VOLUNTEERS OF AMERICA IS ABOUT FREEDOM FROM ADDICTION

**“THIS IS ONE OF THE
NICEST PLACES
I’VE EVER LIVED.”**

We hear those words regularly from moms who’ve graduated from Freedom House. We have three facilities providing residential and out-patient care, and they are designed by a brilliant artist who believes in making every room - from bedrooms to living rooms to nurseries to our kitchens - feel like a bright, art-filled welcoming home.

When you are at VOA Recovery, you will work hard to overcome your addiction and open the doors to a new, substance-free world. Our team of professionals will have high expectations for you - goals to meet, skills to learn and challenges to overcome. But you will be supported at every step.

**“They gave me
what no other program
could have given me.
They gave me the tools.”**

**-Theresa Scheitz,
Freedom House graduate**

EVERY DAY

WE HELP MOMS BEAT ADDICTION AND KEEP THEIR FAMILIES TOGETHER

**VOA RECOVERY’S FREEDOM HOUSE IS NOT LIKE
OTHER ADDICTION RECOVERY PROGRAMS.**

We are a warm, welcoming and family-centered program that provides healing to moms and their families. We believe in a personalized approach to addiction recovery. We know that every pregnant or parenting mom who walks through our door is different. So we tailor our programs to meet your needs.

Overcoming your addiction isn’t easy, or simple.

It doesn’t happen overnight.

But with the support of VOA Recovery, it will happen.

You will find that recovery is a full-time job, and your recovery will be managed by a team of therapists and counselors who know what it takes to start a new life - with you and your baby healthy and substance free.
