request is for the aforementioned (3) documents, in addition to any other documents that outline actions required by Home Depot to satisfy the closure agreement. For reference, we are attaching the previously approved OMP as well as the Superfund ROD.</p>	08/16/2023

In 2014 James Loften, counsel for DOJ, and I walked the gravel footpath through the forested conservancy for DOJ to showcase the site to CWP. Now the trees are gone, and this trail is a gravel road and labeled as an "Access Road" by the licensed surveyor and developer of the campground, Mr. Brogan. I am wondering how and why you and Mr. Hendershot (EPA) worked together with DOJ to create the UEC in 2014 with me (CWP) agreeing to serve as grantee, all in concert with our organizations' missions, but now EPA, have worked, considered, and provided approval for this commercial 200-site campground on the very same piece of polluted ground that EPA worked with CWP to place protective controls upon this as evidenced by the executed UEC.</p> <p>d) So, would you please provide a copy or record of this history, including EPA policy regarding EPA's work-product with DOJ with the objective of placing the Clean Water Project, Inc. as a holder, and/or grantee to these covenants?</p> <p>e) Specifically, please provide the directive or work order from DOJ and/or EPA regarding the need and or requirement to have me (CWP) or any third party as a grantee/holder of this UEC.</p> <p>4) Any and all information surrounding your (EPA) 5/02/2022 email to Mr. Brogan wherein you write, "a colleague who is instrumental to such inquiries is unavailable this week, but I will confer with him regarding your inquiry and attachments and ascertain his availability for a call with you as soon as possible..."</p> <p>a) Please provide the contact information of this colleague</p> <p>b) Please provide any and all information and documents pertaining to "I will confer with him regarding your inquiry."</p> <p>c) Please provide any and all attachments you write about</p> <p>d) Please provide any and all notes, correspondence, information surrounding this plan-review process you describe to Mr. Brogan</p> <p>5) You served as the lead on several electronic meetings (Microsoft Teams) with CWP, Poe's River Edge, and Warren County EDA as documented in your emails and CWP meeting minutes. Specifically, in your June 6 email to Ms. Austin, you reference a June 2022 electronic meeting. After you officially started and then ended this meeting with your applicant, Poe's River Edge, you then continued the meeting without Mr. Poe and continued with this plan-review process wherein EPA led discussions among the EDA, EPA, and CWP regarding your (EPA) approval of the proposed campground plans. You also discussed the fact that Mr. Poe is an ex-convict. Mr. Poe is a felon. Convicted of defrauding the Warren County Schoolboard and EDA. Ms. Austin has shared with me contemporaneous notes from this meeting which show that you (EPA) were informed that that campground is not an allowable use and is not compatible with the restrictions, together with the fact that the applicant is a felon, ex-co</p>	08/17/2023

We are writing on behalf of California Unions for Reliable Energy ("CURE") to request a copy of any and all public records related to the Morton Bay Geothermal Project ("Project"), proposed by Morton Bay Geothermal LLC, an indirect, wholly owned subsidiary of BHE Renewables LLC ("Applicant"). This request is made pursuant to the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA").

The Project includes construction of a renewable geothermal power plant and related facilities within the Salton Sea Known Geothermal Resource Area near Calipatria, Imperial County, California. The power plant will be located on approximately 63 acres of a 160-acre parcel (Assessor Parcel Number 020-100-007) within the unincorporated area of Imperial County, California, and is bounded by McDonald Road to the north, Davis Road to the east, Schrimpf Road to the south, and the Salton Sea to the immediate west. The power plant's maximum continuous rating is approximately 157 megawatts (MW) gross output, with an expected net output of approximately 140 MW. The related facilities include a generation tie-line, fluid and steam handling facilities, solids handling system, Class II Surface Impoundment, service water pond, stormwater retention basin, and process fluid injection pumps, in addition to geothermal production and injection wells and pipelines.

This request includes, but is not limited to, copies of all applications, reports, notices, agreements, approvals, resolutions, analyses, permits, studies, comments, memorandums, notes, writings, recordings, internal or interagency communications, communications with consultants, and other correspondence—including emails by and between the United States Environmental Protection Agency ("U.S. EPA"), U.S. EPA Offices, the Applicant, the County of Imperial—and any other materials related to the Project. Please note that this request for copies excludes those records that are available through the Internet. If the U.S. EPA identifies such documents, we request that the U.S. EPA provide us with the links to responsive records that are available on the Internet.

CURE seeks this information for the purpose of evaluating the Project's environmental and public health effects to inform public review of the Project pursuant to state and federal law. The requested information advances the requestor's interest in advocating for sustainable development, and does not provide a competitive advantage. Disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government, supports public oversight of agency operations, including the effects of agency policy on public health and safety, and is not primarily in the commercial interest of the requester.

