1. Psyops. Control through fear. Fear mongering. Terrorism.
- 2.
3. This creates a dialect and perspective that the one conducting such activities are the all knowing and end all and be all in a consciousness of meglomania. The god complex of the social structure we have created and it has manipulated itself into its far beyond the sentient consciousness of any artificial intelligence algorithm we could possibly perceive.
- 4.
5. While AI technology is the "dawn of new technology" reality is, it is not. We forget that the first real computers worked as punch cards for the Nazis to catalog the Jewish detainees with. Did you really think that it stopped there? Let me widen your eyes. Bear with me.
- 6.
7. I worked with the Department of Defense and held a contract with Raytheon, for microwave technology while enlisted in the United States Marine Corps. After my graceful exit of the USMC, I entered into the public college system. I literally quit Cisco classes the first day i was enrolled because the teacher held up a BNC network saying this was "groundbreaking technology". To me, it was 20 yrs old.
- 8.
9. So, let's expand that experience on to artificial intelligence. Lets say, hypothetically, that AI is within the college of the public system you know. That would mean, by circumstance, that it is at LEAST 20 year old technology. If not more.
- 10.
11. My point is this. The technologies of today for masses are the technologies of yesterday for the few who designed them. We are the architects and designers of your matrix you live within. And without us, to guide, protect, and put in Failsafe's, you're fucked.
- 12.
13. So, lets apply this subject mass, to another scenario.
- 14.
15. That scenario: Legislative Structure, Human Rights, and Free Will/Freedom.

than the hostile dictators such as Linen, Hitler, Stalin, or Mussolini who controlled entire continents through such measures.

23. So in this charade of existence, where do YOU sit? Are you an enforcer of failed policy or a recipient of it?
