2023-OAR-00001	Carter, Robbie	-	Any information that the EPA has regarding the comparison of CO2 emitted from transporting the same amount of natural gas by truck versus CO2 emitted from the Mountain Valley Pipeline with the same amount of natural gas as in truck transportation	10/03/2022
2023-ORD-00002	Wilson, Mark	-	<p>Summary: This is in regards to EPA Contract #GS-10F-0041X The project is described in a document titled "RE-ENGINEERING SWMM/EPANET USER INTERFACE APPLICATION SOFTWARE ARCHITECTURES" which can be found at the following website:</p> <p>https://github.com/USEPA/SWMM-EPANET_User_Interface/blob/dev-ui-py3qt5/doc/QAPP%2016%203-10-16.docx</p> <p>I am seeking to know exactly why the project was suspended when it was almost complete. I would like a copy of any email, report or document that shows a record of decision regarding the suspension of the project even though it was almost finished. I would also like to know the total amount paid to the contractor Aqua Terra Consultants of Mountain View California for the contract including any and all project extensions, change orders or renewals. I would also like a copy of any email, notes from meetings or phone calls or other record of communications between commercial software vendors and the EPA regarding the project. Potential software vendors that the possible communications may be with may include but not limited to Bentley Systems, Innovyze (now owned by Autodesk), and KYPipe. I would also like to know if the EPA would consider finishing the project and see it through to completion.</p> <p>Supporting information: As a user of the EPANet software package I was very excited to learn that the EPA was investing in an update to the user interface. According to the above referenced document, the project was likely started around 2016.</p> <p>Over the following years after learning of the project I checked the project repository on GitHub frequently and downloaded and tested each Alpha and Beta version that was released. I was however getting confused about why the project was taking so long. There seemed to be less and less work posted to the repository by the contractor.</p> <p>On August 20, 2021 I inquired about the project to Mr. Robert Janke of the EPA (Janke.Robert@epa.gov) who was listed in the project documents as a responsible party. I was wondering when there was going to be more progress toward completion of the project. After a few days had passed without a response I tried a more general email address (epanet@epa.gov) to get some answers.</p> <p>On August 24, 2021 Mr. Janke replied to my question saying that the project "has been suspended, probably indefinitely." The reason given was "that we found that larger models experienced significant run time issues with the python-based UI." Mr. Janke tried to divert my attention to another project without a user interface called WNTR. This other project was not what I was interested in.</p> <p>I replied to Mr. Janke the same day with some more detailed follow up questions to which he never replied. Having done some programming myself, I find it hard to believe that the reason for project suspension is the actual cause for the decision. I believe that any technical hurdles could be overcome and the project could be finished and become useful to water utilities for the protection of public health.</p> <p>A supporting reason for my also asking for communications between commercial software vendors and the EPA is to see if they influenced the decision to suspend the project. As part of my involvement in the American Water Works Association Engineering Modeling Applications Committee, I was on a conference call that included the EPA representatives for the project I am enquiring about and also representatives from at least some of the commercial software vendors listed above. I recall that a complaint from Mr. Tom Walski of Bentley Systems was that the EPA software update in question was going to be competing with the commercial software vendors and so the EPA should not be pursuing the project further but should be more focused on research related projects. This is ironic since one of the reasons why the software from Bentley Systems and Innovyze in this space has been so successful and lucrative is due to the original EPA led software project from the 1990's.</p>	10/03/2022

2023-NFO-00037	Last, David	Austin Peay Student	My question is simply what were the Environmental Protection Agency to do if an alarming environmental issue was happening in a country that is not an allies to the United States, had an issue that somehow effects the United States. The issues inside the United States can be fixed much easier, but lets say a country that is not an allies or all of a sudden departs from being allies with the United States has an environmental issue that effects us. What would the process be, what if they say no even if it is a absolute necessary that they stop. I would like the know any specifics such as if money were to be bribed around how much money, or if military force would have to be used what kind? Maybe communications with a world leader may be necessary? The possibilities are endless.	10/03/2022

2023-R05-00008	Conover, Clara	Miami University	If the agency posts the complaint and all exhibits on its website, that will satisfy the request. I would like records of EPA investigations and complaints on emissions and pollution perpetrated by the Cleveland-Cliffs company as well as records under the former name: AK Steel company. The records I am requesting can be specific to the north-eastern Ohio region. If any records exist on complaints made to the EPA regarding the JBI Scrap Metal Processing company, as well as emissions, pollution, and violations- based out of Cleveland, Ohio, I would like those as well.	10/03/2022
2023-R06-00035	Dolan, Siobhan	Nixon Peabody LLP	Seeking further information on a RCRA violation in 2018 on a property our client may be acquiring. The primary concerns here are that (1) we have no indication as to what type of RCRA violations were cited in 2018, and (2) they were apparently severe enough that an enforcement action was threatened just three months after the RCRA inspection. On the other hand, it appears that no enforcement action was actually pursued against January Transport prior to its cessation of operations at the property, so this may indicate that the violations were corrected and simply not updated in the environmental database. We believe it's important to confirm that there was a resolution. The property has three addresses: 5003-5010 Commerce Road, West Memphis, Arkansas 72301 601 Petro Cove, West Memphis, Arkansas 72301 5050 Commerce Road, West Memphis, Arkansas 72301 This is part of a commercial real estate sale-leaseback transaction and the vendor who completed the Phase I is unclear on the status of the violation in question.	10/03/2022

2023-R10-00049	Nelson, Trent	-	<p>I have attached a formal letter detailing the background and specifics of this FOIA request. I believe the most expeditious course of action would be to try and get this document to Kim Farnham, as it pertains to her work directly with the Rust Mansion, located at 1001 N I St., Tacoma, WA, 98403.</p> <p>In the interest of efficiency, if it's easier for Ms. Farnham to simply sign a declaration saying she's never heard of me, and that her interest in the Rust Mansion did not originate from "repeated calls from a disgruntled soon-to-be-ex-husband", I'm happy to draft up such a declaration and send it to her directly for e-signature. If we take that approach, I don't need any of the details being requested re: call logs, etc.</p> <p>Kim M. 2023-OAR-00074	Smith-Forte', Arianna	Austin Peay	<p>Jeffery Prieto Acting General Counsel US Environmental Protection Agency 1200 Pennsylvania Avenue, Washington, DC 20460 (202)-566-1667</p> <p>October 4, 2022</p> <p>To Whom It May Concern,</p> <p>This is a request under the Freedom of Information Act (FOIA). I am requesting any and all records, documents, emails, correspondence, text messages, and material that includes, discusses, or mentions anything related to whether carbon dioxide is an air pollutant under the Clean Air or Air Quality Act, whether carbon dioxide emissions from power plants should be addressed and limited in upcoming legislations, and whether the increase of emissions from carbon dioxides should be subjected to an initiative or course of action.</p> <p>For your reference, I am a student in political science at Austin Peay State University in Clarksville, TN. I am working on a research project that examines the evolution of the Freedom of Information Act from its implantation in 1967. By requesting this information, I can learn about the process of requesting a FOIA and determine the impacts of carbon dioxide from a government perspective. As a young activist, it can be difficult to receive information from individuals in positions of power and acclaim. Therefore, I am seeking these resources to not only better understand the legislation of carbon dioxide emissions, but to request information from a system with such power in our government. My reasons for this material are for educational, academic, and non-commercial purposes only.</p> <p>Please feel free to contact me at (b) (6) or by email at (b) (6) @my.apsu.edu with any questions or if I need to provide more information. Thank you for your time and considerations.</p> <p>Sincerely, Arianna Smith-Forte' Middle College at Austin Peay State University Marks Building Clarksville, TN 37044</p>	10/05/2022

2023-R09-00070	Frutiger, Stefan	-	<p>To whom it may concern,</p> <p>My name is Stefan. I am an accredited MA Photography student with Falmouth Flexible (UK) in the last year, working on the master thesis. My research topic are the abandoned uranium mines on Navajo land (Arizona, Utah, New Mexico) and the ongoing impact on the Navajo Nation due to contaminated water, soil and air. My research focuses mostly on the Monument Valley area and the Monument No. 2 (aka Monument #2) mine.</p> <p>I was wondering if for educational purpose, if I could get access to higher resolution pictures posted on this EPA web page:</p> <p>Cane Valley Navajo Radioactive Structures https://response.epa.gov/site/image_list.aspx?site_id=4562</p> <p>The simple reason is so that I could print some pictures at a higher quality. 2023-R05-00131	Prichard, Gary	-	<p>EPA, Region 5, is involved in enforcement cases under various environmental statutes. Those cases often involve meetings with the subject of the enforcement case. Enforcement cases in Region 5 usually involve employees of the Region 5 Enforcement and Compliance Assurance Branch (ECAD) and employees of the Region 5 Office of Regional Counsel (ORC). For purposes of this request, the terms "Respondent" and "Defendant" refer to entities that are the subject of enforcement cases. I am seeking through this request: (a) records documenting any meetings on or after April 1, 2022, involving Region 5 employees meeting with representatives of Respondents or Defendants in EPA Region 5's offices at 77 West Jackson Boulevard, Chicago, Illinois, where one or more representatives of the Respondent or Defendant attending the meeting physically came into EPA Region 5's offices for the meeting; (b) if any such meeting occurred on or after April 1, 2022, records documenting: (1) the date of the meeting; (2) the subject of the meeting; (3) the names/titles or other descriptive information identifying the participants who physically attended the meeting in-person in EPA Region 5's offices at 77 West Jackson Boulevard, and/or (4) whether there were also participants in the meeting who participated from a location other than EPA Region 5's offices and, if so, the names/titles or other descriptive information identifying the participants who participated from a location other than EPA Region 5's offices. I expect that, if there have been any such meetings, there might be multiple responsive documents that would provide some of all of the information described above: i.e., multiple records documenting that such meeting occurred, the date of the meeting, the subject of the meeting, participants who physically attended the meeting in-person in EPA Region 5's office and whether there were also participants who participated from a location other than Region 5's offices.. I am only interested in obtaining the minimum number of documents necessary to provide the requested documentation for each specific in-person meeting that has occurred on or after April 1, 2022. It is not necessary to provide responsive documents that provide the requested information if that information is also being provided in other responsive documents. For example, there might be calendar entries, emails between Region 5 employees and representatives of the Respondent or Defendant, internal-to-EPA email messages, internal-to-EPA meeting notes or memoranda, etc. that provide some or all of the requested information. In this example, to the extent that all of the information is contained in calendar entries and meeting notes (or any other combination of responsive documents), it is not necessary to provide other responsive documents pertaining to the specific meeting that also include the requested information. I understand that portions of responsive documents (other than the portions included the information described above) could be ones that EPA would deem to be "settlement confidential" or otherwise exempt from disclosure under FOIA. If so, then I fully understand that aspects of the documents could be redacted, and I have no objection to EPA being overly cautious in redacting portions of the documents as being "settlement confidential" or as being otherwise exempt under FOIA, provided that EPA not redact the information described above: I.e., I have no objection to EPA redacting or otherwise not providing portions of responsive documents that do not contain the information described above, even if those portions of the documents might not be clearly "settlement confidential" or otherwise clearly subject to a FOIA exemption, provided that EPA not redact the information described above. In short, I hope to make EPA's work in responding to this request as efficient and not burdensome as possible. Please feel free to invite anyone working on responding to this request to reach out to</p>	10/06/2022

Grist Qualifies as a Representative of the News Media

Founded in 1999, Grist is an independent, non-profit publication that pursues in-depth stories on under-covered topics like clean energy, sustainable food, livable cities, environmental justice, and a better economy. We elevate solutions, expose inequity, and give our readers the context, knowledge, and tools to make a difference.

Waiver of All Costs

I request a waiver of all costs associated with fulfilling this submission pursuant to 5 U.S.C. § 552(a)(4)(A)(iii). The information provided by the agency will be used for the following activities: research into the listed facilities' operation and emissions control practices.

If this request is denied in full or in part, please cite the exemptions pursuant to 5 U.S.C. § 552(b) that justify the denial. If an exemption applies, however, please consider exercising the agency's discretionary release powers to disclose the records. Additionally, please release all reasonably segregable portions of the records as they are collected. If you have any questions about handling this request, please don't hesitate to call me at the following number 318-730-4959 or email me at lyounes@grist.org.

2023-OAR-00171	Younes, Lylla	Grist, Inc	<p>Attn: FOIA Officer</p> <p>This is a request under the Freedom of Information Act, 5 U.S.C. subsection 552. The Environmental Protection Agency recently published a list of medical sterilization plants "where there are elevated risks at or above 100/million to nearby communities" (https://www.epa.gov/hazardous-air-pollutants-ethylene-oxide/forms/ethylene-oxide-risk-commercial-sterilizers#facility-list) Each item in the list has a corresponding map (see example: https://www.epa.gov/system/files/images/2022-06/Lakewood%2C%20CO.jpg) showing the extent of the risk around the facility. I am requesting the data behind each of the 23 maps in the EPA's list. This data should include the grid of the modeling area, with values corresponding to risk level, as well as geospatial files of the "nonresidential areas" indicated on the maps. I also request a data dictionary describing each field of data in the response.</p> <p>I would like to receive any response records by email. I prefer all spatial data files to be in shapefile format and for all other data to be in machine readable format, for example in a CSV or Excel file. If the modeled data is too large to be sent over email, I request that it be posted to a remote server that I can access via a link.</p> <p>Grist Qualifies as a Representative of the News Media</p> <p>Founded in 1999, Grist is an independent, non-profit publication that pursues in-depth stories on under-covered topics like clean energy, sustainable food, livable cities, environmental justice, and a better economy. I believe my request meets the above requirements for the waiver of fees. I am a member of the news media - correspondent for the daily newspaper, Okinawa Times, editor at Asia-Pacific Journal and contributor for The Japan Times. The information I am seeking will clearly add to public understanding in the U.S. and Japan of issues surrounding the impact of military installations in Japan, in particular PFAS contamination. Previous articles which I have written related to this issue based upon similar reports have been the focus of intense public debate. The documents we are now requesting will form the basis of a series of newspaper articles and they will be shared with public officials, policy-makers and, if deemed appropriate, made available online. My previous research has been featured in reports by the U.S. Congressional Research Service and the Japanese national parliament.</p> <p>I believe the above supports my assertion that I am able to disseminate this information widely. In the event that fees cannot be waived, I would be grateful if you would inform me of the total charges in advance of fulfilling my request.</p> <p>I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.</p> <p>Thank you in advance for your anticipated cooperation in this matter.</p> <p>I look forward to receiving a tracking number for this request followed by a release of the requested information within 20 business days, as the statute requires.</p> <p>Sincerely, Jon Mitchell</p>	10/11/2022

2023-R05-00269	Keister, Laura	-	This FOIA request is regarding the EPA aquifer exemptions listed for White County, Indiana around the Wolcott Gas Storage Field, specifically the Class II injection well (ID 39037) aquifer exemption for the Mt. Simon Sandstone identified in the EPA's Aquifer Exemptions Map and the associated data files. This inquiry is to support an investigation of formation salinity for potential injection zones, complementing regional carbon storage studies. Please note that Indiana DNR records for this well indicate that it was not classified as a Class II well, and more information on the aquifer exemption, salinity data, etc., are not within those state public records. Does EPA Region 5 have more information that can be requested for details relating to this aquifer exemption for the Class II injection well ID 39037?	10/11/2022

7. Any and all documents or records which discuss, refer to, or relate to any and all failures to comply with the International Safe Container Act with respect to the former Western Mineral Products Plant, 3520 I Street, Omaha, NE 68107 during the years 1977 to 2012.

8. Any and all documents or records which discuss, refer to, or relate to any and all failures to comply with the Comprehensive Environmental Response, Compensation and Liability Act with respect to the former Western Mineral Products Plant, 3520 I Street, Omaha, NE 68107 during the years 1980 to 2012.

If any of these document requests are denied in whole or in part, please specify the exemptions claimed for each page or passage. For documents withheld in their entirety, please state, in addition, the date of and number of pages in each document. Please advise if there has been any destruction of records and include the date of and authority for such destruction.

In order to help you determine my status for the purpose of assessing fees, you should know that I am an attorney for a defendant being sued by the plaintiff and this request is made as part of an investigative effort to determine plaintiff's asbestos exposure and not for commercial use. Please contact me prior regarding any fees incurred with respect to this request.

Any information already provided related to this request in the requests above, does not need to be re-provided. I'm looking for any notes, documents, records, drawings, photos, presentations, or other records in the possession of, sent from, sent to, or otherwise developed by Mathew Plate (Plate.Mathew@epa.gov) about my Apple office (825 Stewart Drive / TRW Microwave Superfund). If any type of record would otherwise be too time consuming or require too much effort to search, please narrow the request to content related to that building's SSD, SSV, HVAC, vents, & roof. Timeline is July 1 2021 to October 14 2022. The first written documentation of Mr. Plate's concerns in the FOIA records received so far was on July 26 2021 (see attached).</p>	10/14/2022

2023-R09-00317	Ruch, Jeff	PEER	<p>Wayne Praskins of the U.S. Environmental Protection Agency (EPA, Region 9), wrote to the U.S. Navy in a letter dated August 20, 2020 and entitled “EPA Review of Navy Draft Evaluation of Radiological Remediation Goals for Onsite Buildings-Hunters Point Naval Shipyard Superfund Site” relating to EPA’s review of the protectiveness of the Navy’s remediation goals (RGs) for buildings and other structures (hereafter “building RGs”) for the Hunters Point Naval Shipyard (HPNS) Superfund site.</p> <p>Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility (PEER) requests information concerning this letter and related subjects. Specifically, we request the following:</p> <p>1. With With respect to the above-referenced Praskins letter –</p> <p>a) Any Any documents that support Mr. Praskins’ claims that no contamination could exist on surfaces inside any building higher than 6 feet on walls and none on ceilings:</p> <p>“We determined that one of the assumptions built into the BPRG calculator may be overly conservative and inappropriate at HPNS. That is the assumption that fixed contamination is present on all six interior building surfaces (four walls, ceiling, and the floor).”</p> <p>b) Any Any documents that support the statement: “Our preliminary calculations using the modified version of the BPRG calculator indicate that the majority of the radiological building RGs remain protective for fixed contamination.”</p> <p>Please provide those calculations and all documents related thereto, including those that provide the identification of the Remediation Goals (RGs) that are not protective and the comparison of those values with the values the Navy has been using, as well as the comparison of the Region’s modified BRPGs against the RGs that the Region now asserts are protective.</p> <p>c) All All documents that provide the basis for and/or relate to the statement:</p> <p>“We propose that BPRGs be used as limits on the removable fraction of the radioactivity (i.e.,dust). Our preliminary calculations using default exposure assumptions result in BPRGs substantially lower than 20% of the RGs.”</p> <p>Please provide the BPRGs EPA was proposing for removable radioactivity and the comparison to the RGs the Navy has been using and all calculations and other documents related thereto.</p> <p>2. Any Any other documents relating to the appropriateness of the model(s) used by the Navy (RESRAD BUILD, or RRB) and whether the EPA’s models (the Building Preliminary Remediation Goal calculator, or BPRG calculator, and the Building Dose Compliance Concentrations for Radionuclides calculator, or BDCC calculator) should be followed by the Navy at HPNS.</p> <p>3. All All documents related to any disagreement or dispute between the Navy and EPA regarding the Navy’s building RGs and whether the Navy should use the BPRG and/or BDC calculator. It should include but not be limited to –</p> <p>a) All All documents related to the Navy’s evaluation of the radiological building RGs described in a September 30, 2019 report titled Draft Estimated Excess Cancer Risks and Dose Equivalent Rates from Exposures to Radiological Contamination on Building Surfaces Report (“draft building addendum”).</p> <p>b) The The documents referenced by the EPA statement that the “Navy separately provided EPA with additional files presenting human health cancer risk estimates developed using EPA’s BPRGcalculator.”</p>	10/14/2022