We will pay the fees applicable to the processing of this request up to \$200. However, please contact me at (650) 589-1660 with a cost estimate before copying/scanning the materials.

We are writing on behalf of California Unions for Reliable Energy ("CURE") to request a copy of any and all public records related to the Elmore North Geothermal Project ("Project"), proposed by Elmore North Geothermal LLC, an indirect, wholly owned subsidiary of BHE Renewables, LLC ("Applicant"). This request is made pursuant to the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA").

The Project proposes to construct a 157 megawatt (gross) and 140 megawatt (net) renewable geothermal power plant and related facilities within the Salton Sea Known Geothermal Resource Area located near Calipatria, Imperial County, California. The Project will be located on approximately 63 acres of a 160-acre parcel (Assessor Parcel Number APN 020-100- 038) within the unincorporated area of Imperial County, California and is bounded by an unnamed dirt road to the north, Cox Road to the west, Garst Road to the east, and West Sinclair Road to the south. The proposed plant site is located north of the existing Elmore Power Plant.

This request includes, but is not limited to, copies of all applications, reports, notices, agreements, approvals, resolutions, analyses, permits, studies, comments, memorandums, notes, writings, recordings, internal or interagency communications, communications with consultants, and other correspondence—including emails by and between the United States Environmental Protection Agency ("U.S. EPA"), U.S. EPA Offices, the Applicant, the County of Imperial—and any other materials related to the Project. Please note that this request for copies excludes those records that are available through the Internet. If the U.S. EPA identifies such documents, we request that the U.S. EPA provide us with the links to responsive records that are available on the Internet.

2023-R03-06165	Gitschier, Madison	Friedman, Dazzio & Zulanis PC	As we clarified during our discussion, you are interested in receiving records/information regarding drinking water systems in West Virginia where PFAS compounds has been detected. This would include information on any groundwater sources or surface waters that serve as a drinking water supply. You would prefer information in aggregate or in a summarized form and do not need laboratory/raw data or analysis. We also discussed that we would conduct our search by focusing on Superfund site assessments, remedial cleanups and response actions where PFAS compounds are present at levels greater than 100ppt in groundwater and may have impacted drinking water systems. We will also search our Water Division records for any similar PFAS-related records, including any information shared with EPA by the state.	08/21/2023

2023-R10-06188	Villanueva, Daniel	AdvancedGeo, Inc.	My Name is Daniel Villanueva and I am the Senior Geologist and Consultant hired by the Spokane Youth Sports Association. We have been hired to prepare a complete site history report for a former Superfund site, known as Spokane Junkyard and Associated Properties Superfund Site, Spokane County, WA. The project is also known as Spokane Junkyard and Associated Properties with an ID referenced in Five Year Reviews as WAD981767296. We are requesting any and all assessment, remedial or other documents and records pertaining to the site over its history since the late 1980s. There are only a few five year reviews available for public access and we are seeking additional information on the sampling and analytical data pertaining to the site in order to evaluate the current property conditions for the current owner. I have attached the most recent five year review for reference.	08/22/2023

2023-R05-06186	Kilcran, Michael	Parasol Medical, LLC	Sometime between 2020-2021, an anonymous tip was sent to the EPA relating to Parasol Medical, LLC. The only information provided to Parasol Medical, LLC from a FIFRA inspector was that the tip "claims made as part of products dist. or sale differ from those accepted as part of its registration." To the best of our knowledge, this is the only tip that has been submitted to the EPA relating to Parasol Medical, LLC. This is the only tip relating to Parasol Medical, LLC that has resulted in a for cause inspection of Parasol's facility. We would like to receive all information available relating to this tip. This is a request for first-party, but we are not sure what documents are needed to validate our identity. Please contact us at the email provided for any requested information to validate that we are Parasol Medical, LLC.	08/22/2023

To Whom It May Concern:□

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations, 40 C.F.R. Part 2, we respectfully request copies of agency records relating to emission-related defects, voluntary emissions recalls, and remedial plans for all light-duty vehicles dated from January 1, 2018, to the present. Specifically, we request the following agency records:□

1.□ agency records summarizing or listing—preferably in Microsoft Excel or similar spreadsheets—every emission defect information report and voluntary emissions recall report for all light-duty vehicles from January 1, 2018, to the present. This request includes, but is not limited to, make/manufacturer, model, model year, units affected, component at issue, description of the defect, emissions impact, drivability impact, description of the anticipated manufacturer follow-up/remedy, and date of defect report or recall.□