2023-OLEM-00407	Lewis, Robert	CalMatters	<p>This is a request for government agency records made under the right of access granted by the Freedom of Information Act. This request is dated Sept. 29, 2022. I am writing to request copies of the following records:</p> <ul style="list-style-type: none"> • (b) (6) manifests showing hazardous waste exported to Recicladora Temarry de Mexico in 2021 and 2022. Such records would contain information including but not limited to the generator name and location, the exporter name and location, the waste description and amount, and the shipment dates. • (b) (6) inspection reports - prepared by or in the possession of the EPA - pertaining to Recicladora Temarry de Mexico since 2010 including inspections conducted by the EPA or by Mexican counterpart agencies. <p>It's my understanding that the EPA requires the movement of hazardous waste - both domestically and out of the country - to be tracked using a manifest system. It's my understanding this system provides a "cradle to grave" record of the waste from the generator to the transporter to the destination facility.</p> <p>I am aware that some U.S.-based hazardous waste generators have in recent years exported hazardous waste to Recicladora Temarry de Mexico located at or near Carretera Fed. No. 2, Mexicali-Tijuana, KM 121, San Pablo, Tecate, BCN 21530. In its annual hazardous waste export report to the EPA for 2021, Temarry Recycling Inc. (EPA ID: CAR000194217) indicated it handled the export of 6,099 shipments to Recicladora Temarry.</p> <p>I am essentially asking for manifests that would show the generators of the hazardous waste exported to Recicladora Temarry in 2021 and 2022 and details on that waste typically found in such manifests.</p> <p>If possible, please provide the requested information in an electronic format. Ideally, you'd be able to provide an Excel spreadsheet showing the same type of information currently available for domestic manifests in the emanifest system. I am aware, however, that export manifests are not currently part of the emanifest system. Therefore if you are unable to provide the manifest information in a spreadsheet, please provide whatever records do exist that contain the requested information including but not limited to copies of paper manifests.</p> <p>I am also seeking copies of any inspection reports since 2010 the EPA has pertaining to Recicladora Temarry. These would include reports the EPA's own inspectors prepared as well as those prepared by other agencies (such as the EPA's Mexican counterparts) and in the possession of the EPA.</p> <p>I am a reporter for CalMatters, a nonprofit news outlet covering California policy and politics, and with a broad audience across the state and nation. This request is in the routine course of newsgathering. I am seeking a fee waiver for this request as a working journalist serving the public interest by providing insight into a subject of high importance and interest. The EPA has in the past provided such a fee waiver, notably in response to request 2022-006244. However, if you do not grant my fee waiver, I agree to pay reasonable duplication fees for the processing of this request. Please notify me prior to your incurring any expenses in excess of \$25. My email address: robert@calmatters.org</p> <p>If you determine that an express provision of law exists to exempt from disclosure all or a portion of the material I have requested, please provide the specific statute or legal authority on which you base any determination to withhold records in whole or in part. If anything in this request is unclear or you need clarification, I can also be reached at (b) (6). Thank you for your assistance with this request.</p>	10/20/2022
2023-OCSP-00406	Purrington, Colin	-	<p>Could I please receive communications and documents regarding (1) a meeting with Spartan Mosquito (AC2T, Inc.) on December 4, 2019, and (2) a request on December 17, 2019, for additional efficacy data on the Spartan Mosquito Pro Tech? I am attaching two documents from Spartan Mosquito that refer to these events. The third uploaded document (an email date November 11, 2020) indicates that Andrew Wheeler, Susan Bodine, and Alexandra Dunn became involved in the registration process in some way. There were likely additional EPA staff involved in these interactions. Other persons at the EPA who might have relevant documents include Elizabeth Fertich (Product Manager 04, Invertebrate & Vertebrate Branch 1, Registration Division(7505P), Office of Pesticide Programs), the signatory on the Spartan Mosquito Pro Tech's label (Decisions Nos. 554569, 569675), and Erik Kraft (Branch Chief, Regulatory Management and Science Branch).</p>	10/20/2022

2023-OCSPP-00426	Lerner, Sharon	ProPublica	<p>Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request:</p> <ol style="list-style-type: none"> 1) Any documents Saint Gobain Performance Plastics, also known as Saint Gobain, sent to the EPA regarding blood testing of workers for the presence of chemicals used in their processing and manufacturing plant. TSCA requires that these records be sent to the EPA as 8(e) reports. These would have been submitted to the Office of Pollution Prevention and Toxics or the Planning, Measures and Oversight Division, which is in the Office of Compliance. 2) Any documents Saint Gobain Performance Plastics, also known as Saint Gobain, submitted to EPA in response to requirements listed under TSCA sections 8(d) or 8(e), including the results of published or unpublished health studies, epidemiological studies, or toxicological studies related to chemicals used in their processing or manufacturing; 3) Any results of occupational exposure and/or follow-up health studies regarding employee exposure, exposure reduction, biomonitoring, or any other examinations of the health of their workers; 4) Any information submitted by Saint Gobain Performance Plastics, also known as Saint Gobain, that reasonably supports the conclusion that substances or mixtures they used presented a substantial risk of injury to health or the environment in accordance with Section 8(e) or any other EPA regulatory program; 5) Any written communications between EPA and Saint Gobain Performance Plastics, also known as Saint Gobain, about the submission of this material or any penalties related to it. <p>Background: due to their extensive use of pure-PFOA products, Saint Gobain Performance Plastics is likely subject to regulation under TSCA section 8(d), 8(e) and may have violated 15 USC 2615 or other laws. In publicly available documents, Saint Gobain conferred with the manufacturer, 3M, to develop and implement health and safety testing of their employees. As mentioned above, companies are required to report to the EPA any evidence that products they use or make may present substantial environmental or health risk.</p> <p>If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. Further, I do not expect you to release any information that would identify individual workers.</p> <p>I would like to receive the information in the following format: electronic.</p> <p>I am available to discuss the scope of the request and any questions by phone (b) (6) or email (sharon.lerner@propublica.org).</p> <p>As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of ProPublica, an independent, non-profit news organization, for dissemination to the general public.</p> <p>If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.</p> <p>I certify that my statements concerning the need for expedited processing are true and correct to the best of my knowledge and belief.</p> <p>I look forward to your reply, as the statute requires.</p>	10/20/2022

2023-OCSPP-00488	Teubner, Colleen	Public Employees for Environmental Responsibility	<p>On June 22, 2022, the United States Senate Committee on Environment and Public Works held a hearing entitled, "Toxic Substances Control Act Amendments Implementation" https://www.epw.senate.gov/public/index.cfm/2022/6/toxic-substances-control-act-amendments-implementation. During the hearing, Senator Shelley Moore Capito asked about the two definitions of per- and polyfluoroalkyl substances ("PFAS") that the U.S. Environmental Protection Agency ("EPA") is using and whether a clear and consistent definition would be useful (timestamp: 54:20). Assistant Administrator Dr. Michal Freedhoff responded that the Office of Chemical Safety and Pollution Prevention ("OCSPP") prepared a definition in 2006 for purposes of the Toxic Substances Control Act ("TSCA") New Chemicals Program and proposed using that definition in rulemaking.</p> <p>Requests</p> <p>Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility ("PEER") requests certain information from EPA regarding the definition of PFAS prepared by OCSPP in 2006. Specifically, we request:</p> <p>All records and communications regarding OCSPP's development of a PFAS definition in 2006, as referenced by Dr. Freedhoff, between January 1, 2001 – January 1, 2007, including, but not limited to, notes, emails, data, analyses, reports, memos, and letters.</p> <p>All records and communications from any person, including anyone outside of EPA such as manufacturers, processors, distributors in commerce of chemicals or their technical representatives, and/or contractors, in EPA's possession concerning the development of this definition of PFAS between January 1, 2001 – January 1, 2007.</p> <p>Specifically, we are looking for documents that identify the names of persons, including EPA employees, manufacturers, processors, distributors in commerce of chemicals or their technical representatives, and contractors, involved with the development of OCSPP's development of a PFAS definition.</p> <p>Form of Records</p> <p>Under FOIA, you are obligated to provide records in a readily-accessible electronic format and in the format requested. 5 U.S.C. § 552(a)(3)(B) ("In making any record available to a person under this paragraph, an agency shall provide the record in any form or format requested by the person if the record is readily reproducible by the agency in that form or format.").</p> <p>This request includes all final documents that have ever been within the agency's custody or control, whether they exist in agency "working," investigative, retired, electronic mail, or other files currently or at any other time. All electronic records should be delivered in their original file format with metadata and any attachments included. Physical records should be scanned or otherwise converted into electronic format.</p> <p>PEER specifically requests that a search be conducted of the agency's SharePoint, Google Drive, DropBox, or any similar system of file storage and management, as well as files stored locally on any relevant custodian's hard drive or cloud-computing OneDrive system. PEER also requests that a search be conducted in archived files for records that may have been in the possession of now-retired staff.</p> <p>Custodians</p> <p>Although some of these potential custodians may not have been working at EPA during the timeframe of interest, they may have access to this information and some may have been directly involved. Custodians likely to be in possession of responsive records include:</p> <p>Michal Freedhoff – Assistant Administrator, OCSPP, EPA</p>	10/25/2022
2023-AO-00494	MORRIS, RICHARD	Citizens Millage Advisory Committee, Fort Smith School District	Looking for a record (transcript or otherwise) for a September 29, 2022 meeting in Washington, DC. 2023-R02-00496	Nitzky, Alison	Ramboll	I am seeking information pertaining to environmental matters, including CERCLA and RCRA Corrective Action activities for the facility located at 3775 Park Avenue in Edison, New Jersey (USEPA ID: NJD002150993). The facility was historically operated by L.A. Dreyfus Co and appears to have undergone a Preliminary Assessment in September 1989 and was evaluated under RCRA (RFA) in September 1993. I am seeking records related to site investigations, soil or groundwater sampling, known soil or groundwater contamination, or remediation activities (e.g., preliminary assessment reports, site investigation or site inspection reports, reports regarding remedial activities, hazardous waste TSD registration records, RCRA closure records, etc.). Please contact me if you have any questions. Thank you.	10/25/2022
2023-R03-00489	Present, Benjamin	Kline & Specter, P.C.	Dear FOIA Coordinator / To Whom It May Concern: I am submitting this Freedom of Information Act request to obtain copies of records in the U.S. EPA's possession regarding the ethylene oxide emissions activity of B. Braun Medical, Inc., B.Braun of America, Inc., B. Braun Cegat, LLC, and B. Braun Interventional Systems, Inc. ("collectively, "B. Braun") at 901 Marcon Boulevard in Allentown, Pennsylvania, 18109. The time period covered by this request is 1985 to Present. More specifically, I am requesting the entire U.S. EPA file—including any records, documents, data, correspondence, interviews, citations, orders, permits, and/or cease-and-desist letters—referencing, related to, or referring to any investigation, findings, or communications concerning B. Braun. By way of example and not limitation, responsive documents will include: •Correspondence between the U.S. EPA and B. Braun; •Documents pertaining to the permitting process as it relates to B. Braun's facility in Allentown; Documents regarding the U.S. EPA's understanding and assessment of EtO within, and emitted from, B. Braun's facility in Allentown; and •Documents regarding any testing the U.S. EPA did at B. Braun's facility in Allentown. •Documents regarding any inspections the EPA did of or at B. Braun's facility in Allentown. If you have any questions or proposed refinements to this request, please call me at (b) (6) . We are willing to pay any reasonable fees associated with this request that are required by law. Respectfully submitted, Benjamin O .Present, Esq.	10/25/2022
2023-NFO-00487	Hodges, Abigail	Logic Environmental	Good morning, We are doing a Phase I Environmental Assessment at a property located at 250 Auburn Avenue NE in Atlanta, GA. Our database report identified an ERNS listing at the intersection of Auburn Ave & Bell St, very close to the site. The database indicated that in June 2013, oil impacted the street from an underground oil line which ruptured. It also notes that storm drains were monitored to see if they were impacted by oil. The Sequence # is 1051441. Can you help clarify: Can you provide any information on this specific complaint/release? Is the investigation for this complaint ongoing? Has a release to soil/groundwater been identified? How do I get files on these records? I really do appreciate any help or guidance you can provide. Kind Regards,	10/25/2022

2023-OLEM-00538	Singer-Vine, Jeremy	The Data Liberation Project	<p>Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552 et seq., I request copies of the following records:</p> <p>1) All non-OCA database records in the RMP National Database</p> <p>As you are aware, the EPA's Risk Management Program (RMP) rule "requires facilities that use extremely hazardous substances to develop a Risk Management Plan which: identifies the potential effects of a chemical accident, identifies steps the facility is taking to prevent an accident, and spells out emergency response procedures should an accident occur."1 Moreover, such facilities must submit their Risk Management Plans and accident histories to the EPA on a regular basis. Those records are collected by the EPA's Office of Land and Emergency Management (OLEM), in what the agency has referred to as the "RMP National Database."2</p> <p>A detailed description of all data fields submitted by facility owner/operators can be found in the EPA's "RMP*Submit Users' Manual."3</p> <p>I request all database records stored within the RMP National Database, with the exception of Off-Site Consequence Analysis (OCA) records deemed non-disclosable by 40 CFR Part 1400. You may also withhold data fields that contain sensitive user information, such as RMP*Submit usernames and passwords.It is my informed belief that RMP National Database is a Microsoft Access database or is accessible as one.4 5 As such, it should be possible to produce the requested records in a straightforward manner, and in their unaltered form, while also withholding non-disclosable tables and columns without the need to individually review or redact such records, and without the need to withhold any other portion of the records. This approach is supported by 5 U.S.C. § 552(a)(8)(A)(ii), which states that an agency shall "take reasonable steps necessary to segregate and release nonexempt information[.]"</p> <p>Given that this request pertains to a comprehensive export from a specific database system, rather than a document search, I do not believe it is necessary to specify a time period for the records. If, however, specifying such a time period is necessary for your process, please use the following: January 1, 1990, to the date the records export is performed.</p> <p>I request these records in their native digital format — likely Microsoft Access database table exports — and not in formats that degrade the accessibility of the records, such as PDF or Word. If converting the native digital format to another high-fidelity format, such as CSV, JSON, or Excel, please take care not to introduce formatting inconsistencies or errors, which can occur in the conversion process (for example, encoding errors or the inclusion of internal unescaped quotation marks in CSV files).</p> <p>I recognize that I am requesting a large amount of data. For this reason, I would be happy to provide an online file transfer folder (e.g., Dropbox, Google Drive, etc.), an external hard drive, or USB storage device for the transfer of these files.</p> <p>2) All relevant database documentation</p> <p>Additionally, I request all documentation associated with the RMP National Database and its records, so that the public can accurately interpret the data. These documentation records shouldinclude (but not necessarily be limited to) all relevant record layouts, database schemas, entity relationship diagrams, database diagrams, data dictionaries, glossaries, and user guides.</p> <p>Please provide any RCRA records associated with the attached listing (NYR000026757).</p>	10/27/2022

Wicks, Noah

Agri-Pulse
Communications,
Inc.

Hello,

11/01/2022

This is a request for records under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552.

Records Sought

I request disclosure of the following records:

1. All emails to and from (including cc, bcc) Rod Snyder that relate or refer to the herbicide known as Dicamba. This request includes all attachments. The timeline for this request is between Sept. 1, 2020, and the date this request is processed. This request also includes emails sent by Rod Snyder using any alias. This request also includes official communications sent by Rod Snyder using any non-EPA email account.

Reasonably Forseeable Harm. The FOIA Improvement Act of 2016 amended the FOIA as follows (5 USC 552 (a)(8))

(A) An agency shall--

(i) withhold information under this section only if--

(I) the agency reasonably foresees that disclosure would harm an interest protected by an exemption described in subsection (b); or

(II) disclosure is prohibited by law; and

(ii)(I) consider whether partial disclosure of information is possible whenever the agency determines that a full disclosure of a requested record is not possible; and
(II) take reasonable steps necessary to segregate and release nonexempt information...

EPA should not fail to meet the requirements of Section 551(a)8 when processing my request and release responsive records to me in full or at least in part.

Instructions Regarding Search

Request for Public Records

Please search for any records even if they are publicly available.

Request for Electronic and Paper/Manual Searches:

I request that searches of all electronic and paper/manual indices, filing systems, and locations for any and all records relating or referring to the subject of my request be conducted. I further request that the agencies conduct a search of its "soft files" as well as files in its locked cabinets.