2.□ Electronic copies of all emission defect information reports, including all attachments, for all light-duty vehicles submitted to EPA pursuant to 40 C.F.R. § 85.1903, from January 1, 2018, to the present. □

3.□ Electronic copies of all voluntary emissions recall reports, including all attachments, for all light-duty vehicles submitted to EPA pursuant to 40 C.F.R. § 85.1904(a), from January 1, 2018, to the present.□

4.□ agency records of the quarterly progress reports, including all attachments, submitted to EPA for each voluntary emission recall for all light-duty vehicles pursuant to 40 C.F.R. § 85.1904(a), dated from January 1, 2018, to the present.□

5.□ Electronic copies of all remedial plans, including all attachments, submitted to EPA for all light-duty vehicles pursuant to 40 C.F.R. § 85.1802–1803, dated from January 1, 2018 to the present.□

For purposes of this request, “agency records” shall be given the broadest construction possible under FOIA and 40 C.F.R. Part 2, and shall be read to include, but not be limited to, electronically stored information, spreadsheets, memoranda, and emails. This request is not meant to be exclusive of any other records which, though not specifically requested, would have a reasonable relationship to the subject matter of this request.□

We are willing to pay reasonable fees up to \$800 without prior notice. If fees are estimated to exceed this amount, please notify me first.□

Should you decide to withhold any documents because you believe they are exempt from disclosure, please set forth, in detail, the reasons you are claiming the exemption, a description of the documents being withheld, a description of those documents’ content, as well as all appeals procedures available under law, and, to the extent possible, provide redacted versions of the requested documents and records.□

If possible, please provide the information requested in electronic format, either to the email address indicated below or on a portable media device.□

If you have any questions regarding this request, please contact me immediately at the email address or telephone number listed below. Thank you for your assistance in supplying this information. We look forward to your timely reply.

All data submitted to the EPA as part of the Risk Management Program Rule.

Specifically, data on:

Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases;
Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and
Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Ideally, the data will be that of entities / facilities listed as refineries (SIC code 2911). We also kindly request the data as far back as the year 2000.

If this data request is not possible in its entirety, we kindly request the data on accident history only.

AFPF is investigating the ways that Exemption 3 of the Freedom of Information Act (“FOIA”) is being used across the federal government. Specifically, AFPF seeks to understand how agencies interpret the term “statute” and how frequently they rely on non-traditional grounds for withholding records under Exemption 3, including international treaties, appropriations legislation, congressional rules of procedure (e.g., the Rules of Procedure of the U.S. Senate Select Committee on Intelligence or the Joint Committee on Taxation Policy Manual), and select provisions of the U.S. Constitution (e.g., the Speech and Debate Clause).<input type="checkbox"/></p> <p>Pursuant to the FOIA, 5 U.S.C. § 552, AFPF hereby requests access to records that reflect or concern the invocation of any ground for withholding under Exemption 3 that is not contained in the United States Code. That said, AFPF specifically does not seek records that concern the use of Federal Rules of Criminal Procedure 6(e) or 32.<input type="checkbox"/></p> <p>The time period for this request is January 1, 2021 to the present. <input type="checkbox"/></p> <p>Responsive records may include, but are not limited to, interim or final determination letters, appeal determinations, internal memoranda or guidance documents detailing how the agency interprets the term “statute” for purposes of administering Exemption 3, intra- or inter-agency reports, and data sets detailing the nature and frequency of the agency’s use of Exemption 3.</p>	08/31/2023