Request regarding Photographs or other Visual Materials:

2023-AO-00603	Wicks, Noah	Agri-Pulse Communications, Inc.	<p>I request all materials in the agency's possession related to a meeting held between Environmental Protection Agency staff and House Ag Committee majority staff on 2/17/2022. 2023-ORD-00705	Gilbert, Natasha	Freelance	<p>Pursuant to the Federal Freedom of Information Act, 5 U.S.C. § 552, I request the following information:</p> <p>1) Concerning the period Jan 2018 - June 2020, email correspondence and minutes of meetings, including meeting notices sent and received between Tina Bahadori, former EPA director of the NCEA and any of the four entities (the Electric Power Research Institute, the Manganese Interest Group, Joseph Green, or the Afton Chemical Corporation) in which the Integrated Risk Information system (IRIS) is discussed.</p> <p>2) In 2018, all email correspondence received or sent by Dr. Bahadori in which the manganese assessment of the Integrated Risk Information system is discussed.</p> <p>The information released does not need to include email attachments. Where possible I would like to receive the information via email or on a USB drive.</p> <p>Please waive any applicable fees. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the health impacts and exposure of manganese which is of interest to the public. It also seeks to gain an understanding of the government operations in assessing the risks and controlling manganese including balancing the demands of industry with the need to protect the health and safety of people and the environment. This request will help to ensure transparency and accountability to the public. This information is being sought for a freelance article for dissemination to the general public.</p> <p>I am a freelance journalist with over 10-years' experience covering the environment for publications including Nature, STAT and Scientific American.</p> <p>I would prefer you to produce the information on a rolling basis. At no point should the EPA's search for — or deliberations concerning — certain documents delay the production of others that the EPA has already in its possession and has elected to produce.</p> <p>If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.</p> <p>I would appreciate you communicating with me by email or telephone rather than by mail.</p> <p>I look forward to your determination regarding my request within 20 business days, as the statute requires.</p>	11/07/2022

			Any and all documents regarding the Proposed Ecological Swamp Enhancement Project, East Grand Lake, in the Atchafalaya Basin, Iberville Parish, Louisiana (Army Corps of Engineers Permit No. MVN 2016-01163-CM).	
			The public notice for the East Grand Lake Project (MVN 2016-01163-CM) ("EGL Project") was originally published on March 19, 2018, but then withdrawn after the receipt of public comments. The EGL Project was then modified by the permit applicant, the Coastal Protection and Restoration Authority, and a public notice was published again on April 25, 2022, by the Army Corps of Engineers ("Corps"), under the same permit number, MVN 2016-01163-CM.	
2023-R10-00704	Messer, Sabra	-	Please see attached PDF, clarified below: <ul style="list-style-type: none"> • In the 6 parts above, you are essentially seeking both internal and external communications that mentions or discusses the Proposed Determination or Revised Proposed Determination," where "Proposed Determination" means EPA's Proposed Determination of the U.S. Environmental Protection Agency Region 10 Pursuant to Section 404(c) of the Clean Water Act – Pebble Deposit Area, Southwest Alaska (July 2014). • EPA can exclude mass mailers, spam, and weekly bulletin type items from the response. After EPA has an opportunity to review the search results, the parties can discuss any other categories of documents that might be excluded. • Steptoe proposed a start date for the search of June 1, 2022. EPA proposed a start date of September 28, 2022 (the date of EPA's motion requesting that the court vacate the Agency's decision to withdraw the 2014 Proposed Determination and remand the action to the Agency to reconsider its action). Steptoe offered to follow up with EPA on the September date. • The parties discussed the need for search terms and custodians and agreed to meet again to discuss in more detail. 	11/07/2022

2023-OECA-00740	Schader, Nick	-	<p>Dear Sir and Madam,</p> <p>i'm searching for documents belonging to "dieselgate" connected to german car manufacturers who cheated at exhaust tests.</p> <p>We just found some documents in a german archive about investigations by EPA in 1986 (!) about exhaust and test manipulations by german car manufacturers. In April 1986 EPA informed all german authorities about ongoing investigations against VW, Daimler and Porsche.</p> <p>The accusation was:</p> <ul style="list-style-type: none"> -Manipulating prototypes for exhaust-testings -Manipulation of test-procedures -Porsche: The cars could recognize when exhaust-tests starts and manipulate the emissions <p>The official letter to german authorities about that EPA-Case was sent 24.4.1986. So around that date you should find more informations.</p> <p>I'm asking you to send me all related documents, mails etc. about EPA investigating german car manufacturers like VW/Volkswagen in aspects of "exhaust/emission testings" in 1986.</p>	11/09/2022

2023-OCSP-00743	Horan, Jennifer	ERIS	<p>Thank You!</p> <p>Good Morning! I would like to request the most current nationwide version of the Polychlorinated Biphenyls (PCB) Transformer Registration Database (to include current and historical sites, as far as PCB transformer registrations date back) for all ten EPA Regions in Excel format. My prior submitted/fulfilled FOIA Request for this data (EPA-2022-001881) was received in February of 2022. The Excel file I was provided at that time was dated for October 15, 2019. If there have been any updates to this data, I would like to request the most current version available.</p> <p>In that October 15, 2019 data file (received in February of 2022), two worksheets were included. The first worksheet was named "Complete PCB Listings" and the second worksheet was named "Current PCB Listings". If this data has been updated since the October 2019 version I received in February of this year, could I please request a copy of the latest file available in the same file format along the same fields per worksheet as previously received. I have attached a copy of that file as it was provided to me for reference.</p> <p>Thank you very much for your time and assistance! Have a nice day!</p>	11/09/2022

2023-NFO-00837	Powers, Richard	-	<p>I am inquiring as to the existence of records surrounding a variety of creature widely understood to be a 'gnome'. These creatures are often short in stature, possess skills in subterfuge and stealth, and can often be found deep in the woods of the American forests. Because of this, the EPA is in the position to be uniquely aware of their existence. If such records exist, I request that they be mailed to the address above, or emailed to me at (b) (6). Because these creatures are understood to be an object of mythos, the alleged denial of the existence of these creatures is contrary to the doctrines of the United States.</p>	11/14/2022

2023-R02-00786	Reilly, Rachel	Taylor Research Group	<p>Pursuant to the provisions of the Freedom of Information Act (5 U.S.C. § 552) (FOIA), Taylor Research Group LLC (TRG) requests access to reports, which are in the possession, custody, or control of the United States Environmental Protection Agency (USEPA) pertaining to the Newtown Creek Commercial Navigation Study.</p> <p>It is our understanding that the preliminary results of this study were presented by the United States Army Corps of Engineers (USACE) to USEPA and the Newtown Creek Group on March 5, 2020 and that an interim report about the study was to be finalized by the end of March 2020.1 We also understand that an update on this study was provided to the Newtown Creek Community Advisory Group on April 20, 2022 by USACE Project Manager Lisa Barron. In a PowerPoint presentation intended for this group, it was stated that USACE was contracted by USEPA through the International, Intragency and Environmental Services Program to conduct this analysis in support of its Remedial Investigation/Feasibility Study.2 This PowerPoint also indicated that a report was to be finalized and publicly released. Therefore, we are seeking the 2020 interim report and 2022 finalized report. If the finalized report has not yet been completed, we would like to know if a publication date/public release date has been set.</p> <p>We request that you share the reports electronically or send paper copies to us if digital copies are not available. To the extent that any of the reports have exemptions, I request that you sanitize the documents for our review and please specify the exemptions claimed for each page or passage.</p>	11/14/2022

2023-R03-00777	Lindsey, Jacob	TRC Environmental Corporation	<p>I am seeking records for the property located at 130 Church Road in Mountain Top, PA 18707. The property in question is within the known TCE groundwater plume associated with the Foster Wheeler Energy Corporation Superfund Site (EPA ID: PAD003031788). This area is also known as Church Rd Groundwater (PADEP Facility ID: 689073) in the PADEP database. I am trying to determine what, if any, sampling data exists for the property located at 130 Church Road. I am aware that a groundwater sample was collected from the well at the residence c. 2006 by USEPA. Additionally, in 2010, FWEC collected sub-slab soil gas and a shallow groundwater sample from the property. I would like to obtain these sample results, in addition to any other groundwater, soil, surface water, or sediment samples collected from 130 Church Road (Parcel 64M9 00A007000). A map is attached to show the area in question. Thank you, please call or email me with questions.</p>	11/14/2022

2023-R04-00844	Tull, Ruth	-	<p>To whom it concerns,</p> <p>I am researching the PCB Landfill that was established in Warren County, North Carolina in approximately 1982 in order to address a "spill" incident of 30,000 gallons of PCBs along NC roadways. I am trying to find documents regarding the clean-up efforts in the early 2000s. Do you have any documentation about the clean up or inspection activities? I am particularly requesting a closure report conducted by Earth Tech of NC, dated June 2004, and sent to the EPA in 2006 (and I think again in 2009). EPA approved the closure report and released the restrictive covenant from the property in 2010. I have attached the Executive Summary for the report. I would like more information such as maps, sampling results, etc.</p> <p>Thank you, Ruth Tull</p>	11/15/2022

Dear FOIA Officer:

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA"), Hogan Lovells US LLP ("Hogan Lovells") requests information, as described in detail further below, from the United States Environmental Protection Agency ("EPA"), relating to EPA's regulation of ethylene oxide.

Specifically, we request all records and information relating to the following:

1. ~~All~~ documents related to any review by the Science Advisory Board of any research, studies, or decision making by EPA of ethylene oxide, including, but not limited to:

- a. ~~The~~ Scientific Advisory Board Panel's 2006-2007 review of EPA's carcinogenicity assessment of ethylene oxide; and
- b. ~~The~~ Scientific Advisory Board's review of the 2016 IRIS ethylene oxide study conducted by EPA.

2. ~~All~~ studies which relate to any conclusion by EPA with respect to ethylene oxide, including:

- a. ~~E~~pidemiology studies;
- b. ~~T~~oxicology studies;
- c. ~~S~~tudies that contradict any conclusions reached by EPA;
- d. ~~S~~tudies that support any conclusions reach by EPA; and
- e. ~~P~~apers with comparisons of risk in relation to endogenous production.

This FOIA request is not meant to be exclusive of any other records which, though not specifically requested, would have a reasonable relationship to the subject matter of this request. With respect to the form of production, see 5 U.S.C. § 552(a)(3)(B), we request that responsive documents be provided electronically in text-searchable, static-image format (PDF), in the best image quality in the agency's possession. We further request that reasonable metadata be transmitted along with responsive documents, including but not limited to email attachments, author and recipient information, date and time stamps, and the like. All requests for documents or records include requests for any written materials, any communications in any format, any digital information, any physical or electronic media, and any recordings, including audio and visual records. Communications include anything that communicates information, including emails, text messages, reports, correspondence and electronic files that communicate information.

We believe that these records are not exempt from disclosure. If EPA should deny access to any records covered by this request, however, please describe in detail each of those records and specify the statutory basis claimed for denial as well as any reasons for asserting that claim. 2023-OCSP-01071	Teubner, Colleen	Public Employees for Environmental Responsibility	<p>Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility ("PEER") requests certain documents from the U.S. Environmental Protection Agency ("EPA"). Specifically, we request:</p> <p>Text messages regarding government business sent and received by Tala Henry, dated from November 8, 2016, through November 30, 2022. Relevant phone numbers may include, but are not limited to, the following: (b) (6) and (b) (6).</p> <p>This request includes all final documents that have ever been within the agency's custody or control, whether they exist in agency "working," investigative, retired, electronic mail, or other files currently or at any other time. All electronic records should be delivered in their original file format with metadata and any attachments included. Physical records should be scanned or otherwise converted into electronic format.</p> <p>For electronic records, please provide all records in their native file formats (i.e. not converted to PDF) with all metadata included, and for records such as emails which have files embedded or attached, please provide all attachments in their native formats. For instant messages, plain text is acceptable consistent with guidance issued by the National Archives and Records Administration.</p> <p>For any documents or portions of documents that you block release due to specific exemption(s) from the requirements of the Freedom of Information Act, please provide an index itemizing and describing the documents or portions of documents withheld. The index should, pursuant to the holding of Vaughn v. Rosen (484 F.2d 820 [D.C. Cir. 1973] cert. denied, 415 U.S. 977 [1974]), provide a detailed justification for claiming a particular exemption that explains why each such exemption applies to the document or portion of a document withheld.</p> <p>If in the process of conducting a search for records responsive to this request it appears that a large quantity of irrelevant material is being included or further relevant material may not be captured by the specific terms of the request, or any other concerns related to the timeliness or completeness of the response arise, please contact the undersigned at cteubner@peer.org.</p> <p>If you have any questions about this FOIA request, please contact me at (202) 464-2293 or cteubner@peer.org. I look forward to receiving the agency's final response within 20 working days.</p>	11/30/2022

2023-R05-01074	Grandstaff, Anderson	-	<p>Hello,</p> <p>I am an attorney representing a property developer who is interested in developing a vacant lot located at 4375 Second Street, Ecorse, MI 48229. By searching public records, I have learned that this property was previously owned by Walcon Property, and that it was one of several properties assessed by the Wayne County Brownfield Redevelopment Authority, pursuant to Cooperative Agreement Number BP98599701, Grant ID 47121211. Those records indicate that the assessment completed on 3/31/2000 concluded that a "Cleanup" was required at this property. However, it is unclear whether this cleanup was actually performed. I was also unable to locate any information regarding the nature of any contaminant(s) located at that property, beyond some references to D001 ignitable hazardous wastes. I would like to request a copy of the reports for any environmental assessments performed at 4375 Second Street, and any other reports detailing the nature and extent of contamination at that site.</p>	11/30/2022

2023-R09-01126	Fields, Sarah	Uranium Watch	<p>Requested Records pertain to the September 21, 2015, EPA Region 9 letter to David Frydenlund, Energy Fuels Resources (USA) Inc. (EFRI) regarding "Approval to Construct/Modify the Canyon Underground Uranium Mine (40 C.F.R. §61.08)." The letter was signed by Mike Bandrowski,, Chief, Air Toxics, Radiation & Indoor Air. The Approval Order states that any correspondence required by the Approval be sent to the Director, Air Division, Attn: Regional Radiation Representative, San Francisco, California. See Attached.</p> <p>1. Request any correspondence between EPA Region 9 and EFRI subsequent to the Sept. 21, 2015, Approval to Construct/Modify the Canyon Underground Uranium Mine, Coconino County, Arizona. NOTE: EFRI has since renamed this mine, calling it the Pinyon Plain Mine. Records would include letters, notifications, e-mails, and any other communications regarding the development and operation of the Mine and installation of ventilation shafts. Requested records include any EFRI Notifications of Commencement of Construction and Startup. Correspondence relates to EFRI compliance with the terms of Sept. 21, 2015, Approval and 40 C.F.R. Part 61 Subpart B and related requirements for installation and operation of the ventilation shafts and radon emissions.</p> <p>2. Request any correspondence between Region 9 and EFRI regarding the type of radon monitoring method to be used by EFRI to measure the radon emissions from the Pinyon Plain Mine (formerly, Canyon Mine). This relates to compliance with 40 C.F.R. Part 61, Appendix B (Test Methods), Section 3.1.6 Method A-6, Radon-222 - Continuous Gas Monitor, and Section 3.1.7 Method A-7, Radon-222-Alpha Track Detectors. 2023-OGC-01253	Lagura, Jordan	Envirosite Corporation	I am seeking an updated electronic listing of the NIRS Land Use Control (LUC) data. Previously I received these fields: Owner Name, Program Name, Installation Name, UIC Number, Site Name, Site Description, Environment Zone ID Number, Environment Zone Description, Type of Environmental Zone, Land Use Control Description, Restriction Type, Restriction Type Definition, Start Date of Restriction, Restriction Comments, LUC Status, LUC Status Date, and DODCMD. If possible, can I please receive this in electronic format?	12/12/2022
2023-R04-01277	Henry, Sara	-	<p>I am writing to request the following records held by the EPA:</p> <p>1. A copy of the "comfort letter" issued by the EPA in 2019 to WastAway LLC designating its SE3 fuel as a non-waste fuel and as a Non-Hazardous Secondary Material (NHSM) (the letter is detailed online at: https://www.wastaway.com/epa-comfort-letter-provides-fuel-customers-added-assurance)</p> <p>2. Copies of any and all records related to the EPA's decision to issue the above-requested comfort letter. Records requested include, but are not limited to, any and all written and electronic correspondence between the EPA and WastAway and its executives as well as application materials, reports and/or studies that formed the basis for the EPA's 2019 decision.</p> <p>3. Records of any and all odor, air quality and/or other complaints filed to the EPA related to Tennessee-based WastAway and its facilities and technology dating back to 2003, along with records detailing the EPA's handling of those complaints, including decisions or orders rendered.</p> <p>4. I found reference to a 2012 report that showed that the WastAway company's "Fluff" samples did not meet EPA standards because the lead content was too high. I'd like to add records related to that report/finding to the list of records I am requesting.</p>	12/12/2022

2023-OCSPP-01287	Lerner, Sharon	ProPublica	PLEASE SEE MY ATTACHED FOIA REQUEST Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request these 14 documents with the following bates numbers: ED_005729A_00001289-00004 ED_005729A_00001244-00004 ED_005729C_00000038-00003 ED_005729A_00000283-00001 ED_005729A_00000795_00001 ED_005729A_00000181-00003 ED_005729A_00000800-00001 ED_005729A_00000179-00001 ED_005728C_00000031-00001 ED_005729A_00000030-00001 ED_005729A_00001269-00001 ED_005729A_00001140-00001 ED_005729A_00001145-00001 ED_005729A_00000909-00001 These documents were previously released in response to FOIA number EPA-2021-003431. That FOIA request asked for: 1. All records of EPA, EPA staff, Department of State, or Department of State staff, including but not limited to internal and external communications and the records of Karissa Kovner, reflecting or relating to the consideration of the proposed listing of Dechlorane Plus to the Stockholm Convention on Persistent Organic Pollutants, including but not limited to all records relating to the draft risk profile of Dechlorane Plus prepared by the intersessional working group of the Persistent Organic Pollutants Review Committee of the Stockholm Convention, and 2. All records of EPA or EPA staff reflecting or related to toxicological reviews of Dechlorane Plus, whether undertaken by EPA staff or outside parties. This request includes, but is not limited to, the toxicological review referenced in a February 18, 2021 e-mail from Karissa Kovner. I am concerned that the 14 documents I am requesting appear to be improperly redacted, with many names redacted with the explanation "deliberative process." As you know, this exemption protects "documents reflecting advisory opinions, recommendations and deliberations comprising part of a process by which governmental decisions and policies are formulated." Purely factual material "that does not reveal the deliberative process is not protected by this exemption." (Morley, 508 F.3d at 1127 (quoting Paisley v. CIA, 712 F.2d 686, 698 (D.C. Cir. 1983),vacated in part on other grounds, 724 F.2d 201 (D.C. Cir. 1984) (internal quotation marks omitted)). Here are my specific concerns about each of the requested documents: ED_005729A_00001289-00004. This document begins with "I'll copy REDACTED on the one to REDACTED," which appears to be the redaction of two names. Lower down on the same page is another example, "Got it. I copied you on a note to REDACTED." ED_005729A_00001244-00004. On page one of four, Laura Nazef writes: "I think REDACTED is the POPRC member" Karissa Kovner writes: I think we need to reach out to REDACTED on this. And maybe REDACTED. Who is the lead on REDACTED? ED_005729C_00000038-00003 This document, titled "Summary of Main OCSPP International Activities" is almost entirely redacted. It does not appear to be predecisional — it is simply a summary, as the title states — and therefore should not be protected by the deliberative process privilege.	12/13/2022

This is a request under the Freedom of Information Act (FOIA).

I request a copy of the email and/or call record(s) from EPA Region 7 notifying EPA headquarters in Washington, D.C., on Dec. 8, 2022, about the Keystone oil release.

I am filing this FOIA request as a "representative of the news media" since I am a reporter for E&E News. This designation entitles me to a waiver of fees accumulated during the actual search and review process.

Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25.

This request is made as part of news-gathering activity and is not for commercial use.

The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net, which has more than 40,000 unique visitors a day.

We expect the information that is produced through this and other FOIA requests to serve as the basis for several articles that explain the government's actions and operations to the public. For more information about E&E News, please refer to www.eenews.net.

FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.

If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.

If you have any questions about the nature or scope of this request, please call me at 512-577-9051 or email me at canchondo@eenews.net.

Thank you for your consideration of this request.

Sincerely,
Carlos Anchondo

Apex's client is requesting a due diligence investigation. According to ASTM Standards E 1527-21, property record reviews are required prior to completing this investigation.

Apex is requesting any records you may have concerning the property of interest. Records may include, but are not limited to:

- Records indicating former operations/owners
- Site remediation/investigation activities
- Contamination issues in soil or groundwater
- Environmental violations
- Fires, leaks or spills of hazardous materials
- Sewer or septic issues; issued permits
- Storage or use of hazardous materials
- No further action letters
- Monitoring well installations and/or sampling results
- Consultations with the U.S. Environmental Protection Agency (USEPA)
- Underground or aboveground storage tanks (tank abandonment, removals and closures)
- Sites that may be classified as State Hazardous Waste sites

If you have any questions or concerns regarding this request or if you need additional information to assist with your record search, please feel free to contact me via phone at (b) (6) or email at Roxanne.Kelly@apexcos.com. Thank you in advance for spending time on this matter.