<p>This is a request under the Freedom of Information Act, 5 U.S.C. subsection 552. We are reaching out to request several documents from the agency, which we list below.</p> <p>— The medical sterilization company Steri-Tech added a thermal oxidizer to its facility in Salinas, Puerto Rico. Several “blowback events” occurred after the installation. In an email, the agency told us, ““EPA worked closely with STI after each of the air blowback events. EPA receives copies of the incident reports that have to be submitted by the facility to the Puerto Rico Department of Natural and Environmental Resources, which is the agency that issues the air permit for the operation of this facility.” We are requesting the incident reports associated with these events.</p> <p>— Performance tests are supposed to be conducted to ensure control technologies are capturing emissions. We are requesting any documents, including performance test results, describing the capture efficiency of the control technologies at the Steri-Tech facilities in Salinas.</p> <p>— We understand that after products are sterilized, all or some of them are placed in warehouses before they are later shipped to hospitals. We are requesting a list of warehouses in Puerto Rico where medical sterilization facilities are storing their products.</p> <p>I would like to receive any response records by email. I prefer all data files to be in machine readable format, for example in a CSV or Excel file.</p> <p>Grist Qualifies as a Representative of the News Media</p> <p>Founded in 1999, Grist is an independent, non-profit publication that pursues in-depth stories on under-covered topics like clean energy, sustainable food, livable cities, environmental justice, and a better economy. We elevate solutions, expose inequity, and give our readers the context, knowledge, and tools to make a difference.</p>				
2023-R03-06258	Patel, Shennie	Crowell & Moring LLP	<p>We respectfully request the following: <input type="checkbox"/></p> <p>From January 2019 through to the date of this FOIA request, any and all copies of the following electronic records in EPA’s files that involve communications regarding PFAS-related matters between EPA personnel in Region 3 with particular individuals, government agencies, and/or entities listed in Attachment A to this FOIA request:<input type="checkbox"/></p> <p>1) <input type="checkbox"/> Electronic Calendar Entries in Outlook regarding any scheduled meetings; <input type="checkbox"/></p> <p>2) <input type="checkbox"/> External, incoming and outgoing, electronic communications, and any corresponding attachments; and <input type="checkbox"/></p> <p>3) <input type="checkbox"/> Electronic Memoranda to File or Notes that document, memorialize, or refer to any of the above-described communications or meetings.<input type="checkbox"/></p> <p>For items 2) and 3) above, we believe the following keywords search would further limit the production to relevant communications between EPA and the listed individuals, government agencies, and/or entities regarding PFAS-related discussions:<input type="checkbox"/></p> <p>(([names of individuals] or [government agencies] or [entities]) and (“PFAS” or “per- and polyfluoroalkyl substances” or “PFOA” or “Perfluorooctanoic acid”)).<input type="checkbox"/></p> <p>Item 1) above would involve searching only for the names of the individuals, government agencies, and entities listed in Attachment A, as calendar entries usually do not also include subject matter.<input type="checkbox"/></p> <p>Please limit the request to include all employees and agents of EPA within the following Divisions located in EPA’s Region 3: (1) Office of Regional Administrator; (2) Office of Enforcement and Compliance; (3) Office of Regional Counsel; (3) Water; and (4) Superfund.</p>	08/31/2023

2023-R05-06360	Smith, Matthew	-	digital copies of all "Notices of Violation" (NOV) issued to Graphic Packaging International for violations of the Clean Air Act from 2020-2023. More specifically, all NOV's involving the Graphic Packaging facility located in Kalamazoo, Michigan, for the years 2020, 2021, 2022, and 2023. These NOV's may have been issued directly to the violating facility, or they may have been issued to the State regulator, EGLE. According to the EPA compliance website, there should be at least 11 "High Priority Violations" from 2020 to 2023 (11 consecutive quarters), so I assumed at least 11 NOV's, 9 of which apparently had a result of "Unaddressed--State" and 2 of which resulted in "Adressed-State." 2023-R07-06434	Dowdell, Jaimi	Reuters	<p>Dear FOIA Coordinator, This is a request under the Freedom of Information Act.</p> <p>I am requesting an electronic copy of a request or petition the U.S. Environmental Protection Agency's Region 7 office made to the Agency for Toxic Substances and Disease Registry (ATSDR) in February 2014 regarding the West Lake Landfill. I am also requesting an electronic copy of the ATSDR's response to the EPA's request for assistance.</p> <p>The ATSDR described this request in a Health Consultation it published on October 16, 2015, titled, "An Evaluation of Radiation in Groundwater and Air WEST LAKE LANDFILL OPERABLE UNIT I": "On February 18, 2014, the Agency for Toxic Substances and Disease Registry (ATSDR) received a request for assistance from the US Environmental Protection Agency (USEPA), Region VII office in Lenexa, Kansas. The USEPA requested that ATSDR review sampling data collected on and around West Lake Landfill National Priorities Site, Bridgeton, Missouri." That report is attached and can be found here: https://www.atsdr.cdc.gov/HAC/pha/West_Lake_Landfill/West_Lake_Landfill_HC_October2015_508.pdf</p> <p>If any information is denied or withheld, please provide the specific legal exemption that justifies the denial or redaction. Please separately state your reasons for not invoking your discretion, as the Act allows, to release the requested information. Please describe each record withheld, including its date and size – e.g., amount of electronic memory or number of paper pages.</p> <p>In addition, I request the release of all reasonably segregable portions of otherwise exempt material.</p> <p>Please respond within 20 working days, as the Act provides, or notify me if "unusual" or "exceptional" circumstances apply – as the Act uses those terms.</p> <p>I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me with a detailed estimate of the costs. But first please consider my requests for fee reduction and fee waiver. This request is being made in connection with Reuters News' newsgathering functions and not for any other commercial purpose. Reuters News intends to produce one or more original investigative reports based on analysis of the requested information.</p> <p>Reuters News requests a waiver of all duplication fees for this request as permitted under the Act. Disclosure of the requested information to Reuters News is likely to contribute significantly to public understanding of the operations or activities of the government by helping the public understand how the federal government assesses risks to public health.</p> <p>Please do not hesitate to contact me at Jaimi.dowdell@tr.com or (b) (6) if you have any questions regarding this request.</p> <p>Sincerely, Jaimi</p>	09/05/2023