Sincerely,

2023-OCSPP-01452	Jenkins, Peter	Public Employees for Environmental Responsibility	<p>Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility (“PEER”) requests certain information from the EPA’s Office of Pesticide Programs (OPP). Specifically, we request:</p> <p>1. All documents, records, emails, texts, instant messages, electronic chats, memos, notes, letters, and any other records mentioning, or responding to, the Treated Seed Issue Paper that was submitted to EPA on or about August 31, 2022, and its cover letter, by the State FIFRA Issues Research and Evaluation Group (SFIREG).</p> <p>2. All documents, records, emails, texts, instant messages, electronic chats, memos, notes, letters, and any other records regarding any action by OPP to address or regulate pesticide-treated seeds and/or to amend 40 C.F.R. § 152.25(a), the Treated Article Exemption regulation, after September 27, 2022, when OPP issued its letter (from Ed Messina) denying the Center for Food Safety (CFS) et al. Citizen Petition to the U.S. Environmental Protection Agency Seeking Rulemaking or a Formal Agency Interpretation for Plant Seeds Coated with Systemic Insecticides (April 26, 2017).</p> <p>This request includes all final documents that have ever been within the agency’s custody or control, whether they exist in agency “working,” investigative, retired, electronic mail, or other files currently or at any other time. All electronic records should be delivered in their original file format with metadata and any attachments included. Physical records should be scanned or otherwise converted into electronic format.</p> <p>For electronic records, please provide all records in their native file formats (i.e. not converted to PDF) with all metadata included, and for records such as emails which have files embedded or attached, please provide all attachments in their native formats. For instant messages, plain text is acceptable consistent with guidance issued by the National Archives and Records Administration.</p> <p>For any documents or portions of documents that you block release due to specific exemption(s) from the requirements of the Freedom of Information Act, please provide an index itemizing and describing the documents or portions of documents withheld. The index should, pursuant to the holding of Vaughn v. Rosen (484 F.2d 820 [D.C. Cir. 1973] cert. denied, 415 U.S. 977 [1974]), provide a detailed justification for claiming a particular exemption that explains why each such exemption applies to the document or portion of a document withheld.</p>	12/22/2022

2023-ORD-01458	Gilbert, Natasha	Freelance	<p>Pursuant to the Federal Freedom of Information Act, 5 U.S.C. § 552, I request the following information:</p> <p>1) Concerning the period September 2018 to Jan 2020, all email correspondence and minutes of meetings, including meeting notices sent and received by Kris Thayer regarding the IRIS Manganese Assessment Plan.</p> <p>2) The IRIS Manganese Assessment Plan. This document was sent out for agency review on 10 August 2018 and the review period ended four weeks later. The release should include the Mn IAP appendices A, B and C.</p> <p>3) Concerning the period January 2019 to August 2021, all email correspondence and minutes of meetings, including meeting notices sent and received by Jennifer Orme Zavaleta regarding nominations of manganese for the development of an IRIS for FY2021.</p> <p>4) A memo including attachments sent by Jennifer Orme Zavaleta on 11 March 2021, in which she reopens the IRIS nomination process for FY2021.</p> <p>Unless stated otherwise in the request, the information released does not need to include email attachments.</p> <p>Please waive any applicable fees. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the health impacts and exposure of manganese which is of interest to the public. It also seeks to gain an understanding of the government operations in assessing the risks and controlling manganese including balancing the demands of industry with the need to protect the health and safety of people and the environment. This request will help to ensure transparency and accountability to the public. This information is being sought for a freelance article for dissemination to the general public.</p> <p>I am a freelance journalist with over 10-years' experience covering the environment for publications including Nature, STAT and Scientific American.</p> <p>I would prefer you to produce the information on a rolling basis. Part 2, Environmental Working Group (EWG) makes the following request for records.</p> <p>Chlormequat chloride, is an agricultural chemical that causes developmental and reproductive toxicity in animal studies. In 2017, Taminco US LLC, a subsidiary of the Eastman Chemical Company, petitioned the U.S. EPA to establish tolerances, or the level of allowable use, for chlormequat chloride in several commodities including oats at 15 parts per million, or ppm. In 2018, in response to the petition, EPA established tolerances for several commodities including for oats at 10 ppm. In 2019, Taminco again petitioned EPA to increase the tolerance for chlormequat chloride on oats to 30 ppm. In response to the Taminco petition, the EPA amended the chlormequat chloride tolerance on oats to 40 ppm, effective May, 2020.</p> <p>EWG seeks information related to communications between Taminco US LLC and EPA concerning the establishment of tolerances for chlormequat chloride.</p> <p>Requested Records</p> <p>EWG requests that EPA produce the following within twenty business days:</p> <p>1. 2023-R03-01451	Dougherty, Billy	BL Companies	<p>I am reaching out in hopes of getting some clarification on the location of an EPA-regulated facility. I have come across some information on a Flory Milling Co. property that I initially saw listed in the zip code and county (18013, Northampton) for Bangor, PA, which is in the eastern portion of the state. Upon further investigation, I saw that the town listed on EPA resources is Washington, PA, which is across the state. Most information via EPA resources seems to point towards it actually being located in Washington, PA (though one map plots it in California, PA), but some other historical research has suggested that a Flory Mfg/Milling Co. formerly operated out of Bangor (though not at the lat/long provided with the property information). So basically, I am hoping to gain some clarity on the actual location of the Flory Milling Co. Brownfield property somewhere in Pennsylvania. Additionally, if this brownfield property is located in Bangor, PA, I would like to review copies of any environmental documents regarding assessment, remediation, and site conditions. Thanks!</p>	12/22/2022

2023-R09-01514	Gjovik, Ashley	-	Hello, I am requesting a copy of the "Phase I Environmental Site Assessment dated April 1, 2016" for 825 Stewart Drive, as noted in EPA SEMS-RM DOCID # 1160217 Subject: "Status of Property and Prospective Purchaser's Reasonable Steps" & dated May 18 2016. (Attached, pg1, last para). It sounds like GI DC Sunnyvale LLC (GI Partners on behalf of CalSTRS) conducted an ESA in 2016 and shared the document with the US EPA. I have never seen that document & it does not appear to be posted on the EPA website, noted in the 2019 FYR, or otherwise available/discussed. If there are additional ESAs for the site also shared by GI/CalSTRS, please include those as well. If someone has claimed CBI on the ESA, I'd like to challenge the CBI claim. Requester type is other - I am requesting these records to understand exposure to toxic carcinogenic chemicals to myself & my workers, and to document alleged fraud by Apple Inc (my prior employer who fired me for reporting safety concerns). Thank you.	12/30/2022

2023-R09-01515	Gjovik, Ashley	-	<p>Hello, I am requesting any emails, memos, letters, or other documents with Margot Perez Sullivan (Perezsullivan.margot@epa.gov) on the to/cc/from/attn, or documents drafted by Perez Sullivan, related to the TRW Microwave Superfund site (EPA ID CAD009159088) from January 1 2021 through Dec 31 2022. You do not need to include any emails where I am on the to/from/cc (b) (6) @icloud.com (b) (6) @apple.com (b) (6) @protonmail.com). You do not need to include any emails sent to large groups with lists of Superfund sites, just documents with unique information about TRW specifically.</p> <p>Requester type is other - I am requesting these records to understand exposure to toxic carcinogenic chemicals to myself & my workers, and to document alleged fraud by Apple Inc (my prior employer who fired me for reporting safety concerns). 2023-R09-01513	Gjovik, Ashley	-	<p>I am requesting records about the TRW Superfund site (CAD009159088) at 825 Stewart Drive - including any documents, reports, memos, emails, texts, notes, photos, etc from January 1 2022 to December 31 2022 related to the building's sub-slat depressurization system & vents, internal sub-slat vents, vapor intrusion risk & testing, indoor air testing, record of decision related to vapor intrusion, land use cov related to vapor intrusion, HVAC system, & human health exposure/risk. This includes any related inquiries, complaints, inspections, plans, or requests. You do not need to include any emails with me on the to/from/cc. You do not need to include anything redundant of EPA-R9-2022-006063. If possible, please release records in batches. Requester type is other - I am requesting these records to understand exposure to toxic carcinogenic chemicals to myself & my workers, and to document alleged fraud by Apple Inc (my prior employer who fired me for reporting safety concerns). Thank you.</p>	12/30/2022
2023-NFO-01516	Gjovik, Ashley	-	<p>Hello, I am requesting information on any grants, awards, tax credits, bonds, prizes, loans, or other financial consideration provided to Apple Inc by the US EPA from Jan 1 2015 through Dec 31 2022. I am also requesting information on any non-monetary awards or prizes Apple has received from the US EPA from the same time frame. If there is a report noting benefit type/title, monetary total, and date awarded - that is sufficient. Otherwise, please provide any collection of reports, letters, memos, notices, and other records that can paint the picture of EPA investment in Apple Inc. Thank you.</p> <p>Requester type is other - I am requesting these records to understand exposure to toxic carcinogenic chemicals to myself & my workers, and to document alleged fraud by Apple Inc (my prior employer who fired me for reporting safety concerns). 2023-AO-01511	Gilbert, Natasha	Freelance	<p>Pursuant to the Federal Freedom of Information Act, 5 U.S.C. § 552, I request the following information:</p> <p>1) Concerning the period July 2018 to June 2019, all email correspondence and minutes of meetings, including meeting notices sent and received between William (Bill) Wehrum (former assistant administrator of the Office of Air and Radiation) and Kristian (Kris) Thayer (director of the Chemical and Pollutant Assessment Division); Tina Bahadori (former EPA director of the NCEA); the Manganese Interest Group; the Afton Chemical Company; ToxStrategies in which the topic of manganese is discussed, including but not limited to the IRIS Manganese Assessment Plan (Mn IAP).</p> <p>2) Concerning the period April 2018 to January 2021 all email correspondence and minutes of meetings, including meeting notices sent and received between Andrew Wheeler and Barbara Beck, principal scientist at Gradient, in which the topic of manganese or the Contaminant Candidate List (CCL) is discussed.</p> <p>Unless stated otherwise in the request, the information released does not need to include email attachments.</p> <p>Please waive any applicable fees. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the health impacts and exposure of manganese which is of interest to the public. It also seeks to gain an understanding of the government operations in assessing the risks and controlling manganese including balancing the demands of industry with the need to protect the health and safety of people and the environment. This request will help to ensure transparency and accountability to the public. This information is being sought for a freelance article for dissemination to the general public.</p> <p>I am a freelance journalist with over 10-years' experience covering the environment for publications including Nature, STAT and Scientific American.</p> <p>I would prefer you to produce the information on a rolling basis. At no point should the EPA's search for — or deliberations concerning — certain documents delay the production of others that the EPA has already in its possession and has elected to produce.</p> <p>If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.</p> <p>I would appreciate you communicating with me by email or telephone rather than by mail.</p> <p>I look forward to your determination regarding my request within 20 business days, as the statute requires.</p>	12/30/2022

2023-OCFO-01538	Bogardus, Kevin	E&E News	<p>I request the briefing described in the following excerpt from House Report 117-83:</p> <p>"Workforce and Staffing Plans. —The explanatory statement accompanying the fiscal year 2021 appropriations included directions for the Agency to develop workforce and staffing plans to achieve the Agency's FTE targets in fiscal year 2021. For fiscal year 2022, the Committee expects the Agency to submit as part of its operating plan, staffing targets by National Program Management area, with separate staffing targets for headquarters and each regional office within each Program, in line with the Agency's enacted appropriation. The Committee expects the Agency to continue to develop workforce and staffing plans to achieve the staffing targets submitted with the operating plan, and directs the Agency to submit its fiscal year 2022 workforce and staffing plans to the Committee not more than 45 days after the submission of the Agency's operating plan. Further, not later than 45 days after the end of each quarter, the Agency shall submit data on the number of FTE employed by the Agency in the same format as the fiscal year 2022 FTE target data was submitted. The Committee expects quarterly briefings on the Agency's progress in achieving its staffing targets. The Committee notes that a significant portion of the Agency's workforce is already or will soon become retirement eligible. The Committee applauds the significant strides the Agency has made in the past two years to streamline the hiring and onboarding process, especially in light of the special challenges posed in 2020 and 2021 during the pandemic. While there has been considerable progress made in growing the workforce and approaching the FTE ceiling, the Committee remains concerned about the potential erosion of the Agency's reserve of expertise as senior scientists are replaced with individuals who are at earlier stages in their career. The Agency is directed to brief the Committee on its plans for managing this transition, and is encouraged to work with the Committee to ensure the continued excellence of its scientific and technical capabilities."</p> <p>Please see page 77 of House Report 117-83 (https://www.congress.gov/117/crpt/hrpt83/CRPT-117hrpt83.pdf).</p> <p>I also note the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2022, Public Law No: 117-03, which requires House Report 117-83 be complied with.</p> <p>Please see page 1 of the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2022, Public Law No: 117-03, for more detail on this requirement (https://docs.house.gov/billsthisweek/20220307/BILLS-117RCP35-JES-DIVISION-G.pdf).</p> <p>Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.</p>	01/03/2023
2023-OCSP-01536	Bogardus, Kevin	E&E News	<p>I request the briefing described in the following excerpt from House Report 117-83:</p> <p>"Pesticide Licensing. —The Committee recommends \$110,219,000, \$1,219,000 above the enacted level and equal to the request. The Committee is aware of proposals to establish a Vector Expedited Review Voucher (VERV) program within the Office of Pesticides, modeled after a similar expedited review program at the U.S. Food and Drug Administration, to incentivize the development of disease vector control agents to control insecticide resistant mosquitos or other disease vectors. The Agency is directed to brief the Committee on the merits of establishing a VERV pilot program."</p> <p>Please see page 90 of House Report 117-83 (https://www.congress.gov/117/crpt/hrpt83/CRPT-117hrpt83.pdf).</p> <p>I also note the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2022, Public Law No: 117-03, which requires House Report 117-83 be complied with.</p> <p>Please see page 1 of the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2022, Public Law No: 117-03, for more detail on this requirement (https://docs.house.gov/billsthisweek/20220307/BILLS-117RCP35-JES-DIVISION-G.pdf).</p> <p>Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.</p>	01/03/2023

			Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.	
2023-OLEM-01553	Horan, Jennifer	ERIS	Good Afternoon, and Happy New Year! I would like to obtain a complete and current list of sites that are required to have a Risk Management Plan (RMP). For the data requested, please include any applicable modifications since this data was last requested and received with my prior FOIA Request No. EPA-2022-001444 (prior request submitted on 12/14/2021 and a DVD was received on 02/09/2022, Mr. Larry Johnson assisted me with my prior request). Please provide this data in the same Access format to include any and all augments, amendments and additions since that 12/14/2021 request to the present date, to include but not limited to active and inactive sites and all available address/location information. If possible, please let me know if an electronic delivery option will be available based on the scope of my data request. Also, if you could also please let me know in advance any associated fees that would incur. Thank you very much for your time and assistance with my request. Have a nice day!	01/03/2023
2023-OCSP-01556	DePietro, Jennifer	Arxada, LLC	Hello. I am requesting the releasable data evaluation records and protocols associated with MRIDs 51115904, 51115906, 51874420, 51874421, 51929701 and 51929702.	01/03/2023

2023-NFO-01557	Bieksha, Kim	Roux Associates	We are performing a Phase I Environmental Site Assessment and Preliminary Assessment for the property located at 80 Twin Rivers Drive in East Windsor Township, Mercer County, New Jersey (Block 20.01, Lot 12). Please provide any information related to environmental reports, releases/discharges, underground storage tanks, permits, etc., specifically any documents available in Site Remediation, Air, Hazardous Waste, Water Quality, and Right to know-Pollution prevention programs.	01/03/2023
2023-OLEM-01561	O'Neil, Harry	Oliver Wyman	I am writing to request data from the EPA regarding quantities of hazardous waste generated. I have found datasets at the following URLs: - https://rcrapublic.epa.gov/rcrainfoweb/action/modules/br/naics/view - https://rcrapublic.epa.gov/rcrainfoweb/action/modules/br/ownershiptype/view	01/03/2023
			These datasets provide hazardous waste either at the location/ownership level, or at the NAICS code level. I would like the complete dataset that provides location (city/county/state), ownership, NAICS code, & quantity of hazardous waste within a full data entry on a spreadsheet, if possible.	
			Additionally, if there is any data of a similar kind on non-hazardous waste, that would be much appreciated as well

2023-OCSP-01625	Crick, Steven	Humphrey, Farrington & McClain	I request all records relating to the Rohm and Haas TSCA submission which is described in the March 1985 Preliminary Evaluations of Initial TSCA Section 8(e) Substantial Risk Notices. The Cover page and the section on the Rohm and Haas submission are attached. The EPA document describes submissions made by Rohm and Haas. I request such submissions including data and any communications between EPA and Rohm and Haas or its agents/consultants concerning the submission. I request any EPA document that concerns a study of the subject of the submission.	01/06/2023
2023-R09-01624	Ruch, Jeff	PEER	<p>In an October 2021 "Frequently Asked Questions" and a briefing of the Hunters Point Citizens Advisory Committee, the U.S. Navy revealed that in its radiological field work on Parcel G that approximately "10% of samples indicate strontium-90 levels slightly above the remediation goal." And that "To remedy this, the Navy worked with regulatory agencies and chemists to refine the laboratory procedure to produce more precise analytical results."□</p> <p>In its PowerPoint presentation to the Citizens Advisory Committee, the Navy indicated that it would "re-analyze" all strontium-90 samples using an "updated method" designed to produce "more precise and certain results" with the concurrence of "regulatory agencies." Presumably, those agencies include the U.S. Environmental Protection Agency (EPA).□ Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility (PEER) requests information regarding these matters. Specifically, we request the following:□</p> <ol style="list-style-type: none"> 1. Records reflecting the referenced strontium-90 sampling results, including the specific levels of strontium-90 detected and the precise location of each sample;□ 2. The Parcel G strontium-90 sampling plan and methodology used to take those existing measurements, and the sampling plan and methodology being employed for the "updated method" designed for "more precise and certain results";□ 3. Communications related to the Navy's announced conclusion that re-analysis of these samples was appropriate and/or why the reported results lacked precision or certainty, as well as records reflecting whether EPA agreed with the Navy's conclusion;□ 4. Any records describing the "updated method" of analyzing these samples and detailing why this method would yield "more precise and certain results", including any records indicating why this new or revised method might in fact not yield more precise and certain results;□ 5. All communications with the Navy regarding strontium-90 sampling, including communications concerning the need for and approval of updated methods for analyzing these soil samples;□ 6. Records reflecting EPA's most recent position on what the background levels of strontium-90 are and should be used in the HPNS cleanup, including any records reflecting whether EPA disagreed with the Navy's purported background values for strontium-90 and if so, why; and □ 7. Documents created or forwarded describing all possible sources of strontium-90 on Parcel G. □ <p>PEER submitted an identical FOIA request dated September 15, 2022. By this request, we seek only records generated after September 15, 2022.</p>	01/06/2023