2023-OAR-06425	Zepka, Brian	World Resources Institute	<p>The Electric School Bus Initiative at the World Resources Institute (WRI) is requesting information related to the EPA's Clean School Bus Program (CSBP). We are aware that applicants that were awarded CSBP funding have now been required to submit the purchase orders for the buses they are buying using CSBP funding. We are requesting the information related to those purchase orders. WRI submitted a previous FOIA request for this information earlier this summer, but many applicants received extensions for their purchase orders through August 2023. So, we are now requesting the information again related to all purchase orders through September. The following fields satisfy the request: 1. Selectee Name 2. Selectee Address 3. NCES ID of the School District Associated with the Rebate 4. Name of the School District Associated with the Rebate 5. Did the Selectee Submit a Purchase Order? 6. Did the Selectee Request an Extension? 7. Extension Request Date (if applicable) 8. Number of Buses Included in the Purchase Order 9. Was Infrastructure Equipment Included in the Purchase Order? 10. If so, was it Level 2 or DC Fast Chargers? 11. Infrastructure Costs (if applicable) 12. Dealer Name 13. Dealer Address 14. Purchaser Name 15. Purchaser Address 16. Purchase Order Date 17. Bus Cost 18. Bus Manufacturer 19. Bus Model 20. Bus Fuel Type 21. Bus Year 22. Bus GVWR 23. Estimated Delivery Date</p>	09/05/2023
2023-OMS-06415	Stover, Michael	-	<p>I am seeking a recently created EPA interim policy for crediting non-federal experience and experience in the uniformed service for leave accrual purposes. Please see attached email chain wherein references to the interim policy are highlighted in yellow. This policy was created after I initially declined a civil service position in EPA Region 1 to which I applied after serving in that position for 11 years as a commissioned officer of the US Public Health Service following my 30-year mandatory USPHS retirement last December. I declined the initial tentative offer, in part because my 30 years in the uniformed services was not considered creditable for leave accrual purposes. After my initial declination, an interim policy was quickly developed and I received a revised tentative offer, but declined due to other reasons. Since this "interim policy" will be informative for my peers in the USPHS and in other services, as well as for myself if I pursue other EPA employment opportunities, I wish to obtain a copy of the policy. EPA Shared Service Center declined to send me a copy of the policy upon my request, and rather suggested that a USPHS personnel representative request it. Since it is my understanding that EPA policies are considered in the public domain, I respectfully request a copy of this interim policy. See attached email chain for details.</p>	09/05/2023