2023-OCSPP-01695	Broughel, Jeanine	New York State Department of Environmental Conservation	<p>The New York State Department of Environmental Conservation (NYSDEC) requests the datasets compiled and analyzed by the U.S. EPA of variability in dry weight and height data for historical control plants of commonly tested species in vegetative vigor and seedling emergence studies as part of the biological effects (BE) determinations for the Atrazine, Propazine, Simazine and Glyphosate Herbicide BEs. According to the BEs, EPA EFED compiled a robust and reliable database using replicate level negative control data from vegetative vigor (VV) and seedling emergence (SE) studies that were submitted to EPA as part of the pesticide registration or registration review process. Final datasets were selected from that database after QC review.</p> <p>We request the database that EFED compiled and the final datasets that were used for the PVP analysis.</p> <p>The PVP analysis was used for the biological effects (BE) determinations for atrazine, propazine, simazine and glyphosate herbicides. In addition, the PVP analysis has also been used in the review of the new fungicide ipflufenquin.</p> <p>Page 3 of the Ipflufenquin: Addendum of the Ecological Risk Assessment for Section 3 New Chemical Registration dated March 4, 2022 (Docket No. EPA-HQ-OPP-2020-0225-0024) (copy attached) references the analysis performed for the other active ingredients. The following is directly from the above-mentioned document under the entry titled "Historical Plant Variability in Controls": "USEPA recently released an analysis of variability in dry weight and height data for historical control plants of commonly tested species in vegetative vigor and seedling emergence studies as part of the biological effects (BE) determinations for the Atrazine, Propazine, Simazine and Glyphosate Herbicide BEs. This analysis, titled as the "PVP analysis" is available online as attachment 1-5 in the Chapter 1 Problem Formulation for each BE."</p> <p>The following are links to the document as referenced in the BEs (copy attached): https://www3.epa.gov/pesticides/nas/glyphosate/attachment-1-5.docx https://www3.epa.gov/pesticides/nas/atrazine/attachment1-5.docx https://www3.epa.gov/pesticides/nas/simazine/attachment1-5.docx</p> <p>The database development is discussed on page 2 of the PVP Analysis document in "3. Methods" of Attachment 1-5 PVP Analysis: "Database development - EFED compiled a robust and reliable database using replicate level negative control data from VV and SE studies that were submitted to the Agency as part of the pesticide registration or registration review process. All included studies were reviewed by EFED and classified as either Acceptable or Supplemental. Included studies were conducted in a wide range of laboratories from the late 1980s to the present. Replicate level data for each study were obtained from registrant-submitted study reports or from an internal-EFED database used for statistical analysis of ecotoxicity data. EFED compiled the data into separate databases for VV and SE.</p> <p>After data entry and compilation, EFED followed a formal Quality Control (QC) process to ensure high quality and accuracy of both the VV and the SE databases. EFED evaluated all data at the replicate level verifying control treatment shoot height and dry weight data for each study for the following issues: checking the recorded data against the registrant study report, confirming measurement units were correct, confirming dry (not fresh) weights were reported, and confirming dry weight data were reported as average per surviving plant and making corrections as necessary. Plots of raw data at the replicate level were explored to identify potential outliers. EFED corrected any errors in the database and documented them on reviewer sheets. The final datasets used for this analysis consisted of 1448 tests containing 18 unique species for VV and 1345 tests containing 19 unique species for SE."</p> <p>The NYSDEC requests the data that EFED compiled into separate databases for VV and SE (before QC) and the</p>	01/11/2023

2023-AO-01797	Molino, Tony	University of Rochester	Dear to whom it may concern, This is a request under the Freedom of Information Act. 5 U.S.C. § 552, et seq. I am requesting all information given in comments made by federal legislators (members of the United States House of Representatives or the United States Senate) on proposed rules issued by your agency or subsidiary agencies between 2003-2022. I have been able to locate many unique federal legislative comments posted by your agency on regulations.gov. However, it is not clear from your website if you have posted all federal legislator comments between 2003-2022 or if some have been withheld. Therefore, I request all comments made by federal legislators on proposed rules issues by your agency. Specifically, I request the following for each these comments: 1. The text 2. The date of when each comment was received 3. The document number, docket number and RIN of all proposed rules for each comment 4. Title information of the comment 5. Author(s) of the comment 6. Any other meta data available on the comment If the entire time frame is not possible, I will accept all available data within the available time frame. If it is too difficult to locate only legislator comments, I will accept the requested information on available comments on proposed rules within the specified time information. In this case I request any information that will facilitate identification of comments made by federal legislators, including any fields which indicate that the commenter is a legislator or a member of government. If all the requested information is not available, I will accept whatever information requested that is available. As you know, FOIA requires agencies to release information unless it is specifically exempt from disclosure, and also requires agencies to release all reasonably segregable nonexempt portions of documents, i.e., to redact exempt portions of documents and release the rest. See 5 U.S.C. § 552(a)(8). In order to help to determine my status for the purposes of determining the applicability of any fees, you should know that I am affiliated with the University of Rochester, and this request is made for a scholarly purpose and not for a commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. Specifically, the requested data will be used in a research paper on the United States federal bureaucracy. The paper aims to expand researchers' and the publics' understanding of the politics affecting rulemaking. The paper will be available to the public after being published or be made available for free if I cannot find a proper peer reviewed journal that will publish the paper. I also include a telephone number at which I can be contacted during the hours of 9am - 10pm. Call (b) (6) if necessary, to discuss any aspect of my request. I can also be reached by email at tmolino2@ur.rochester.edu. Thank you for your prompt consideration of this request.	01/18/2023

American Bird
Conservancy

American Bird Conservancy ("ABC") hereby requests disclosure, under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 et seq., and implementing regulations, 43 C.F.R. § 2.1 et seq., of the records described below in the possession, custody, or control of the United States Environmental Protection Agency ("EPA").

Background

The EPA is currently reviewing the registrations of the active ingredients imidacloprid, clothianidin, thiamethoxam, dinotefuran, acetamiprid, and other neonicotinoids. Neonicotinoids' primary use is as a seed coating for row crops including corn, soybeans, and wheat.

According to the EPA's Pesticide Registration Manual Chapter 1:1, An applicant who wishes to obtain a registration for its own pesticide product is responsible for submitting or citing all of the information and data that are required to support the registration. The information required includes: forms, proposed product labeling, technical and scientific data that meet the data requirements related to the specific product the applicant intends to produce, and statement of how the applicant will comply with any data compensation requirements.

Furthermore, registrants are obligated to provide information on any adverse effects of a pesticide that have not been previously submitted to the Agency in accordance with FIFRA section 6(a)(2) (40 CFR 152.125).2

Documents Requested

1. All documents created by EPA that prescribe or describe how registrants for neonicotinoid seed coatings evaluate the benefits and efficacy of their products, and the environmental risk of their products; and

2. All documents submitted to EPA since January 2022 by manufacturers of neonicotinoids whose registration is under review that evaluate or report on or refer to the evaluation of the benefits and efficacy of their products, and the environmental risk of their products.

2023-R05-01863	Brown, Hugh	Fabyanske Westra Hart & Thompson	<p>See attachment. The Request pertains to the public project owned by the Waukesha Water Utility, Waukesha, Wisconsin (the "WWU"), in which the WWU is building a new water supply and return system to service the City of Waukesha, Wisconsin (the "Project"). The Project is more commonly known as the Waukesha Great Lakes Water Supply Project. The Project receives funding through the Water Infrastructure Finance and Innovation Act ("WIFIA"). The Request is limited to the following contract packages for the Project: (1) Contract Package 2B – Return Flow Pipeline, BPS Discharge Pipeline, and Water Supply Pipeline; (2) Contract Package 5 – Return Flow Pipeline, and (3) Contract Package 6 – Return Flow Pipeline, 18-Inch Sanitary Sewer, and Outfall Facilities. The Request covers the period from June 2019 to the present. Pursuant to Title 5 of USC Section 552, I hereby request the following documents:</p> <p>(1) All applications for payment, invoices, requests for payment, draw requests, or requests for disbursement received from the WWU pertaining to Contract Packages 2B, 5, and 6 for the Project. In the alternative, if applications for payment, invoices, requests for payment, or draw requests submitted by WWU were not segregated by Contract Packages 2B, 5, and 6 for the Project, please treat this request as seeking such documents for the Project as a whole.</p> <p>(2) All requisition forms submitted by WWU pertaining to Contract Packages 2B, 5, and 6 for the Project. In the alternative, if WWU did not segregate requisition forms by Contract Packages 2B, 5, and 6 for the Project, please treat this request as seeking such documents for the Project as a whole.</p> <p>(3) All copies of payments or loan disbursements made to the WWU pertaining to Contract Packages 2B, 5, and 6 for the Project, including the date payment or disbursement was made and the amount of the payment or disbursement. In the alternative, if payments or loan disbursements made to the WWU were not segregated by Contract Packages 2B, 5, and 6 for the Project, please treat this request as seeking such documents for the Project as a whole.</p> <p>(4) All documentation received from WWU in support of all applications for payment, invoices, requests for payment, draw requests, or request for disbursement pertaining to Contract Packages 2B, 5, and 6 for the Project. In the alternative, if documentation received from WWU in support of all applications for payment, invoices, requests for payment, or draw requests were not segregated by Contract Packages 2B, 5, and 6 for the Project, please treat this request as seeking such documents for the Project as a whole.</p> <p>(5) Any agreement, contract, or other document pertaining to the funding arrangement between WWU and the EPA for Contract Packages 2B, 5, and 6 for the Project. In the alternative, if an agreement, contract, or other document pertaining to the funding arrangement between WWU and the EPA does not exist for Contract Packages 2B, 5, and 6, please treat this request as seeking such documents for the Project as a whole.</p> <p>(6) WWU's Letter of Interest and/or Application to the WIFIA Program for Contract Packages 2B, 5, and 6 for the Project. In the alternative, if a Letter of Interest or Application by WWU to the WIFIA Program does not exist for Contract Packages 2B, 5, and 6, please treat this request as seeking such documents for the Project as a whole.</p> <p>(7) The loan issued to WWU through the WIFIA Program for Contract Packages 2B, 5, and 6 of the Project. In the alternative, if a loan issued to WWU through the WIFIA Program does not exist for Contract Packages 2B, 5, and 6, please treat this request as seeking such documents for the Project as a whole.</p>	01/23/2023

2023-OMS-01956	Sherk, James	America First Policy Institute	<p>All e-mail communications sent from members or representatives of AFGE Council 238 (including any of Council 238's constituent unions, such as AFGE Local 704) to the EPA management officials and/or agency representatives engaged or otherwise involved in negotiating the new master term CBA with AFGE that pertain to either of the "Union Rights" or "Scientific Integrity" articles.</p> <p>AFPI requests a fee waiver under 5 U.S.C. § 552(a)(4)(A)(ii). The America First Policy Institute is a 501(c)(3) non-profit organization. We research public policies that put the American people first and disseminate that research to the public and policymakers. This mission primarily consists of gathering and analyzing information about current events and/or information of current interest to the public and publicizing that information and analysis through our website (www.americafirstpolicy.com). These activities qualify AFPI as a representative of the news media as that term is defined in the Freedom of Information Act.</p> <p>We are (1) an entity that gathers information (including through, but not limited to, FOIA requests) that is (2) of potential interest to a segment of the public (those who share our America First Agenda) and (3) uses editorial skill to turn these raw materials into a distinct work (such as the reports that we produce) and (4) distributes that work to an audience (through e-mail distribution to those who sign up for reports, as well as publishing them online at www.americafirstpolicy.com). See for example these reports, which were based on information gathered from FOIA requests: https://americafirstpolicy.com/latest/20220914-union-arbitrators-overtun-most-federal-employee-dismissals</p> <p>https://assets.americafirstpolicy.com/assets/uploads/files/Research_Report_-_AFGE_Corruption_Warrants_Investigation_.pdf</p> <p>The D.C. Circuit Court of Appeals has held that 501(c)(3) non-profit advocacy organizations can be “representatives of the news media” for FOIA purposes. See for example then-Judge Garland's decision in Cause of Action v. Federal Trade Commission, 799 F.3d 1108 (D.C. Cir. 2015) holding the Cause of Action Institute – a 501(c)(3) nonprofit advocacy organization – a representative of the news media. See also Nat'l Sec. Archive v. U.S. Dep't of Defense, 880 F.2d 1381, 1386 (D.C. Cir. 1989) (holding non-profit a “representative of the news media” and broadly interpreting the term to include “any person or organization which regularly publishes or disseminates information to the public”). Further, the content of this FOIA request will inform our research products on the federal civil service.</p> <p>I further note that AFPI's status as a representative of the news media has been recognized by multiple federal agencies, including the Department of Labor, the Department of Interior, the National Labor Relations Board, and the Office of Personnel Management.</p>	01/26/2023

2023-AO-02002	Purrington, Colin	-	Could I please receive a document sent to (then Administrator) Scott Pruitt on or around April 21, 2018, from Chris Spence, an employee of Spartan Mosquito based in Hattiesburg Mississippi? The document I am requesting is referenced as "Exhibit A" in a letter that I will attach to this request. The "Exhibit A" document is a letter by Donald Trump. As background, Donald Trump expressed hatred of mosquitoes during several public events, so I would very much like to know more about his knowledge of Spartan Mosquito's products. Mr. Spence shared Mr. Trump's letter with several people so this is not a classified or sensitive document. Thank you!	01/30/2023

2023-OAR-01997	Bogardus, Kevin	E&E News	<p>I request the briefing described in the following excerpt from House Report 117-400:</p> <p>"Clean School Bus Program.—The Committee notes that Public Law 117–58 provided \$5,000,000,000 for this newly authorized pro-gram, of which EPA recently made available \$500,000,000. An ad-ditional \$1,500,000,000 will be made available during the remain-der of fiscal year 2022 and for fiscal year 2023. The Committee is encouraged by this progress but has concerns about the program's implementation. Therefore, the Committee directs the Agency to provide a briefing within 30 days of enactment of this Act that in-cludes an overview and future plan for the program."</p> <p>Please see page 103 of House Report 117-400 (https://www.congress.gov/117/crpt/hrpt400/CRPT-117hrpt400.pdf).</p> <p>I also note the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, which requires House Report 117-400 be complied with.</p> <p>Please see page 1 of the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, for more detail on this requirement (https://www.appropriations.senate.gov/imo/media/doc/Division%20G%20-%20Interior%20Statement%20FY23.pdf).</p> <p>Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.</p>	01/30/2023
2023-OAR-01996	Bogardus, Kevin	E&E News	<p>I request the briefing described in the following excerpt from House Report 117-400:</p> <p>"Air Quality Monitoring.—The Committee is disappointed by the recent closure of nearly a quarter of its Clean Air Status and Trends Network (CASTNET) sites without prior notice to the Com-mittee or impacted community members. Despite consistent in-creases in funding for Science and Technology programs, the Agen-cy continues to de-prioritize this critical asset. Within 30 days of enactment of this Act, the Agency is directed to provide a briefing to the Committee on its current and future plan for this program along with detailed funding requirements to keep the program and sites active at its fiscal year 2021 level."</p> <p>Please see page 84 of House Report 117-400 (https://www.congress.gov/117/crpt/hrpt400/CRPT-117hrpt400.pdf).</p> <p>I also note the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, which requires House Report 117-400 be complied with.</p> <p>Please see page 1 of the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, for more detail on this requirement (https://www.appropriations.senate.gov/imo/media/doc/Division%20G%20-%20Interior%20Statement%20FY23.pdf).</p> <p>Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.</p>	01/30/2023

2023-NFO-01995	Yansak, Philip	-	I currently reside at 138 Beachway Drive, Palm Coast, Florida 32137. I also own the vacant lot to the right of my residence which is 140. There is an underground drainage pipe between the properties that drains the water from the roadway to a freshwater canal. I have been attempting to locate the site plan or engineering design for this culvert with no success. The City of Palm Coast, The county of Flagler, The Bureau of Survey and Mapping, and the St. John's River Water Management agency do not have it on file. IT&T laid out the City in the 1970's. They dug the canals and put in the roadways and drainage at some point and I am pretty sure the place was surveyed and designed with documentation and engineering designs. I am hoping that your agency keeps records beyond 10 years as is apparently not the case here in Florida. I tried submitting a FOIA request to you but it did not go through so far as I could tell. I can also be reached at 609-217-2694. Thank you.	01/30/2023

Using Envirofacts "RCRAInfo Facility Information" search I was able to find only the information provided above. We also received a report from Lightbox EDR listing the site as having a "RCRA NonGen/NLR" designation. Along with this I can see that its listed as an "active site state-reg handler," and various violations with short descriptions like, "used oil-generators; generators-general; generators-pre-transport," all in the years 2011 and 2012. I need more information on these violations and what was done to return to compliance. I also need information on what substances they handle/produce/treat/transport that led to the previous RCRA Generator designation. Also, any information pertaining to what led to the switch from generator to non generator.</p>	01/30/2023

2023-R09-02031	Elmer, MacKenzie	Voice of San Diego	<p>Under the Freedom of Information Act (5 U.S.C. Section 552), I am requesting the following documents:</p> <p>1. All records and communications related to the Tijuana River border wall and/or barrier project at the U.S.-Mexico Border.</p> <p>Please remit all responsive records digitally, by email, and on a rolling basis as they become available.</p> <p>As a representative of the news media affiliated with Voice of San Diego, I am gathering information on the Tijuana River Border Barrier Project, as it is so called by the U.S. Environmental Protection Agency, or the Tijuana River Border Wall System Project, as it is so called by U.S. Customs and Border Protection that is of current interest to the public because construction may impact \$330 million worth of U.S. taxpayer-funded mitigation of contaminated transboundary flows projects. There are also concerns the barrier project could cause flooding in Mexico should it be designed, built, operated or maintained improperly.</p>	01/30/2023

To Whom It May Concern: ☐

Pursuant to the Freedom of Information Act, I hereby request the following records: ☐

All communications between the Office of the Administrator and/or the Office of Air and Radiation and any individual from the Environmental Protection Agency Region 6's Office of the Regional Administrator and/or Air and Radiation Division. ☐

Please search your records from June 1, 2021 to December 31, 2022. ☐

The search for electronic records should include emails and attachments, both sent and received, scheduling records, text messages, materials received from postal mail, handouts, agendas, meeting packets and any other communications between the individuals listed. I would also like to emphasize that in the event that personal emails or phone numbers are being used to perform official business, they too should be searched. ☐

I am making this request on behalf of Documented, a media requestor, and I agree to pay all applicable fees. Documented seeks the above listed records for noncommercial use as a representative of the news media. Documented qualifies as a news media organization under the definition provided by Congress in the OPEN Government Act because it "gathers information of potential interest to a large segment of the public, and uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience." ☐

Specifically, Documented is seeking this FOIA request because the information in it is of interest to a large portion of the public, including the many concerned citizens that regularly acquire information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements, social media networks such as Facebook, and Twitter. In addition, Documented reaches out to many traditional news media outlets that regularly broadcast our publications through television, radio, print and electronic articles and interviews. Documented plans to compile the information from this request into a distinct, original work that will be released to the public through the publications listed above. ☐

The requested documents will be made available to the general public, and this request is not being made for commercial purposes. ☐