2023-OLEM-06456	Lewis, Robert	CalMatters	<p>September 6, 2023 <input type="checkbox"/></p> <p>Attn: Freedom of Information Act Officer <input type="checkbox"/> U.S. Environmental Protection Agency <input type="checkbox"/></p> <p>To Whom It May Concern: <input type="checkbox"/></p> <p>This is a request for government agency records made under the right of access granted by the Freedom of Information Act. This request is dated Sept. 6, 2023. <input type="checkbox"/></p> <p>I am writing to request copies of the following records: <input type="checkbox"/></p> <p>-- All hazardous waste export annual reports covering 2022 for which the amount of exports reported was greater than zero. <input type="checkbox"/> -- All export notices since 2018 in which the destination facility (the foreign receiving facility) was Recicladora Temarry de Mexico and/or has the word "Temarry" in its name. <input type="checkbox"/> -- All export notices since 2018 in which the US-based exporter was Temarry Recycling and/or has the word "Temarry" in its name. <input type="checkbox"/> -- All export notices since 2018 in which the destination facility (the foreign receiving facility) was Samex Recycling Technologies and/or has the word "Samex" in its name. <input type="checkbox"/> -- All export notices since 2018 in which the US-based exporter was Samex Environmental Services and/or has the word "Samex" in its name. <input type="checkbox"/></p> <p>It's my understanding that entities exporting hazardous waste from the United States to another country are required to file annual reports indicating information about those exports including but not limited to the type and amount of waste exported, and the ultimate destination facilities. (40 CFR 262.83) <input type="checkbox"/></p> <p>I am essentially asking for all reports showing hazardous waste exports for 2022. (It's my understanding the annual report for 2022 was due in March of this year.) The EPA provided me with this same information for 2018 through 2021 in response to an earlier request. <input type="checkbox"/></p> <p>If possible, please provide the requested information in an electronic format. I am aware that the EPA has collected this information electronically since 2018 and has provided it in such a format in response to previous FOIA requests. <input type="checkbox"/></p> <p>It's further my understanding that prior to export the EPA receives export notifications. I am seeking all such notifications in which Temarry was listed as either the exporter or the destination, as well as notifications in which Samex was either the exporter or the foreign receiving facility. <input type="checkbox"/></p> <p>I am a reporter for CalMatters, a nonprofit news outlet covering California policy and politics, and with a broad audience across the state and nation. This request is in the routine course of newsgathering. I am seeking a fee waiver for this request as a working journalist serving the public interest by providing insight into a subject of high importance and interest. The transboundary shipment of hazardous waste can impact human health and safety as well as the environment. <input type="checkbox"/></p> <p>However, if you do not grant my fee waiver, I agree to pay reasonable duplication fees for the processing of this request. Please notify me prior to your incurring any expenses in excess of \$25. <input type="checkbox"/></p> <p>My email address: robert@calmatters.org <input type="checkbox"/></p> <p>If you determine that an express provision of law exists to exempt from disclosure all or a portion of the material I have requested, please provide the specific statute or legal authority on which you base any determination to withhold records in whole or in part. If anything in this request is unclear or you need clarification, I can also be reached at 510-</p> <p>I am looking for information regarding, specific air permits, inspection reports, violation notices, leaking underground storage tanks (LUST) incidents, site remediation program enrollment, compliance reports, ground-water and soil contamination information, sampling results, and incident notices for any facility at the following address: 300 W Wise Rd, Schaumburg, IL 60193</p>	09/06/2023

I looked into our old records that we have of EPA licenses and did not find a James or Ellen Shank in there. But if it was before the 1990's then those records would have to come from the EPA. The EPA handled license up until about that point then the state took over them.</p>	09/11/2023

2023-R05-06580	Prichard, Gary	-	<p>On October 6, 2022, and March 18, 2023, I submitted FOIA requests(EPA-R5-2023-000131 and EPA-R5-2023-003136) that the Agency responded to, for documents pertaining to in-person settlement meetings in enforcement cases in Region 5 offices. Thank you for the responses. The requests and responses covered documents generated as of the October 6, 2022, and March 18, 2023, request dates. I am submitting the identical request, as set forth below, but now for documents generated on or after March 18, 2023. As was discussed with my prior requests, this request does not include documents pertaining to meetings for CERCLA response actions. Below is my specific request: EPA, Region 5, is involved in enforcement cases under various environmental statutes. Those cases often involve meetings with the subject of the enforcement case. Enforcement cases in Region 5 usually involve employees of the Region 5 Enforcement and Compliance Assurance Branch (ECAD) and employees of the Region 5 Office of Regional Counsel (ORC). For purposes of this request, the terms "Respondent" and "Defendant" refer to entities that are the subject of enforcement cases. I am seeking through this request: (a) records documenting any meetings on or after March 18, 2023, involving Region 5 employees meeting with representatives of Respondents or Defendants in EPA Region 5's offices at 77 West Jackson Boulevard, Chicago, Illinois, where one or more representatives of the Respondent or Defendant attending the meeting physically came into EPA Region 5's offices for the meeting; (b) if any such meeting occurred on or after March 18, 2023, records documenting: (1) the date of the meeting; (2) the subject of the meeting; (3) the names/titles or other descriptive information identifying the participants who physically attended the meeting in-person in EPA Region 5's offices at 77 West Jackson Boulevard, and/or (4) whether there were also participants in the meeting who participated from a location other than EPA Region 5's offices and, if so, the names/titles or other descriptive information identifying the participants who participated from a location other than EPA Region 5's offices. I expect that, if there have been any such meetings, there might be multiple responsive documents that would provide some of all of the information described above: i.e., multiple records documenting that such meeting occurred, the date of the meeting, the subject of the meeting, participants who physically attended the meeting in-person in EPA Region 5's office and whether there were also participants who participated from a location other than Region 5's offices. I am only interested in obtaining the minimum number of documents necessary to provide the requested documentation for each specific in-person meeting that has occurred on or after March 18, 2023. It is not necessary to provide responsive documents that provide the requested information if that information is also being provided in other responsive documents. For example, there might be calendar entries, emails between Region 5 employees and representatives of the Respondent or Defendant, internal-to-EPA email messages, internal-to-EPA meeting notes or memoranda, etc. that provide some or all of the requested information. In this example, to the extent that all of the information is contained in calendar entries and meeting notes (or any other combination of responsive documents), it is not necessary to provide other responsive documents pertaining to the specific meeting that also include the requested information. I understand that portions of responsive documents (other than the portions included the information described above) could be ones that EPA would deem to be "settlement confidential" or otherwise exempt from disclosure under FOIA. If so, then I fully understand that aspects of the documents could be redacted, and I have no objection to EPA being overly cautious in redacting portions of the documents as being "settlement c</p>	09/12/2023

I would like to request an updated list of NPL PFAS Sites (specific only to NPL sites and related SAA sites with PFOA/PFAS contamination for all EPA regions) in Excel format. I was last provided an Excel spreadsheet with NPL PFAS Sites in June of this year by Mr. David Reynolds (in the EPA's Office of Land and Emergency Management, Office Of Superfund Remediation and Technology Innovation) for FOIA EPA-2023-004668. Please include the same fields as previously received which were the following: Region, EPA ID, Site Name, NPL Status Code, SAA (entry as Y or N), FF (entry as Y or N), Street Address, City, State, Zip Code, County, Latitude Decimal Value, Longitude Decimal Value, SPP Link. 2023-OW-06579	Abbott, Benjamin	Brigham Young University	<p>In 2020 and 2021, an LLC named Lake Restoration Solutions (LRS) submitted letters of intent for WIFIA loans. LRS was not selected for WIFIA support, though they were placed on the waitlist in 2021. They have now declared bankruptcy, and the possibility of a similar project has been foreclosed by the state, which determined that dispensing sovereign lands such as the lakebed of Utah Lake was unconstitutional.</p> <p>LRS' applications/letters of intent have been partially released through a FOIA request by the Salt Lake Tribune. However, LRS designated much of the application as confidential. Thankfully, the EPA limited the amount of redactions in the materials they released, however, they did not release large portions of the letters of intent and multiple attachments that LRS and its sponsors (e.g., the Utah Lake Commission) requested be maintained as confidential.</p> <p>Now that LRS has declared bankruptcy, this type of project has been determined to be unconstitutional, and the period of confidentiality they requested has expired, I am seeking the full (or at least less redacted) applications, including letters of support and other attached materials.</p> <p>There are several remaining controversies and questions about the proposed project, including issues about how letters of support were secured, particularly for the city of Vineyard and the Utah Lake Commission. For example, the mayor of Vineyard has claimed that LRS misrepresented her city's support, but that she notified the EPA in 2022 of the wrongdoing. Likewise, the amount that the Utah Lake Commission committed to the project was requested to be redacted on behalf of the commission, but we have learned that the executive director created the letters and asked they be kept confidential without consulting the board or chair. Releasing the unredacted applications would be of substantial public benefit, including as context for municipal elections next month.</p> <p>I have attached three files:</p> <ol style="list-style-type: none"> 1. The clarifications from Mayor Fullmer of Vineyard about her letters of support. These documents were released by a Vineyard City Council member last week. 2. A heavily redacted list of currently known attachments to the applications/letters of intent, most of which have not been released. This document was released by the trustee overseeing LRS' bankruptcy to allow the public to better understand their project. 3. The correspondence of the Utah Lake Commission executive director with the EPA requesting his letters be maintained as confidential until September of 2023. <p>Thank you for considering this request, and please let me know if you need additional information.</p>	09/12/2023