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. ☐

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. ☐

Sincerely, ☐

Colette Rosenberg ☐

2023-OMS-02130	Sagert, Jacob	America First Policy Institute	I request a list of all agency employee members of the American Federation of Government Employees (AFGE) union and their email addresses. There is limited information available to agency employees in regards to the option to, and process of, requesting the cancelation of payroll deductions (through filing a SF1188 request) for labor union dues during annual "window periods". Dues rescission window periods affect the ability of federal employees to exercise their statutory right to refrain from supporting federal labor organizations and they have a right to be informed.	02/02/2023

2023-OW-02139	Anchondo, Carlos	E&E News/POLITICO	<p>This is a request under the Freedom of Information Act (FOIA).</p> <p>I request a copy of all written communications, including but not limited to emails, between the following officials and/or staff of EPA's office of water --- including but not limited to Radhika Fox, Bruno Pigott, Benita Best-Wong, Juan Sabater, Jennifer McLain (mclain.jennifer@epa.gov) and Yu-Ting Guilaran (guilaran.yu-ting@epa.gov) --- that discuss questioning from U.S. lawmakers on February 2, 2023, for David Turk, Department of Energy deputy secretary, about the permitting of Class VI wells and permitting delays at EPA. That questioning took place during David Turk's appearance at a hearing of the Senate Energy and Natural Resources Committee on Thursday, February 2, 2023. Terms to include in the search are: "carbon capture," "Class VI," "Class VI wells," "primacy," "Louisiana," "application," "EPA," "delay," and "injection."</p> <p>The time window for my request is between February 1, 2023, and February 3, 2023.</p> <p>I am filing this FOIA request as a "representative of the news media" since I am a reporter for E&E News. This designation entitles me to a waiver of fees accumulated during the actual search and review process.</p> <p>Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25.</p> <p>This request is made as part of news-gathering activity and is not for commercial use.</p> <p>My address is:</p> <p>Carlos Anchondo 1000 Wilson Blvd 8th Floor Arlington, VA 22209</p> <p>The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net, which has more than 40,000 unique visitors a day.</p> <p>We expect the information that is produced through this and other FOIA requests to serve as the basis for several articles that explain the government's actions and operations to the public. For more information about E&E News, please refer to www.eenews.net.</p> <p>FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.</p> <p>If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.</p> <p>As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.</p> <p>If you have any questions about the nature or scope of this request, please call me at (b) (6) or email me at canchondo@eenews.net.</p>	02/03/2023

2023-OMS-02201	Tolan, Casey	CNN	I am requesting a copy of the EPA's database or docket list of all suspension and debarment cases ruled on since January 1, 2013. I am requesting that this database be provided to me digitally via email or file transfer -- I am not requesting any paper copies. I am requesting a raw copy of the database in Excel, .CSV or .DAT format, but if there is another format it is stored in that would be easier for the EPA to release, please let me know and I can modify my request. If there are some fields in the database that include information exempt from release, I would be happy to limit my request to only fields that do not include exempt information. At a minimum, I would request the database include fields showing case number, entity name, the date cases are initiated, the date cases are ruled on, type of case (i.e. Clean Water Act, Clean Air Act, etc.) and outcome of the case. If records going back to January 1, 2013 are not easily accessible, I would be happy to modify that date. If there are any other modifications to this request that would help EPA process it more quickly and easily, I would be happy to discuss them and modify my request -- feel free to reach out to me at 414-426-8187 or casey.tolan@cnn.com. 2023-R03-02192	Keaton Walls, Caitlin	Schnabel Engineering	We are looking for information that would be included in a Phase I ESA for 176 Lincoln Street, Portsmouth VA 23704. It is our understanding that this location did not have this address until recent decades. The following businesses were on the site during these time frames: ?U.S. Coast Guard/Navy (1767 to present) ?Fertilizer Company (1893) ?Chinese Laundry (1903) ?Steam Laundry (1920) ?Manufacturing Facility (1950s)	02/06/2023
2023-R03-02194	Keaton Walls, Caitlin	Schnabel Engineering	I am looking for information relevant to Phase I ESA, specific to BAE SYSTEMS NORFOLK SHIP REPAIR, located at 750 West Berkley Avenue, Portsmouth Virginia 23704. I am primarily interested in dumping activities that would potentially contaminate the water in concentrations great enough to make it across the southern branch of the Elizabeth River due to tidal fluctuations. It's my understanding that corrective action was taken in 2011, 2012, and 2013 at least.	02/06/2023
2023-R03-02203	Keaton Walls, Caitlin	Schnabel Engineering	The address is listed as Randolph and Green Street, Portsmouth, Virginia 23704. From the EDR, "EPA estimates that lead was released to the air at the rate of 10 pounds per day from a 1-acre process area and that 3,500 cubic yards of lead-laden furnace sands were dumped into an adjoining 1-acre area. The present owner of the former process area is Holland Investment Manufacturing Co. of Portsmouth; Abex still owns most of the landfill area. In 1984, EPA identified elevated lead levels in soil in the fill area." EPA and Abex signed a CERCLA Emergency Consent Order on 8-11-86. as of 8-30-90 EPA and Abex signed a Consent Order under which Abex will conduct a remedial investigation/feasibility study RI/FS) to determine the type and extent of contamination at the site and identify alternatives for remedial action. EPA is reviewing Abex s final RI/FS workplan. We are requesting an update of this site, and any remedial actions taken since 1990.	02/06/2023

2023-R03-02193	Keaton Walls, Caitlin	Schnabel Engineering	I am looking for information relevant to a Phase I ESA for the Norfolk Naval Shipyard, located in Portsmouth, Virginia 23704. We know there are significant sites to the south of the site, but I am primarily interested in the dumping activities that occurred on the north side of the site, within .25 miles of the southern branch of the Elizabeth River. Activities range from 1767 to present date, although we understand this is before most tracking occurred. It is our understanding that there was one disposal site located on the northern side of the site, within 100 feet of the Elizabeth River and within half a mile of 176 Lincoln Street, Portsmouth Virginia 23704.	02/06/2023

Brown, Ann

Center for
Biological Diversity

The Center requests the records outlined below from the U.S. Environmental Protection Agency ("EPA").

02/07/2023

Recent Acquisition of Ballast Water Treatment System Performance Data from the United States Coast Guard

1. From October 26, 2020 to the date EPA conducts this search: the requests from EPA or its agents to the U.S. Coast Guard ("USCG"), and the correspondence about the aforementioned requests between EPA, its agents, and USCG about performance data on ballast water treatment systems, including the cover letters and/or emails sent with such data.

EPA's Allocation of Staff and Other Resources to Finalize a Rule for Vessel Incidental Discharges

2. The records documenting the allocation of staff resources (i.e., measured as staff-hours, FTE, or other relevant measures) to each of the following sets of tasks during the following periods (allocated by calendar years, fiscal years or other appropriate time intervals as available):

a. The work done by EPA staff between December 19, 2008 and December 19, 2013 to develop and publish the discharge standards for vessel incidental discharges in the 2013 Vessel General Permit ("VGP"), including but not limited to the work done by EPA staff related to the Science Advisory Board ("SAB") Panel and the National Academy of Sciences ("NAS") Committee convened in 2010-2011 to investigate and report on questions related to ballast water and ballast water treatment;

b. The work done by EPA staff between December 19, 2013 and November 25, 2020 to review and revise the 2013 discharge standards for vessel incidental discharges to either include them in a new VGP or (after the enactment of Vessel Incidental Discharge Act ("VIDA") on Dec. 4, 2018) include them in an NPRM for Vessel Incidental Discharge National Standards of Performance, and the work done on receiving and managing the comments on the NPRM;

c. The work done by EPA staff between November 25, 2020 and the date that EPA conducts this search that was required by the Clean Water Act ("CWA"), VIDA, and/or the Administrative Procedures Act, to manage, consider and respond to the comments received during the publicly-noticed comment period of October 26, 2020 to November 25, 2020, and to prepare and publish a final rule;

d. The work done by EPA staff between May 1, 2021 and the date that EPA conducts this search on the "listening sessions" described in the letters sent out on or around September 30, 2021 by Elizabeth Cisar, Senior Advisor in the Office of Water, including but not limited to planning, organizing and conducting the sessions and considering and responding to comments received during or in conjunction with the listening sessions; and

e. The work done by EPA staff between May 1, 2021 and the date that EPA conducts this search on planning and preparing a Notice of Data Availability, a Supplemental NPRM, and/or other interim action for public comment related to discharge standards for vessel incidental discharges.

3. The contracts between EPA and another party, including the scopes of work and amendments or addendums to the scopes of work, to conduct work on any of the tasks described in Item #2 above, including but not limited to the contracts associated with the SAB Panel and the NAS Committee convened in 2010-2011 to investigate and report on questions related to ballast water and ballast water treatment;

4. The records showing the planned allocation of staff resources (i.e., measured as staff-hours, FTE, or other relevant measures) between the date that EPA conducts this search and the publication of a final rule for Vessel Incidental Discharge National Standards of Performance, to each of tasks in Items #2(c) through 2(e) above;

5. The contracts between EPA and another party, including the scopes of work and any amendments or addendums to the scopes of work, to conduct work on any of the tasks described in Item #4 above.

2023-R03-02232	Harrison, Scott	Monge	<p>Rentokil Superfund site in Richmond VA. TDD No. F3-8402-20 EPA No. VA-210 Contract No. 68-01-6699 Report of Martin Howe completed March 24, 1986 Pages are bates numbered. Reference page 100067 (attached) it says PCP at 12ug/liter was found in 1 of the 3 home wells. I would like copies of any documents or records that would show what monitoring or testing was done at any of the home wells. In particular, I am interested in information pertaining to arsenic or PCP contamination of the home wells on the northern side of the site that were monitored or tested from 1980 - 1986.</p> <p>Bates # 100113 (attached) there was a report that groundwater samples in the area were contaminated. I would like a copy of the report that says groundwater samples were contaminated with PCP and arsenic. I would also like to request a copy of any other documents or reports you can find that pertain to contaminated groundwater near the northern side of the Rentokil site. I don't need all the stuff after 1990 when EPA was cleaning up. I am focused on the initial investigations around 1980 - 1986 that reference contaminated groundwater near the privately owned wells.</p> <p>Please and Thank you!</p>	02/07/2023

2023-R09-02298	Gjovik, Ashley	-	<p>Hello! This is an expansion of EPA-R9-2023-000509 which I previously discussed with Andrew. The testing plan was posted on the EPA website tonight, so per my prior conversation with Andrew, I now would like to request any drafts of the plan, correspondence about the plan (including emails, texts, meetings etc), internal and 3rd party reviews and guidance related to the plan, or other records that may shine a light on the exchanges involved related to EPA requesting testing & the response from the responsible party, building owner, and/or building tenant (and all their respective contractors) about the building & testing. Thank you!</p>	02/09/2023
2023-R09-02299	Gjovik, Ashley	-	<p>Hello! This is a follow up request to EPA-R9-2022-002062. The prior request had a CBI claim by a party (Apple) which was denied by EPA and the documents were released on Aug 29 2022. I'd like to request any documents (emails, reports, tickets, etc) related to Apple's claim of CBI for information related to 825 Stewart (TRW Microwave Superfund site) starting April 1 2021 through December 31 2022, including these specific documents but also any other CBI discussions that have not been previously released. I discussed this with Andrew prior and understand it may take some time, and require Apple's engagement, but I feel it is necessary for my whistleblower cases, including my NRLB charges about Apple's general confidentiality & secrecy policies (which were found to violate federal law last week). Thank you.</p>	02/09/2023

2023-OW-02295	Kocherla, Keyasri	Academies of Loudoun	<p>According to the U.S. law, under the Clean Water Act it is required for the EPA to publish and periodically update water quality criteria. The EPA had made this data accessible to the public. However, when processing search results and downloading data, it seems that the data won't download. Going to an external link provided by the EPA, it seems that the website provided, for free, publicly, is not accessible, and is blocked. This is completely irrational. According to section 508 clearly stated on the EPA guidelines and website, that federal agencies are to develop, procure, maintain, and use information that is accessible. "The US Access Board established the Section 508 standards that implement the law and provides the requirements for accessibility."</p> <p>Section 508 requires federal agencies to make their ICT such as technology, online training and websites accessible for everyone." Regardless of whether or not they work for the federal government. However, you are not making your information publicly accessible and it's restricted people from getting documents for the purposes they require.</p> <p>I would like to request access to these documents, for water quality index under the state of Virginia >> Loudoun County >> Latitude: 38.9873664 >> Longitude: -77.5028736 >> Site Type: Stream (NWIS, STEWARDS, STORET) >> Date Range: 01-01-2020 to 01-01-2023 >> Sample Media: Water (NWIS,STEWARDS,STORET) >> Characteristic Group: Organics, Pesticide (NWIS,STEWARDS,STORET),TOXICITY (STORET) >> Data Profiles: Sample Results (biological metadata) >> File Format: Comma-Separated (.CSV) >> Advanced Data Options: Biological Parameters Assemblage: Invertebrates (STORET) >> Minimum Sampling Activities Per Site: 1 >>Minimum Results Per Site: 1</p> <p>Thank you.</p>	02/09/2023

2023-AO-02320	Anchondo, Carlos	E&E News/POLITICO	<p>This is a request under the Freedom of Information Act (FOIA). <input type="checkbox"/></p> <p>I request a copy of all written communications, including but not limited to emails and letters, between EPA Administrator Michael Regan -- and any EPA official or staff -- and the office of Louisiana Governor John Bel Edwards in relation to a January 18, 2023, letter that Gov. Edwards sent to Administrator Regan about Louisiana's application for primacy over Class VI wells. <input type="checkbox"/></p> <p>Emails for Gov. Edwards' office end in @la.gov. <input type="checkbox"/></p> <p>For example, Shauna Sanford:shauna.sanford@la.gov. <input type="checkbox"/></p> <p>The time window for my request is between January 18, 2023, and February 10, 2023. <input type="checkbox"/></p> <p>I am filing this FOIA request as a "representative of the news media" since I am a reporter for E&E News. This designation entitles me to a waiver of fees accumulated during the actual search and review process. <input type="checkbox"/></p> <p>Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25. <input type="checkbox"/></p> <p>This request is made as part of news-gathering activity and is not for commercial use. <input type="checkbox"/></p> <p>The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net, which has more than 40,000 unique visitors a day. <input type="checkbox"/></p> <p>We expect the information that is produced through this and other FOIA requests to serve as the basis for several articles that explain the government's actions and operations to the public. For more information about E&E News, please refer to www.eenews.net. <input type="checkbox"/></p> <p>FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. <input type="checkbox"/></p> <p>If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. <input type="checkbox"/></p> <p>As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. <input type="checkbox"/></p> <p>If you have any questions about the nature or scope of this request, please call me at 512-577-9051 or email me at canchondo@eenews.net. <input type="checkbox"/></p> <p>Thank you for your consideration of this request. <input type="checkbox"/></p> <p>Sincerely, <input type="checkbox"/> Carlos Anchondo <input type="checkbox"/></p>	02/10/2023

2023-OCSP-02362	Gjovik, Ashley	-	<p>Office of Public Affairs (OPA)</p> <p>Hello, I'm requesting any records, documents, emails, reports, correspondence , etc related to Apple Inc's applications for & US EPA's approval of or denial of, the "Safer Choice Partner" award.</p> <p>Apple Inc claims it was awarded a "Safer Choice Partner" award by US EPA in 2020 and 2021. (see https://s2.q4cdn.com/470004039/files/doc_downloads/2022/08/2022_Apple_ESG_Report.pdf pg 43). Safer Choice is apparently an "EPA Pollution Prevention (P2) program" (https://www.epa.gov/saferchoice). The EPA website confirms Apple's 2020 award (https://www.epa.gov/saferchoice/2020-safer-choice-partner-year-award-winners-profiles#tab-1) & 2021 award (https://www.epa.gov/saferchoice/2021-safer-choice-partner-year-award-winners-profiles#tab-3). I do not see Apple listed in 2015-2019 awards (https://www.epa.gov/saferchoice/safer-choice-partner-year-awards).</p> <p>For all years listed (2015-2023) please provide a copy of Apple's application for the award (if submitted) with any attached reference materials. For all years listed where Apple applied for the award, please provide a copy of the US EPA's response to Apple.</p> <p>For the years Apple was granted the award (2020-2021) please also provide any internal documents, reports, emails, meeting notes, or other records related to the EPA's decision making process about whether to grant the award to Apple or not. If Apple also applied in 2022 (and was denied) please also provide these additional consideration records for that year as well.</p> <p>I'm a CERCLA and SOX whistleblower with open cases and these documents may be used as evidence in the retaliation cases. Please let me know if you need me to narrow the request. Thank you.</p>	02/13/2023

Langan Engineering and Environmental Services, Inc. ("Langan") is seeking information for the Nova Chemicals facility with USEPA ID PAD068730225 (located at 400 Frankfort Road, Monaca, Beaver County, PA 15061).

The list below contains all information we are requesting. Note – the list includes the information I requested for in my initial FOIA, so you only need to reference this list and you may disregard the initial list.

1. Groundwater Monitoring:

- ~~G~~roundwater monitoring plans, sampling result records, or sample location maps. We are specifically looking for groundwater monitoring records pertaining to the eight (8) monitoring wells located along the Ohio River, and the twenty-two (22) monitoring wells located around the lagoon area. The groundwater monitoring plans and sample result records for these two areas may be separate.
- ~~D~~ocumentation to/from USEPA/PADEP regarding groundwater monitoring results and the eventual termination of the monitoring plans.

2. On-Site Potable Water Treatment:

- ~~P~~otable water treatment system documents, diagrams, monitoring plans, and/or sample result records.
- ~~N~~on-potable water treatment system documents, diagrams, monitoring plans, and/or sample result records.
- ~~C~~opy of "Public Water Supply Operation Permit No. 0489510-TI-A2-C2."
- ~~C~~opy of "Comprehensive Monitoring Plan for Potable Water Treatment (including a Total Coliform and Disinfection Requirements Rule (DRR) Sampling Siting Plan)."

3. Previous Reports (with known dates and/or preparation entity):

- ~~7~~/1994 – CO&A between ARCO and PADEP for "active areas"
- ~~10~~/1997 – CO&A between ACRO and PADEP for "inactive areas"
- ~~8~~/30/2017 – CO&A between NOVA and EPA for RCRA violations related to the October 2012 reactor upset incident.
- ~~19~~95 – Ground Monitoring Report
- ~~5~~/2001 – Final Remedy Reports for Central Plant/Styrene II and Over-the-Hill Areas
- ~~4~~/10/2020 - Phase I ESA/LECR, prepared by ERM
- ~~7~~/2020 - 2020 Annual Report: Groundwater Monitoring Data for Surface Impoundments Adjacent to the Over-The-Hill Area
- ~~1~~/14/2020 - Phase I ESA/LECR, prepared by RAMBOLL (note – we need all the attachments, especially Appendix B)

4. Other Previous Reports and Records:

- ~~A~~tt 2 Program/RCRA Correction Action Reports:
 - o ~~P~~ost-Remedial Care Plans (PRCPs)
 - o ~~R~~emedial Investigation Cleanup Plans (RICPs)

RE: Freedom of Information Act Request
Jordan Crossing Boulevard and Texas Heritage Parkway (FBCAD #: R351190)
(Jordan Ranch)

Apex Companies, LLC is conducting a Phase I Environmental Site Assessment (ESA) at the above-mentioned property. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (RECs) that may have an adverse environmental impact upon the subject property. Apex's client is requesting a due diligence investigation. According to ASTM Standards E 1527-21, property record reviews are required prior to completing this investigation.