According to MSHA Mine Data, there were underground workers at the mine in 2008, 2012, and 2013, so there should be Annual Subpart B reports for those years. The mine was idle from 2009 to 2011. <p>Michael Stovern, Air and Toxics Enforcement, Region 8, would be knowledgeable about these records.</p> <p>The Mine owner recently announced the resumption of mine development for these mines. 2023-OMS-06663	Aamot, Colin	-	Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following: Records sufficient to identify all employees who entered into a position at the agency as a Political Appointee since January 20, 2021, to the date this records request is processed, and the title or position of each employee (to the extent that individuals have held multiple positions during this time period, identify each title or position and the time period it was held). Records sufficient to identify all career employees who, between January 20, 2021, and the date this records request is processed, have been detailed to 1) a position eligible to be filled by a Political Appointee, or 2) a new position through coordination or consultation with either the White House Liaison or Presidential Personnel Office; the title or position of each employee while on detail; and each employee's originating agency or component, and prior title. For each individual identified in response to Requests 1 and 2 provide: 1. The resume provided by the individual to the agency in connection with determining the appropriate salary for the individual, or if that is not available, a recent resume contained within the agency's records. I no objection to the redaction of employee's contact information, such as email, address, phone numbers etc.; however, prior employment, education, and descriptions of such experiences are not exempt and should be produced. 2. Any waivers issued to the individual pursuant to 18 U.S.C. § 208(b). 3. Any authorizations for the individual issued pursuant to 5 C.F.R. § 2635.502. 4. Any Ethics Pledge waivers, issued pursuant to Section 3 of Executive Order 13989 and Office of Government Ethics Legal Advisory 21-04, received by the individual. 5. Any ethics agreement executed by the individual; any Certification of Ethics Agreement Compliance; and any records relating to any violation by an individual of his or her ethics agreement. 6. Records reflecting any recusal determination made or issued for the individual. 7. Copies of any SF-50 forms for the individual reflecting any change in position, title, or salary, including when the employee starts or leaves a position. 8. Completed Ethics Pledge for each individual. Definitions For the purposes of this request, "Political Appointee" means any person who is employed by the Department who is: 1) Presidentially Appointed and Senate Confirmed (PAS); 2) Presidentially Appointed (PA); 3) in a non-career Senior Executive Service (SES) position; 5) a career SES but has been detailed to a leadership or political position since January 20, 2021, 6) a Schedule C employee; 7) in an administratively determined position; 8) in a position that was filled by coordination with, or through, the White House Liaison or Presidential Personnel Office (PPO) or 9) a Special Government Employee (SGE). To the extent an SGE is not a Political Appointee or an actual employee any request or reference to a political appointee or employee should be read to mean "Political Appointee or SGE." I am amicable to a rolling production as records are available. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. 2023-OMS-06684	Aamot, Colin	-	<p>Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following: I request documents sufficient to account for the agency's usage and retention policies or directives for official communications via Slack, Signal, Microsoft Teams, Lync, or any other internal messaging platforms from 2018 to present. I am amicable to a rolling production as records are available. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. The terms "pertaining to," "referring," "relating," or "concerning" with respect to any given subject means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is in any manner whatsoever pertinent to that subject. The term "record" means any written, recorded, or graphic matter of any nature whatsoever, regardless of how recorded, and whether original or copy, including, but not limited to, the following: memoranda, reports, expense reports, books, manuals, instructions, financial reports, working papers, records, notes, letters, notices, confirmations, telegrams, receipts, appraisals, pamphlets, magazines, newspapers, prospectuses, inter-office and intra-office communications, electronic mail (emails), MMS or SMS text messages, instant messages, messaging systems (such as iMessage, Microsoft Teams, WhatsApp, Telegram, Signal, Google Chat, Twitter direct messages, Lync, Slack, and Facebook Messenger), contracts, cables, telexes, notations of any type of conversation, telephone call, voicemail, meeting or other communication. Please comply fully with 5 U.S.C. § 552(b). Accordingly, without limitation to the foregoing, if any portion of this request is denied for any reason, please provide written notice of the records or portions of records that are being withheld and cite each specific exemption of the Freedom of Information Act on which the agency relies. 2023-OAR-06810	Krevanko, Callan	-	<p>EPA; "Standard Support and Environmental Impact Statement for Control of Benzene from the Maleic Anhydride Industry," (July 1978); "</p> <p>The draft version of the report is uploaded below. I'm requesting the final version of the report.</p>	09/21/2023

2023-OAR-06811	Krevanko, Callan	-	<p>The attached document from 1985 EPA states that</p> <p>"EPA subsequently identified the major industry groups, or source categories, responsible for emitting the majority of benzene into the air. In determining where it would concentrate its regulatory efforts, EPA developed the following list of 12 source categories in 1979 ... After ranking these source categories, EPA selected five of them for regulatory action. EPA believed that controlling this combination of source categories would result in the most beneficial impact in terms of reducing benzene emissions and exposure in the shortest time for the least cost."</p> <p>I am requesting the 1979 documentation showing the list of the 12 benzene source categories created by EPA, as well as supporting documentation justifying the choice. Further, if there is documentation showing the selection criteria for the five/12 chemicals selected for regulatory action, I would also like to request this.</p> <p>Thank you! Callan</p>	09/21/2023

In the attached 1985 EPA publication, EPA writes: "EPA published its revised unit risk factor in May 1982 and used this number in computing risk numbers for the five source categories included in its December 1983 decision."	09/28/2023
2023-R04-06933	Forte, Jenna	United Consulting	I am requesting the documentation for the final published May 1982 unit risk for benzene, as well as the documentation showing the referenced risk numbers for five source categories that were calculated using the May 1982 value. I am looking for information on 156 Walnut Street, Atlanta, GA, a US Brownfields site. I am interested in type of contamination, extent of contamination, remediation activities, and soil and groundwater sampling results.	09/28/2023