Apex is requesting any records you may have concerning the property of interest. Records may include, but are not limited to:

- Records indicating former operations/owners
- Site remediation/investigation activities
- Contamination issues in soil or groundwater
- Environmental violations
- Fires, leaks or spills of hazardous materials
- Sewer or septic issues; issued permits
- Storage or use of hazardous materials
- No further action letters
- Monitoring well installations and/or
sampling results
- Consultations with the U.S. Environmental Protection Agency (USEPA)
- Underground or aboveground storage tanks
(tank abandonment, removals and closures)
- Sites that may be classified as State Hazardous Waste sites

If you have any questions or concerns regarding this request or if you need additional information to assist with your record search, please feel free to contact me via phone at (b) (6) or email at Roxanne.Kelly@apexcos.com. Thank you in advance for spending time on this matter.

Sincerely,

Roxanne Kelly
Environmental Scientist

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

- Any emails from Feb. 3, 2023 to the time that this request is processed between members of this agency and:

- A) East Palestine city workers and officials, OR
- C) workers for the Ohio Office of the Governor (Mike DeWine), OR
- D) workers for the Columbiana County Emergency Management Agency, OR
- E) workers for Federal Railroad Administration, OR
- F) workers for the Norfolk Southern Railway Company, OR
- G) workers for the Ohio Environmental Protection Agency, OR
- H) the Ohio Department of Natural Resources.

Thank you in advance for your help!

This FOI request is being filed in pursuit of a time-sensitive news story. Therefore, I ask that my request is expedited. Also, I am a member of the news media as a reporter for Business Insider, and the requested documents are in the public interest and not being made for commercial purposes. Therefore, I ask that all fees are waived in the processing of my request. When completing this request, please prioritize whichever records would take the least amount of time to be located and released (rather than prioritizing whichever records are named first). Also, please release documents on a rolling basis, as they become available. Also, I would like these records in electronic format, sent via email or other digital method. Thanks again, and if there are any questions about my request, or if there's anything I can clarify, please contact me at chaskins@insider.com. I am also happy to hop on the phone.

I look forward to receiving your response to this request within 20 business days, as the statute requires, as the statute requires.

Best,
Caroline Haskins

This is an expedited request by the Brown Institute for Media Innovation, MuckRock, and the California Newsroom ("Brown Institute," "MuckRock," and "California Newsroom") under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, for all submitted, denied and confirmed exceptional events related to criteria pollutants. A partial list of Example Submissions, Demonstrations and EPA responses prepared under the 2016 Exceptional Events Rule has been publicly posted by the EPA here: <https://www.epa.gov/air-quality-analysis/example-demonstrations-and-epa-responses-prepared-under-2016-exceptional>

Document Request

We seek copies of the following records submitted to and prepared by the EPA Regional Office between September 30, 2016, through February 15, 2023:

1. All initial notification packages created by state, local, or tribal agencies now held by the EPA Regional Office. By this language, we intend to include emails or any other records of communication containing, for example, the potential date of event, relevant criteria pollutant, location, and potential regulatory decision affected (such as designation, classification, attainment determination, attainment date extension, or finding of SIP inadequacy leading to SIP call). An example of an Initial Notification Summary for PM2.5 from EPA Region 9 has been attached to this request.
2. Any acknowledgement or response from EPA to initial notifications or notification packages, as described in 40 C.F.R. 50.14 (Table 2).
3. All submissions of demonstrations of exceptional events related to criteria pollutants, as submitted by state, local, or federal authorities.
4. All subsequent responses and decisions communicated by the EPA, including approvals, denials or requests for more information, as described in 40 C.F.R. 50.14.

We request that all of these records be produced in their native electronic formats with any attached metadata included, so long as such electronic files can be opened using standard commercially available software. If the files cannot be produced in this manner, we request that records be produced in an alternative electronic format that is text-searchable. 5 U.S.C. § 552(a)(3)(B)

Fee Waiver Request

A waiver of search and review fees is appropriate here because disclosure of the requested information is in the public interest under 5 U.S.C. § 552(a)(4)(A)(iii) and 45 C.F.R. § 5.54(a), (b)(1)-(2), and because the request is not primarily in the Brown Institute, MuckRock, or California Newsroom's commercial interest, 45 C.F.R. §§ 5.45(a), (b)(3)(ii).

Disclosure Is in the Public Interest

Disclosure of the requested information is likely to contribute significantly to the public understanding of the regulation of air pollution, which is harmful to human health. 45 C.F.R. § 5.54(b)(1). In particular, the requested information will shed light on exceptional events, a mechanism used by regulators to account for and exclude air pollution, information which is not "already in the public domain." 45 C.F.R. § 5.54(b)(2)(i). As a nonprofit organization assisting other news media organizations on coverage of federal government policy, we have demonstrated our "ability and intention to effectively convey information to the public." 45 C.F.R. § 5.54(b)(2)(ii).

Limitation of Fees

We are also entitled to a limitation of fees because we are a member of the news media. 45 C.F.R. § 5.53(b); 5 U.S.C. § 552(a)(4)(A)(ii)(II). Accordingly, even if our application for a waiver of all fees is denied, we are entitled to a limitation of fees. As a news media requester, we are "entitled to search time, review time, and up to 100 pages of duplication" and can be charged only duplication fees after the first 100 pages or its cost equivalent. 45 C.F.R. § 5.53(b). We request that the information be provided in its native electronic format, and thus there should be no duplication fees.

2023-R09-02468	Bergin, Dillon	-	<p>This is an expedited request by the Brown Institute for Media Innovation, MuckRock, and the California Newsroom ("Brown Institute," "MuckRock," and "California Newsroom") under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, for all submitted, denied and confirmed exceptional events related to criteria pollutants. A partial list of Example Submissions, Demonstrations and EPA responses prepared under the 2016 Exceptional Events Rule has been publicly posted by the EPA here: https://www.epa.gov/air-quality-analysis/example-demonstrations-and-epa-responses-prepared-under-2016-exceptional</p> <p>Document Request</p> <p>We seek copies of the following records submitted to and prepared by the EPA Regional Office between September 30, 2016, through February 15, 2023:</p> <ol style="list-style-type: none"> 1. All initial notification packages created by state, local, or tribal agencies now held by the EPA Regional Office. By this language, we intend to include emails or any other records of communication containing, for example, the potential date of event, relevant criteria pollutant, location, and potential regulatory decision affected (such as designation, classification, attainment determination, attainment date extension, or finding of SIP inadequacy leading to SIP call). An example of an Initial Notification Summary for PM2.5 from EPA Region 9 has been attached to this request. 2. Any acknowledgement or response from EPA to initial notifications or notification packages, as described in 40 C.F.R. 50.14 (Table 2). 3. All submissions of demonstrations of exceptional events related to criteria pollutants, as submitted by state, local, or federal authorities. 4. All subsequent responses and decisions communicated by the EPA, including approvals, denials or requests for more information, as described in 40 C.F.R. 50.14. <p>We request that all of these records be produced in their native electronic formats with any attached metadata included, so long as such electronic files can be opened using standard commercially available software. If the files cannot be produced in this manner, we request that records be produced in an alternative electronic format that is text-searchable. 5 U.S.C. § 552(a)(3)(B)</p> <p>Fee Waiver Request</p> <p>A waiver of search and review fees is appropriate here because disclosure of the requested information is in the public interest under 5 U.S.C. § 552(a)(4)(A)(iii) and 45 C.F.R. § 5.54(a), (b)(1)-(2), and because the request is not primarily in the Brown Institute, MuckRock, or California Newsroom's commercial interest, 45 C.F.R. §§ 5.45(a), (b)(3)(ii).</p> <p>Disclosure Is in the Public Interest</p> <p>Disclosure of the requested information is likely to contribute significantly to the public understanding of the regulation of air pollution, which is harmful to human health. 45 C.F.R. § 5.54(b)(1). In particular, the requested information will shed light on exceptional events, a mechanism used by regulators to account for and exclude air pollution, information which is not "already in the public domain." 45 C.F.R. § 5.54(b)(2)(i). As a nonprofit organization assisting other news media organizations on coverage of federal government policy, we have demonstrated our "ability and intention to effectively convey information to the public." 45 C.F.R. § 5.54(b)(2)(ii).</p> <p>Limitation of Fees</p> <p>We are also entitled to a limitation of fees because we are a member of the news media. 45 C.F.R. § 5.53(b); 5 U.S.C. § 552(a)(4)(A)(ii)(II). Accordingly, even if our application for a waiver of all fees is denied, we are entitled to a limitation of fees. As a news media requester, we are "entitled to search time, review time, and up to 100 pages of duplication" and can be charged only duplication fees after the first 100 pages or its cost equivalent. 45 C.F.R. § 5.53(b). We request that the information be provided in its native electronic format, and thus there should be no duplication fees.</p>	02/21/2023
2023-R08-02485	Elwood, Francis	-	<p>I am seeking historical data on the use of herbicides containing paraquat for agriculture in the state of North Dakota for the time period 1980-1986. I am also seeking the same historical information on the use of herbicides containing paraquat for the time periods 1980-1991 on Minot AFB, North Dakota to control vegetation.</p> <p>I contacted the North Dakota Department of Agriculture with this same request and that agency has informed me that those records do not exist, while the USDA has me working with their National Library system to obtain the same information. AS the pesticide certification and training program in the state of North Dakota is operated partially by funding from the EPA I am seeking the information directly from EPA if possible.</p> <p>I have also submitted the same FOIA request to the USAF concerning herbicides with paraquat used on Minot AFB, North Dakota and to maintain the vegetation on the individual minuteman missile sites.</p>	02/21/2023

2023-OCSP-02531	Riccardi, Megan	SRC, Inc.	<p>SRC would like to request copies of the attached 18 MRID reports and associated Data Evaluation Records or Reports (DERs) for acrolein. We need the original MRID studies AND the associated DERs (both are required for our purposes). Please note, I was unable to find DERs for any of these studies online. This request is for work on behalf of the Agency for Toxic Substances and Disease Registry (ATSDR). The project contact at ATSDR is Henry Abadin, phone: (b) (6), e-mail: Hga0@cdc.gov. Please find attached affirmations for non-multinational status. If anyone else needs to see the document we will send additional non-multinational status affirmations as needed to Mr. Earl Ingram (Ingram.Earl@epa.gov). Please contact me with any questions. Thank you.</p>	02/21/2023

2023-R08-02526	Doe, Phil	Cultivando	II. Custodians A. Michael Regan, Administrator of the Environmental Protection Agency Dear Regional Administrator Becker: Under the Freedom of Information Act (5 U.S.C. Section 552), we are requesting certain documents about EPA's air quality monitoring near the Suncor Refinery in Commerce City, Colorado. As a representative of the non-profit Cultivando organization, I hereby request the data and subsequent report developed by EPA Region 8 using the Geospatial Mapping Van that was stationed in or around the Commerce City Suncor Refinery during February, 2022. Based on prior communication with Region 8 staff, we understand that: Scott H. Patefield, Branch Manager, Enforcement & Compliance Assurance Division, Air and Toxics Enforcement Branch has a copy of this report. Mr. Patefield indicated the report contains confidential business information submitted by Suncor, so it isn't yet available for release to the public. I request EPA provide the Geospatial Mapping Van data and information obtained during February, 2022, absent any confidential business information as appropriate. We request a copy of the data and the report on computer disk or transmitted to me via email. Cultivando's contractor Boulder A.I.R. has been monitoring toxic air and particulate emissions in Commerce City and North Denver near the refinery. This EPA report is of current interest to the public because of the potential public health damage these air emissions may cause or contribute to in nearby neighborhoods. Our request concerns the operations and activities of EPA Region 8's use of the Geospatial Mapping Van which is capable of assessing area emission source assessments and identification. The information sought has significant informative value and potential for contribution to public understanding. We at Cultivando plan to disseminate some or all of this information to the public at large as part our obligations under the SEP grant provided by CDPHE in 2021 to Cultivando. The release of this information will have an impact on public understanding because it can be compared to Boulder A.I.R.'s air quality monitoring conducted since December 2021 from fixed and mobile sites near the refinery. Please note that 5 U.S.C. Section 552(a)(4)(A)(iv)(II) requires that you provide the first 100 copies to me at no charge.	02/21/2023

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

Any and all records, including reports, memos, alerts, emails, email attachments, investigative documents, intelligence documents, descriptions of chemical compounds, air and water monitoring documents, photos, studies and any other records that relate in any way to the February 3, 2023 train derailment in East Palestine, Ohio and its aftermath. This request seeks records compiled, produced, sent and/or received by EPA officials in EPA regions 3 and 5, including the EPA's on-site coordinators, contractors, as well as all scientists working on the response to the derailment. This request also seeks relevant records compiled, produced, sent and/or received by the regional administrators in EPA regions 3 and 5, as well as all records produced or in the possession of the EPA administrator's office at agency headquarters in Washington D.C. This request seeks records produced since February 1, 2023.

I am a reporter for The Guardian, The Nation and other outlets.

Given the grave urgency of the train derailment, the prominent media coverage of this issue, and the potentially dangerous health consequences for East Palestine residents, I seek expedited processing for this request. I am a reporter who publishes widely in national outlets, and will use any and all documents to produce coverage of this issue for public consumption. You can see my track record of publication here: <https://www.theguardian.com/profile/jimmy-tobias> Also here: www.jimmytobias.com

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

Jimmy Tobias

2023-AO-02611	Ballas, Nick	Republican National Committee	<p>This is a request under the Freedom of Information Act.</p> <p>I am requesting all communications sent or received by Michael Regan during the period of 1/20/21 to present containing any of the following terms: “Michael Bloomberg” “Wyss” “Bill Gates” “John Arnold” “Laurene Powell Jobs” “Dustin Moskovitz” “Tom Steyer” “Chris Hohn” “Klarman” “Reid Hoffman” and/or “John Doerr.”</p> <p>In order to help you determine my status to assess fees, you should know that I am requesting on behalf of the Republican National Committee (RNC) and this information is not primarily in the commercial interest of the RNC.</p> <p>I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is primarily in the public interest and will contribute significantly to the public’s understanding of the operations of your agency.</p> <p>The Department Of Justice recommends that each federal agency employ six factors to determine whether a fee waiver is appropriate in a FOIA request. The first such factor is “whether the subject of the requested records concerns ‘the operations or activities of the government.’” The records requested here go directly to the actions of agency personnel as they operated in their official capacities.</p> <p>The second factor is “whether the disclosure is ‘likely to contribute’ to an understanding of government operations or activities.” Here a primary focus is on the present availability of the information and whether it has previously been released to the public. To the best of the requestor’s knowledge, the information contained in the requested records has never been publicly disclosed nor appeared in news reports. As such, its undisclosed nature makes it very likely to contribute to the understanding of the government operations that it describes.</p> <p>The third factor is “whether the disclosure of the requested information will contribute to ‘public understanding.’” This turns on “whether the requester will disseminate the disclosed records to a reasonably broad audience of persons interested in the subject.” The RNC is in a position to make the information widely available. It has an extensive history of publications on its website, GOP.com, and its members and affiliates regularly interact with and appear on national media outlets. Thus, the RNC not only has the desire to furnish these records to a broad audience, but has a substantial ability to do so.</p> <p>Fourth, an agency is directed to consider “whether disclosure is likely to contribute ‘significantly’ to public understanding of government operations or activities.” In determining the significance of the contribution, an important element is media attention and public interest in the material. Widespread media attention of an issue greatly increases the likelihood that additional information would significantly contribute to the public’s understanding of the government operation or activity in question. As previously noted, the RNC is well positioned to bring media attention to an issue and routinely engages with issues of public import that garner substantial press coverage.</p> <p>The fee waiver guidance next looks at the question of “whether the requester has a commercial interest that would be furthered by the requested disclosure.” The RNC is not a corporation or business that exists to pursue profits or actively participate in the commercial sphere. There is no readily identifiable commercial interest of the RNC to which this information pertains.</p> <p>Should your agency determine, however, that some commercial interest exists, it would then have to turn to the final factor: “whether the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the public interest in disclosure, that disclosure is ‘primarily in the commercial interest of the requester.’” Giv</p>	02/23/2023

2023-NFO-02635	Hargreaves, Emily	Molen & Associates	<p>I'm looking for information about a former CERCLIS/Superfund site. There seem to be several address associated with it: 650 Depew Street, 700 Depew Street, 5500 W 6th Avenue all in Lakewood, CO. It's a former wastewater treatment plant that was found to have PCE contamination. The most recent document available in the CDPHE website is a Focused Site Inspection in February 1999. I'm doing a Phase I ESA on the immediately upgradient property and need to know if more investigations and/or remediation was performed.</p>	02/24/2023

2023-NFO-02623	Irvine, Edward	self	This is my official request for a FOIA (Freedom of Information Act) on the following property: Torenden Farm 24426 Loring Road, Lawrence, Kansas 66044 Legal Description: Southwest 1/4 section 12-T12S-R20E in Leavenworth County, Kansas.	02/24/2023

Information Date: From January 1, 1982 to the present February 24, 2023 for all communications, phone calls, emails, letters and/or any other communications your office has on this property. If you have any questions, please let me know. This farm has been sending animal waste down the Leavenworth County Road ditch and then Kent Creek which then drains into the Kansas River since 1982. Nothing has ever been done to stop this pollution.

Sincerely,
Ed Irvine

2023-OW-02667	Anchondo, Carlos	E&E News/POLITICO	<p>To Whom It May Concern:</p> <p>This is a request under the Freedom of Information Act (FOIA).</p> <p>I request a copy of any memorandum at the EPA that detail how the EPA is spending \$25 million from the bipartisan infrastructure law to support carbon sequestration programs, including Class VI programs, at EPA. EPA describes that \$25 million in an agency factsheet titled: "Bipartisan Infrastructure Law:A Historic Investment in Water."</p> <p>The time window for my request is between February 27, 2022, and February 27, 2023.</p> <p>I am filing this FOIA request as a "representative of the news media" since I am a reporter for E&E News. This designation entitles me to a waiver of fees accumulated during the actual search and review process.</p> <p>Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25. This request is made as part of news-gathering activity and is not for commercial use.</p> <p>The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net, which has more than 40,000 unique visitors a day.</p> <p>We expect the information that is produced through this and other FOIA requests to serve as the basis for several articles that explain the government's actions and operations to the public. For more information about E&E News, please refer to www.eenews.net.</p> <p>FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.</p> <p>If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.</p> <p>As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.</p> <p>If you have any questions about the nature or scope of this request, please call me at (b) (6) or email me at canchondo@eenews.net.</p> <p>Thank you for your consideration of this request.</p>	02/27/2023

2023-R05-02661	Williams, Dillon	-	<p>A copy of all emails, including all attachments dated between February 23, 2023 and February 25, 2023 sent To, CC'd, BCC'd or From Edward Nam containing the non-case sensitive keyword "Palestine" in part or in full in the subject line or body.□</p> <p>Please be sure to check to make sure that any emails that may contain attachments, that they are included, as oftentimes I will get responses back from agencies with some or all attachments missing. Also, please note that I would like all attachments to the emails, regardless if they contain the non-case sensitive keyword "Palestine" in them or not, only the subject line or body of the email need contain the non-case sensitive keyword "Palestine". In the past, I did have an agency not provide all attachments, as they misinterpreted my FOIA request, and thought I only wanted attachments if they too contained the particular non-case sensitive keyword I had requested which was in either the subject line or body of the email.</p>	02/27/2023

2023-AO-02706	Anchondo, Carlos	E&E News/POLITICO	<p>This is a request under the Freedom of Information Act (FOIA). I request a copy of all written communications, including but not limited to emails and letters, between EPA Administrator Michael Regan -- and any EPA official or staff -- and officials/staff at the Texas Railroad Commission, including Leslie Savage, in relation to the state of Texas' pre-application for Class VI primacy. The time window for my request is between September 1, 2022, and February 28, 2023. Emails for the Texas Railroad Commission, also called the Railroad Commission of Texas, end in @rrc.texas.gov.</p> <p>I am filing this FOIA request as a “representative of the news media” since I am a reporter for E&E News. This designation entitles me to a waiver of fees accumulated during the actual search and review process. Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25. This request is made as part of news-gathering activity and is not for commercial use.</p> <p>The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net, which has more than 40,000 unique visitors a day. We expect the information that is produced through this and other FOIA requests to serve as the basis for several articles that explain the government's actions and operations to the public.</p> <p>For more information about E&E News, please refer to www.eenews.net. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. If you have any questions about the nature or scope of this request, please call me at (b) (6) or email me at canchondo@eenews.net. Thank you for your consideration of this request.</p> <p>Sincerely, Carlos Anchondo Energywire E&E News (b) (6)</p>	02/28/2023

This is an expedited request by the Brown Institute for Media Innovation, MuckRock, and the California Newsroom ("Brown Institute," "MuckRock," and "California Newsroom") under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, for all submitted, denied and confirmed exceptional events related to criteria pollutants. A partial list of Example Submissions, Demonstrations and EPA responses prepared under the 2016 Exceptional Events Rule has been publicly posted by the EPA here: <https://www.epa.gov/air-quality-analysis/example-demonstrations-and-epa-responses-prepared-under-2016-exceptional>

Document Request

We seek copies of the following records submitted to and prepared by the EPA Regional Office between September 30, 2016, through February 15, 2023:

1. All initial notification packages created by state, local, or tribal agencies now held by the EPA Regional Office. By this language, we intend to include emails or any other records of communication containing, for example, the potential date of event, relevant criteria pollutant, location, and potential regulatory decision affected (such as designation, classification, attainment determination, attainment date extension, or finding of SIP inadequacy leading to SIP call). An example of an Initial Notification Summary for PM2.5 from EPA Region 9 has been attached to this request.
2. Any acknowledgement or response from EPA to initial notifications or notification packages, as described in 40 C.F.R. 50.14 (Table 2).
3. All submissions of demonstrations of exceptional events related to criteria pollutants, as submitted by state, local, or federal authorities.
4. All subsequent responses and decisions communicated by the EPA, including approvals, denials or requests for more information, as described in 40 C.F.R. 50.14.

We request that all of these records be produced in their native electronic formats with any attached metadata included, so long as such electronic files can be opened using standard commercially available software. If the files cannot be produced in this manner, we request that records be produced in an alternative electronic format that is text-searchable. 5 U.S.C. § 552(a)(3)(B)

Fee Waiver Request

A waiver of search and review fees is appropriate here because disclosure of the requested information is in the public interest under 5 U.S.C. § 552(a)(4)(A)(iii) and 45 C.F.R. § 5.54(a), (b)(1)-(2), and because the request is not primarily in the Brown Institute, MuckRock, or California Newsroom's commercial interest, 45 C.F.R. §§ 5.45(a), (b)(3)(ii).

Disclosure Is in the Public Interest

Disclosure of the requested information is likely to contribute significantly to the public understanding of the regulation of air pollution, which is harmful to human health. 45 C.F.R. § 5.54(b)(1). In particular, the requested information will shed light on exceptional events, a mechanism used by regulators to account for and exclude air pollution, information which is not "already in the public domain." 45 C.F.R. § 5.54(b)(2)(i). As a nonprofit organization assisting other news media organizations on coverage of federal government policy, we have demonstrated our "ability and intention to effectively convey information to the public." 45 C.F.R. § 5.54(b)(2)(ii).

Limitation of Fees

We are also entitled to a limitation of fees because we are a member of the news media. 45 C.F.R. § 5.53(b); 5 U.S.C. § 552(a)(4)(A)(ii)(II). Accordingly, even if our application for a waiver of all fees is denied, we are entitled to a limitation of fees. As a news media requester, we are "entitled to search time, review time, and up to 100 pages of duplication" and can be charged only duplication fees after the first 100 pages or its cost equivalent. 45 C.F.R. § 5.53(b). We request that the information be provided in its native electronic format, and thus there should be no duplication fees.

This is an expedited request by the Brown Institute for Media Innovation, MuckRock, and the California Newsroom ("Brown Institute," "MuckRock," and "California Newsroom") under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, for all submitted, denied and confirmed exceptional events related to criteria pollutants. A partial list of Example Submissions, Demonstrations and EPA responses prepared under the 2016 Exceptional Events Rule has been publicly posted by the EPA here: <https://www.epa.gov/air-quality-analysis/example-demonstrations-and-epa-responses-prepared-under-2016-exceptional>

Document Request

We seek copies of the following records submitted to and prepared by the EPA Regional Office between September 30, 2016, through February 15, 2023:

1. All initial notification packages created by state, local, or tribal agencies now held by the EPA Regional Office. By this language, we intend to include emails or any other records of communication containing, for example, the potential date of event, relevant criteria pollutant, location, and potential regulatory decision affected (such as designation, classification, attainment determination, attainment date extension, or finding of SIP inadequacy leading to SIP call). An example of an Initial Notification Summary for PM2.5 from EPA Region 9 has been attached to this request.
2. Any acknowledgement or response from EPA to initial notifications or notification packages, as described in 40 C.F.R. 50.14 (Table 2).
3. All submissions of demonstrations of exceptional events related to criteria pollutants, as submitted by state, local, or federal authorities.

2023-R09-02743	Gjovik, Ashley	-	Hello, I am looking for any documents in EPA possession about the plant at 3250 Scott Blvd in Santa Clara California. Facility is Apple's "Scott 1" (aka Synergy Semiconductor, aka Micrel Synergy Semiconductor, aka Intersil). Environmental Interests include Chemical Storage Facility, Hazardous Waste Onsite Treatment; Above Ground Petroleum Storage Tank; Hazardous Chemical Management; Hazardous Waste Generator; RCRA LQ HW Generator. Envirostor ID: 71003503. EPA ID: CAR000278176. FRS: 10001168254. EPA TRI: 9505WSBXXX325SC/95051NTRSL3250S. RCRAInfo: CAR000278176. Date range is January 1 2015 through February 28 2023. Apple was the operator starting in 2015 through current & appears to be using the site for semiconductor manufacturing directly next to a large residential apartment complex (where I got very ill in 2020). I believe Apple knew they were the ones who made me sick when they started retaliating against me about my Superfund office in 2021. I'm interested in reports, filings, violations, warning, notifications, and correspondence (internal or external). I do not need financials or any reports that simply list the site with a number of other sites as a general report. Thank you.	03/01/2023

2023-OAR-02800	Bogardus, Kevin	E&E News	<p>I request the report described in the following excerpt from House Report 117-400:</p> <p>"Renewable Fuel Standard.—The Committee is aware of a strong interest from stakeholders to generate Renewable Fuels Standard credits from renewable electricity. The Committee understands that the Agency is planning to propose revisions to the existing reg-ulations related to eRINs as part of a future rulemaking action. The Committee urges the Agency to undertake this rulemaking in a timely manner, including processing all pending pathway peti-tions, to provide transparency and clarity for all stakeholders and directs the Agency to brief the Committee on its progress within 180 days of enactment of this Act. The Committee notes that the process for renewable fuel path-ways continues to suffer from significant delays and inefficiencies, creating uncertainty for biofuel producers. The Committee directs the Agency to provide a report, within 60 days of enactment of this Act, outlining recommendations on how to streamline and expedite the pathway petition and approval process and implement these changes. The Agency is encouraged to work expeditiously to review renew-able identification number credits for renewable fuels used to pro-vide electricity for electric vehicle charging and on feedstock for co-digestion facilities."</p> <p>Please see page 85 of House Report 117-400 (https://www.congress.gov/117/crpt/hrpt400/CRPT-117hrpt400.pdf).</p> <p>I also note the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, which requires House Report 117-400 be complied with.</p> <p>Please see page 1 of the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328, for more detail on this requirement (https://www.appropriations.senate.gov/imo/media/doc/Division%20G%20-%20Interior%20Statement%20FY23.pdf).</p> <p>Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.</p>	03/02/2023
2023-OAR-02803	Bogardus, Kevin	E&E News	<p>I request the briefing described in the following excerpt from the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328:</p> <p>"Clean Air.-The Committees recognize the value of and continue to support the EnergyST AR program and other programs where EPA works collaboratively with non-governmental entities to identify beneficial methods to reduce emissions, reduce pollution, or increase efficiency. The agreement provides up to \$3,000,000 for the Agency to study and prototype capabilities for a greenhouse gas monitoring and information system that will integrate data from a variety of sources. The goal of such a system should be to make data more accessible and usable to Federal, State, Tribal, and local governments, researchers, the public, and other users. The Committees encourage the Agency to work with current and new partners to utilize commercial assets to monitor emissions. The Committees commend the Agency for its efforts through the AirNow Fire and Smoke Map to better forecast and communicate the impact of wildfire smoke on communities. The Committees are concerned that air quality monitors are not currently distributed equitably across impacted communities. The Committees encourage the Agency to expand its support for wildfire smoke monitoring, including improving instrumentation, technical assistance, and outreach, using the resources provided in this bill with a focus on traditionally underserved or under-monitored communities. The bill includes an increase of \$3,000,000 in accordance with the request for wildfire smoke-related activities. The agreement provides a \$1,000,000 increase to the fiscal year enacted level for the Agency's wood stove certification and testing standards work. The Agency is directed to use the additional \$1,000,000 to increase its staffing and other required efforts to support the wood stove certification and testing program. The Agency is further directed to brief the Committees within 60 days of enactment of this Act on improvements the Agency plans to make to the program and how it will better communicate with State and local stakeholders."</p> <p>Please see page 50 of the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2023, Public Law No: 117-328 (https://www.appropriations.senate.gov/imo/media/doc/Division%20G%20-%20Interior%20Statement%20FY23.pdf).</p> <p>Please consider any final briefing materials accompanying this report for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.</p>	03/02/2023

Of the funds provided under this program area, \$9,000,000 is for implementation of a federal permit program for coal combustion residuals in non-participating states, as authorized under section 4005(d)(2)(B) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)(2)(B)), or to provide technical assistance to states establishing their own permitting program under section 4005(d) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)). As soon as practicable, the Committee encourages the Agency to adopt final regulations for the implementation of a federal permit program in non-participating States. The Committee notes the potential need for dependable bio-based and United States-grown plastic alternatives. Within 180 days of enactment of this Act, the Committee directs the Agency to provide a briefing on efforts to explore alternatives, such as United States-based hemp, and how such alternatives may be used as a cost-efficient alternative in government-produced or funded materials. Further, given potential concerns related to electric reliability, the Committee encourages the Agency to provide a status update within 60 days of enactment of this Act on Agency actions to co-ordinate with state regulators and Regional Transmission Organizations to consider extensions under 85 Fed. To Whom it May Concern,

This is a request under the Freedom of Information Act (FOIA).

I request a copy of all written communications, including but not limited to emails and letters, between Scott Hans (scott.a.hans@usace.army.mil) and the following EPA officials/staff -- Christine Mazzarella (mazzarella.christine@epa.gov) and Jeffrey Lapp (lapp.jeffrey@epa.gov) -- that discuss a Section 404 permit for the Mountain Valley pipeline project. The time window for my request is between January 3, 2023, and March 3, 2023.

I request a copy of all written communications, including but not limited to emails and letters, between Michael Hatten (michael.e.hatten@usace.army.mil) and the following EPA officials/staff -- Christine Mazzarella (mazzarella.christine@epa.gov) and Jeffrey Lapp (lapp.jeffrey@epa.gov) -- that discuss a Section 404 permit for the Mountain Valley pipeline project. The time window for my request is between January 3, 2023, and March 3, 2023.

I request a copy of all written communications, including but not limited to emails and letters, between Tom Walker, Chief, Regulatory Branch, Norfolk District, U.S. Army Corps of Engineers, and the following EPA officials/staff -- Christine Mazzarella (mazzarella.christine@epa.gov) and Jeffrey Lapp (lapp.jeffrey@epa.gov) -- that discuss a Section 404 permit for the Mountain Valley pipeline project. The time window for my request is between January 3, 2023, and March 3, 2023.

I am filing this FOIA request as a "representative of the news media" since I am a reporter for E&E News. This designation entitles me to a waiver of fees accumulated during the actual search and review process. Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25.

This request is made as part of news-gathering activity and is not for commercial use.

An agency shall withhold information only if "the agency reasonably foresees that disclosure would harm an interest protected by an exemption" or "disclosure is prohibited by law." 5 U.S.C. § 552(a)(8)(A)(i). We therefore request that if the EPA determines that an exemption applies that it also provide specific reasons why disclosure would harm any interest protected by such exemption. An agency shall also "consider whether partial disclosure of information is possible whenever the agency determines that a full disclosure of a requested record is not possible" and "take reasonable steps necessary to segregate and release nonexempt information." This is an expedited request by the Brown Institute for Media Innovation, MuckRock, and the California Newsroom ("Brown Institute," "MuckRock," and "California Newsroom") under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, for all submitted, denied and confirmed exceptional events related to criteria pollutants. A partial list of Example Submissions, Demonstrations and EPA responses prepared under the 2016 Exceptional Events Rule has been publicly posted by the EPA here: <https://www.epa.gov/air-quality-analysis/example-demonstrations-and-epa-responses-prepared-under-2016-exceptional>

Document Request

We seek copies of the following records submitted to and prepared by the EPA Regional Office between September 30, 2016, through February 15, 2023:

1. All initial notification packages created by state, local, or tribal agencies now held by the EPA Regional Office. By this language, we intend to include emails or any other records of communication containing, for example, the potential date of event, relevant criteria pollutant, location, and potential regulatory decision affected (such as designation, classification, attainment determination, attainment date extension, or finding of SIP inadequacy leading to SIP call). An example of an Initial Notification Summary for PM2.5 from EPA Region 9 has been attached to this request.
2. Any acknowledgement or response from EPA to initial notifications or notification packages, as described in 40 C.F.R. 50.14 (Table 2).
3. All submissions of demonstrations of exceptional events related to criteria pollutants, as submitted by state, local, or federal authorities.
4. All subsequent responses and decisions communicated by the EPA, including approvals, denials or requests for more information, as described in 40 C.F.R. 50.14.

We request that all of these records be produced in their native electronic formats with any attached metadata included, so long as such electronic files can be opened using standard commercially available software. If the files cannot be produced in this manner, we request that records be produced in an alternative electronic format that is text-searchable. 5 U.S.C. § 552(a)(3)(B)

Fee Waiver Request

A waiver of search and review fees is appropriate here because disclosure of the requested information is in the public interest under 5 U.S.C. § 552(a)(4)(A)(iii) and 45 C.F.R. § 5.54(a), (b)(1)-(2), and because the request is not primarily in the Brown Institute, MuckRock, or California Newsroom's commercial interest, 45 C.F.R. §§ 5.45(a), (b)(3)(ii).

Disclosure Is in the Public Interest

Disclosure of the requested information is likely to contribute significantly to the public understanding of the regulation of air pollution, which is harmful to human health. 45 C.F.R. § 5.54(b)(1). In particular, the requested information will shed light on exceptional events, a mechanism used by regulators to account for and exclude air pollution, information which is not "already in the public domain." 45 C.F.R. § 5.54(b)(2)(i). As a nonprofit organization assisting other news media organizations on coverage of federal government policy, we have demonstrated our "ability and intention to effectively convey information to the public." 45 C.F.R. § 5.54(b)(2)(ii).

Limitation of Fees

We are also entitled to a limitation of fees because we are a member of the news media. 45 C.F.R. § 5.53(b); 5 U.S.C. § 552(a)(4)(A)(ii)(II). Accordingly, even if our application for a waiver of all fees is denied, we are entitled to a limitation of fees. As a news media requester, we are "entitled to search time, review time, and up to 100 pages of duplication" and can be charged only duplication fees after the first 100 pages or its cost equivalent. 45 C.F.R. § 5.53(b). We request that the information be provided in its native electronic format, and thus there should be no duplication fees.

2023-R04-02856	Rummage, Warren	-	<p>I am requesting that all fees be waived. I am a student at the University of Kentucky. I am also a life-long Kentuckian who is concerned about a recent land-use project that has the potential to disrupt the environment in Glendale, KY and beyond. Below is a description of my request.</p> <p>I am reaching out after reading the Department of Energy's (DOE) Environmental Assessment (EA) and associated Appendices for the BlueOval SK Battery Park being constructed in Glendale, KY. The DOE EA Appendix, on page 56 and 57, explicitly states: "Comment 1: The United States Environmental Protection Agency (USEPA) responded to the [ACOE] public notice in an email dated March 4, 2022. The USEPA requested a copy of the 404 application, alternatives analysis, and avoidance and minimization measures. In addition, the USEPA requested a secondary and cumulative effects analysis including the reasonably foreseeable operational impacts from lithium battery manufacturing and proposed pretreatment program for discharge of process water."</p> <p>"Applicant's Response: The applicant responded to the USEPA's comments on March 16, 2022 and the requested information was provided to the USEPA on March 17, 2022 and March 24, 2022. The USEPA responded in an email on March 29, 2022 that they had no additional comments and that they do not foresee water quality effects in a neighboring jurisdiction from the regulated activity."</p> <p>I am requesting access to the documents and/or information that the EPA was provided. I have been waiting for more than forty days for the Army Corps of Engineers (ACOE) of Louisville to process my FOIA request for two documents: the ACOE permit granted to Ford Land to build their BlueOval SK Battery Park and the ACOE Environmental Assessment (EA) that is heavily referenced in the DOE EA. Please see the links provided below for additional details:</p> <p>-ACOE Public Notice: https://www.lrl.usace.army.mil/Portals/64/docs/Regulatory/Public%20Notices/LRL-2021-443%20Public%20Notice.pdf?ver=CbDNf_sxA6pIOY5j_PdZOA%3D%3D -DOE EA: https://www.energy.gov/sites/default/files/2022-12/DOE-LPO_BlueOval_SK_EA_and_DRAFT_FONSI.pdf -DOE EA Appendices: https://www.energy.gov/sites/default/files/2022-12/DOE-LPO_BOSK_EA_Appendices.pdf</p>	03/06/2023
